The Directors present their report of Dateline Resources Limited ("the Company") for the half year ended 31 December 2021 ("the Period").

## 1. DIRECTORS

The names of the Company's Directors in office during the Period and until the date of this report are set out below. Directors were in office for this entire Period unless otherwise stated.

Director / Position	Duration of Appointment
Mr. Mark Johnson AO Non-Executive Chairman	Appointed 22 April, 2013
Mr. Stephen Baghdadi CEO and Managing Director	Appointed 4 July 2014
Mr. Gregory Hall Non-Executive Director	Appointed 19 January 2015
Mr. Anthony Ferguson Non-Executive Director	Appointed 29 August 2019
Mr. Bill Lannen Non-Executive Director	Appointed 15 January 2021

## 2. COMPANY SECRETARY

The Company Secretary role was held by the following individual during the period:

- Mr. John Smith (appointed 24 October 2013, resigned 1 November 2021)
- Mr Mark Ohlsson (appointed 1 November 2021).

## 3. PRINCIPAL ACTIVITIES

Dateline Resources Limited (ASX: DTR) is an Australian publicly listed company focused on gold mining and exploration in the United States of America. The Company owns 100% of the Gold Links project, located in Gunnison County, Colorado and 100% of the Colosseum Gold Mine, located in San Bernardino County, California.

The Gold Links project is comprised of several contiguous historic gold mines that have been consolidated by the company. Historical production from the Gold Links mines is up to 150,000 oz of high-grade gold from narrow vein underground mining (see ASX announcement of 8 February 2019).

Mineralisation can be traced on surface and underground for almost 6km from the Northern to the Southern sections of the project. Well documented records indicate that there are large areas that remain untested at surface and little to no exploration has been done below the valley floor.

During the reporting period, the company made significant progress on advancing the project towards production. At the start of the reporting period, the company commenced a major underground development and underground drilling program. This program provided access to the 2150 and West Veins for further assessment, with a second escapeway included in the program.

Following positive drilling results, the Board made the decision towards the end of the reporting period to commence gold production from the 9900RL mineral resource area. Two headings were developed with ore extracted and transported to the company's 100% owned Lucky Strike mill.

The Lucky Strike mill is located 50km away from the Gold Links and is fully permitted with a nominal capacity of 100tons per day (tpd) throughput. With commissioning commencing in February 2022, it is expected that first gold production will be achieved during the March quarter 2022. Investigations are advanced with regards to upgrading the milling and flotation capacity to 250tpd.

The company announced the proposed acquisition of the Colosseum Gold Mine from a subsidiary of Barrick Gold in May 2021, with the acquisition being finalised during the reporting period.

The Colosseum Gold Mine was mined between 1988 and 1993, with 344,000 ounces produced from an original 1.1 million ounce resource. Mineralisation is contained within two vertical breccia pipes that have been intersected at depths of up to 3000 feet below surface.

During the reporting period, the company compiled and digitised a significant modern database of information relating to Colosseum, predominantly from hardcopy plans or sections. Little to no modern exploration has occurred at Colosseum since the cessation of mining in 1993. Over 386 drillholes and 35,352 assays were added to the database during the reporting period.

Also at Colosseum, during the reporting period, the company identified indicators for rare earth element (REE) mineralisation within the claim area. Colosseum is located ~8km to the northwest of the Mountain Pass Rare Earth Mine, the only operational REE mine in the US. Rare earth specialists have been to site and recommended a mapping and sampling program to assist with exploration targeting. This program is planned for H1 2022.

No fieldwork was undertaken on the company's Fiji Udu polymetallic project during the reporting period and the company continues to investigate the potential to introduce a joint venture partner into this project.

#### 5. SIGNIFICANT CHANGES IN STATE OF AFFAIRS

There have been no significant changes in the state of affairs of the company during the period.

#### 6. SIGNIFICANT MATTERS AFTER BALANCE DATE

The impact of the COVID-19 pandemic is ongoing. Management is closely monitoring the evolution of this pandemic and the response of the governments, particularly restrictions in place to contain this virus and how this will impact the Group and the economy, as a whole.

The Group has continued to operate in accordance with its plans up to the date of this report and management believes it will continue to do so even though the extent of the impact COVID-19 may have on its future liquidity, financial performance and position and operations is uncertain and cannot be reasonably estimated at the date these financial statements were issued.

In January 2022 the company borrowed an additional USD3m from its USA based bankers. The loan is repayable over a 10-year period and has an interest rate of 6% per annum.

In February 2022, the company has commenced producing gold concentrate for sale and is assessing offers to purchase the concentrate from various parties that are both end users and brokers.

Also in February 2022, the company decided to upgrade milling capacity to 250tpd at from the current 100tpd at the Lucky Strike Mill. The upgrade is expected to be complete by June 2022.

