## CHAIRMAN'S LETTER

Dear Shareholders,

I am delighted with the progress made by our Company over the past year. Whilst we are still in our relative early stage, the Company is maturing quickly and certainly on track. We have consolidated our position as one of the key players in the emerging West Yilgarn province and opened the door to another underexplored frontier in the West Musgrave.

The foundations for exploration success have been laid. We have built a talented and enthusiastic team of geoscience professionals, supported by a cohesive board and key investors with a long-term vision, applying first-class exploration to some of the most prospective tenure in the country. These three essential elements make our Company a compelling investment proposition as we unfold the Caspin story.

We have made significant progress at our flagship Yarawindah Brook Project over the past 12 months. Whilst we still consider exploration to be at an early stage, the project has grown from a speculative opportunity to more tangible prospects of economic mineralisation. Most notably, we have recently received our best results to date from the newly proclaimed Serradella Prospect which demonstrates that our methodical and disciplined approach to exploration over the past 18 months is beginning to pay dividends. We believe we may be on the cusp of a significant discovery.

Simultaneously, we have opened a second exploration front at our Mount Squires Project, completing an initial phase of drilling at the Duchess Prospect and project-wide soil geochemistry. The West Musgrave Province is highly prospective, yet grossly under-explored and therefore presents worthy potential for companies like Caspin that can operate in these remote parts of Western Australia. Initial results from the Duchess Prospect provide evidence of base and precious metal mineralisation which gives us confidence to continue with a second phase of drilling during the coming year. Much like other junior explorers, we have been exposed to the overall negative sentiment in global capital markets over past year. Share markets have been volatile, but for the reasons mentioned above, the underlying value of our Company has continued to improve during the past year. Furthermore, the demand for the commodities that we seek are most likely to grow as the push for electrification and decarbonisation continues. We are confident that we can deliver increasing shareholder value over the coming years as we diligently build the company around sought after commodities.

I would like to once again acknowledge the communities in which we operate, the farming communities of Chittering and Victoria Plains and the aboriginal communities of the Yued Agreement Area and Ngaanyatjarra Lands. We aim to be a trusted partner and contributor to the success of these regional communities and thank the many people who have helped us along the way.

Finally, I would also like to thank my fellow board members for their contribution over the past year and of course our management team, led by Chief Executive, Greg Miles.

We look forward to another exciting year ahead.

Maurenon

Cliff Lawrenson Chairman

Caspin's principal activities during the financial year focussed on advancing the Company's two project areas, the 80% owned Yarawindah Brook Project and the 100% owned Mount Squires Gold Project.

### Yarawindah Brook Project

The Yarawindah Project is located approximately 20km south of New Norcia, 100km northeast of Perth, Western Australia. Caspin owns 80% of the project including five granted exploration licenses and two exploration license applications. The West Yilgarn region is an exciting new mineral province demonstrated by the recent delineation of the world-class Gonneville PGE-Ni-Cu Deposit by Chalice Mining Limited, only 40km to the south.

The Company has been active on several exploration fronts across the project, but most importantly made a significant discovery at what is now known as the Serradella Prospect. The prospect, formerly known as XC-22 after an airborne electromagnetic (AEM) conductor, is located at the northern margin of the Yarabrook Hill Intrusion, the initial area targeted by Caspin. Drill hole YARC0022 was the first hole to test the AEM anomaly and intersected a sulphide zone over 60m thick from immediately beneath the fresh rock interface, only 46m down hole (Figure 1). Within the sulphides zone were two distinct mineralisation zones:

- 2m @ 1.42% Ni, 0.47% Cu and 0.33g/t 3E (Pd+Pt+Au) from 46m; and
- 13m @ 1.08g/t 4E (Pd+Pt+Rh+Au), 0.26% Ni & 0.21% Cu from 101m, including 2m @ 3.29g/t 4E, 0.23% Ni & 0.09% Cu.

The lower PGE zone includes the Company's first-ever extended assaying of the full 6-element PGE suite at Yarawindah Brook, which consists of iridium (Ir), osmium (Os), rhodium (Rh) and ruthenium (Ru), as well as platinum and palladium. This analysis has returned significant grades of rhodium associated with the already recognised platinum and palladium mineralisation, with a peak value of 465ppb Rh. Grades greater than 100ppb, or 0.1g/t, are considered highly significant. The Company is extremely encouraged that its first-ever assaying of rhodium has returned such significant results and prompted a broader re-sampling program of current and historical drilling results.

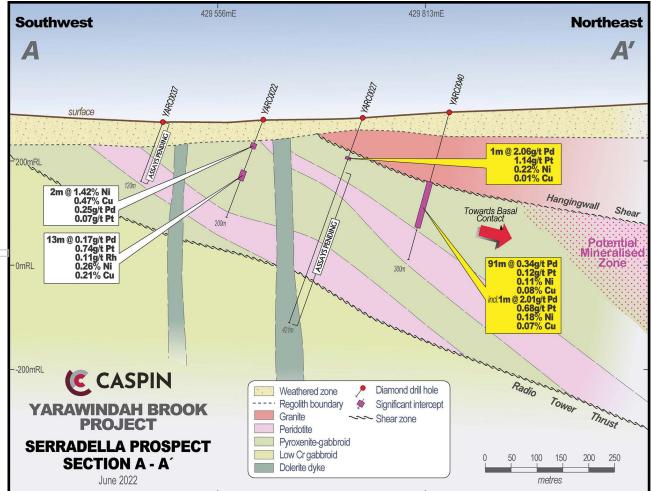

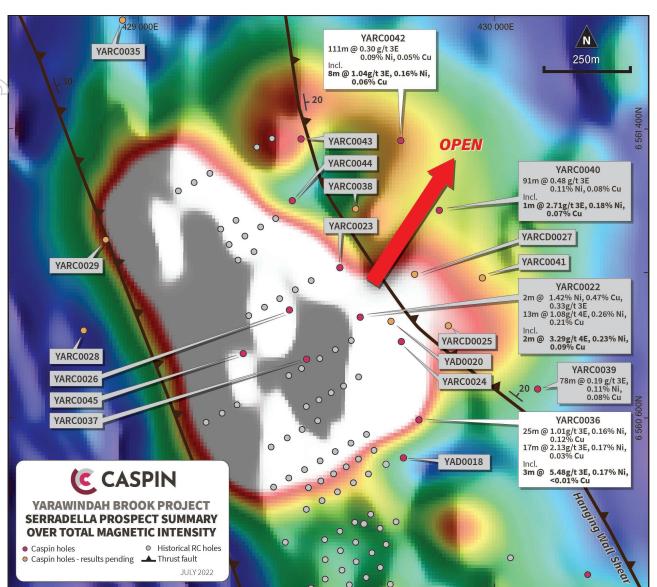

Figure 1. Geological section showing significant intercepts in discovery hole YARC0022 and surrounding drill holes.

**Figure 2.** Serradella Prospect drill hole locations over magnetics, highlighting recent significant results. The arrow demonstrates the direction of the conceptually more prospective parts of the intrusion. This figure also shows there are many holes still to be returned (orange dots).

Since the initial discovery, the Company has drilled a further eighteen holes at Serradella, typically on 200m-spaced centres over a strike of at least 1km. The focus was a strong magnetic anomaly in the area, indicating likely high-MgO ultramafic rocks, which are considered to have an important association with mineralisation (Figure 2).

The most significant result to date was returned just after the reporting period. Drill hole YARC0036 returned two excellent, wide mineralised zones of:

- 25m @1.01g/t 3E (Pt+Pd+Au), 0.16% Ni & 0.10% Cu from 55m; and
- 17m @ 2.13g/t 3E, 0.17% Ni & 0.03% Cu from 131m including 3m @ 5.48g/t 3E, 0.17% Ni &<0.01% Cu.</li>

YARC0036 is located in a poorly drilled part of the prospect except for several shallow holes in the up-dip position, including some of the best historical intersections in the project (Figure 3). Examples of significant historical intercepts include 29m @ 1.49g/t 3E (oxide) in YBR089, 17m @ 1.03g/t 3E (oxide) and 2m @ 5.33g/t 3E (likely sulphide) in YBR088 (note all historical results have been previously disclosed on 30 March 2021). Therefore, this area may yet prove to be the most important part of the prospect. Mineralisation is not constrained at all along strike to the southeast.

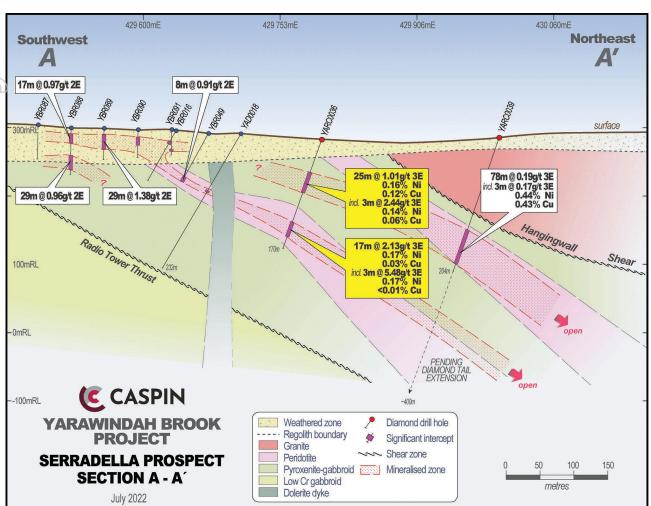

Figure 3. Geological section showing the relationship of YARC0036 to YARC0039 and historical drilling at the Serradella Prospect.

There are multiple mineralised zones now starting to be recognised at Serradella which have good continuity over several hundreds of metres and are open in multiple directions. YARC0036 has also demonstrated that YARC0039 did not drill deep enough to intersect the lower high-grade zone of mineralisation in YARC0036 and therefore mineralisation remains open down dip. YARC0039, and likely several other holes from the past program, will also need to be extended with diamond tails.

Notwithstanding the excellent results from YARC0036, the Company has also developed a conceptual target and a vector to potentially stronger mineralisation (Figure 4). This model is based on the following key geological observations:

- The Yarabrook Intrusion has been recognised to be overturned (or downward facing). Therefore, the basal position of the intrusion, usually the more prospective position for the accumulation of sulphides, is predicted to be found in the structural upper-most part of the intrusion.
- Geological units within the intrusion dip gently to the northeast.

