TOTAL		\$9,425,972

At 31 December 2021, the Company had cash on hand of approximately \$3.4M.

Directors' Report

Exploration and Development Activities

During the half year the Company made progress on a number of fronts. Key developments were as follows:

Exploration

During the half-year ended 31 December 2021, the Company completed 28,347m of drilling as part of the >50,000m resource definition and new discovery exploration program across the entire 1,100km² asset portfolio.

Reverse Circulation (RC) drilling commenced at multiple new discovery targets within the Greater Boorara area including Kanowna South (Au), Gretel (Ag-Zn-Ni), Golden Ridge (Au), Perkolilli (Au-Cu), Brindabella (Ag-Zn-Ni), Tramways/Condor (Ag-Zn-PGE) and Balagundi (Au).

Exploration drilling has also commenced at the exciting Yarmany and Lakewood project areas (Figure 1) with both RC and Air Core (AC) rigs testing multiple targets along major geological structures. Field reconnaissance, soil sampling and rock chip sampling have identified significant potential for gold, nickel and pegmatites (lithium) along the Mt Ida Fault and Reptile shear zone at Yarmany with results from the first phase of drilling expected in the current March Quarter.

Follow up and extensional RC drilling was also completed at the Kestrel, Honeyeater, Crake, Coote and Black Flag prospects within the Binduli project area (Figure 1).

Significant delays continue to be experienced at the laboratories with assays taking up to 8 weeks to be processed impacting on follow up drilling plans, resource updates and reserve work. Exploration is typically completed systematically with the results of the previous programs informing the next round of drilling. Results from over 7,000m of drilling remain pending and are expected in the current March Quarter 2022.

The company acquired the Cannon, Glandore and Cowarna project during the half, including the high grade Cannon Underground mine.

In addition, the company executed a Nickel rights option agreement with Metal Hawk Limited (ASX: MHK) at Berehaven with Horizon receiving 1,500,000 shares in MHK as consideration for the option, with a further 3,000,000 MHK shares payable if MHK elect to exercise the option within 18 months.

For details on the drilling programs, we refer you to the announcements released on the ASX and on the Company's website (www.horizonminerals.com.au).

Mine Development

The feasibility study progressed, with updated Mineral Resource Estimates (MRE) released for Penny' Find (HRZ 50%), Crake, Kalpini, Jacques Find - Peyes Farm, and a maiden HRZ MRE for Cannon Underground, the latter project acquired during the half. Horizon's total Resources now stand at:

- 20.73Mt grading 1.72g/t Au for 1,148,840 ounces (with 73% in the Measured and Indicated categories)

Note that Horizon has come to an agreement to acquire the remaining 50% of the Penny's Find project from Labyrinth Resources Limited (ASX: LRL), with completion due in the March 2022 quarter.

During the half-year 31 December 2021, development activities focussed on open pit and underground mine optimisation, design and economic analysis for Ore Reserve generation on core projects including the Boorara, Cannon, Penny's Find, Crake, Jacques Find - Peyes Farm, Kalpini and Rose Hill gold projects. Work completed included geotechnical assessment, confirmatory metallurgical test work, ore and waste characterisation, infrastructure and services studies and progression of environmental and statutory approvals.

Directors' Report

Exploration and Development Activities (continued)

Resource and reserve work is being completed predominantly by independent consultants and will be released to market as they are completed.¹

In addition, a further toll milling campaign was completed during the Quarter treating low-grade stockpiles from the Boorara open pit at the Lakewood processing facility 7km to the west. The 36-day campaign processed 69,711 dry tonnes at a fully reconciled grade of 0.92g/t Au for 1,857 fine ounces at a calculated recovery of 90%.

The campaign generated approximately \$770,000 after all costs under a profit-sharing arrangement with the toll mill owner.

The ore grade reconciled 8% above the mine claimed grade and provided further valuable geological information on grade allocation processes. Gravity recovery was again high at 33% with reagent consumption and throughput rates in line with expectation.

A second toll milling campaign commenced late in the Quarter with final reconciliation results expected in the current March Quarter 2022.

Nimbus Silver-Zinc project

The Nimbus project lies adjacent to the Boorara gold mine (Figures 1 and 13) and was placed on care and maintenance in 2007 after producing 3.6Moz of silver from 318kt of ore processed at a grade of 353g/t Ag. The old plant has since been removed and the area rehabilitated.

