PVW Resources Limited Directors' report 31 December 2021

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group') consisting of PVW Resources Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled at the end of, or during, the half-year ended 31 December 2021.

#### **Review of operations**

The loss for the Group after providing for income tax amounted to \$4,435,759 (30 June 2020: \$352,494).

Operationally throughout the last 6 months the Company has continued to explore the three key regions of Kalgoorlie, Leonora and the Tanami. Exploration for REE in the Tanami has been very positive and the Tanami REE Project has advanced at an exciting pace.

Kalgoorlie region projects have returned positive results from auger and Aircore drilling. Exploration drilling continues testing for gold mineralisation on each of the projects, activities completed during the period include:

- Aircore drilling at the Black Flag Prospect.
- Auger continuing at King of The West (E27/614).
- Maiden Aircore program completed at the Pappy Prospect (E27/571).
- Litho-geochemical sampling of previous explorers drilling on newly acquired tenure.

Gold assays for the King of The West extension auger were returned with positive results extending the main Au anomaly to 4km x 1.5km, while other results are still awaited.

PVW Resource's exploration strategy is to identify and develop concepts into targets that can be tested and validated. As positive results are received from quality, culturally and environmentally responsible exploration programs the projects progress to assessment for economic mineral resources. The REE exploration focus of the Tanami Project is a positive addition to the commodities that are included in the exploration strategy. While the REE focus will continue through future exploration activities gold exploration will progress as results are returned.

The main goal is to identify a significant mineralised system or large deposit. Smaller discoveries will be commercialised where possible, opportunities for divestment, acquisition and organic growth are prioritised as required.

#### Highlights for the Half-year

- Tanami Project rare earth mineralised samples at Killi Killi East located over 1.8km strike length and adjacent to regional unconformity-related rare earth mineralisation along the 18km long Watts Rise-Killi Killi trend.
- Tanami Project high grade rock chip results, assays up to 12.45% TREO with 14 of 20 samples returning assays greater than 1% TREO and heavy rare earths comprising on average 80% of TREO:

#### 12.45% TREO including 11,592ppm dysprosium

9.26% TREO including 7,070ppm dysprosium

7.38% TREO including 6,324ppm dysprosium

3.90% TREO including 2,743ppm dysprosium (located 12km from the Killi Killi East prospect).

- Tanami Project rock chip samples from Killi Killi East also returned gold assays of 8.94 g/t and 4.43 g/t Au.
  - Tanami Project mineralogy study undertaken by Diamantina Laboratories **confirms Heavy Rare Earths** are contained in a **xenotime mineralisation** with a high percentage of **dysprosium and terbium**, used in Permanent Magnets.
  - Independent Metallurgical Operations commenced metallurgical sighter test work on Killi Killi East and Watts Rise samples.
- PVW completed agreements with adjoining tenement holders increasing the prospective Kalgoorlie tenement package by 50% to over 150km².
- Kalgoorlie region, King of The West Auger geochemistry results extended the gold anomaly 2km south, now 4km x 1.5km of +40ppb
   Au open to the south.
- Black Flag Aircore assays returned significant results confirming a bedrock anomaly over 2km of strike. Results include:

3m @ 1.84 g/t Au from 45m

4m @ 1.04 g/t Au from 40m

4m @ 1.20 g/t Au from 60m

7m @ 0.88 g/t Au from 43m including 2m @ 1.78g/t Au, from 43m

• Leonora region Jungle Well Resource drilling continued to return very positive results including:

11m @ 1.89 g/t Au from 86m including 2m @ 7.73 g/t Au from 87m 2m @ 5.44 g/t Au from 74m including 1m @ 10.1g/t Au from 75m 6m @ 1.69 g/t Au from 86m including 2m @ 4.75 g/t Au from 90m

- Leonora region Brilliant Well RC drilling and Aircore drilling continued during the period with results awaited.
- The **West Yilgarn Ni-Cu-PGE province Ballinue Project** was advanced with reprocessing of available geophysical surveys and ongoing interpretation. Interpretation of the Narryer Gneiss complex and Murchison Domain are key to targeting for future exploration activities when these tenements are granted.

#### **Health and Safety**

The focus on health and safety continued during the period which has been incident free.

The Company has continued operating with COVID-19 protocols in place. No cases of COVID-19 have been reported on any Company sites or in any Company facilities.

On 5<sup>th</sup> October 2021, the Western Australian government announced that WA's fly-in fly-out ("FIFO") workforce will be required to be fully vaccinated to assist in safeguarding the industry and regional communities against potential outbreaks of COVID-19.

FIFO and local workers on WA mining and resource sites, and people who work in remote operations, must have received their first dose of the COVID-19 vaccine by 12:01am 1st December 2021, and be fully vaccinated by 1st January 2022. The company has implemented a Covid Management Plan in relation to the requirements and continues to manage the situation as directed by regulators and health officials.

#### **Environmental Studies**

The completion and submission of the Jungle Well Annual Environmental Report (AER) and Mine Closure Plan (MCP) were achieved, meeting the reporting requirements of M37/135. Ongoing environmental studies and monitoring will be required for future AER and MCP's.

#### Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the financial half-year.

#### Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this Directors' report.