- The Yarabrook Intrusion at Serradella is bounded on its eastern (structural hanging-wall side) by a zone of shearing that is interpreted to be a thrust-fault. This structure is referred to as the Hanging Wall shear zone and juxtaposes granitoid over the top of the Yarabrook intrusion. The effect of this structural geometry is that a relatively shallowly dipping sheet of granitoid conceals the Yarabrook intrusion as it plunges away to the north east.
- The intrusion is completely open below this Hanging Wall shear zone. Very importantly, however, the Hanging Wall Shear Zone truncates the intrusion at an orientation that is oblique to, and at a shallower angle than, the internal igneous stratigraphy of the intrusion. The means that as drilling steps out down-plunge to the north east, progressively lower stratigraphic units of the Yarabrook Intrusion are intersected.
- Importantly, the Hanging Wall Shear is locally mineralised. This suggests the possibility that this mineralisation is sourced from a down-plunge mineralised body that has not yet been intersected.

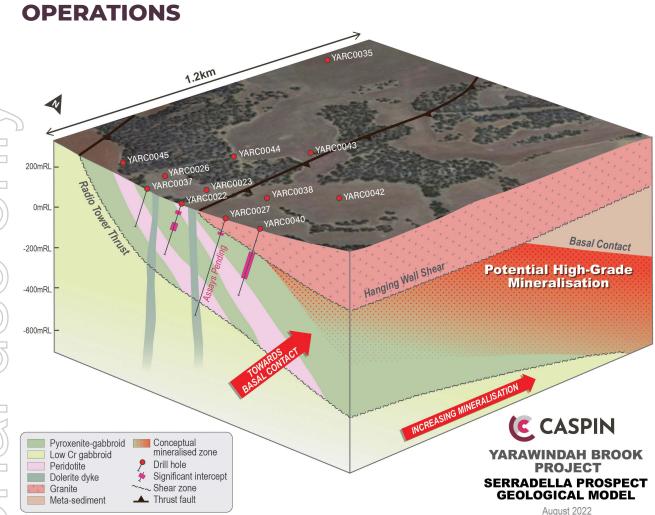

Figure 4. Serradella Prospect 3D geology model, demonstrating the conceptual target for further drill testing.

Assays from two of the larger down-dip step-out holes in the northeasterly direction contemplated by this model have returned some of the largest metal accumulations to date. Of particular note is YARC0040 which returned 91m @ 0.48g/t 3E (Pd+Pt+Au), including 2m @ 1.04g/t 3E, 0.22% Ni & 0.48% Cu from 149m, 3m @ 0.97g/t 3E, 0.25% Ni & 0.35% Cu from 213m and 1m @ 2.71g/t 3E, 0.18% Ni & 0.07% Cu from 232m. This hole is 350m to the northeast of the discovery hole at Serradella, YARC0022.

Approximately 230m away to the northwest, YARC0042 has returned a broad anomalous zone of 111m @ 0.30g/t 3E, 0.09% Ni & 0.05% Cu from 71m including 8m @ 1.04g/t 3E, 0.16% Ni & 0.06% Cu, further supporting the model. It should be noted that a significant high-grade body of mineralisation could easily be hidden between these holes given these systems can have rapid tenor changes over short distances.

Results from YAD0019 have been received showing broad zones of PGE, nickel and copper anomalism with narrow higher-grade zones, as predicted from visual observations. Anomalous PGE, nickel and copper mineralisation was returned over widths of 120m. YAD0019 was a deep stratigraphic diamond hole, part-funded by the WA government Exploration Incentive Scheme, designed to provide a better understanding of the Yarabrook Intrusion architecture rather than directly targeting economic mineralisation. The Company is continuing to evaluate and interpret the large volume of data that was obtained from this drill hole.

Whilst the immediate focus will continue to be at the Serradella Prospect, the Company recognises the potential of the entire tenement package that has mostly never seen any form of modern exploration, especially for PGEs, nickel and copper. To this end the Company completed a gradient gradiometry survey across the tenement package. In simple terms, the survey measures the density of rocks and enables the Company to quickly map the more dense rocks, which are more likely to be prospective for PGE-Ni-Cu mineralisation.

It was through this survey that the true extent of the Yarabrook Hill intrusion was able to be determined. The Yarabrook Hill intrusion which is much larger than previously mapped or drill tested, covering a surface extent of at least 8km2, whilst the area of mapping and current exploration at the time was only 2km2 with most drilling to relatively shallow depths. The survey provides an excellent dataset to complement the other geophysical datasets over the entire project, being magnetics and electromagnetics (Figure 5). The survey made an immediate impact identifying the Serradella Prospect as having similar geophysical characteristics to Chalice Mining's Gonneville intrusion. The large coincident AEM anomaly (XC-22) also enhanced the Serradella Prospect as a target.

**REVIEW OF** 

Geochemical soil sampling is progressing across farms and bushland as access agreements are put in place. Soil geochemistry is an essential tool for discovery of low-sulphide, PGE-rich styles of mineralisation which may not respond to any form of EM technique. Further, it provides a method for distinguishing potentially mineralised sulphide bodies from barren sulphide bodies, in similar weathering conditions.

Within the broader project area the Company recognises the potential for mineralisation along the Brassica Shear Zone.

The shear zone is defined by a belt of structurally dislocated lenses of mafic-ultramafic intrusive rock that is likely the extension of the Julimar intrusive complex to the south, with mineralisation potentially remobilised along this shear zone (Figure 6). Previous work in 2021 (and earlier) along the trend has focused on individual and isolated AEM anomalies (XC-05, XC-06 and XC-29) which collectively make up only a tiny fraction of the broader ~17km long Brassica Shear Zone.

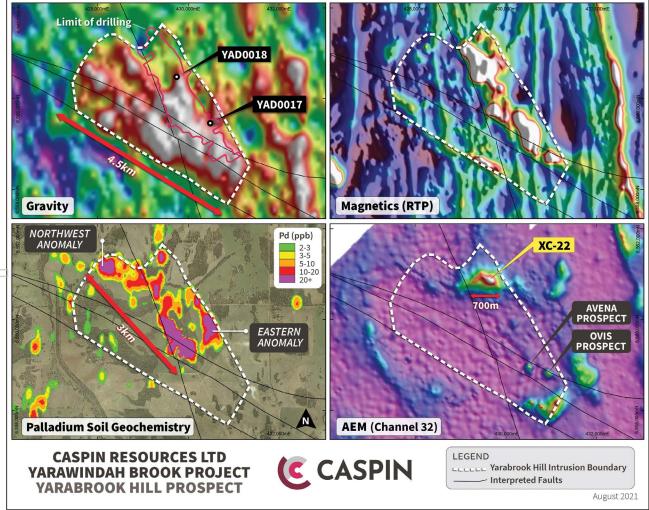

Figure 5. Comparison of exploration datasets over the Yarabrook Hill area.

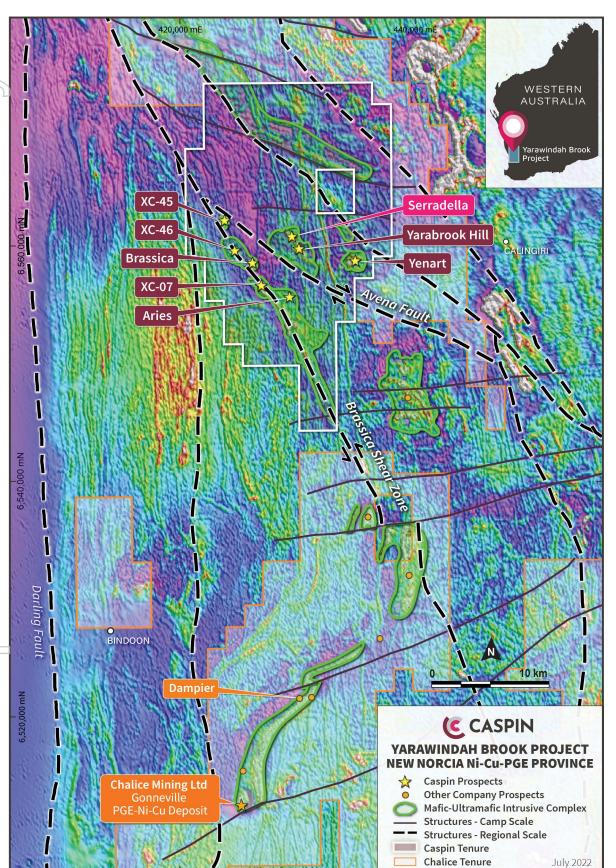

Figure 6. Regional structural interpretation showing the relationship between the Gonneville Intrusive Complex and Yarawindah Brook Project and prospects.

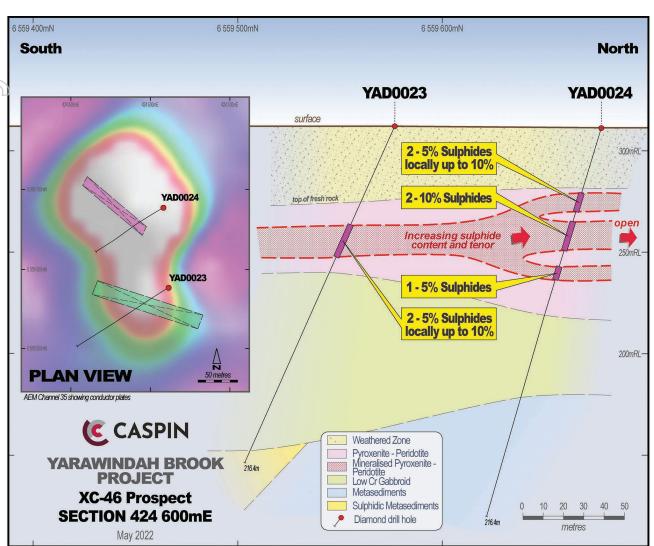

Figure 7. Interpreted long-section at XC-46 showing zones of observed sulphides in YAD0023 & YAD0024.

Importantly, this wider trend remains almost entirely untested by modern drilling or deep sensing ground based electromagnetic (EM) surveys. Whilst AEM surveys have been very successful in identifying sulphide bodies to date, these have all been located immediately below the weathering zone and likely indicating an effective survey depth of only 100m, or possibly 150m at a maximum. High-powered ground EM could be utilised to explore below this depth.

