

## Immuron North American Travelan<sup>®</sup> Sales up 494% and Global sales up 431%

### Highlights:

- North American FY22 Travelan<sup>®</sup> sales increased by +494% to \$0.6M
- Global sales increased by 431% to \$0.9M
- Australian FY22 sales increased by 318% to \$0.3M

Melbourne, Australia, July 11, 2022: Immuron Limited (ASX: IMC; NASDAQ: IMRN), an Australian based and globally integrated biopharmaceutical company that has developed two commercially available oral immunotherapeutic products for the treatment of gut mediated diseases, is pleased to announce the FY22 sales results of its over-the-counter gastrointestinal and digestive health immune supplement Travelan<sup>®</sup> and Protectyn<sup>®</sup>.

North America, Travelan<sup>®</sup> sales were up by 494%, reaching AU \$0.6M in FY22, compared to AU \$0.1M in FY21.

Global sales of Travelan<sup>®</sup> and Protectyn<sup>®</sup> increased by 431% in the 2022 fiscal year to AU \$0.9M, compared to AU \$0.2M in FY21.

In the US, Travelan<sup>®</sup> sales were AU \$0.6M for FY22 compared to only AU \$4K in FY21. This growth was attributable to increasing sales in both Passport Health Travel Clinics and on the Amazon e-commerce channel. While not at pre-pandemic peak, the sales numbers in the US are starting to considerably pick up again

In Australia, Travelan<sup>®</sup> and Protectyn<sup>®</sup> sales increased to AU \$0.3M in FY22 representing a significant increase over FY21 (AU \$0.1M). Coming out of the pandemic restrictions imposed by Government and with international travel on the increase we are starting to see positive signs as retail outlets start to restock product once again.

Immuron is focused on growing its portfolio of products and has a strong existing pipeline.

\*Unaudited gross revenue

**About Travelan®**

Travelan® is an orally administered passive immunotherapy that prophylactically reduces the likelihood of contracting travelers' diarrhea, a digestive tract disorder that is commonly caused by pathogenic bacteria and the toxins they produce. Travelan® is a highly purified tabletized preparation of hyper immune bovine antibodies and other factors, which when taken with meals bind to diarrhea-causing bacteria and prevent colonization and the pathology associated with travelers' diarrhea. In Australia, Travelan® is a listed medicine on the Australian Register for Therapeutic Goods (AUST L 106709) and is indicated to reduce the risk of Travelers' Diarrhea, reduce the risk of minor gastro-intestinal disorders and is antimicrobial. In Canada, Travelan® is a licensed natural health product (NPN 80046016) and is indicated to reduce the risk of Travelers' Diarrhea. In the U.S., Travelan® is sold as a dietary supplement for digestive tract protection.

**About Travelers' diarrhea**

Travelers' diarrhea is a gastrointestinal infection with symptoms that include loose, watery (and occasionally bloody) stools, abdominal cramping, bloating, and fever, Enteropathogenic bacteria are responsible for most cases, with enterotoxigenic *Escherichia coli* (ETEC) playing a dominant causative role. *Campylobacter* spp. are also responsible for a significant proportion of cases. The more serious infections with *Salmonella* spp. the bacillary dysentery organisms belonging to *Shigella* spp. and *Vibrio* spp. (the causative agent of cholera) are often confused with travelers' diarrhea as they may be contracted while travelling and initial symptoms are often indistinguishable.

**About Immuron**

Immuron Limited (ASX: IMC, NASDAQ: IMRN), is an Australian biopharmaceutical company focused on developing and commercializing orally delivered targeted polyclonal antibodies for the treatment of inflammatory mediated and infectious diseases.
