Directors Report

The directors of RightCrowd Limited (the “Company”) present their report together with the consolidated financial statements for the six months ended 31 December 2022 and the review report thereon.

Directors

The Directors of the Company at any time during or since the end of the interim period are:

Name	Period of Directorship
Robert Baker	Since 2017
Craig Davies	Since 2019
Peter Hill	Since 2004

Principal Activities

RightCrowd is a global provider of safety, security and compliance solutions that manage the access and presence of people. RightCrowd are specialists in technology solutions for the world’s most complex safety, security, and compliance challenges.

Review of Operations

The Company has delivered solid Annual Recurring Revenue (ARR)¹ growth during the first half of FY23. This growth was driven by the continuing sales of the Company’s Workforce Management products coupled with building momentum for sales of its Access Analytics solutions. These two trends helped to offset a reduction in sales from the Presence Control business unit given reduced demand for contact tracing solutions post COVID-19.

Revenue

Revenue for the half year was \$6,898k (FY22 H1: \$7,747k) representing a 11% decrease on prior year. The drop in revenue was due to a drop in sales for Presence Control solution relative to prior period as revenue from contract tracing solutions reduced by 67% to \$908k in the current period (FY22 H1: \$2,760k). Offsetting the reduction in Presence Control revenue was a 19% increase in revenue from Workforce Management sales to \$5,917k (FY22 H1: \$4,982k) and increasing revenue beginning to flow from Access Analytics solutions of \$73k for the period (FY22 H1: \$5k).

¹ ARR represents the total annualised value of active customer contracts for annual subscription, support, and maintenance services as at 31st of December 2022. ARR is a non-IFRS measure and is not subject to audit.

For personal use only

The strongest growth was in the recurring revenue line², which increased by 34% to \$5,272k compared to prior year (FY22 H1: \$3,941k). This was a result of a number of new transactions in line with the communicated strategy of the Company to focus on recurring revenue contracts rather than perpetual licenses.

The Workforce Management business is now also generating a greater amount of revenue from recurring contracts with \$4,426k booked during the period which was up by 72% versus prior period (FY22 H1: \$2,567k). The business unit maintained minimal customer churn (0.5% as measured on an ARR basis) and added 3 new customers during the period as sales pipeline activity increased with companies emerging from the COVID-19 pandemic. Consulting revenue of \$1,476k was 27% lower than prior period (FY22 H1: \$2,009k) with the Company moving some consulting work to recurring premium support subscription licenses.

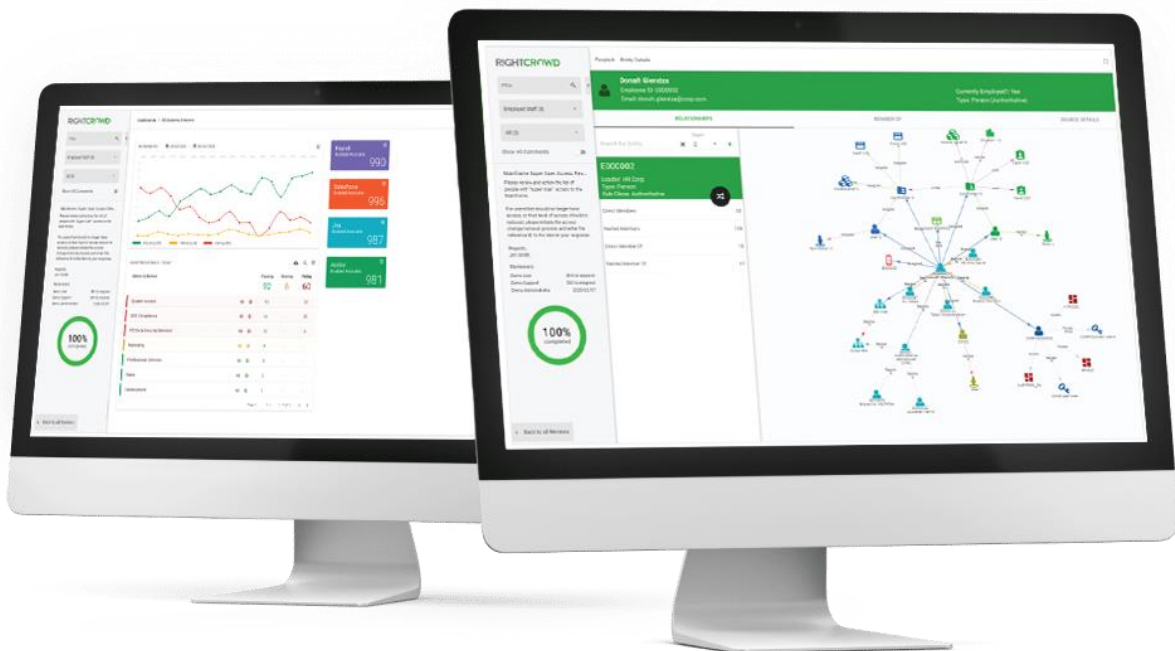

The Presence Control business unit generated revenue of \$908k during the half year (FY22 H1: \$2,760k) as contract tracing renewals reduced with companies moving post COVID-19. RightCrowd sold ~1,500 new Presence Control badgeholders during the first half of FY22, mostly to existing customers.