The XC-46 anomaly (and nearby XC-45 anomaly) was identified on the Brassica Shear Zone during the December 2021 AEM survey. The anomaly is a strong late-time anomaly with continuity across multiple survey lines over 200m. Ground electromagnetics confirmed two discrete conductive plates (XC-46a & XC-46b) at the anomaly. A single hole was drilled through each plate for a total of 432.8m (Figure 7). The northernmost hole, YAD0024, drilled the south-eastern edge of modelled plate (XC-46b) and intersected three main zones of blebby to stringer and shear style magmatic sulphide mineralisation spanning intermittently over 48.5m from 36.9m to 85.4m downhole. Minor nickel and copper sulphides were observed amongst more abundant iron sulphides, with total sulphide content locally up to 10% (Figures 1 – 3). The Company is eagerly awaiting the results from assaying.

NSA = No significant assay.

### **Mount Squires Project**

The Mount Squires Project lies within the West Musgrave region of Western Australia and is 100% owned by Caspin. Mount Squires is a large scale, greenfield-style gold and base metal project. Gold mineralisation was first identified at the Handpump Prospect by Western Mining Corporation (WMC) during geochemical surveying in the late 1990's.

Previous soil geochemistry by the Company has identified a zoned molybdenum (Mo) – lead (Pb) – copper (Cu) – gold (Au) anomaly covering an area of at least 2km2, approximately 4km southeast of the Handpump Prospect, referred to as the Duchess Prospect (Figure 9). The element zonation of the anomaly is characteristic of deeply weathered porphyry copper systems in which copper (Cu), gold (Au) and lead (Pb) are usually strongly leached, whilst more immobile elements such as molybdenum (Mo) remain in-situ, proximal to mineralisation in the core of the system.

By the end of the reporting year, the Company had completed the first part of a reconnaissance aircore program over the Duchess Prospect comprising 81 holes for 2,394m. Most of the drilling was on very broad 400m x 200m centres. The program focussed on the core molybdenum geochemical anomaly but also extended over 7km of strike across the broader zinc, copper, gold and lead soil anomaly. Field mapping and sampling was conducted alongside the drilling program. Drilling activities were co-funded by the State Government and DMIRS supported Exploration Incentive Scheme, Round 25, co-funded exploration drilling initiative. Shortly after the end of the reporting period, results were received from the first batch of 31 rock chip samples collected during mapping as well as the "bottom of hole" samples from the 81 holes completed. Bottom of hole samples should be considered as a single point, basement geochemical sample, with the remainder of samples from every drill hole still to be returned.

A highlight of these early results is a rock chip sample returning 2.46g/t Au and 49.7g/t Ag from a patchy outcrop covering approximately 20m2, comprising a felsic volcanoclastic rock with breccia-style quartz veins at the western margin of the Duchess Prospect (Figure 8). Outcrop in the area is very limited and obscured by alluvial cover to the immediate north, therefore, the extent of the mineralised vein sets is unknown.

Nearby aircore drill holes over two lines also returned bottom of hole results >1g/t Ag within a broader zone of coherent silver >0.5 g/t and gold >0.2 g/t mineralisation with at least 500m of strike (Figures 9&10). This zone is effectively open (under alluvial cover) all the way to the Handpump Prospect, 2km to the north which has previously returned significant gold results such as 15m @ 2.30g/t Au. Previous drilling at Handpump demonstrated only very weak silver anomalism. Therefore, this silver mineralisation appears to be a new mineralisation style associated with the Duchess Prospect.

Figure 8. Mineralised vein outcrop at the Duchess Prospect assaying 2.46g/t Au and 49.7g/t Ag.

MSGB0003

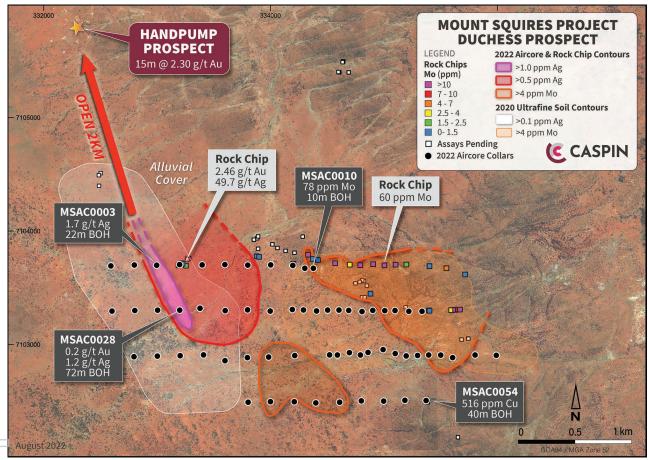

Figure 9. Duchess Prospect rockchip, aircore and soil anomalies.

Anomalous molybdenum rock chip values up to 60ppm have also been returned from rhyolitic outcrops and broadly correlate with the core of the molybdenum soil anomaly in the eastern margin of the Duchess Prospect. Anomalous molybdenum bottom of hole samples have also been returned from the eastern side of the prospect with a peak result of 78ppm from the last hole on the line, leaving mineralisation open to the east. Molybdenum is sometimes found as an accessory metal in felsic intrusive and epithermal mineralisation styles and the occurrences found at the Duchess Prospect provide further evidence of mineralising processes in the area.

Anomalous bottom of hole copper values of 516ppm associated with felsic rocks were also identified nearby at the end of a drill line with anomalism open to the east. Whilst this is a very small amount of early data, considering the full drill results are still to be returned as well as another 120 rock chip samples, there is clearly separate gold-silver and copper-molybdenum mineralisation trends emerging at the prospect. Drilling and rock chip results have confirmed and upgraded the soil anomalies identified in 2021 and demonstrated the potential for the Duchess Prospect to host a significant multi-commodity deposit.

A soil sampling program covering large portions of the project has also been completed with 2,628 soils submitted for UltraFine analysis. Results will assist targeting and further drilling activities.

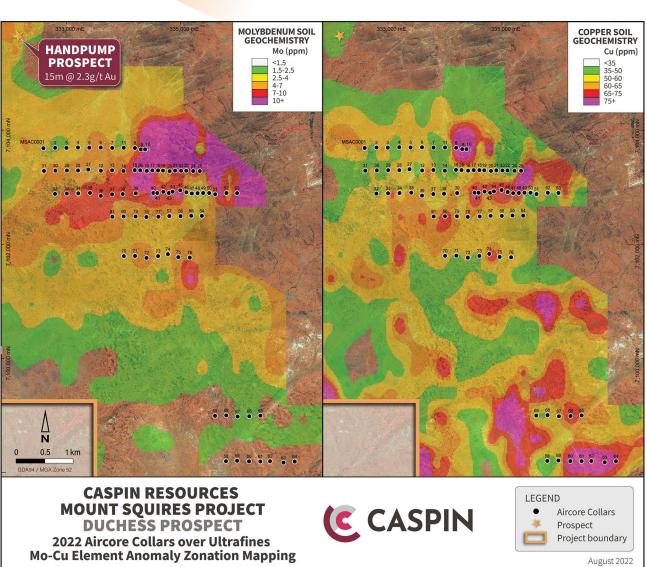

Figure 10. Duchess Prospect aircore drill collars over molybdenum (left) and copper (right) ultrafine soil anomalies.

### TABLE 2: AIRCORE COLLAR AND ASSAYS

(Note: All drillholes are vertical (Azimuth: 0°, Dip: -90). All assays represent the final metre of sampling (ie from 81 to 82m EOH)

### **Competent Persons Statement**

The information in this report that relates to Exploration Results is based on information compiled or reviewed by Mr Greg Miles, who is an employee of the company. Mr Miles is a Member of the Australian Institute of Geoscientists and has sufficient experience of relevance to the styles of mineralisation and the types of deposits under consideration, and to the activities under-taken, to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Miles consents to the inclusion in this report of the matters based on information in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affects the Exploration Results information included in this report (including drill results extracted from the Company's Prospectus announced to the ASX on

23 November 2020) and that all material assumptions and parameters underpinning Exploration Results, as reported in the market announcements dated 30 March 2021, 28 April 2021, 16 June 2021, 5 July 2021, 19 August 2021, 26 November 2021, 24 January 2022, 9 February 2022, 7 March 2022, 14 March 2022, 23 March 2022, 2 May 2022, 27 July 2022 and 3 August 2022 continue to apply and have not materially changed.

Your Directors present the following report on Caspin Resources Limited and its controlled entities (referred to hereafter as "the Group") for the year ended 30 June 2022.

### Directors

The persons who were Directors of Caspin Resources Limited during the reporting period and up to the date of this report are:

| NAME                               | POSITION                | APPOINTMENT/RESIGNATION DATE                        |
|------------------------------------|-------------------------|---|
| Mr Mark Clifford (Cliff) Lawrenson | Non-Executive Chairman  | Appointed on 2 October 2020                         |
| Dr Jonathan (Jon) Hronsky          | Non-Executive Director  | Appointed 17 June 2020                              |
| Ms Sze Man (Simone) Suen           | Non-Executive Director  | Appointed 2 October 2020                            |
| Mr Justin Tremain                  | Non-Executive Director  | Appointed on 2 October 2020                         |
| Mr Greg Miles                      | Chief Executive Officer | Appointed Chief Executive Officer on 1 October 2020 |

### **Chief Executive Officer**

Mr Gregory (Greg) Miles (appointed on 1 October 2020)

### **Chief Financial Officer and Company Secretary**

Mr Steven Wood (appointed on 17 June 2020)

### **Principal Activities**

During the year the principal activities of the Group consisted of:

- a) Identification and assessment of commercially attractive resource exploration projects;
- b) Acquisition of commercially attractive resource exploration projects; and
- c) Exploration and development of Caspin's portfolio of tenements and projects.

There were no significant changes in the nature of the activities of the Group during the year.

### Dividends

There were no dividends paid or proposed during the year (30 June 2021: nil).

The Consolidated Statement of Profit or Loss and other Comprehensive Income shows a net loss from continuing operations attributable to owners of \$6,427,206 for the financial year ended 30 June 2022.

### Significant Change in State of Affairs

There were no significant changes in the state of affairs of the Group during the year.

| Matters Subsequen | t to Reporting Date   |
|-------------------|---|
| DATE              | DETAILS   |
| 7 July 2022       | The Company announced assay results from five RC holes, plus another two RC pre-collars at the Serradella Prospect (XC-22 Prospect), at Yarawindah Brook in WA.                     |
| 27 July 2022      | The Company announced new assay results from the Serradella Prospect, and the latest result confirm a significant PGE discovery at Serradella within an emerging PGE-Ni province.   |
| 3 August 2022     | The Company announced the first batch of rock chip results from field mapping and air core drilling results from the Duchess Prospect at the Company's Mount Squires Project in WA. |
| 31 August 2022    | The Company announced the commencement of an airborne survey at the Mount Squires Project, targeting a Ni-Cu corridor.  |
| 15 September 2022 | The Company announced wide zones of high grade rhodium results at the Serradella PGE Discovery, including significant rhodium mineralisation in multiple holes.                     |

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future years.

