Operating and Financial Overview

The overview of the Group's operations, including a discussion of production and exploration activities are contained on pages 2 to 8 of this interim report.

Profit or Loss

The Group achieved a consolidated net profit after tax for the half-year of \$39.9 million (30 June 2021: \$19.1 million). EBITDA¹ for the period was \$100.0 million (30 June 2021: \$59.6 million).

Gold sales revenue of \$196.5 million (30 June 2021: \$129.6 million) was generated from the sale of 79,606 ounces (30 June 2021: 60,525 ounces) at an average gold price of \$2,443 per ounce (30 June 2021: \$2,142 per ounce). At 30 June 2022, the Group's hedge book totalled 15,980 ounces at an average price of \$1,832 per ounce with monthly deliveries through to November 2022.

Total cost of sales inclusive of amortisation and depreciation was \$113.8 million (30 June 2021: \$80.9 million), producing a gross profit from operations of \$82.7 million (30 June 2021: \$48.7 million). The increase in gross profit compared to the prior period reflects the increase in gold sales and the higher average gold price received for sales.

Exploration costs expensed and written off during the period were \$12.9 million (30 June 2021: \$14.8 million), a slight decrease from 2021 reflecting the lower 2022 exploration budget and a minor delay in recommencing site activities in the new year.

Corporate and technical service costs for the period totalled \$10.0 million (30 June 2021: \$9.9 million), which included expenses related to the corporate office, compliance and operational support.

Fair value loss on derivatives for the period totalled \$0.6 million (30 June 2021: \$6.6 million gain).

Finance income of \$0.3 million (30 June 2021: \$0.2 million) relates to interest earned on cash at bank and on deposit. Finance expenses of \$4.0 million (30 June 2021: \$3.9 million) principally relates to costs of borrowing and interest charged on leases. On 13 July 2022, Gold Road cancelled a \$100 million Revolving Corporate Facility (Tranche A). Gold Road retains the \$150 million Tranche B Revolving Corporate Facility, which remains undrawn, and expires in September 2024.

Income tax expense for the period totalled \$15.7 million (30 June 2021: \$7.7 million).

¹ EBITDA is an unaudited non-IFRS measure, representing earnings before finance income, finance expenses, income tax, depreciation and amortisation expense. A reconciliation of consolidated net profit after tax to EBITDA is included on page 3 of the Directors' Report

Reconciliation of consolidated net profit after tax to EBITDA

	6 months ended 30 June 2022 \$'000	6 months ended 30 June 2021 \$'000

Financial Position

The net assets of the Group increased by \$279.6 million for the six months ended 30 June 2022, further analysed below:

- Cash and cash equivalents increased to \$160.3 million (31 December 2021: \$131.5 million).
- Inventories of \$45.8 million (31 December 2021: \$36.8 million) increased as a result of building up ore stockpiles, and warehouse consumables.
- Financial assets at fair value of \$173.7 million (31 December 2021: \$nil) increased as a result of the acquisition of DGO Limited (DGO). This \$173.7 million consists of equity securities held in various listed entities by DGO, in particular investments in De Grey Mining Ltd, Dacian Gold Ltd and Yandal Resources Ltd.
- Property, plant and equipment of \$336.2 million (31 December 2021: \$346.7 million) decreased as a result of depreciation and amortisation, offset by expenditure associated with deferred stripping.
- Right-of-use assets of \$113.8 million (31 December 2021: \$115.0 million) decreased as a result of depreciation expense, offset by CPI adjustments.
- Exploration and evaluation of \$39.9 million (31 December 2021: \$17.4 million) increased mainly as a result of the acquisition of DGO.
- Lease liabilities of \$115.4 million (31 December 2021: \$115.6 million) decreased reflecting the repayment of lease liabilities, offset by CPI adjustments.

Cash Flows

Cash and cash equivalents increased during the period by \$28.8 million to \$160.3 million (31 December 2021: \$131.5 million).

Net cash inflow from operating activities for the period was \$69.5 million (30 June 2021: \$46.3 million). The increase reflects higher receipts from sales, balanced against an increase in supplier payments and an increase in income tax payments.

