#### **DIRECTORS' REPORT**

The Directors present their report on the Syrah Resources Limited Group ("Syrah", "the Group" or "the consolidated entity"), consisting of Syrah Resources Limited ("the Company") and the entities it controlled at the end of, or during, the half-year ended 30 June 2022. This interim report is presented in United States Dollars (USD) unless otherwise stated.

#### Directors

The following persons were Directors of the Company during the whole of the half-year period and up to the date of this report, unless otherwise stated:

Shaun Verner	Managing Director
José Manuel Caldeira	Non-Executive Director
Lisa Bahash	Non-Executive Director
Sara Watts	Non-Executive Director
John Beevers	Non-Executive Director

#### **Principal activities**

The principal continuing activities of the consolidated entity consisted of:

- Production of natural graphite products from the Balama Graphite Operation ("Balama") in Mozambique;
- Sales of natural graphite and ongoing development of logistics, sales and marketing arrangements with targeted customers;
- Development of the use of high-quality graphite from Balama as an input into the production of battery anode material, including Vidalia Active Anode Material ("AAM"), and industrial products;
- Campaign operations of the AAM facility at Vidalia, qualification and testing of AAM with potential customers and development of commercial sales arrangements with potential customers; and
- Engineering, procurement and construction activities for a 11,250 tonnes per annum AAM facility at Vidalia and studies exploring an expansion of Vidalia's production capacity to at least 45,000 tonnes per annum.

#### **REVIEW OF OPERATIONS**

#### **Business update**

During the interim financial period, Balama production and sales increased significantly compared with the prior corresponding period. Higher production rates were supported by strong global customer demand for Electric Vehicles, which creates strong demand for Balama products. However, Balama production was constrained by disruption in the global container shipping market. To supplement Nacala container shipments, Syrah developed a new logistics option, commencing breakbulk shipments through Pemba port. Three breakbulk shipments were completed in the interim period for a total of approximately 30,000 tonnes of natural graphite. Through the interim financial period Balama produced approximately 89,800 tonnes (H1 2021: 33,500 tonnes) and sold and shipped approximately 79,300 tonnes (H1 2021: 17,000 tonnes). Syrah took a final investment decision on the installation of a 11.25 MWp solar photovoltaic installation combined with an 8.5 MW/MWh battery energy storage system at Balama and construction of this system progressed during the period.

The Company made outstanding progress in its strategy to become a vertically integrated natural graphite AAM supply alternative for USA and European battery supply chain participants and OEM customers via the development of a large-scale AAM facility at Vidalia. Syrah's Board approved a final investment decision for Vidalia's initial expansion to 11,250 tonnes per annum AAM production capacity ("Vidalia Initial Expansion"). The final investment decision for the Vidalia Initial Expansion project was underpinned by an institutional placement and pro rata non-renounceable entitlement offer for approximately A\$250 million

(US\$180.7 million), which was completed during the period, and an offtake agreement executed with Tesla, Inc in December 2021. Varied project workstreams for the Vidalia Initial Expansion project progressed through the interim financial period including detailed engineering and procurement activities with Worley Group, off-site major equipment fabrication, and site preparation and construction activities at Vidalia. The Company is advancing qualification processes with target customers as well as product and process development at Vidalia. Trade-off studies were completed to inform a basis of design for a definitive feasibility study on the expansion of Vidalia's production capacity to at least 45,000 tonnes per annum AAM, inclusive of 11,250 tonnes per annum AAM. During the interim financial period, Syrah Technologies, LLC, Syrah's wholly owned subsidiary, finalised a non-binding term sheet and was offered a Conditional Commitment for a loan from the US Department of Energy ("DOE") to support the financing of the Vidalia Initial Expansion project. On 28 July 2022, Syrah announced it had entered into binding documentation for a loan facility up to US\$102 million (A\$146 million) from DOE to Syrah Technologies, LLC to support the financing of the Vidalia Initial Expansion project. As at the date of this report, no drawdowns have been made under the loan facility.

#### Statement of comprehensive income

The loss for the consolidated entity after income tax amounted to \$9.9 million during the interim financial period ended 30 June 2022 (2021: \$25.0 million loss).

Revenue reported for the interim financial period comprised sales of natural graphite products of \$49.7 million (2021: \$8.9 million).