### Likely developments and expected results of operations

The Group will continue its mineral exploration and development activity at and around its projects with the object of identifying commercial resources.

The Group will also continue to identify and assess potential acquisitions suitable for the Group.

### **Environmental Regulation**

The Group is subject to significant environmental regulation in respect of mineral exploration activities.

The Group operates within the resources sector and conducts its business activities with respect for the environment while continuing to meet the expectations of the shareholders, employees and suppliers. The Company's exploration activities are currently regulated by significant environmental regulation under laws of the Commonwealth and states and territories of Australia. The Group aims to ensure that the highest standard of environmental care is achieved, and that it complies with all relevant environmental legislation.

The Directors have considered the National Greenhouse and Energy Reporting Act 2007 (the NGER Act) which introduced a single national reporting framework for the reporting and dissemination of information about the greenhouse gas emissions, greenhouse gas projects, and energy use and production of corporations. At the current stage of development, the Directors have determined that the NGER Act will have no effect on the Group for the current, or subsequent financial year. The Directors will reassess this position as and when the need arises.

The Directors are mindful of the regulatory regime in relation to the impact of the exploration activities on the environment.

There have been no known breaches by the Group during the year.

### **Information on Directors**

The names of the directors of Caspin who held office during the financial year and at the date of this report are:

### Mr Cliff Lawrenson

### Non-Executive Chairman

*Qualifications* BCom (Hons)

Appointed Non-Executive Chairman since 2 October 2020

#### Experience

Mr Lawrenson has over 10 years' experience as a Non-Executive Chairman and Non-Executive Director in both public and private companies. He is currently Non-Executive Chairman of Paladin Energy Ltd (ASX: PDN), Non-Executive Director of Australian Vanadium Limited (ASX: AVL), and Non-Executive Chairman of privately-owned Pacific Energy Limited and Onsite Rental Group.

Mr Lawrenson was Managing Director of Atlas Iron Ltd from 2017 and led the company to its acquisition by Hancock Prospecting Pty Ltd. Prior to Atlas Iron, Mr Lawrenson was Managing Director of a number of ASX listed companies in the mining and mining services sectors. Mr Lawrenson was a senior executive of CMS Energy Corporation in the United States of America and Singapore and this was preceded by an investment banking career.

Interest in Shares and Options 1,270,000 Ordinary fully paid shares 500,000 Options

#### Other current directorships

Non-Executive Chairman: Paladin Energy Limited (ASX: PDN) Non-Executive Chairman: Australian Vanadium Limited (ASX: AVL)

Non-Executive Chairman of privately-owned Pacific Energy Limited and Onsite Rental Group

Former directorships held in past three years

Non-Executive Chairman: Pacific Energy Limited (ASX: PEA) resigned 18 November 2019

Non-Executive Director: Primero Group Limited (ASX: PGX) resigned 9 March 2020

Non-Executive Chairman: of Canyon Resources Limited (ASX: CAY) resigned 8 August 2022

#### **Dr Jon Hronsky OAM** Non-Executive Director

*Qualifications* BAppSci, PhD, MAIG, FSEG, MAusIMM

Appointed Non-Executive Director since 17 June 2020

#### **Board Committees**

Member of the Risk & Audit Committee Member of the Nomination & Remuneration Committee Member of the Technical and ESG Committee

#### Experience

Dr Hronsky has 35 years of experience in the mineral exploration industry, primarily focused on project generation, technical innovation and exploration strategy development. Dr Hronsky has particular experience in gold and nickel sulphide deposits but has worked across a diverse range of commodities. He was responsible for conceptually targeting the West Musgrave nickel sulphide province in Western Australia.

Dr Hronsky is one of the Principals at Western Mining Services, a global geological consultancy and also an Adjunct Professor at the Centre for Exploration Targeting at UWA. Jon is also a Non-Executive Director of Encounter Resources (ASX: ENR), and is General Partner - Global Targeting and Research at Ibaera Capital. Previously, he was Manager-Strategy & Generative Services for BHP Billiton Mineral Exploration and was Global Geoscience Leader for WMC Resources Ltd.

*Interest in Shares and Options* 910,956 Ordinary fully paid shares 400,000 Options

#### Other current directorships

Non-Executive Director: Encounter Resources Limited (ASX: ENR)

Chairman: Chairman of the Board of Management of the Centre for Exploration Targeting at UWA

Former directorships held in past three years Non-Executive Director: Cassini Resources Ltd (ASX: CZI) resigned on 1 October 2020.

### **Ms Simone Suen**

Non-Executive Director

*Qualifications* BBus

Appointed Non-Executive Director since October 2020

Board Committees Member of the Risk & Audit Committee Member of the Nomination & Remuneration Committee Member of the Technical and ESG Committee

#### Experience

Ms Sze Man Suen (Simone) is a highly credentialed company director with a Bachelor of Business and over 20 years' experience predominantly in the resources industry in Australia and internationally. Simone held the position of Executive Director between 2010 and 2018 at Alliance Mineral Assets Limited (Alliance) where she procured, mobilised and organised staff and resources for the development, commissioning and operations of the Bald Hill Tantalum/ Lithium Project in Western Australia. Alliance successfully listed the project onto the Singapore Exchange Securities Trading Limited in 2014. Simone brings to Caspin a wealth of experience in financing, business development and marketing of early-stage mining projects, particularly in Asian markets.

*Interest in Shares and Options* 4,244,250 Ordinary fully paid shares 400,000 Options.

Other current directorships Non-Executive Director: N/A

Former directorships held in past three years Non-Executive Director: Cassini Resources Ltd (ASX: CZI) resigned on 1 October 2020.

### Mr Justin Tremain

Non-Executive Director

*Qualifications* BCom

Appointed Non-Executive Director since 2 October 2020

#### **Board Committees**

Member of the Risk & Audit Committee Member of the Nomination & Remuneration Committee Member of the Technical and ESG Committee

#### Experience

Mr Tremain is an experienced Company Director with extensive experience across the mineral resources sector. He was previously the Managing Director of Exore Resources Ltd which was acquired by Perseus Mining Ltd via a Scheme of Arrangement during September 2020. Prior to Exore, Mr Tremain founded Renaissance Minerals Ltd (Renaissance) in June 2010 and served as its Managing Director until its takeover by Emerald Resources NL in November 2016. During that time, Mr Tremain oversaw Renaissance's growth as first mover into the frontier jurisdiction of Cambodia and successfully defined a highly economic +1 million ounce

JORC gold resource and completion of a feasibility study.

Mr Tremain held the position of Executive Director at Emerald Resources NL until his role with Exore. Prior to founding Renaissance Minerals Ltd, he had over 10 years' investment banking experience in the natural resources sector.

*Interest in Shares and Options* 1,030,000 Ordinary fully paid shares 400,000 Options

Other current directorships Managing Director: Turaco Gold Limited (ASX: TCG) Non-Executive Director: Future Metals Limited (ASX: FME)

Former directorships held in past three years Managing Director – Exore Resources Ltd (ASX: ERX) resigned on 25 September 2020. Non-Executive Director – Fin Resources Limited (ASX: FIN) resigned on 29 June 2020 Non-Executive Director – Odin Metals Limited (ASX: ODM) resigned on 26 June 2020 Non-Executive Director – Carnaby Resources Limited

(ASX: CNB) resigned on 12 March 2020

### **DIRECTOR MEETINGS**

The number of directors' meetings and number of meetings attended by each of the directors of the Company during the period are:

<sup>1</sup>Refer to Note 16 for details of these performance rights.

No options granted during the year as share-based payments.

### **Insurance of Officers**

During the year, Caspin Resources Limited paid a premium to insure the directors and secretary of the Group.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings. This does not include such liabilities that arise from conduct involving a willful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for them or someone else or to cause detriment to the Group. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

### Proceedings on behalf of the group

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Group, or to intervene in any proceedings to which the Group is a party, for the purpose of taking responsibility on behalf of the Group for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Group with leave of the Court under section 237 of the *Corporations Act 2001*.

### **Non-audit services**

The Group may decide to employ its auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Group is important.

Details of the amounts paid or payable to the auditor for audit and non-audit services provided were disclosed in Note 21. The total amounts paid or payable was \$47,253 for the year ended 30 June 2022 (2021: 32,200). The Board of Directors has considered the position and is satisfied that the provision on non-audit services is compatible with the general standard of independence of auditors imposed by the Corporation Act 2001. The Directors also satisfied that the provision on non-audit services also satisfied that the provision on non-audit services also satisfied that the provision on non-audit services by the auditor, did not compromise the auditor independence requirements of the Corporation Act 2001.

### **Auditor's Independence Declaration**

A copy of the auditors' independence declaration as required under section 307C of the *Corporations Act 2001* is set out on the page following this Directors' Report.

### **REMUNERATION REPORT - Audited**

The remuneration report outlines the remuneration arrangements which were in place during the year, and remain in place as at the date of this report, for the Directors and key management personnel of Caspin Resources Limited.

The information provided in this remuneration has been audited as required by section 308(3C) of the Corporations Act 2001.

The remuneration report is set out under the following main headings:

- A. Principles used to determine the nature and amount of remuneration
- B. Details of remuneration
- C. Service agreements
- D. Share-based compensation
- E. Equity instruments held by key management personnel
- F. Loans to key management personnel
- G. Other transactions with key management personnel
- H. Additional information

### A. Principles used to determine the nature and amount of remuneration

The Board has elected to establish a remuneration committee. The remuneration committee has three non-executive independent directors of the Company on the committee.

The following items have been considered and discussed as deemed necessary at the remuneration committee meetings:

- make specific recommendations to the board on remuneration of directors and senior officers;
- recommend the terms and conditions of employment for the Executive Directors;
- undertake a review of the Executive Directors performance, at least annually, including setting with the Executive Directors goals for the coming year and reviewing progress in achieving those goals;
- consider and report to the Board on the recommendations of the Executive Directors on the remuneration of all direct reports; and
- develop and facilitate a process for Board and Director evaluation.