The Project hosts a high-grade silver zinc resource of 256kt @ 773g/t Ag and 13% Zn as part of the global Nimbus resource of 12.1Mt @ 52g/t Ag, 0.9% Zn and 0.2g/t Au for a total of 20Moz Ag and 104kt Zn and 78koz Au.²

Extensive metallurgical test work has been completed on Nimbus ore with the Feasibility Study (FS) put on hold in 2016. In light of increasing silver and zinc prices and as announced to the ASX on 11 February 2021, the Company will retain the project and engage an independent technical team to review and update the FS in 2022.

During the Quarter, work continued on the technical aspects of the geology, mineralogy and concentrate options for the deposits with the aim of generating separate silver, zinc and potentially gold concentrates for direct sale. Initial discussions with potential offtake partners have shown significant interest in these concentrates enabling a simplified process flow sheet to be evaluated at significantly reduced capital and operating costs.

Richmond Vanadium Project

In December 2016, the Company executed a binding Heads of Agreement ("HoA") with Richmond Vanadium Technology Pty Ltd (RVT) to form a strategic joint venture (AXF JV) covering the Company's Richmond Vanadium Project (RVP) in Queensland (refer ASX announcement dated 13 December 2016).

As announced to the ASX on 27 October 2020, a positive Pre-Feasibility Study (PFS) was released focussed on the development of the Lilyvale vanadium deposit.

The Study delivered a maiden Ore Reserve for Lilyvale of:

- **459.2Mt grading 0.49% V₂O₅ for 2.25Mt of contained V₂O₅ product**

Directors' Report

Exploration and Development Activities (continued)

Richmond Vanadium Project (continued)

During the period, an update to the Pre-Feasibility Study ("PFS") was released for the development of the Lilyvale vanadium deposit. The PFS was based on an initial 25 year life (25% of Ore Reserve) at Lilyvale demonstrating a financially viable project with the following key metrics:

- Shallow low impact open pit mining producing 101.5Mt of oxide ore at a fully diluted grade of 0.49% V₂O₅ for 19.75Mt of 1.82% V₂O₅ with concentrate production on site
- Refining overall recovery at 86.1% produces 317,500 tonnes of 98% V₂O₅ commercial grade flake with **average annual production of 12,700t V₂O₅**
- Modest up-front capital costs of A\$242.2m (US\$176.8m) and operating cash costs of A\$8.66/lb (US\$6.32/lb) of 98% V₂O₅ flake
- At a spot price of A\$13.15/lb (US\$9.60/lb) V₂O₅, project generates **NPV_{10%} of A\$613.0M (US\$447.5M) with IRR of 38%** and a payback of 3.2 years

During the half-year ended 31 December 2021, RVT commenced work on a Definitive Feasibility Study (DFS) to the next level of study where required in areas such as determining the optimal power supply for the project along with progressing environmental studies and preparing the documents for government permitting and approvals.

Discussions occurred during the half-year with potential offtake partners in conjunction with assessing the way forward in relation to the project, including financing or assessing other options for maximising shareholder benefit from the project.

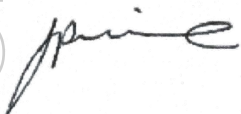

The Company announced on 24 November 2021 its intention to demerge Horizon's 25% interest in the RVP and to merge with RVT and its 75% interest in the project, followed by an in-specie distribution to existing Horizon shareholders and listing ASX.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF HORIZON MINERALS LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Horizon Minerals Limited (the company) and controlled entities (Group), which comprises the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes, and the directors' declaration of the consolidated group comprising the company and the entities it controlled at 31 December 2021, or during the half year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Horizon Minerals Limited is not in accordance with the Corporations Act 2001 including:

- (a) giving a true and fair view of the consolidated group's financial position as at 31 December 2021, and of its financial performance for the half-year ended on that date; and
- (b) complying with the Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Group. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report.