Cost of sales reported for the interim financial period was \$40.6 million (2021: \$22.4 million), mainly comprised of mining and production costs of \$34.8 million (2021: \$18.2 million), logistics costs of \$9.0 million (2021: \$5.5 million), depreciation and amortisation expense relating to Balama of \$5.2 million (2021: \$4.9 million), offset by changes in inventories of -\$9.6 million (2021: -\$7.1 million).

Distribution costs of \$16.5 million (2021: \$1.9 million), of which \$15.4 million (2021: \$1.1 million) were shipping costs.

Administrative expenses of \$5.0 million (2021: \$5.0 million), of which \$3.4 million (2021: \$3.2 million) related to employee benefits.

Write-down of product inventories due to valuation of inventories at the lower of cost or net realisable value of \$2.1 million (2021: \$1.7 million).

Other income of \$8.0 million (2021: \$1.2 million) principally due to unrealised foreign exchange gain on revaluation of United States Dollar Cash and Cash Equivalent balance.

Net finance expenses of \$3.1 million (2021: \$2.6 million), of which \$2.8 million (2021: \$1.9 million) related to interest incurred on the Convertible Notes.

The total comprehensive loss was \$15.1 million (2021: \$25.0 million) and included a non-cash loss of \$5.2 million (2021: gain of \$0.01 million) from the translation of the holding company's financial statements from Australian dollars (AUD) to United States dollars (USD) presentation currency due to the weakening of the AUD against the USD during the interim financial period.

#### Statement of financial position

Total assets of the consolidated entity as at 30 June 2022 were \$580.5 million (31 December 2021: \$428.9 million).

The net increase in Cash and Cash Equivalents and working capital is a result of the net proceeds received from the institutional placement and retail entitlement offer, offset by operating cash outflow from the Balama operation and ongoing development of the Vidalia Initial Expansion project.

#### SYRAH RESOURCES LIMITED ABN 77 125 242 284 INTERIM REPORT FOR THE HALF-YEAR ENDED 30 JUNE 2022

Current Trade and Other Receivables were higher at \$15.7 million as at 30 June 2022 (31 December 2021: \$7.9 million) with an increase in Trade Receivables to \$7.6 million as at 30 June 2022 (31 December 2021: \$4.3 million) and an increase in Prepayments to \$7.3 million (31 December 2021: \$2.9 million).

Inventories were \$28.0 million as at 30 June 2022 (31 December 2021: \$20.4 million).

Property, Plant and Equipment as at 30 June 2022 was \$208.3 million (31 December 2021: \$180.5 million), mainly due to capital expenditure for Balama Tailing Storage Facility Cell 2 and the capitalisation of costs associated with the Vidalia Initial Expansion project, offset by depreciation of the assets during the interim financial period.

Mining Assets decreased during the interim financial period to \$124.6 million as at 30 June 2022 (31 December 2021: \$132.8 million) mainly due to reduction of rehabilitation provision of \$6.5m and amortisation on Mining Assets of \$1.7 million.

Non-Current Trade and Other Receivables increased during the interim financial period to \$9.8 million as at 30 June 2022 (31 December 2021: \$8.0 million) with the balance principally comprising Input Tax Credits (Value Added Tax) paid in Mozambique. An amount of \$3.1 million was recovered during the interim period (12 months to 31 December 2021: \$1.2 million). In 2021, the Company determined that there was some doubt relating to the recoverability of input tax credits at Twigg prior to 2017. As a result, a provision of \$0.8 million for impairment of input tax Credits was recognized in 2021. The Group continues to engage with relevant authorities in Mozambique to progress the recovery process.

The consolidated entity had total liabilities of \$126.5 million as at 30 June 2022 (31 December 2021: \$136.4 million), which included Trade and Other Payables of \$18.6 million (31 December 2021: \$19.6 million); a provision for decommissioning and rehabilitation of Balama of \$8.5 million (31 December 2021: \$15.0 million); a provision for Balama community development of \$10.4 million (31 December 2021: \$11.3 million); Non-Current Borrowings for Convertible Notes of \$69.1 million (31 December 2021: \$69.9 million) and Lease Liabilities of \$15.7 million (31 December 2021: \$16.2 million).

#### Statement of cash flows

#### Cash flow from operating activities

Net cash outflow from operating activities during the interim financial period ended 30 June 2022 was \$22.8 million (2021: \$15.8 million) and principally consisted of receipts from the sale of natural graphite products, offset by payments relating to expenses from operating Balama, as well as corporate office, compliance and other employee benefits expenses.