Net cash outflow used in investing activities amounted to \$23.4 million (30 June 2021: \$30.3 million). The decrease during the period relates to payments for property, plant and equipment (including mine development).

Net cash outflow from financing activities totalled \$17.3 million (30 June 2021: \$18.1 million) which included lease repayments of \$5.4 million (30 June 2021: \$4.9 million), a dividend payment of \$3.7 million (30 June 2021: \$13.2 million) and repayment of a DGO finance facility of \$8.2 million (30 June 2021: \$nil).

Review of Operations

The Gruyere Project is a 50:50 joint venture between Gold Road and Gold Fields, and is managed by Gruyere Management Pty Ltd, a wholly owned subsidiary of Gold Fields.

Gruyere celebrated 3 years of gold production on 30 June 2022, having produced 760,644 ounces (100% basis) since first pouring gold on 30 June 2019. This was delivered at an average All-in Sustaining Cost (AISC)² of A\$1,373 per attributable ounce to Gold Road³ for the period.

In January 2022, Gold Road released annual guidance for 2022 of 150,000 to 170,000 attributable ounces at an attributable AISC of between A\$1,270 to A\$1,470 per ounce. This guidance is in line with Gruyere's production outlook that shows an increase in annual production to a sustainable circa 350,000 ounces per annum (175,000 ounces attributable) by 2023.

COVID-19

The Company wishes to thank all Gold Road and Gruyere employees, contractors and suppliers for their diligence and excellent performance through the global COVID-19 crisis.

The half year saw considerable challenges across the mining sector in Western Australia. Gruyere and Gold Road were impacted by a number of COVID-19 related labour force interruptions, as well as ongoing supply chain impacts that are being experienced globally. However, despite this difficult operating environment, there was no material impact on gold production during the reporting period. The tight labour market and associated cost and supply chain pressure in Western Australia continues to present a challenge for the mining sector as a whole.

Mining

Over the six months to 30 June 2022, Gruyere mined a total of 5.3 Mt of ore at an average grade of 1.14 g/t for 193,793 contained ounces (100% basis). Total material movement and the rate of ore mining continued to advance ahead of process plant requirements with ore stockpiles growing to 5.9 Mt at 0.74 g/t Au. Mined grades lifted to record highs as mining advanced through higher grade zones in the deeper sections of the Stage 2 pit, along with the mining of higher grade oxide and fresh ore from the Stage 3 pit.

Processing

Total ore processed for the six months to 30 June 2022 was a record 4.6 Mt at a record head grade of 1.20 g/t Au, and a gold recovery of 91.1% for a record 156,811 ounces of gold produced (100% basis). Production rates steadily increased during 2022 as expected, largely due to improving head grades and an improvement in plant utilisation owing to reduced scheduled and unscheduled maintenance downtime.

The journey of plant reliability and consistency of plant throughput towards industry best practice will continue.

AISC per ounce continued to fall over the half year, averaging A\$1,376 per ounce (1H 2021: A\$1,508 per ounce).

The improvement was largely due to the increase in produced ounces over the period, and was achieved despite ongoing industry wide inflationary cost pressures.

Gruyere JV Exploration

The final 4 of 13 diamond drill results from the 2021 Gruyere framework drilling program were returned during the March quarter. Mineralisation has been defined over a +1,100 metre strike length down to approximately 500 metres below the open pit Ore Reserve and offers potential for further resource expansion beneath Gruyere.

Gruyere JV exploration efforts in 2022 are focused on the Golden Highway, located approximately 25 kilometres west of Gruyere. Drilling is underway to better define and potentially extend known Ore Reserves of 0.3 million ounces at Golden Highway, with a view to optimising their inclusion within the overall Gruyere mine plan.

² All-in Sustaining Cost (AISC) is an unaudited non-IFRS measure

³ ASX announcement dated 28 July 2021. AISC reported since commercial production was declared on 30 September 2019

Resources and Reserves at Gruyere

In February 2022, Gold Road reported a 10% increase to the Gruyere JV Open Pit Mineral Resource⁴ after mining depletion, and an overall increase of +28% to the Gruyere JV Ore Reserves (Gruyere and Golden Highway Ore Reserves) resulting from the inclusion of Indicated Mineral Resources and application of steeper geotechnical slopes. The Gruyere Ore Reserve incorporates a seven-stage mine plan.