#### **Non-Executive Directors**

Fees and payments to non-executive directors reflect the demands which are made on, and the responsibilities of, the directors. Non-executive directors' fees and payments are reviewed annually by the board. The Chair's fees are determined independently to the fees of non-executive directors based on comparative roles in the external market.

Non-executive directors do not receive performance-based pay.

#### **Directors' fees**

The current base fees were last reviewed at the most recent remuneration committee meeting. Non-executive directors' fees are determined within an aggregate directors' fee pool limit, which is periodically recommended for approval by shareholders.

In accordance with the Constitution, a Shareholder resolution has been passed providing that a maximum total remuneration of \$300,000 (plus superannuation entitlements) per annum may be paid to the Non-Executive Directors.

### **REMUNERATION REPORT – Audited (continued)**

### A. Principles used to determine the nature and amount of remuneration (continued)

Remuneration of executives consists of an un-risked element (base pay) and performance-based bonuses based on performance in relation to key strategic, non-financial measures linked to drivers of performance in future reporting periods. No performancebased bonuses were paid during the year ended 30 June 2022.

The table below set out summary information about the Group's earnings and movement in shareholder wealth for the year to 30 June 2022:

|                              | 30 June 2022<br>\$ |
|------------------------------|--------------------|
| Revenue and other income     | 155,996            |
| Net profit/(loss) before tax | (6,427,206)        |
| Net profit/(loss) after tax  | (6,427,206)        |

No dividends have been paid for the year to 30 June 2022.

|   | 30 June 2022<br>\$ |
|---|--------------------|
| Share price at 30 June 2022               | \$0.38             |
| Share price at 30 June 2021               | \$1.66             |
| Basic earnings/(loss) per share (cents)   | (8.67)             |
| Diluted earnings/(loss) per share (cents) | (8.67)             |

### Additional fees

A Director may also be paid fees or other amounts as the Directors determine if a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director.

A Director may also be reimbursed for out of pocket expenses incurred as a result of their directorship or any special duties.

#### **Retirement allowances for directors**

Superannuation contributions required under the Australian Superannuation Guarantee Legislation continue to be made and are deducted from the directors' overall fee entitlements where applicable.

#### **Executive pay**

In determining executive remuneration, the Board aims to ensure that remuneration practices are:

- competitive and reasonable, enabling the company to attract and retain key talent;
- aligned to the company's strategic and business objectives and the creation of shareholder value;
- transparent; and
- acceptable to shareholders.

The executive remuneration framework has three components:

- base pay and benefits, including superannuation;
- short-term performance incentives; and
- long-term incentives through participation in the Caspin Employee Share Option Plan.

### **REMUNERATION REPORT – Audited (continued)**

### A. Principles used to determine the nature and amount of remuneration (continued)

#### Base pay

Executives receive their base pay and benefits structured as a total employment cost (TEC) package which may be delivered as a combination of cash and prescribed non-financial benefits at the executives' discretion.

Executives are offered a competitive base pay that comprises the fixed component of pay and rewards. Independent remuneration consultants provide analysis and advice to ensure base pay is set to reflect the market for a comparable role.

Base pay for executives is reviewed annually to ensure the executive's pay is competitive with the market. An executive's pay is also reviewed on promotion.

There are no guaranteed base pay increases included in any executives' contracts.

There are no short term incentives outstanding.

#### **Benefits**

No benefits other than noted above are paid to Directors or management except as incurred in normal operations of the business.

#### **Short term incentives**

No benefits other than remuneration disclosed in the remuneration report are paid to Directors or management except as incurred in normal operations of the business.

#### Long term incentives

During the year, the Company issued Performance rights to Directors, Chief Executive Officer, and employees. The performance rights have nil exercise prices and will expire between three to five years from the issue date. The Performance rights will convert to ordinary shares on achievement of performance conditions as detailed in note 16.

#### **Remuneration consultants**

The Company did not engage any remuneration consultants during the period.

The Company will engage independent remuneration consultants should it look to make any changes to director fee levels to ensure they are in line with market conditions and any decisions are made free from undue influence from members of the Company's KMP's.

| Key Management<br>Personnel |                               |   |                               |   |
| Greg Miles <sup>1</sup>     | 72%                           | 28%                                       | 38%                           | 62%                                       |

1. Remuneration in his capacity as CEO (appointed on 1 October 2020).

### C. Service agreements

### **Executive Services Agreement – Chief Executive Officer**

The Group has entered into an executive services agreement with Mr Greg Miles in respect of his employment as Chief Executive Officer of the Company (Executive Services Agreement).

| Name             | Base salary<br>excluding<br>superannuation | Termination benefit   |
|------------------|--|---|
| Executive        |  |   |
| Greg Miles (CEO) | AUD\$250,0001                              | 3 months' notice in writing to Mr Miles and paying a further three months' salary in addition to the notice period. |

1. Mr Miles annual salary was \$200,000 per annum, and has increased to \$250,000 per annum effective from 1 October 2021.

#### Non-executive directors

On appointment to the Board, all non-executive directors enter into a service agreement with the Group in the form of a letter of appointment. The letter summarises the Board's policies and terms, including compensation, relevant to the director, and among other things:

- the terms of the directors appointment, including governance, compliance with the Company's Constitution, committee appointments, and re-election;
- the directors duties, including disclosure obligations, exercising powers, use of office, attendance at meetings and commitment levels;
- the fees payable, in line with shareholder approval, any other terms, timing of payments and entitlements to reimbursements;
- insurance and indemnity;
- disclosure obligations; and
- confidentiality.

The following fees (inclusive superannuation) applied during the year:

| Name                       | Base salary              |
|----------------------------|--------------------------|
| Non-Executive              |                          |
| Cliff Lawrenson (Chairman) | AUD\$54,750 <sup>1</sup> |
| Justin Tremain             | AUD\$40,000              |
| Simone Suen                | AUD\$40,000              |
| Jon Hronsky                | AUD\$40,000              |
|                            |                          |

1. Including superannuation

In accordance with the Constitution, a Shareholder resolution has been passed providing that the Company may pay to the Non-Executive Directors a maximum total amount of remuneration of \$300,000 (plus superannuation entitlements) per annum.

| 4       | CEO 21 Dec 2021 50,000<br>performance<br>rights |               | Nil – convert to<br>ordinary shares<br>on achievement<br>of performance<br>conditions | 5 years from<br>grant date  | 21 Dec 2023                | N/A             |                         |

<sup>1</sup> Refer to Note 17 for details of these performance rights.

The performance conditions for the Performance Rights are set out below:

| Tranche | Performance Milestones   |  |  |  |  |  |  |  |
|---------|--|--|--|--|--|--|--|--|
| 1       | Performance Rights will vest subject to continuous employment or engagement by Caspin or one of its subsidiaries up to 5.00pm (WST) on 25 November 2022.                               |  |  |  |  |  |  |  |
| 2       | Performance Rights will vest subject to continuous employment or engagement by Caspin or one of its subsidiaries up to 5.00pm (WST) on 25 November 2023 (24 months Continuous Service) |  |  |  |  |  |  |  |
| 3       | Performance Rights will vest upon the Twenty Day VWAP exceeding A\$1.40 per Share and 24 months Continuous Service; and  |  |  |  |  |  |  |  |
| 4       | Performance Rights will vest upon the Twenty Day VWAP exceeding A\$1.60 per Share and 24 months Continuous Service.  |  |  |  |  |  |  |  |

Management have valued Tranche 1 and Tranche 2 CEO performance rights based on the share price at the grant date. A 100% probability of achieving the vesting condition has been applied to the expense in the current reporting period.

The CEO Performance Rights Tranche 3 and 4 were valued using an Up-and-In Trinomial Model with the following inputs:

| Tranche | Dividend<br>Yield | Valuation<br>Date | Expected<br>Volatility | Risk-Free<br>Interest<br>Rate | Expiry                     | Underlying<br>Share Price | Value<br>per Right<br>(\$) | Total Fair<br>Value<br>(\$) |
|---------|-------------------|-------------------|------------------------|-------------------------------|----------------------------|---------------------------|----------------------------|-----------------------------|

## DECLARATION OF INDEPENDENCE BY JARRAD PRUE TO THE DIRECTORS OF CASPIN RESOURCES LIMITED

As lead auditor of Caspin Resources Limited for the year ended 30 June 2022, I declare that, to the best of my knowledge and belief, there have been:

- 1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- 2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Caspin Resources Limited and the entities it controlled during the period.

INDEPENDENT AUDITOR'S REPORT

To the members of Caspin Resources Limited

#### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Caspin Resources Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2022 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the Corporations *Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

BDO Audit (WA) Pty Ltd ABN 79 112 284 787 is a member of a national association of independent entities which are all members of BDO Australia Ltd ABN 77 050 110 275, an Australian company limited by guarantee. BDO Audit (WA) Pty Ltd and BDO Australia Ltd are members of BDO International Ltd, a UK company limited by guarantee, and form part of the international BDO network of independent member firms. Liability limited by a scheme approved under Professional Standards Legislation.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Change in Accounting Policy

| Key audit matter   | How the matter was addressed in our audit   |
|--|---|
| During the year, the Group changed its accounting<br>policy regarding its treatment of exploration and<br>evaluation expenditure. In previous financial years,<br>exploration and evaluation expenditure in relation to<br>areas of interest which had not reached a stage that<br>permitted reasonable assessment of the existence or<br>otherwise of economically recoverable reserves, was<br>capitalised. The Group then assessed whether any<br>indicators of impairment existed which would require<br>the Group to assess capitalised exploration and<br>evaluation expenditure for impairment. The new | <ul> <li>Our audit procedures include the following:</li> <li>Assessed the appropriateness of the change in accounting policy with reference to the requirements of AASB 101 and AASB 108;</li> <li>Assessed whether the change in accounting policy provides more relevant financial information to the users of the financial report;</li> <li>Reviewed the restated balances from the prior financial year within the financial statements; and</li> </ul> |
| evaluation expenditure for impairment. The new<br>accounting policy is to expense exploration and<br>evaluation expenditure as incurred.   | <ul> <li>Assessed the adequacy of related disclosures</li> </ul>  |

The change in accounting policy resulted in the restatement of the 2021 balances and related disclosures.

The change in accounting policy was a key audit matter due to the size and scope of the change and impact on the presentation of the financial statements.