#### Cash flow from investing activities

Net cash outflow from investing activities during the interim financial period ended 30 June 2022 was \$35.6 million (2021: \$7.8 million) and principally consisted of payments for development of the Vidalia Initial Expansion project and capital expenditure for Balama Tailing Storage Facility Cell 2.

#### NOTE 1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

#### (a) Basis of preparation

The condensed consolidated interim financial report for the half-year reporting period ended 30 June 2022 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This condensed consolidated interim financial report does not include all the notes of the type normally included in an Annual Financial Report. Accordingly, this report is to be read in conjunction with the Annual Report for the year ended 31 December 2021 and any public announcements made by Syrah during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

#### (b) Significant accounting policies

The accounting policies, methods of computation and areas of critical accounting judgements, estimates and assumptions are the same as those adopted in the most recent Annual Financial Report for the year ended 31 December 2021 unless otherwise stated in this report.

No new or amended accounting standards and interpretations became applicable for the current reporting period which had an impact on the Group's accounting policies.

#### (c) Comparative figures

Where necessary, comparative figures have been adjusted to conform to changes in the presentation in the current period.

#### NOTE 1. BASIS OF PREPARATION AND ACCOUNTING POLICIES (CONTINUED)

#### (d) Liquidity and capital management

Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding, and the ability to close out market positions. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

As of 30 June 2022, the Group had a Cash and Cash Equivalents balance of \$168.1 million which it believes is sufficient to meet its obligations and continue its current business activities. Balama has continued rampup during H1 2022 and has now produced an average of 15kt/month of graphite concentrate during the reporting period, with production levels only limited by external shipping challenges. Shipping challenges are seen as a temporary challenge and are expected to improve in the near term, assisted by bulk shipping options implemented, improvements at the Port of Nacala, and improvement in global shipping conditions.

The Group completed an institutional placement and pro rata accelerated non-renounceable entitlement offer for approximately A\$250 million (US\$180.7 million) to: 1) fully fund remaining estimated installed capital costs for the Vidalia Initial Expansion project, 2) fund estimated costs associated with Vidalia operations, expansion studies and product development, 3) pay the transaction costs of the offer and 4) fund Balama Tailing Storage Facility expansion and sustaining capital costs, Balama working capital and for general corporate purposes. Subsequent to the end of the interim financial period, Syrah entered into binding loan documentation for a loan facility up to US\$102 million from DOE to Syrah Technologies, LLC.

The Company may require additional financing, in addition to existing cash reserves, to meet activities associated with the Vidalia Initial Expansion project, operating and capital expenditure requirements for Balama, and general and administrative expenditures. In addition, the effects of COVID-19 on our business and the markets in which we operate could have further impacts on the Group's Liquidity risk, and we continue to assess possible scenarios representing a broad range of factors. The Directors have determined that the Group has adequate cash resources to meet its obligations and continue its business activities in all scenarios that they consider reasonably possible.

Based on the initiatives noted, the Company believes that it can meet its debts and obligations as and when they fall due and accordingly has adopted the going concern basis of accounting in the preparation of these financial statements.

#### **NOTE 2. SEGMENT INFORMATION**

The Group assesses the functional currency of each entity in the consolidated group when there are changes in circumstances that could result in a change in the currency that predominantly influences the economic results of each respective entity. With effect from 1 January 2017, the functional currency of Twigg Exploration and Mining Limitada was changed from Mozambique Meticals (MZN) to the United States Dollar (USD) on the basis that the USD is the currency that predominantly influences the revenues, expenditures and financing activities of this entity going forward.

#### Share-based payments reserve

The share-based payments reserve is used to recognise the fair value of equity benefits and equity- settled contractual obligations issued by the Company.

#### (c) Non-controlling Interest

In accordance with the obligations imposed on Group's subsidiary Twigg Exploration and Mining Limitada under the Mining Agreement with the Mozambique Government, Syrah completed the transfer of 5% quota holding in Twigg Exploration and Mining Limitada to EMEM.

The transaction was accounted for under AASB 2 *Share-based payment* and measured at fair value when the agreement was entered into in 2018. In 2021, the shares were transferred to EMEM at which point the share-based payment reserve was transferred to non-controlling interest.