Review of Regional Exploration

Gold Road's exploration strategy remains directed at delivering economic gold deposits that can be developed as standalone mining operations, creating shareholder value through organic growth.

Following the acquisition of DGO and its diverse exploration portfolio, Gold Road now holds a total of ~21,500 square kilometres of exploration tenure across Western Australia, South Australia, and Queensland. The integration of these exploration projects provides Gold Road with additional optionality on discovery success across several highly prospective terranes, in alignment with the exploration strategy and exploration budget.

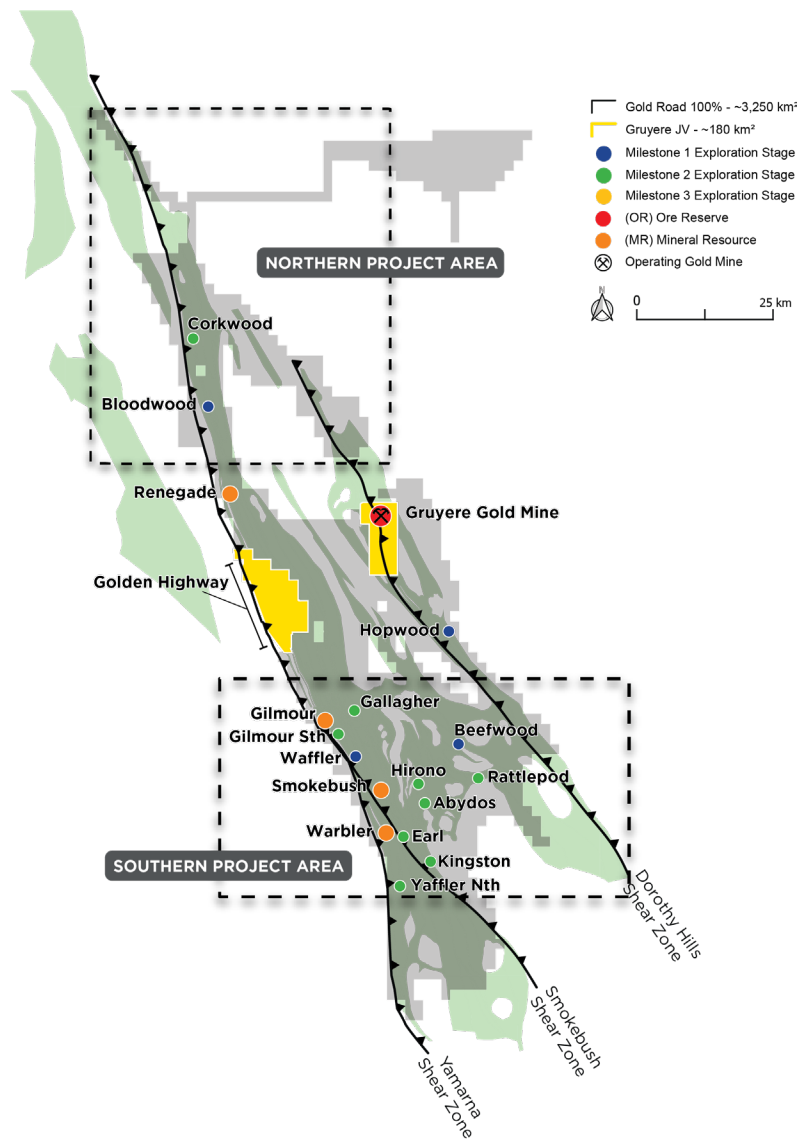

Map showing location of Gold Road's exploration projects over key geological terranes following the acquisition of DGO in June 2022

Yamarna (100% Gold Road)

During the six months to 30 June 2022, exploration activities continued to prioritise key targets within the Southern Project Area, a demonstrably prospective region of the Yamarna Greenstone Belt, which exhibits the fundamental geological elements required for hosting major gold deposits, such as fertile regional structures, prospective host rocks and local structural complexity.