² Recurring Revenue includes subscription software, support and maintenance, and software as a service revenue.

For personal use only

The Access Analytics business unit concentrated on an international go to market campaign during the period. Revenue increased to \$73k when compared to prior period (FY22 H1: \$5k) due to new sales which resulted in the addition of 3 new customers during the period. H2 will be focused on adding further new customers following a strong period of lead and pipeline generation year to date.

Other Income

The Group's other income totalled \$1,669k during the 1st half of FY23 (FY22 H1: \$1,663k). Other income comprises of accruals for the FY23 R&D rebate as well as government grants received relating to the Cyber Studio program.

Operating Expenses

The Group announced cost restructuring plans during the period and is making good progress in reducing its cost base, whilst minimising impact on planned progress towards profitability. The primary cost category continues to be employee related expenses, with \$8,731k expensed during the first half of FY23 representing an 5% decrease on prior period (FY22 H1: \$9,175k). The reduced expense is as a result of reduced headcount over the period.

Cost of goods sold reduced by 78% to \$304k (FY22 H1: \$1,353k) which was as a result of a drop in sales of Presence Control hardware during the period.

Non-employee benefit expenses totalled \$2,172k which reduced by 5% on prior year (FY22 H1: \$2,292k), driven by other cost reduction initiatives and due to the depreciating AUD relative to prior year which delivered an FX gain of \$75k (FY22 H1: \$42k Loss).

The Company continues to carefully manage its cost base, particularly considering the current inflationary environment where certain elements of the Company's cost-base have been increasing.

Cashflows

Operating cash outflow reduced by 46% to \$395k relative to prior period (FY22 H1: \$730k outflow). This was driven by a 9% comparative reduction in cash payments to suppliers and employees.

Cash outflows from financing and investing activities were low at \$378k (H1 FY22: \$932k) as the Company cut back spending and had fewer outstanding debt facilities, having retired most of its debt in FY22.

Financial Position

The cash position stood at \$3,893k on the 31st of December 2022 having decreased from \$4,684k at the end of FY22. Trade and Other Receivables stood at \$3,089k (30 June 2022: \$4,579k) as a result of the receipt of the FY22 R&D rebate and general improvements in collections during the current half year period.

Hardware inventory balances remained relatively unchanged with \$1,431k of inventory reported at the end of the period, slightly higher than the \$1,346k of inventory held at the end of FY22. Assembly of further presence control hardware has been placed on hold given sufficient inventory remains for projected future sales.

For personal use only

The remaining goodwill relating to the acquisition of Ticto in 2019 was fully written down during the period which reduced the prior goodwill balance to nil (FY22: \$3,688k) This, coupled with the loss incurred during the reporting period were the primary drivers of the reduction in Total Assets by 32% to \$12,690k (30 June 2022: 18,638k).

Contract liabilities increased by 7% to \$3,106k as a result of an increase in workforce management subscription contracts signed during the period.

Provisions balances reduced to \$2,065k (current & non-current) from \$2,190k at the end of FY22 due to a reduction in leave and long-service accruals as a result of a reduction in staff headcount.

Business Outlook

RightCrowd continues to chart a path towards profitability and is pleased to confirm good pipeline growth and new software sales to support customers returning to the workplace. This demand is helping to offset the reduction in sales of the Presence Control business which helped to generate the high growth rates in the prior period.

The Company maintains its full-year guidance of an increase in sales revenue year-on-year and achieving more than \$12m in Annual Recurring Revenue (ARR is \$10.7m at the end of this reporting period). The Company will also continue to execute on cost reduction initiatives in order to reduce its cost-base by 10% relative to FY22.

For personal use only

Achieving these FY23 targets will put the Company in a strong position from which it can target the resumption of double-digit revenue growth and a stable cost base required to achieve profitability in FY24.

Auditor's independence declaration

The lead auditor's independence declaration is set out on page 11 and forms part of the directors' report for the six months ended 31 December 2022.

Notes to the condensed consolidated financial statements

1. Reporting entity

RightCrowd Limited (the "Company") is a company domiciled in Australia. These condensed consolidated interim financial statements ("interim financial statements") as at and for the six months ended 31 December 2022 comprise the Company and its subsidiaries (together referred to as the "Group"). RightCrowd is a global provider of safety, security and compliance solutions that manage the access and presence of people. RightCrowd are specialists in technology solutions for the world's most complex safety, security, and compliance challenges.

