OPERATING RESULT

The Group incurred an operating loss after income tax for the half-year ended 31 December 2021 of \$324,825 (half-year ended 31 December 2020: operating loss after income tax of \$3,294,212).

The loss for the half-year includes a gain on discontinued operations of \$270,335 relating primarily to \$175,000 of fees received for extending the settlement period for sale of the discontinued operations, as well as foreign exchange gains.

The Directors believe the Group is in a sound financial position to continue its exploration endeavours.

PRINCIPAL ACTIVITIES AND REVIEW OF OPERATIONS

The Group's principal business objectives are the acquisition, exploration, development and operation of PGE, copper, nickel silver, gold, vanadium and other mineral deposits.

Its strategy for the remainder of the year is to further exploration on its projects in Western Australia and to finalise the divestment of the Scandinavian projects.

Warrior Project

A maiden 8-hole diamond drilling program was completed during the period at Phil's Hill Prospect at Calingiri East highlighting an Ag-Au-Cu-As-Mo-Co-Bi sulphide mineral association with silver mineralisation up to 8.4 g/t. A 40 km² auger geochemistry program and follow-up Air Core (AC) drill program is scheduled for Phil's Hill Prospect in the second half of FY 2022

Field reconnaissance and rockchip sampling at Calingiri West (Anzac Hill) identified ultramafic pyroxenite rock, adjacent to DevEx's Sovereign Prospect. Surface EM and gravity surveys followed by an AC drill program are planned for this project in the second half of FY 2022.

An auger geochemical program is also planned for the Bindi Bindi prospect in the March 2022 quarter.

Commando Gold Project

The Company entered into a 12-month option agreement to acquire the highly prospective Commando Gold Project near Kalgoorlie in December 2021. The Commando Gold Project lies 38 km north of Kalgoorlie and is significantly under-explored compared to surrounding areas. In consideration for the option agreement Pursuit paid \$160,000 in cash and \$284,000 in Pursuit shares and options.

Combatant PGE-Ni-Cu Project

The Combatant PGE-Ni-Cu Project lies approximately 270km northeast from Geraldton and 210km west of Meekatharra. Sampling and reconnaissance completed during the half-year has identified 3 ultramafic units at Garden Well, Currie Currie Bore and Murrum Creek. The Company is currently reviewing existing geological

and geophysical information to better understand the prospectivity before heritage surveying and plans to conduct an AC drilling program in H2 2022.

Gladiator Gold Project

The Gladiator Project comprises 4 exploration licences located 10km northwest of Laverton in Western Australia. The Company is reviewing existing geological and geophysical information followed by a Heritage survey and AC testing of targets anticipated in the second half of 2022.

Sale of Scandinavian Assets for ~\$3.35 million

Kendrick's listing is in the final review stages with the Financial Services Authority in the UK and, in the meantime, Kendrick continues to cover all costs associated with the Scandinavian projects.

Kendrick has increased the consideration payable to Pursuit by GBP150,000 to GBP1.4 million in shares to extend settlement until 31 March 2022. GBP100,000 of this increase was agreed to after period end (refer to "Events Occurring After Reporting Period" below). Consideration will be paid to Pursuit as follows:

- GBP1.4 million (A\$2.60 million) in Kendrick shares immediately following listing on LSE;

Pursuit also issued 8,535,278 shares and 2.5 million options exercisable at \$0.0281 expiring 23 December 2024 during the period as payment for an option to acquire the Commando Gold Project.

Subsequent to period end, the Company issued 60,000,000 performance rights to directors, consultants and staff following approval by shareholders at the annual general meeting held 31 January 2022 (refer below).

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Pursuit Minerals Limited (the "Company") and its controlled entities (the "Group"), which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Group does not comply with the Corporations Act 2001 including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

PURSUIT MINERALS LIMITED ABN 27 128 806 977

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF PURSUIT MINERALS LIMITED

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

The Company's principal activities are to carry out exploration of mineral tenements, to continue to seek extensions of areas held and to seek out new areas with mineral potential and to evaluate results achieved through surface sampling, geophysical surveys and drilling activities. The Company is incorporated in Australia and limited by shares which are quoted on the Australian Securities Exchange.

The accounting policies adopted are consistent with those of the previous financial year and corresponding half-year reporting.

The half-year financial report has been prepared on an historical cost basis, except where stated. For the purpose of preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

(i) Commando Project

TOL DELESOUSI IO

During the period Pursuit secured a 12-month option to acquire all of the tenements comprising the Commando Gold Project north of Kalgoorlie WA. Under the terms of the option Pursuit paid an initial exclusivity fee of \$50,000, \$160,000 in cash, \$240,000 in Pursuit shares and granted 2.5m unlisted Pursuit options valued at \$44,000 and are committed to spend a minimum of \$150,000 on exploration during the option period.

On exercise of the option Pursuit will have the right to acquire an interest in the Commando leases as follows:

- 1. If the Company elects to secure 100% ownership interest in the project, the Company will issue \$375,000 in value of Pursuit Shares at \$0.028 each (being ~13.3m shares) paid within 14 days of election; or
- 2. If the Company elects to only secure a 45% ownership interest in the project, the Company will issue \$175,000 in value of Pursuit Shares at \$0.028 each (being ~6.2m shares) and paid within 14 days of election.

All shares issued are subject to a 3 month escrow period.

The financial liability at 30 June 2021 related to consideration payable as part of the Group's acquisition of the Warrior area of interest (Note 7). The amount recognised at 30 June 2021 represents the fair value of shares to be issued at period end as per the terms of the acquisitions.

On 2 December 2020, Pursuit entered into a binding acquisition agreement to acquire a tenement package which collectively comprises the Warrior Project. Under the terms of the binding acquisition agreement, Pursuit paid \$300,000 in cash and 40,000,000 fully paid ordinary shares at settlement to the vendor. The final payment to acquire the Warrior Project tenements was made during the period, comprising 10,000,000 fully paid ordinary shares issued to the vendor upon transfer of all four tenements to Pursuit. The value of the final payment was amended from \$700,000 to \$502,500, reflecting the fall in the Company's share price from \$0.07 at 30 June 2021 to \$0.05025 at the date the shares were issued. The resulting gain has been recognised in profit and loss for the period.

(i) On 23 December 2021, the Company issued 2,500,000 unlisted options as part of the consideration to acquire a 12 month option over the tenements comprising the Commando Project (refer Note 7). The options are exercisable at \$0.0281 on or before 23 December 2024, vested immediately on grant date and were valued at \$44,000 (refer below).

The Company also issued 4,500,000 performance rights to exploration consultants in the financial year ended 30 June 2021. The performance rights expire on or before 30 June 2024 and will vest following the Company's share price reaching 12 cents over 20 consecutive trading days. In addition, the performance rights were undertaken in 2 equal tranches, which will vest annual over 2 years, so long as the exploration consultants remain contracted to the Company upon vesting. Each performance right will convert into one fully paid ordinary share in the Company. The expense recognised in the period relates to the spreading of the fair value (measured at grant) date of these performance rights over their expected vesting period.