- ppropriateness of the change in icy with reference to the of AASB 101 and AASB 108;
- her the change in accounting policy relevant financial information to e financial report;
- restated balances from the prior within the financial statements;
- dequacy of related disclosures throughout the financial statements and most notably in Note 1(d) and Note 9 of the financial report.

# BDO

#### Other information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2022, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<u>http://www.auasb.gov.au/Home.aspx</u>) at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1\_2020.pdf

This description forms part of our auditor's report.

#### Report on the Remuneration Report

#### **Opinion on the Remuneration Report**

We have audited the Remuneration Report included in page 28 to 36 of the directors' report for the year ended 30 June 2022.

In our opinion, the Remuneration Report of Caspin Resources Limited, for the year ended 30 June 2022, complies with section 300A of the *Corporations Act 2001*.

#### Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

(i) Refer to note 1(d) and note 9 for details regarding the restatement as a result of a change in accounting policy.

The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

For the year ended 30 June 2022

#### 1. Summary of significant accounting policies

#### (a) Basis of preparation

The financial report is a general-purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board ("AASB") and the Corporation Act 2001.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions to which they apply. The financial statements and notes also comply with International Financial Reporting Standards as issued by the International Accounting Standard Board (IASB). Material accounting policies adopted in the preparation of this financial report are presented below. They have been consistently applied unless otherwise stated.

The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. The consolidated financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

#### Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sales financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

#### **Critical accounting estimates**

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in relevant notes below.

#### (b) New and amended standards adopted by the entity

The consolidated entity has adopted the revised Conceptual Framework from 1 July 2021 The Conceptual Framework contains new definition and recognition criteria as well as new guidance on measurement that affects several Accounting Standards, but it has not had a material impact on the consolidated entity's financial statements.

#### (c) Principles of Consolidation

The consolidated financial statements incorporate the assets, liabilities and results of entities controlled by Caspin at the end of the reporting period. A controlled entity is any entity over which Caspin has the ability and right to govern the financial and operating policies so as to obtain benefits from the entity's activities.

Where controlled entities have entered or left the Group during the year, the financial performance of those entities in included only for the period of the year that they were controlled. A list of controlled entities is contained in note 18 to the financial statements.

In preparing the consolidated financial statements, all intragroup balances and transactions between entities in the consolidated Group have been eliminated in full on consolidation.

Non-controlling interests, being the equity in a subsidiary not attributable, directly or indirectly, to a parent, are reported separately within the equity section of the Consolidated Statement of Financial Position and the Consolidated Statement of Profit or Loss and Other Comprehensive Income. The non-controlling interests in the net assets comprise their interests at the date of the original business combination and their share of changes in equity since that date.

For the year ended 30 June 2022

#### 1. Summary of significant accounting policies (continued)

#### (d) Changes to the Group's Accounting Policies

#### **Exploration and Evaluation Asset**

The financial report has been prepared on the basis of retrospective application of a voluntary change in accounting policy in accordance with AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors.

The Group previously capitalised these expenditures, accumulated exploration and evaluation expenditure and carried forward to the extent that they were expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves.

The result of this accounting change means that the Group will expense exploration and evaluation expenditure as incurred in respect of each identifiable area of interest until a time where an asset is in development.

The Board determined that the change in accounting policy will result in more relevant and no less reliable information as the policy is more transparent and less subjective. Recognition criteria of exploration and evaluation assets are inherently uncertain and expensing as incurred results in a more transparent Consolidated Statement of Financial Position and Consolidated Statement of Profit or Loss and Other Comprehensive Income. Furthermore, the change in accounting policy aids in accountability of line management's expenditures and the newly adopted policy is consistent with industry practice.

The impact of the adoption of the accounting policy change has been summarized in Note 9.

#### (e) **Provisions**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

#### (f) Good and Services Tax (GST)

Revenues, expenses and assets are recognised net of GST except where GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flow on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authorities are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

#### (g) Impairment of Assets

At each reporting date, the Company reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of profit or loss and other comprehensive income.

Impairment testing is performed annually for goodwill and intangible assets with indefinite lives. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

#### **Financial Assets**

A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

For the year ended 30 June 2022

#### 1. Summary of significant accounting policies (continued)

#### Non-Financial Assets

The carrying amounts of the non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated at each reporting date.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in the statement of financial performance. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis.

#### (h) Share-based payment transactions

The Group measures the cost of equity-settled transactions by reference to the fair value of the equity instrument at the date at which they are granted when the fair value of goods and/or services cannot be determined. The fair value of options granted is measured using the Black-Scholes option pricing model. The fair value of performance rights granted is measured using the trinomial barrier model where required. The model uses assumptions and estimates as inputs. Some performance rights value is determined with reference to the share price on the grant date.

The cost of the equity settled transactions is recognised, together with a corresponding increase in equity, over the year in which the performance conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award ('vesting date'). The cumulative expense recognised for equity settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting year has expired and (ii) the number of awards that, in the opinion of the Directors of the Company, will ultimately vest. This opinion is formed based on the best available information at balance date.

No adjustment is made for the likelihood of the market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of comprehensive income charge or credit for a year represents the movement in cumulative expense recognised at the beginning and end of the year. No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition. Where the terms of an equity settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of the modification.

Where an equity settled award is cancelled, it is treated as if it had vested on the date of the cancellation, and any expense not yet recognised for the award is recognised immediately. However if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The cost of equity-settled transactions with non-employees is measured by reference to the fair value of goods and services received unless this cannot be measured reliably, in which case the cost is measured by reference to the fair value of the equity instruments granted.

#### i) Right of use assets

A right of use assets is recognized at the commencement date of a lease. The right of use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right of use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expect to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right of use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

For the year ended 30 June 2022

#### 1. Summary of significant accounting policies (continued)

The Group has elected not to recognize a right of use asset and corresponding lease liability for short term leases with terms of 12 months or less and leases of low value assets. Lease payments on these assets are expensed to profit or loss as incurred.

#### (j) Lease liabilities

A lease liability is recognized at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right of use asset, or to profit or loss if the carrying amount of the right of use asset is fully written down.

#### (k) Contributed Equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

#### ) Earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares;
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares (Note 5).

#### (m) Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

#### (n) Parent entity information

The financial information for the parent entity, Caspin Resources Limited, disclosed in Note 21 has been prepared on the same basis as the consolidated financial statements, except as set out below.

#### (i) Investments in subsidiaries, associates and joint venture entities

Investments in subsidiaries and associates are accounted for at cost in the financial statements of Caspin Resources Limited. Dividends received from associates are recognised in the parent entity's profit or loss, rather than being deducted from the carrying amount of these investments.

#### (ii) Financial guarantees

Where the parent entity has provided financial guarantees in relation to loans and payables of subsidiaries for no compensation, the fair values of these guarantees are accounted for as contributions and recognised as part of the cost of the investment.

#### (iii) Share-based payments

The grant by the Company of options over its equity instruments to the employees of subsidiary undertakings in the Group is treated as a capital contribution to that subsidiary undertaking. The fair value of employee services received, measured by reference to the grant date fair value, is recognised over the vesting period as an increase to investment in subsidiary undertakings, with a corresponding credit to equity.

For the year ended 30 June 2022

#### 1. Summary of significant accounting policies (continued)

#### (o) Critical accounting estimates and judgments

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates & judgements will, by definitions, seldom equal the related actual results.

#### (i) Taxation & deferred tax balances

Deferred tax balances in relation to losses and temporary differences have not been recognised as it is not probable that they can be recovered at reporting date.

#### (ii) Share based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value of options and performance rights are determined by an internal valuation using Black-Scholes option pricing model and Multiple Share Price Barrier model.

#### Coronavirus (COVID-19) pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the entity based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographic regions in which the entity operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the entity unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

For the year ended 30 June 2022

#### 2. Revenue & other income

|  | 2022<br>\$ | 2021<br>\$ |
|--|------------|------------|
| Loan forgiven on demerger from Cassini | _          | 31,269     |
| Grant received                         | 138,866    | -          |
| Bank interest                          | 2,389      | 1,046      |
| Rental received                        | 14,741     | -          |
| Total revenue and other income         | 155,996    | 32,315     |

#### Significant accounting policy

Revenue is measured at the fair value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. Any consideration deferred is treated as the provision of finance and is discounted at a rate of interest that is generally accepted in the market for similar arrangements. The difference between the amount initially recognised and the amount ultimately received is interest revenue.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the period to which the costs relate. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

All revenue is stated net of the amount of goods and services tax (GST).

For the year ended 30 June 2022

### 3. Material profit and loss items for the year

Profit/(Loss) for the year includes the following items:

|  | 2022<br>\$ | 2021<br>\$ |
|--|------------|------------|
| Employee benefit expenses:                         |            |            |
| Employee wages and directors fees                  | 177,706    | 203,951    |
| Other employee expenses (including superannuation) | 111,297    | 65,005     |
| Total employee benefits expense                    | 289,003    | 268,956    |
| Administration expenses:                           |            |            |
| Marketing & investor relations                     | 84,362     | 61,284     |
| Conferences  | 36,839     | 18,941     |
| Travel and entertainment                           | 9,828      | 14,714     |
| Insurance  | 52,163     | 27,194     |
| Rent expense                                       | 43,800     | 40,302     |
| Other expenses                                     | 145,862    | 88,019     |
| Total administration expenses                      | 372,854    | 250,454    |
| Exploration expenditure                            | 5,222,579  | 4,001,638  |
| Total exploration expenditure                      | 5,222,579  | 4,001,638  |

For the year ended 30 June 2022

#### 4. Income tax

|     |  | 2022<br>\$  | Restated<br>2021<br>\$ |
|-----|--|-------------|------------------------|
| (a) | Income tax expense   |             |                        |
|     | Current tax expense  | -           | -                      |

|     | Losses   | 2,163,798   | 583,017                |
|     | Blackhole expenses   | 241,215     | 172,266                |
|     | Derecognition of deferred tax asset                                | (2,601,094) | (948,478)              |

The benefit for tax losses will only be obtained if:

- (i) the Group derives future assessable income in Australia of a nature and of an amount sufficient to enable the benefit from the deductions for the losses to be realised;
- (ii) the Group continues to comply with the conditions for deductibility imposed by tax legislation in Australia; and
- (iii) there are no changes in tax legislation in Australia which will adversely affect the Group in realising the benefit from the deductions for the losses.

At 30 June 2022, there is no recognised or unrecognised deferred income tax liability for taxes that would be payable on the unremitted earnings of certain of the Group's subsidiary as the Group has no liability for additional taxation should such amounts be remitted.