This report is made in accordance with a resolution of Directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the Directors

#### Note 1. General information

The financial statements cover PVW Resources Limited as a Group consisting of PVW Resources Limited and the entities it controlled at the end of, or during, the half-year. The financial statements are presented in Australian dollars, which is PVW Resources Limited's functional and presentation currency.

PVW Resources Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Level 3, 1138 Hay Street, West Perth, WA 6005

A description of the nature of the Group's operations and its principal activities are included in the Directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of Directors, on 11 March 2022.

## Note 2. Significant accounting policies

These general purpose financial statements for the interim half-year reporting period ended 31 December 2021 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2021 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The principal accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the policies stated below.

#### Reverse acquisition

On 3 February 2021, PVW Resources Limited (formerly Thred Limited), the legal parent and legal acquirer, completed the acquisition of PVW Resources NL and its controlled entities ("PVW NL Group"). Under the Australian Accounting Standards, PVW NL Group was deemed to be the accounting acquirer in this transaction. This acquisition did not meet the definition of a business combination under AASB 3 Business Combinations and instead, has been accounted for as a share-based payment under the principles of AASB 2 Share-Based Payments by which PVW NL Group acquires the net assets and listing status of PVW Resources Limited.

Accordingly, the financial statements have been prepared as a continuation of the business and operations of PVW NL Group. As the deemed acquirer, PVW NL Group has accounted for the acquisition of PVW Resources Ltd from 15 February 2021. The comparative information for the period ended 31 December 2021 is that of PVW NL Group.

## New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

#### Going concern

The Group has a history of incurring trading losses and net cash outflows from operating activities. For the half-year ended 31 December 2021, the Group incurred a loss of \$4,435,759 (31 December 2020: \$352,494) and cash outflows from operating activities of \$2,509,305 (31 December 2020: \$236,473). The business has been funded as required via capital raising activities. During the prior financial year, the entity completed a share placement and raised \$4.2 million (net of capital raising costs) as part of the acquisition of PVW NL Group

The Directors have prepared a cashflow forecast which indicates that the Company need to raise additional capital to meet all commitments and workings capital requirements for the period 12 months from the date of signing this report. The ability of the Group to continue as a going concern is dependent on:

- The ability of the Group to raise capital from equity markets as required; and
- Containing cash outflows based on working capital requirements.

## Note 2. Significant accounting policies (continued)

The above conditions represent a material uncertainty that may cast significant doubt about the ability of the Group to continue as a going concern. Should the Group be unable to continue as a going concern it may be required to realise its assets and extinguish its liabilities other than in the normal course of business and at amounts different to those stated in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or to the amount and classification of liabilities that might result should the Group be unable to continue as a going concern and meet its debts as and when they fall due.

The Directors have assessed the Group's ability to continue as a going concern and have not identified any significant risks.

#### Note 3. Operating segments

Identification of reportable operating segments

The Group operates only in one business and geographical segment being predominantly in the area of mineral exploration and exploitation in Western Australia. The Group considers its business operations in mineral exploration and exploitation to be its primary reporting function.

These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

## Performance Rights

During the half year ended 31 December 2021, the Company has issued 850,000 of Performance Rights Tranche A and 850,000 Performance Rights Tranche B as consideration for the acquisition of Stark Resources Pty Ltd (See note 14 for further details). The performance rights will vest and convertible into shares on the achievement of the following vesting conditions:

#### Tranche A rights vesting on:

- i. the completion of 3,000m of drilling on the mining tenements; and
- ii. the 20-day VWAP of the Company's shares exceeding \$0.25 prior to the expiry date.

#### Franche B rights vesting on:

i. the mining tenements having a minimum of 3 significant drilling intersections of at least 5m @ 5 g/t Au or equivalent, or 25m @ 1 g/t Au or equivalent, at a minimum step out of 50m x 50m; and

ii. the 20-day VWAP of the Company's shares exceeding \$0.30 prior to the expiry date.

The Rights also vest if there is a change of control event in relation to the Company prior to the conversion of the performance rights. If this occurs, then the milestones will be deemed to have been achieved by the date of the change of control event, and each Right will automatically and immediately convert into shares.

The performance rights were granted on 7 September 2021 and has a period of 3 years from grant date. No payment is required to be made for conversion of a performance right to a share. To the extent that the performance rights have not converted into shares on or before the expiry date, all unconverted performance rights held will automatically lapse.

# INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF PVW RESOURCES LIMITED

## Conclusion

We have reviewed the accompanying half-year financial report of PVW Resources Limited ("the Company") and Controlled Entities ("the Consolidated Entity") which comprises the condensed consolidated statement of financial position as at 31 December 2021, the condensed consolidated statement of profit or loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of PVW Resources Limited and Controlled Entities does not comply with the *Corporations Act 2001* including:

- a. Giving a true and fair view of the PVW Resources Limited financial position as at 31 December
   2021 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134: Interim Financial Reporting and Corporations Regulations 2001.

#### **Basis for Conclusion**

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001 which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

## Material Uncertainty Related to Going Concern

We draw attention to Note 2 in the financial report, which indicates that the Consolidated Entity incurred a net loss of \$4,435,759 during the half year ended 31 December 2021. As stated in Note 2, these events or conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt on the Consolidated Entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

## Responsibility of the Directors for the Financial Report

The directors of the PVW Resources Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