Gold Road's 100% owned Yamarna Mineral Resource increased by 0.21 million ounces, or 70%, to 6.4 million tonnes at 2.44 g/t Au for 0.51 million ounces during the March quarter⁵. The Mineral Resource is constrained within optimised open pit shells and underground stope shape areas, based on a A\$2,200 per ounce gold price assumption with deposit-specific modifying factors and cut-off grades. When incorporated with an Attributable Mineral Resource from the Gruyere JV of 4.23 million ounces, Gold Road's total Attributable Mineral Resources total 102.82 million tonnes at 1.43 g/t Au for 4.73 million ounces.

⁵ ASX announcement dated 31 January 2022

Map showing regional geological framework, priority Southern Project Area and key prospects for 2022⁶

In the first half of 2022, exploration activities continued with up to four drill rigs active at Yamarna and Golden Highway. A combination of 33,697 metres of Aircore, 20,645 metres of RC and 5,392 metres of diamond drilling were completed for a total of 59,734 metres across the Yamarna exploration project.

Gold Road's Yamarna Exploration Drilling Metrics for the June 2022 quarter

Drill Type	Yamarna	Total
Aircore	33,697	33,697
RC	20,645	20,645
Diamond	5,392	5,392
Total Metres	59,734	59,734

Aircore drilling across the Southern Project Area continues to delineate and expand several multi-kilometre gold-in-regolith anomalies coincident with targeted fertile structural fluid pathways. Exploration programs were successfully completed at Abydos, Gilmour South, Warbler, Earl, Kingston and Waffler. Assay results continue to be received, with turnaround currently at the six-to-eight week mark. Advanced RC and diamond follow up drill testing of these targets is progressing well.

⁶ Gold Road exploration milestones are shown in Appendix 2. Tenement plan as at the 28 July 2022.

DGO Gold Ltd Transaction

During the period ended 30 June 2022, Gold Road successfully closed a recommended takeover offer for DGO of 2.25 Gold Road shares for every 1 DGO share held, with a relevant interest in 97.86% of DGO's shares⁷ at 30 June 2022. Gold Road subsequently completed the compulsory acquisition process for the remaining DGO shares on issue on 4 August 2022. As a result of the successful takeover of DGO, Gold Road has now acquired a portfolio of prospective exploration and mining assets which includes:

- a ~14.4% shareholding in ASX listed De Grey Mining Ltd (the owner of the 10.6 million ounce Mallina Gold Resource in Western Australia);
- a ~6.1% shareholding⁸ in ASX listed Dacian Gold Ltd (the owner of the Mt Morgans gold mine), which is currently under a recommended takeover offer from ASX listed Genesis Minerals Ltd;
- a ~20.1% shareholding in ASX listed Yandal Resources Ltd (an exploration company focused on the Yandal Greenstone belt); and
- a diverse portfolio of exploration tenements in the Pilbara, Yilgarn, Bryah-Yerrida and Stuart Shelf provinces.

Events Occurring After Balance Date

Subsequent to the period ended 30 June 2022:

On 13 July 2022, Gold Road cancelled a \$100 million tranche (Tranche A) of its Revolving Corporate Facility.

On 4 August 2022, Gold Road completed the takeover of DGO Gold Ltd. At close of the takeover offer period on 30 June 2022, Gold Road had a relevant interest in 97.86% of DGO shares. Following completion of the compulsory acquisition process, Gold Road now has a relevant interest in 100% of DGO shares.

On 22 August 2022, Gold Road increased its shareholding in De Grey Mining Ltd to 19.99% through a combination of share acquisitions and a derivative transaction via an equity collar agreement.

On 29 August 2022, the Directors determined the payment of a dividend of 1.0 cent per fully paid ordinary share, fully franked. The aggregate amount of the proposed dividend is expected to be paid on 4 October 2022 out of retained earnings at 30 June 2022, and has not been recognised as a liability at the end of the period.