No other matter or event has arisen since 31 December 2021 that would be likely to materially affect the operations of the Company, or the state of affairs of the Company not otherwise as disclosed in the Group's financial report.

#### **7. AUDITOR'S INDEPENDENCE DECLARATION**

The auditor's independence declaration under Section 307C of the Corporations Act 2001 is set out on Page 7 of this report.

Signed in accordance with a resolution of Directors.

## 1. CORPORATE INFORMATION

The financial report of Dateline Resources Limited (the "Company") covers the period from 1 July 2021 to 31 December 2021 (the "Period"). The Company was incorporated on 3 February 2011.

In June 2011, the Company was listed on the Australian Securities Exchange (ASX) through initial Public Offering Prospectus dated 18 April 2011.

The Company is an Australian-based mineral exploration company with existing exploration projects in the Republic of Fiji and mining permits in Colorado and California USA. The address of the registered office of the Company is Level 29, 2 Chifley Square Sydney NSW 2000.

The financial report of Dateline Resources Limited for the Period was authorised for issue in accordance with a resolution of the Directors on 16 March 2022.

## 2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

### (a) Basis of preparation

This general purpose interim condensed financial report of the Company for the Period has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with International Financial Standard IAS 34 *Interim Financial Reporting*.

The half year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial report.

It is recommended that the interim financial report be read in conjunction with the annual financial statements for the year ended 30 June 2021 and considered together with any public announcements made by the Company during the Period and up to the date of this report in accordance with the continuous disclosure obligations of the ASX Listing Rules.

The accounting policies and methods of computation adopted in the preparation of this financial report for the Period under review are consistent with those adopted in the annual financial statements for the year ended 30 June 2021. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

### (b) Going Concern

The financial report has been prepared on a going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and liabilities in the normal course of business.

During the period, the consolidated entity incurred a comprehensive loss of \$5,109,920 (2020: \$1,063,309 loss) a net cash outflow of \$6,606,599 (2020: \$18,732 outflow) and net cash out flow from operations of \$4,200,154 (2020: \$882,783). The net cash inflow from financing activities during the period was \$4,099,806 (2020: \$0). As at 31 December 2021, the consolidated entity also had a deficiency in working capital of \$5,929,549 (June 2021: \$6,379,119 surplus in working capital) and cash assets of \$485,470 (June 2021: \$7,092,069).

The ability of the consolidated group to continue as a going concern is dependent upon the group being able to generate sufficient funds to satisfy exploration plans and working capital requirements. The Company has taken steps to ensure that it has adequate working capital to not only satisfy existing commitments but to also future expenditure required to meet its objectives. These include:

- the finalisation in January 2022 of a US\$3,000,000 loan facility at 6% p.a. interest rate which is repayable over a 10 year period
- the company has commenced commissioning the Lucky Strike mill and is processing low grade development ore from the 9900r1 mineralised zone from the Gold Links mine (refer Note 16)

We believe as a result of the above, the Company is well placed to execute its corporate strategy and the directors believe that the going concern basis for the preparation of the financial report of the Group is appropriate. Should the Company not be able to execute its corporate strategy there will be a material uncertainty that exists relating to events or conditions that may cast significant doubt on an entity's ability to continue as a going concern. No adjustment has been made in relation to the recoverability and classification of recorded assets amounts and classification of liabilities that might be necessary should the consolidated entity not continue as a going concern.

**(c) New or amended Accounting Standards and Interpretations adopted**

The company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

**3. OPERATING SEGMENTS**

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the Managing Director in order to allocate resources to the segment and to assess its performance.

#### 15. CONTINGENT LIABILITIES

There are existing contingent liabilities with regard to Royalty Arrangements to the vendors of CRG Mining LLC. (CRG). The vendors of CRG are entitled to receive royalty payments at a rate of US\$50 for each ounce of gold produced from any mining operations conducted on the acquired tenements up to a maximum of US\$5 million (Maximum Amount). Regardless of production, an aggregate minimum amount of US\$2.5 million will be paid by 31 December 2022 which is included in the deferred consideration. (Refer note 7).

Relating to the Sooner Lucky Strike Mine there is also a contingent liabilities in regard to Royalty Arrangements to the vendors of ALSH LLC. (ALSH). The vendors of ALSH are entitled to receive royalty payments at a rate of US\$50 for each ounce of gold produced from any mining operations conducted on the acquired tenements up to a maximum of US\$5 million (Maximum Amount). Regardless of production, an aggregate minimum amount of US\$2.5 million will be paid by 31 December 2022 which is included in the deferred consideration. (Refer note 7).