Independence

We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Directors' Responsibility for the Half-Year Financial Report

The directors' of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with the Australian Accounting Standards and the Corporations Regulations 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Group, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated group’s financial position as at 31 December 2021 and its performance for the half year ended on that date, and complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Horizon Minerals Limited and the entities it controlled during the half year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Notes to the Financial Statements

1 Significant Accounting Policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2021 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 134 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to read in conjunction with the annual report for the year ended 30 June 2021 and any public announcements made by the entity during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or Amended Accounting Standards and Interpretations Adopted

The consolidated entity has adopted all new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

2 Basis of Preparation

The Interim Financial Report is a general purpose financial report prepared in accordance with the requirements of the Corporations Act 2001, applicable Accounting Standards including AASB 134 *Interim Financial Reporting* and other mandatory professional reporting requirements. The Interim Financial Report was approved by the Board of Directors on 9 March 2022. The accounting policies applied by the Group in this Interim Financial Report are the same as those applied by the Group in its Annual Report for the year ended 30 June 2021.

It is also recommended that the Interim Financial Report be considered together with any public announcements made by Horizon during the half-year ended 31 December 2021 in accordance with the continuous disclosure obligations arising under the Corporations Act 2001.

New accounting standards and interpretations

In the half-year ended 31 December 2021, the Group has reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2021.

It has been determined that there is no material impact of the new and revised Standards and Interpretations on the financial position or performance of the Group.

The Group has also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2021. The impact on the financial statements is not expected to be material.

11 Share Based Payments

As at 31 December 2021, 3,583,333 Class H performance rights were cancelled.

In August and October, employees were granted 500,000 performance rights.

The performance rights were granted at nil consideration, do not have an exercise price and will lapse if the vesting conditions are not met.

The Performance Rights are issued under the Horizon Minerals Employee Incentive Scheme (EIS) approved by shareholders at the General Meeting held of 29 November 2019. The issue to Directors was approved at the Annual General Meeting on 26 November 2020.

Each Performance Right will, at the election of the holder, vest and convert to one fully paid ordinary share, subject to the satisfaction of certain Performance Conditions.

The terms of the Performance Rights will be as follows:

Class of Performance Rights	Service Condition	Performance condition
Class H Performance Rights	The holder or the holder's representative remains engaged as an employee or Director until the performance condition is satisfied.	(a) Prior to 31 December 2021 the volume weighted average price of the Company's Shares over 20 consecutive Trading Days on which the Shares trade is 20 cents or more; or (b) Prior to 31 December 2021 a Takeover Event occurs.

12 Contingent Liabilities

- (a) Native title claims have been made with respect to areas which include tenements in which Horizon and the controlled entity have interests. The entities are unable to determine the prospects for success or otherwise of the claims and, in any event, whether or not, and to what extent, the claims may significantly affect them or their projects.
- (b) Security bonds are held with respect to tenements held in Northern Territory. Bonds are set by the Department of Primary Industry and Resources, however there is no certainty that such bonds will be adequate to cover any environmental damage. Horizon and its controlled entities are not able to determine the nature or extent of any further liability in view of changing environmental requirements.
- (c) Horizon has been advised of a potential liability arising as a result of the storage of laboratory waste material at the White Range project site and is currently awaiting approval from the NT Environmental Protection Authority to bury the material at White Range. As at the date of this report, the potential liability for the rectification remains unquantifiable.

13 Subsequent Events

- (a) On 24 February 2022, 3,000,000 shares were issued to the company by Metal Hawk Limited as a result of the company exercising its nickel rights option. The shares are subject to escrow until the 28 August 2022.
- (b) On 24 November 2021, the Company executed a Process Deed with Richmond Vanadium Technology Pty Ltd (RVT) which outlines the Company's intention to demerge a 25% interest in the Richmond Vanadium Project in Queensland, and to combine that interest with RVT's 75% interest in the project (restructure), followed by an application to list on the ASX. At the time of reporting the Company had made good progress in the restructure, however, execution of final agreements had not occurred.

There is increasing disruption to normal economic and business activity, as a result of the COVID 19 pandemic announced by the World Health Organisation in March 2020 and the subsequent Federal Government's announcements of protocols that have already been instigated and the potential for others. This creates a level of uncertainty about the future trading outlook for all organisations in Australia and the Company is no exception. It is not possible to reliably assess the potential impacts at the present time.

There are no other matters or circumstances that have arisen since 31 December 2021 that have or may significantly affect the operations, results, or state of affairs of the Group in future financial periods.
