Directors' Report (continued)

Review of operations

The Company's focus during the six months to 31 December 2021 was preparing for its initial public offering (IPO) and listing on the ASX which it completed on 17 January 2022.

the Company issued a prospectus to acquire the Hill End Gold Project (NSW), the Hargraves Gold Project (NSW), the Pride of Elvire Project (WA) and the Taylors Rock Project (WA) and to raise capital of \$5,500,000 to progress exploration activities at those projects.

Key details of the prospectus offer were:

- Issue of 27,500,000 ordinary shares at \$0.20 per share to raise funds of \$5,500,000 before costs;
- Issue of 17,999,999 ordinary shares to acquire mineral tenements;
- Issue of 3,200,000 ordinary shares on conversion of existing Convertible Notes;
- Issue of 4,000,000 broker options to the IPO lead manager with an exercise price of \$0.30, a 36 month expiry period and a fair value of \$27,798.
- Issue of 4,500,000 Performance Rights to the Company's Directors with various vesting conditions and a fair value of \$29,034.

Hill End Gold Project (NSW)

The Hill End Gold Project ("Hill End") is 14km of continuous gold lode across 10 mining leases and 3 exploration licenses located in the core of the Hill End Trough on the eastern Lachlan Fold Belt.

The area was first recognised as a gold centre in 1851 with a number of mining operations established over the following 50 years. Hill End was also home to the discovery of the largest gold nugget ever found.

Modern exploration has not been completed and a program of multi- element and alteration mapping has been planned to better map out the zones of high-grade mineralisation. A new exploration campaign will be underpinned by the recent completion of a full geological review of the project and an updated geological model.

Hargraves Gold Project (NSW)

The Hargraves Gold Project ("Hargraves") is located approximately 25km south of Mudgee, NSW. The goldfield is 4x10km in size with numerous mineralised structures and little modern exploration.

VERTEX MINERALS LTD

ABN 68 650 116 153

Directors' Report (continued)

A JORC 2012 Mineral Resource Estimate was conducted by SRK Consulting (Australia) Pty Ltd in 2020 and reported an Indicated Mineral Resource of 1.1Mt at 2.73g/t Au for 97koz Au and an Inferred Mineral Resource of 1.2Mt at 2.07g/t Au for 80koz Au.

The Company intends to priorities the development of Hargraves and update the pre-feasibility statement ("PFS") with further drilling to increase resources.

Pride of Elvire Project (WA)

The Pride of Elvire Project is a gold bearing WA greenstone/banded iron formation. Intersections drilled in the late 1980's by Broken Hill Metals NL make the project an exciting prospect. The Company intends to undertake a review of historically available data prior to further drilling.

Taylors Rock Project (WA)

Located west of the famous WA gold mining centre of Norseman, the Taylors Rock licence covers prospective WA greenstone geology. Both Ni and Au have been intersected within drilling at Taylors Rock. The Company intends to undertake a review of historically available data prior to further drilling.

Subsequent events

On 17 January 2022, the Company successfully listed on the ASX following its completion of an initial public offering (IPO) and commenced trading in a total of 48,700,000 ordinary shares that were issued prior to 31 December 2021. The Company also issued 4.5million Performance Rights to the Company's Directors with various vesting conditions and a fair value of \$29,034.

On 3 March 2022, the Company announced the identification of multiple new drill targets at the Red Hill Resource at the Hill End Gold Project.

Other than as noted above, there has not been any matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

Directors' Report (continued)

Future developments

Disclosure of information regarding likely developments in the Company's operations in future financial years and the expected results of those operations is likely to result in unreasonable prejudice to the Company. Accordingly, this information has not been disclosed in this report.

Auditor's Responsibilities for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