#### Significant accounting policy

The income tax expense (revenue) for the period comprises current income tax expense (income) and deferred tax expense (income).

For the year ended 30 June 2022

#### 4. Income tax (continued)

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the period as well unused tax losses.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the period as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

For the year ended 30 June 2022

#### 5. Earnings per share

Basic earnings per share amounts are calculated by dividing net profit/(loss) for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year.

The following reflects the income and share data used in the total operations basic and diluted earnings per share computations:

| Basic and diluted profit/(loss) per share  | 2022         | <b>Restated</b><br>2021 <sup>(i)</sup> |
|--|--------------|--|
| Loss used to calculate basic and diluted profit/(loss) per share   | (6,427,206)  | (6,296,306)                            |
| Basic and diluted profit/(loss) per share from continuing operations (cents per share)                     | (8.67)       | (15.26)                                |
| Weighted average number of ordinary shares   | 2022<br>No.  | 2021<br>No.                            |
| Weighted average number of ordinary shares outstanding during the year used in calculating basic EPS       | 74,120,146   | 41,272,653                             |
| Weighted average number of ordinary shares outstanding during the year used in calculating diluted EPS     | 74,120,146   | 41,272,653                             |
| (i) Refer to note 1(d) and note 9 for details regarding the restatement as a result of a change in account | ting policy. |  |

#### 6. Dividends paid or proposed

The Directors do not recommend the payment of a dividend and no amount has been paid or declared by way of a dividend to the date of this report.

#### 7. Cash and cash equivalents

|                                | 2022<br>\$ | 2021<br>\$ |
|--------------------------------|------------|------------|
| Current                        |            |            |
| Cash at bank and in hand       | 8,943,917  | 5,748,493  |
| Total cash and cash equivalent | 8,943,917  | 5,748,493  |

Cash at bank and in hand earns interest at both floating rates based on daily bank rates.

Refer to Note 14 on financial instruments for details on the Company's exposure to risk in respect of its cash balance.

#### Significant accounting policy

For cashflow statement presentation proposed, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in rate.

For the year ended 30 June 2022

### 7. Cash and cash equivalents (continued)

#### **Operating cash flow reconciliation**

|   |             | Restated                 |
|---|-------------|--------------------------|

| Share issue costs   | -           | 191,675                  |
| Depreciation and amortisation expenses                      | 55,310      | -                        |
| Exploration expenditure incurred by the demerger entities   | -           | 2,728,382                |
| Decrease in trade and other receivables                     | (58,257)    | (40,039)                 |
| Increase in trade and other payables                        | 295,289     | 56,865                   |
| Increase in provision                                       | 25,766      | 25,488                   |
| Cash flow from operations                                   | (5,858,532) | (2,121,878)              |

1. Refer to note 1(d) and note 9 for details regarding the restatement as a result of a change in accounting policy.

#### Non-cash investing activities

No non-cash investing activities recorded during the period.

#### Non-cash financing activities

Amortisation expense is related to the right of use assets and it is a non-cash financing activity recorded during the period.

#### 8. Trade and other receivables

|                | 2022<br>\$ | 2021<br>\$ |
|----------------|------------|------------|
| Current        |            |            |
| GST receivable | 98,296     | 40,039     |
| Term deposits  | 127,000    | 100,000    |
|                | 225,296    | 140,039    |

#### Significant accounting policy

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for impairment, once they become over due by more than 60 days. A separate account records the impairment.

An allowance for a doubtful debt is made when there is objective evidence that the Group will not be able to collect the debts. The criteria used to determine that there is objective evidence that an impairment loss has occurred include whether the Financial Asset is past due and whether there is any other information regarding increased credit risk associated with the Financial Asset. Bad debts which are known to be uncollectible are written off when identified.

#### Past due but not impaired

The Group did not have any receivables that were past due as at 30 June 2022. The Group did not consider a credit risk on the aggregate balances as at 30 June 2022. For more information, please refer to Note 15 Financial Instruments, Risk Management Objectives and Policies.

For the year ended 30 June 2022

#### 9. Change in accounting policy - Exploration and evaluation expenditure

The following table summarised the adjustments made to the Consolidated Statement of Profit or Loss and Other Comprehensive Income, to the Consolidated Statement of Financial Position and Consolidated Statement of Cash Flows on Implementation of the new accounting policy.

|   | Exploration<br>Expenditure<br>\$ | DTL<br>\$ | Income Tax<br>Expense<br>\$ | Retained<br>Earnings<br>\$ | Non-<br>Controlling<br>Interest<br>\$ |
|---|----------------------------------|-----------|-----------------------------|----------------------------|---------------------------------------|
| Balances at 30 June 2021, as previously reported      | 3,998,958                        | (91,121)  | (282,796)                   | (2,388,470)                | 124,462                               |
| Impact of the change in accounting policy during 2021 | (3,998,958)                      | 91,121    | 91,121                      | (3,7 <b>83,374</b> )       | (124,462)                             |
| Restated balances at 30 June 2021                     | -                                | -         | (191,675)                   | (6,171,844)                | -                                     |

In the year ending 30 June 2022, the Group changed its accounting treatment of exploration and evaluation expenditure in accordance with AASB 6: Exploration for and Evaluation of Mineral Resources. Previously, the Group capitalised accumulated exploration and evaluation expenditure and carried forward to the extent that they were expected to be recouped through the successful development. The result of this accounting change means that the Group will expense exploration and evaluation expenditure as incurred in respect of each identifiable area of interest until a time where an asset is in development.

The effect of the Consolidated Statement of Profit or Loss and Other Comprehensive Income were as follows:

|   | For the year ended<br>30 June 2021<br>\$ |
|---|--|
| Increase in loss for the year   | 3,907,836                                |
| The table below summarises the impact on the earnings per share for the comparative period:                   |  |
|   | 30 June 2021<br>(cents)                  |
| Previously reported – basic and diluted earnings per share<br>Restated – basic and diluted earnings per share | (5.79)<br>(15.26)                        |
| The effect of the Consolidated Statement of Cash Flows were as follows:                                       |  |
|   | For the year ended<br>30 June 2021<br>\$ |
| Increase in payment for exploration and evaluation expenditure under operating activities                     | 1,310,616                                |

For the year ended 30 June 2022

#### 10. Trade and other payables

| )                      | 2022<br>\$ | 2021<br>\$ |
|------------------------|------------|------------|
| Current                |            |            |
| Trade payables         | 301,525    | 37,988     |
| PAYG payable           | 24,751     | 14,020     |
| Superannuation payable | 7,912      | 4,406      |
| Other payables         | 17,965     | 450        |
|                        | 352,153    | 56,864     |

#### Significant accounting policy

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 2 months from the reporting date. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method. Trade payables are non-interest bearing and are normally settled on 30-day terms. Other payables are non-interest bearing and have an average term of 2 months. All amounts are expected to be settled within 12 months. Please refer to Note 15 on Financial Instruments for further discussion on risk management.

#### 11. Provisions

|                                     | 2022<br>\$ | 2021<br>\$ |
|-------------------------------------|------------|------------|
| Current                             |            |            |
| Annual leave provision <sup>1</sup> | 51,255     | 25,488     |
| Total                               | 51,255     | 25,488     |
| Non-Current                         |            |            |
| Long service leave provision        | -          | -          |
| Total                               | -          | -          |
|                                     |            |            |

<sup>1</sup> All amounts are expected to be settled within 12 months.

#### Significant accounting policy

#### (i) Wages and salaries, annual leave and sick leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

#### (ii) Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

For the year ended 30 June 2022

#### 12. Issued capital

#### (a) Issued and fully paid

| Closing Balance at 30 June 2022      | 74,740,710    | 19,723,251 |

The share capital of the Group as at 30 June 2022 was 74,740,710 ordinary shares. 4,920,000 shares of the Group were subject to 24 months escrow at 30 June 2022.

#### (c) Terms and conditions of issued capital

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Group, to participate in proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held.

Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Group.

Unissued ordinary shares of Caspin Resources Limited under option and performance rights at 30 June 2022 are as follows:

| Grant Date  | Expiry Date             | Exercise Price | Number Under<br>Option | Number Under<br>Performance Rights |
|-------------|-------------------------|----------------|------------------------|------------------------------------|
| 22 Mar 2021 | 5 years from issue date | Nil            | -                      | 992,750                            |

#### (d) Capital risk management

The Group's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns to shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Group's capital includes ordinary share capital, partly paid shares and financial liabilities, supported by financial assets. The Group's capital includes mainly ordinary share capital and financial liabilities supported by financial assets.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Due to the nature of the Group's activities, being mineral exploration, the Group does not have ready access to credit facilities, with the primary source of funding being equity raisings. Therefore, the focus of the Group's capital risk management is the current working capital position against the requirements of the Group to meet exploration programmes and corporate overheads. The Group's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required.

The net working capital position of the Group at 30 June 2022 was \$8,689,568 and the net increase in cash held during the year was \$3,195,424. The Group had at 30 June 2022 \$8,943,917 of cash and cash equivalents.

For the year ended 30 June 2022

(i) Refer to note 16 for further details on incentive options and performance rights issued during the year.

For the year ended 30 June 2022

#### 14. Financial instruments

#### **Financial risk management**

The Group's activities expose it to a variety of financial risks including market risk (interest rate risk, foreign exchange risk and price risk), credit risk and liquidity risk. The Groups overall risk management program focuses on the unpredictability of the financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The Group does not use derivative financial instruments; however the Group uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and other price risks and aging analysis for credit risk.

Risk management is carried out by the Board of Directors with assistance from suitably qualified external and internal advisors. The Board provides written principles for overall risk management and further policies will evolve commensurate with the evolution and growth of the Group.

#### (a) Market risk

#### (i) Interest Rate Risk

The Group hold cash at bank with variable interest rates. The interest rate is low and changes in the interest rates will have minimal impact to the Group.

#### (ii) Foreign exchange risk

The Group operated pre-dominantly in Australia in the year ended 30 June 2022 and had minimal exposure to foreign exchange risk.

#### (b) Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted the policy of dealing with creditworthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company measures credit risk on a fair value basis. The Company does not have any significant credit risk exposure to a single counterparty or any Group of counterparties having similar characteristics.