Other than as noted above, there has not arisen in the interval between the six months ended 30 June 2022 and the date of this report any other item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Notes to the Consolidated Interim Financial Statements

For the six months ended 30 June 2022

CORPORATE INFORMATION AND BASIS OF PREPARATION

Note 1 Corporate Information

The interim financial statements cover the consolidated group comprising Gold Road Resources Limited and its subsidiaries, together referred to as Gold Road, the Company or the Group.

Gold Road is a company incorporated and domiciled in Australia, limited by shares, and is a for profit entity whose shares are publicly traded on the ASX.

Note 2 Basis of preparation

The Consolidated Interim Financial Statements were authorised for issue in accordance with a Resolution of the Directors on 29 August 2022.

These Consolidated Interim Financial Statements for the six months ended 30 June 2022 have been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standard (AASB) 134: *Interim Financial Reporting*. As such they do not include the full disclosures of the type normally included in an annual financial report and, therefore, it is recommended these Consolidated Interim Financial Statements be read in conjunction with the financial statements of the Group for the year ended 31 December 2021.

(a) Historical cost convention

The Consolidated Interim Financial Statements have been prepared under the historical cost convention, and on an accruals basis, except for derivative financial assets/liabilities and certain other financial assets and liabilities which are required to be measured at fair value.

(b) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operations – the functional currency. The Consolidated Interim Financial Statements are presented in Australian dollars, which is the functional currency of each of the Group's subsidiaries.

(c) Rounding of amounts

The Company is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with that Instrument, all financial information presented in Australian dollars has been rounded to the nearest thousand unless otherwise stated.

(d) Critical account estimates

The preparation of financial statements requires the use of certain estimates, judgements and assumptions that affect the application of the Group's accounting policies. Actual results may differ from these estimates and application of different assumptions and estimates may have a significant impact on the Group's net assets and financial results.

As the COVID-19 pandemic continues to impact Australia and the world, the Group's focus remains on keeping its people well, and maintaining safe and reliable operations. The Group has considered the impact of COVID-19 on each of its significant accounting judgements and estimates, and management will continue to monitor the increased level of uncertainty of future cash flow forecasts.

The significant judgements made by the Group in applying the Group's accounting policies and the key sources of estimation were the same as those described in the Group's previous Consolidated Financial Statements, for the year ended 31 December 2021.

(e) Accounting Policies

The Consolidated Interim Financial Statements have been prepared in accordance with the same accounting policies adopted in the Group's previous Consolidated Financial Statements for the year ended 31 December 2021.

FINANCIAL PERFORMANCE

Note 3 Segment information

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Group's Board of Directors, being the Group's Chief Operating Decision Maker (**CODM**), in assessing performance and in determining the allocation of resources. An operating segment is a component of the Group that engages in business activities which may earn revenue and incur expenditure, and separate financial information is available that is evaluated regularly by the CODM. These are measured in the same way as in the financial statements.

The following have been identified as individual operating segments:

(a) Development and Production

All operating segments within Australia are one reportable segment being Development and Production, consisting of the Gruyere joint operation with Gold Fields. Exploration activities on Gruyere JV tenements are included in the Exploration segment.

(b) Exploration

The Exploration segment includes the activities on all mineral exploration tenements, including all joint venture tenements.

(c) Investment

The Investment segment includes the activities on equity securities investment.

(d) Unallocated

Unallocated items comprise corporate which includes those expenditures supporting the business during the period, and items that cannot be directly attributable to the Development and Production or Exploration segments or Investment.

The segment information for the reportable segments for the six months ended 30 June 2022 is as follows:

Recognition and measurement

The Group designated the above investments as equity securities at Fair Value through Other Comprehensive Income (FVOCI) because these equity securities represent investments that the Group intends to hold long term for strategic purposes.

Fair value movements continue to be recognised in equity through other comprehensive income and are not eligible for recycling through profit or loss upon realisation of the asset.

Dividends on FVOCI equity securities are recognised in profit or loss when the Group's right to receive the dividends is established.