#### ***Royalties payable to the previous owner of Gunnison Property***

During the year ended 30 June 2018 the Company acquired freehold land over the Gold Links property. The agreement entitles the previous owner of this land to Royalty payments as detailed below:

The Company shall pay Royalties to the previous owner based on a percentage of Net Smelter Returns base on the Gold Price per Ounce as follows:

Gold Price per Ounce (USD)	Ownership Percentage of Net Smelter Returns
\$1,000 and below	1.0%
\$1,001 to 1,500	An Additional 0.1% for every \$100 in excess of \$1,000 up to \$1,500
\$1,501 to \$2,000	2.0%
\$2,001 to \$5,500	2.0% plus additional 0.1% for every \$100 in excess of \$2,000 up to \$5,500
\$5,501 and above	7.0%

The percentage will be adjusted bi- annually if the total amount of gold produced over a 6 month period is great than one ounce per ton. The adjustment is calculated by multiplying the average Ownership Percentage of Net Smelter returns during each 6 month period by the Gold Ratio. The Gold Ratio is the ratio of the amount of ounces of gold produced verses the tonnes of ore mined and milled.

The maximum percentage payable is capped at 7%.

#### **Minimum payment if no production occurs**

If no production is undertaken after 31 October 2018 the previous owner is entitled to US\$15,000 per calendar year if the following condition is met:

- (i) A commercial quantity (as determined by the previous owner's project engineer and geologist) of ore is available.

### **Colosseum Gold Mine**

In March 2021, the Company entered into an agreement with LAC Minerals (USA) LLC, a wholly owned subsidiary of Barrick Gold Corporation to acquire the Colosseum Gold Mine, located in San Bernadino County, California. Colosseum was originally discovered in the early 1970's, with production of ~344,000 ounces of gold between 1988 and 1993 from two open pits. At the time of closure, the gold price was at a cyclical low below \$350/oz. No exploration has been undertaken at site over the past 25 years.

In October 2021 Dateline announced that all outstanding conditions precedent for the completion of the acquisition had been fulfilled. As part of the transaction, Dateline has provided US\$770,000 in reclamation bonds to replace the Barrick bonds with the relevant authorities. At this time the company cannot reliably estimate the cost or timing of any remediation expenditure that may be required.

As part of the acquisition a further payment of US\$1,500,000 to Barrick will be payable following successful completion of a bankable feasibility study or commencement of site development for the extraction of ore or sale of the properties. Barrick is also entitled to a 2.5% Net Smelter Return royalty of all future production of any metals from the mine.

### **16. SIGNIFICANT MATTERS AFTER BALANCE DATE**

The impact of the COVID-19 pandemic is ongoing. Management is closely monitoring the evolution of this pandemic and the response of the governments, particularly restrictions in place to contain this virus and how this will impact the Group and the economy, as a whole.

The Group has continued to operate in accordance with its plans up to the date of this report and management believes it will continue to do so even though the extent of the impact COVID-19 may have on its future liquidity, financial performance and position and operations is uncertain and cannot be reasonably estimated at the date these financial statements were issued.

In January 2022 the company borrowed an additional USD3m from its USA based bankers. The loan is repayable over a 10-year period and has an interest rate of 6% per annum.

The company has commenced commissioning the Lucky Strike mill and is processing low grade development ore from the 9900rl mineralised zone from the Gold Links mine

Also in February 2022, the company decided to upgrade milling capacity to 250tpd at from the current 100tpd at the Lucky Strike Mill. The upgrade is expected to be complete by June 2022.

No other matter or event has arisen since 31 December 2021 that would be likely to materially affect the operations of the Company, or the state of affairs of the Company not otherwise as disclosed in the Group's financial report.

In the Directors' opinion:

- (a) The financial statements and notes of the Company and its controlled entities are in accordance with the Corporations Act 2001, including:
- (i) Giving a true and fair view of the financial position as at 31 December 2021 and the performance for the period 1 July 2021 to 31 December 2021 of the Company and its controlled entities.
  - (ii) Complying with Accounting Standard AASB 134 Interim Financial Reporting, the Corporations Regulations 2001 and other mandatory professional reporting requirements.
- (b) There are reasonable grounds to believe that the Company and its controlled entities will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of Directors.

On behalf of the Board of Directors.

Mark Johnson  
Chairman

## Independent Auditor's Review Report to the Members of Dateline Resources Limited

### Report on the Consolidated Half-Year Financial Report

#### Conclusion

We have reviewed the half-year financial report of Dateline Resources Limited ("the company"), which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of Dateline Resources Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

#### Material Uncertainty Regarding Going Concern

We draw attention to Note 2(b) in the financial report, which indicates that the company incurred a net loss of \$4,925,094 during the period ended 31 December 2021 and, as of that date, the current liabilities exceeded its current assets by \$5,929,549. As stated in Note 2(b), these events or conditions, along with other matters as set forth in Note 2(b), indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

#### Responsibility of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility for the Review of the Financial Report**

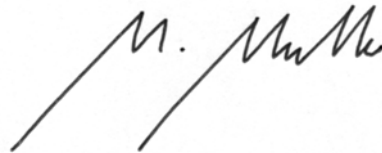

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