The carrying amount of financial assets recorded in the financial statements, net of any provisions for losses, represents the Company's maximum exposure to credit risk without taking account of the fair value of any collateral or other security obtained.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings:

|                               | 2022<br>\$ | 2021<br>\$ |
|-------------------------------|------------|------------|
| Cash and cash equivalents AA- | 8,943,917  | 5,848,493  |
| Total                         | 8,943,917  | 5,848,493  |

#### (c) Maturity analysis of financial assets and liabilities

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profits of financial assets and liabilities. As at reporting date the Group had sufficient cash reserves to meet its requirements. The Group therefore had no credit standby facilities or arrangements for further funding in place.

The financial liabilities of the Group at reporting date were trade payables incurred in the normal course of the business. These were non-interest bearing and were due within the normal 30-60 days terms of creditor payments. The Group does not consider this to be material to the Group and have therefore not undertaken any further analysis of risk exposure.

For the year ended 30 June 2022

#### 15. Operating segments

Operating segments that meet the quantitative criteria of AASB 8 are reported separately. However, an operating segment that does not meet the quantitative criteria is still reported separately where information about the segment would be useful to the users of the financial statements.

The Group operates within the mineral exploration industry within Australia.

The Group determines its operating segments by reference to internal reports that are reviewed and used by the Board of Directors (the chief operating decision maker) in assessing performance and in determining the allocation of resources. The Board of Directors currently receive Statement of Financial Position and Statement of Comprehensive Income information that is prepared in accordance with Australian Accounting Standards.

The Statement of Financial Position and Statement of Comprehensive Income information received by the Board of Directors does not include any information by segment. The executive team manages each exploration activity of each exploration concession through review and approval of statutory expenditure requirements and other operational information. Based on this criterion, the Group has only one operating segment, being exploration, and the segment operations and results are the same as the Group results.

For the year ended 30 June 2022

#### 16. Share based payments

Share based payments during the year ended 30 June 2022 are summarised below.

#### (a) Recognised share-based payment expense

|   | 30 June 2022<br>\$ | 30 June 2021<br>\$ |
|---|--------------------|--------------------|
| Expense arriving from equity settled share-based payment transactions | 250,565            | 1,243,327          |

#### (b) Securities granted during the year

No options granted during the year ended 30 June 2022 as share-based payments.

Performance rights granted during the year ended 30 June 2022 as share-based payments are as follows:

| Tranche | Class of<br>Securities             | Grant<br>Date                | Number<br>of<br>Securities | Exercise Price  | Expiry Date                | Vesting Date           | Disposal<br>Restriction |

The performance conditions for the CEO Performance Rights are set out below:

| Tranche | Performance Milestones   |
|---------|--|
| 1       | Performance Rights will vest subject to continuous employment or engagement by Caspin or one of its subsidiaries up to 5.00pm (WST) on 25 November 2022.                               |
| 2       | Performance Rights will vest subject to continuous employment or engagement by Caspin or one of its subsidiaries up to 5.00pm (WST) on 25 November 2023 (24 months Continuous Service) |
| 3       | Performance Rights will vest upon the Twenty Day VWAP exceeding A\$1.40 per Share and 24 months Continuous Service; and  |
| 4       | Performance Rights will vest upon the Twenty Day VWAP exceeding A\$1.60 per Share and 24 months Continuous Service.  |

For the year ended 30 June 2022

#### 16. Share based payments (continued)

The performance conditions for the Employees Performance Rights are set out below:

| TRANCHE | PERFORMANCE MILESTONES   |
|---------|--|
| 1       | Performance Rights will vest subject to continuous employment or engagement by Caspin or one of its subsidiaries up to 5.00pm (WST) on 25 November 2022. |
| 2       | Performance Rights will vest subject to 24 months continuous employment from the Commencement Date.  |
| 3       | Performance Rights will vest upon the Twenty Day VWAP exceeding A\$1.125 per Share and 24 months Continuous Service; and                                 |
| 4       | Performance Rights will vest upon the Twenty Day VWAP exceeding A\$1.50 per Share and 24 months Continuous Service.                                      |

Management have valued Tranche 1 and Tranche 2 CEO performance rights based on the share price at the grant date. A 100% probability of achieving the vesting condition has been applied to the expense in the current reporting period.

The CEO Performance Rights Tranche 3 and 4 were valued using an Up-and-In Trinomial Model with the following inputs:

| Tranche | Dividend<br>Yield | Valuation<br>Date | Expected<br>Volatility | Risk-Free<br>Interest Rate | Expiry                     | Underlying<br>Share Price | Value per<br>Right<br>(\$) | Total Fair<br>Value<br>(\$) |
|---------|-------------------|-------------------|------------------------|----------------------------|----------------------------|---------------------------|----------------------------|-----------------------------|
| 3       | NIL               | 21 Dec 2021       | 75%                    | 1.345%                     | 5 years from<br>grant date | \$1.18                    | \$1.104                    | \$82,800                    |
| 4       | NIL               | 21 Dec 2021       | 75%                    | 1.345%                     | 5 years from<br>grant date | \$1.18                    | \$1.075                    | \$53,750                    |

Management have valued Tranche 1 and Tranche 2 employees performance rights based on the share price at the grant date. A 100% probability of achieving the vesting condition has been applied to the expense in the current reporting period.

The Employees Performance Rights were valued using an Up-and-In Trinomial Model with the following inputs:

|   | Tranche | Dividend<br>Yield | Valuation<br>Date | Expected<br>Volatility | Risk-Free<br>Interest Rate | Expiry       | Underlying<br>Share Price | Value per<br>Right<br>(\$) | Total Fair<br>Value<br>(\$) |

For the year ended 30 June 2022

#### 17. Commitments and contingent liabilities

#### (a) Exploration expenditure

In order to maintain mining tenements, the economic entity is committed to meet the prescribed conditions under which tenements were granted. These commitments may be met in the normal course of operations by future capital raisings and/or farm-out and under certain circumstances are subject to the possibility of adjustment to the amount and timing of such obligations or by tenement relinquishment.

|                                     | 2022<br>\$ | 2021<br>\$ |
|-------------------------------------|------------|------------|
| Exploration expenditure commitments |            |            |
| Payable:                            |            |            |
| Not later than 12 months            | 684,899    | 610,014    |
| Between 12 months and 5 years       | 2,150,179  | 353,511    |
| Greater than 5 years                | -          | -          |
| Total                               | 2,835,078  | 963,525    |

#### (b) Other commitments and contingency

#### **Contingent Payment Deed**

Conditional upon the Acquisition Scheme and Demerger Scheme becoming effective (which has now occurred), Caspin has entered into a deed ('Contingent Payment Deed') with OZ Minerals ('OZ Minerals') which provides for potential payment by OZ Minerals to Caspin for additional consideration in two potential scenarios ('Contingent Consideration).

In the first scenario, if OZ Minerals disposes of 30% or more of its interest in the West Musgrave Project (as defined in the Demerger Scheme Booklet) to a third party and the sale price implies a value for 30% of West Musgrave equal to or greater than \$76 million ('Implied Value'), Oz Minerals will pay Caspin Contingent Consideration of A\$10 million, plus up to a further A\$10 million payable at a rate of A\$0.20 for each dollar of value exceeding the Implied Value. If OZ Minerals sells less than a 30% interest, the Contingent Consideration shall be calculated on a pro-rata basis.

In the second scenario, if OZ Minerals sells 30% or more of the contained nickel at West Musgrave to a strategic party, OZ Minerals will pay an amount of A\$10 million to Caspin. If OZ Minerals sells less than 30% of the contained nickel, the Contingent Consideration shall be calculated on a pro-rata basis. Contingent Consideration is capped at A\$20 million.

In accordance with Australian Accounting Standards, due to the uncertainty in relation to the quantum and timing of this Contingent Consideration, no amounts have been recognised in the financial statements in relation to these matters.

At the date of the report no other material commitments, contingent assets or contingent liabilities exist that the Group is are aware of, other than those disclosed above.

For the year ended 30 June 2022

#### Guarantees

The Company has not entered into any guarantees in relation to the debts of any of its subsidiaries.

# DIRECTOR'S DECLARATION

The directors of the Company declare that:

(a) the financial statements and notes are in accordance with the Corporations Act 2001, and:

- (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
- (ii) give a true and fair view of the financial position as at 30 June 2022 and of the performance for the year ended on that date of the Group.
- (iii) are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, as stated in note 1 to the financial statements; and
- (b) In the Directors' opinion, there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable; and
- (c) The Directors have been given the declarations by the Chief Executive Officer and Chief Financial Officer as required by section 295A, of the Corporations Act 2001.

This declaration is made in accordance with a resolution of the Board of Directors and is signed on behalf of the Directors by:

Mr Greg Miles Chief Executive Officer

Perth, 19 September 2022

# CORPORATE GOVERNANCE STATEMENT

#### **Corporate Governance Statement**

In fulfilling its obligations and responsibilities to its various stakeholders, the Board is a strong advocate of corporate governance. This statement outlines the principal corporate governance procedures of Caspin Resources Limited ("**Company**" or "**Group**"). The Board of Directors ("**Board**") supports a system of corporate governance to ensure that the management of Caspin Resources Limited is conducted to maximise shareholder wealth in a proper and ethical manner.

#### **ASX Corporate Governance Council Recommendations**

The Board has adopted corporate governance policies and practices consistent with the ASX Corporate Governance Council's *Principles of Good Corporate Governance and Best Practice Recommendations* ("ASX Principles and Recommendations 4th Edition") where considered appropriate for Group of Caspin Resources Limited size and nature. Such policies include, but are not limited to the Board Charter, Board Committee Charters, Code of Conduct, Trading in Securities, Continuous Disclosure, Shareholder Communication and Risk Management Policies.

Further details in respect to the Group's corporate governance practises and copies of Group's corporate governance policies and the 2021 Corporate Governance Statement, approved by the Board, are available of the Group's website:

https://www.caspin.com.au/the-company/corporate-governance

Additional information required by the ASX Limited Listing Rules not disclosed elsewhere in this Annual Report is set out below.

#### 1. Shareholdings

The issued capital of the Company as at 9 September 2022 is 74,740,710 ordinary fully paid shares (including 4,920,000 escrowed ordinary shares), 1,114,924 employee performance rights, and 4,500,000 unlisted options (details below). All issued ordinary fully paid shares carry one vote per share.

#### **Ordinary Shares**

| Shares Range      | Holders | Units      | %       |
|-------------------|---------|------------|---------|
| 1-1,000           | 612     | 306,504    | 0.41%   |