When measuring the fair value of these assets, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(b) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote. Ordinary shares have no par value and the Company does not have a limited amount of authorised capital. The Company's shares are limited whereby the liability of its members is limited to the amount (if any) unpaid on the shares respectively held by them.

(c) Performance Rights

Information relating to the Employee Incentive Plan, including details of Performance Rights granted, exercised and cancelled/forfeited during the six month period and Performance Rights outstanding at the end of the reporting period, is set out in Note 19.

Note 18 Dividends

The following dividends were determined and paid by the Company.

	30 June 2022 \$'000	31 December 2021 \$'000
2020 final dividend: \$0.015	-	13,213
2021 interim dividend: \$0.005	-	4,406
2021 final dividend: \$0.005	4,412	-
	4,412	17,619

Subsequent to 30 June 2022, the Directors determined to pay a dividend of 1.0 cent per fully paid ordinary share, fully franked for an amount of \$10.6 million. The aggregate amount of the proposed dividend is expected to be paid on 4 October 2022 out of retained earnings at 30 June 2022, and has not been recognised as a liability at the end of the period.

Franking credits available to Gold Road shareholders as at 30 June 2022 were \$85.8 million (31 December 2021: \$66.0 million), which are available for distribution subject to the Board determining to pay dividends with franking credits attached. The impact on the dividend franking account of dividends determined after the balance sheet date but not recognised as a liability is to reduce it by \$4.6 million (2021: \$1.9 million).

Note 20 Acquisition of DGO Gold Limited

As at 30 June 2022 Gold Road has acquired a 97.86% interest in the DGO. All consideration is in the form of Gold Road ordinary fully paid shares issued at a ratio of 2.25 Gold Road shares for each DGO share. The DGO acquisition had an acquisition date for accounting purposes of 15 June 2022.

Consideration paid for DGO	\$'000
Purchase cost (including transaction costs) at 30 June 2022	231,655
Less: Gold Road transaction cost	(4,522)
Cash acquired on acquisition	(117)
Shares issued as consideration at 30 June 2022	(216,506)
Shares to be issued as consideration to non-controlling interest	(10,617)
Shares to be issued for DGO cancelled options	(10)
Net of cash acquired at 15 June 2022	(117)

The group has determined that the transaction does not constitute a business combination in accordance with AASB 3 Business Combinations. The acquisition of the net assets has therefore been accounted for, as an asset acquisition. When an asset acquisition does not constitute a business combination, the assets and liabilities are allocated a carrying amount based on their relative fair values in an asset purchase transaction.

The value of the assets acquired and liabilities assumed has been allocated on a Fair Value basis. Details of the purchase consideration and the net assets acquired are as follows:

Net assets acquired	\$'000
Cash and cash equivalents	117
Receivables and other assets	547
Property, plant and equipment	605
Right-of-use lease assets	279
Exploration and evaluation	21,732
Financial assets at fair value	205,292
Deferred tax assets	16,250
Total assets	244,822
Trade and other payables	(4,660)
Provisions	(54)
Borrowings	(8,160)
Lease liabilities	(293)
Total liabilities	(13,167)
Total purchase consideration	231,655

The transaction has been recorded at 100% due to the company reaching the compulsory acquisition stage and having commenced this at half year end. The issue of company shares for the remaining DGO shares outstanding at half year will be recorded through equity as the transaction completes to 100%. This is represented as a non-controlling interest reserve in the statement of changes in equity. The additional tax impact arising on tax consolidation is set out in Note 21.

Note 21 Deferred tax assets and liabilities

	30 June 2022	31 December 2021
	\$'000	\$'000
Deferred tax assets		
Deferred tax assets arising from:		
Tax losses acquired in DGO acquisition	16,250	-
Recognition of fair value uplift for tax purposes relating to tax consolidation	37,136	-
Fair value of financial assets through OCI	9,485	-

Gross deferred tax assets	63,041	-
Set-off of deferred tax liabilities	(23,209)	-
Net deferred tax assets	39,832	-
Deferred tax liabilities		
Deferred tax liabilities arising from Gold Road operations	(23,209)	(22,783)
Gross deferred tax liabilities	(23,209)	(22,783)
Set-off of deferred tax assets	23,209	-
Net deferred tax liabilities	-	(22,783)

Included in the deferred tax assets of \$39.8 million (31 December 2021: \$22.8 million liabilities) are \$16.3 million in tax losses acquired in DGO acquisition and \$37.1 million relating to the recognition of the provisional fair value uplift for tax purposes relating to tax consolidation of DGO.

UNRECOGNISED ITEMS

Note 22 Contingencies

Guarantees

The Group has guarantees in relation to its joint venture commitments in favour of various service providers with respect to the supply of electricity and development of associated infrastructure for the joint venture. The Group's portion of these commitments at 30 June 2022 was \$18.75 million with various financial institutions (31 December 2021: \$18.75 million).

Note 23 Commitments

(a) Exploration expenditure commitments

In order to maintain current rights of tenure to exploration tenements the Group has certain obligations to perform minimum exploration work on mineral leases held. These obligations may vary over time, depending on the Group's exploration programmes and priorities. These obligations are not provided for in the financial report and are payable:

	30 June 2022 \$'000	31 December 2021 \$'000
Within one year	8,642	5,765
	<u>8,642</u>	<u>5,765</u>

Included in the exploration expenditure commitment is \$4.2 million as a result of DGO acquisition.

(b) Gold delivery commitments

	Gold for physical delivery oz ¹	Contracted sales price \$/oz	Value of committed sales \$'000
Within one year	15,980	1,832	29,280
Later than one year but not later than five years	-	-	-

Note 24 Significant events after the balance date

Subsequent to the period ended 30 June 2022:

On 13 July 2022, Gold Road cancelled a \$100 million tranche (Tranche A) of its Revolving Corporate Facility.

On 4 August 2022, Gold Road completed the takeover of DGO Gold Limited. At close of the takeover offer period on 30 June 2022, Gold Road had a relevant interest in 97.86% of DGO shares. Following completion of the compulsory acquisition process, Gold Road now has a relevant interest in 100% of DGO shares.

On 22 August 2022, Gold Road increased its shareholding in De Grey Mining Ltd to 19.99% through a combination of share acquisitions and a derivative transaction via an equity collar agreement.

On 29 August 2022, the Directors determined the payment of a dividend of 1.0 cent per fully paid ordinary share, fully franked. The aggregate amount of the proposed dividend is expected to be paid on 4 October 2022 out of retained earnings at 30 June 2022, and has not been recognised as a liability at the end of the period.

Other than as noted above, there has not arisen in the interval between the six months ended 30 June 2022 and the date of this report any other item, transaction or event of a material and unusual nature likely, in the opinion of the Directors of the Company, to affect substantially the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Directors' Declaration

In the opinion of the Directors of Gold Road Resources Limited:

- (a) the Consolidated Interim Financial Statements and Notes that are set out on pages 16 to 25, are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the Group's consolidated financial position as at 30 June 2022 and of its performance, for the six month financial period ended on that date; and
 - (ii) complying with Australian Accounting Standards AASB 134: *Interim Financial Reporting*, the *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the Directors, on behalf of the Board.

Signed at Perth this 29th day of August 2022.

Independent Auditor's Review Report

To the shareholders of Gold Road Resources Limited

Conclusion

We have reviewed the accompanying **Interim Financial Report** of Gold Road Resources Limited.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Gold Road Resources Limited does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the **Group's** financial position as at 30 June 2022 and of its performance for the half-year ended on that date; and
- Complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Interim Financial Report** comprises:

- Condensed consolidated statement of financial position as at 30 June 2022;
- Condensed consolidated statement of profit or loss and other comprehensive income, Condensed consolidated statement of changes in equity and Condensed consolidated statement of cash flows for the Half-year ended on that date;
- Notes comprising a summary of significant accounting policies and other explanatory information; and
- The Directors' Declaration.

The **Group** comprises Gold Road Resources Limited (the Company) and the entities it controlled at the half year's end or from time to time during the half-year.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- The preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*; and
- Such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 30 June 2022 and its performance for the half year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