2. Basis of preparation

These interim financial statements are general purpose financial statements prepared in accordance with AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*, and with IAS 34 *Interim Financial Reporting*.

They do not include all the information required for a complete set of annual financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements as at and for the year ended 30 June 2022.

These interim financial statements were authorised for issue by the Company's Board of Directors on 24 February 2023.

3. Use of judgements and estimates

In preparing these interim financial statements, Management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income, and expense. Actual results may differ from these estimates.

The significant judgements made by Management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements.

Refer to note 11 for the impairment testing of Goodwill relating to the Presence Control business unit which resulted to a write down of the remaining value of goodwill amounting to \$3,690k impairment expense for the half year ended 31 December 2022.

4. Going Concern

The interim consolidated financial statements as at and for the half year ended 31 December 2022 have been prepared on a going concern basis, indicating that the Group is able to pay its debts as and when they fall due for at least the next twelve months.

The Directors have prepared cash flow projections that support the Group's ability to continue as a going concern based on all contracted customer payments, completion of customer project milestones, and a probability weighted conversion of open sales pipeline. The cash flow projections indicate the Group will have sufficient cash to meet its minimum expenditure commitments.

For personal use only

Notes to the condensed consolidated financial statements

The Group's ability to continue to adopt the going concern assumption will depend on a number of matters as follows:

- The successful development and further commercialisation of RightCrowd solutions.
- Increased revenues being achieved through sales of products and services.
- Receipt of future government grants, in particular the research and development tax incentive scheme, and
- Maintaining expenses in line with available funding.

The current balance sheet position, current level of net operating cash outflows and risk of pipeline execution delays give rise to material uncertainty which may cast significant doubt over the Group's ability to continue as a going concern. The Directors believe that the going concern basis of preparation is appropriate due to the proven ability of the Group to raise necessary funding via debt facilities, the issue of shares, and also increased revenue from sales.

Should the Group be unable to continue as a going concern, it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial report.

5. Revenue

	31 Dec 2022 (\$'000s)	31 Dec 2021 (\$'000s)
Subscription software and support and maintenance	4,463	2,380
Software as a Service	809	1,561

Cyber skills grant	215	177
Other income	114	105
Total:	1,669	1,663

For personal use only

Notes to the condensed consolidated financial statements

The Group receives a research and development rebate from the Australian Taxation Office each year based on qualifying research and development expenditure incurred.

The Group considers that there is reasonable assurance in relation to the claim for expenses incurred within the current half year and has therefore included an estimate of the rebate receivable in the financial statements for the half year ended 31 December 2022.

7. Contract balances

	31 Dec 2022 (\$'000s)	30 Jun 2022 (\$'000s)
Trade receivables arising from contracts with customers	1,914	1,438
Contract liabilities	(3,106)	(2,915)
Contract assets	-	329
Net contract balances	(1,192)	(1,148)

Trade receivables and contract liability balances increased relative to prior period due to increased sales during the reporting period.

Contract liabilities relate to invoices raised in respect of support and maintenance and software as a service revenue, for which the related performance obligations under the contract have not been met as at the half year end. The performance obligations will be satisfied over the underlying contract periods, which are typically over a period of 12 months.

8. Other Expenses

	31 Dec 2022 (\$'000s)	31 Dec 2021 (\$'000s)
Rental outgoings	82	67
Travel expense	234	109

Cyber studio expenses	20	100
Warranty expenses	(33)	22
Other expenses	125	202
Total:	1,714	1,685

Other Expenses remained in line with prior period with some increased costs incurred relating to trade shows and related travel offset by reduced expenditure incurred relating to the Cyber Studio initiative.

9. Disaggregation of Revenue from contracts with customers

The Group's operations and main revenue streams are those described in the last annual financial statements. In the following table, revenue is disaggregated by service/product line and timing of revenue recognition. The table also includes a reconciliation between the disaggregated revenue with the Group's reportable segments.

	Workforce Management (\$'000s)		Presence Control (\$'000s)		Access Analytics (\$'000s)		Total (\$'000s)

Other receivables	85	130
Accrued revenue	(156)	329
Total:	3,089	4,579

Trade and other receivables have reduced over the period courtesy of payments received from customers and the ATO relating to the FY22 Research and Development grant during the reporting period.

11. Intangible assets and goodwill

A. Reconciliation of carrying amounts

	Goodwill (\$'000)	Software and wearable technology (\$'000)	Total (\$'000)
Balance at 1 July 2022	3,688	985	4,673

Amortisation	-	(137)	(137)
Impairment	(3,690)	-	(3,690)
Balance at 31 December 2022	-	879	879

B. Impairment testing

The Group has written down the remaining goodwill this half year period that resulted from the acquisition of RightCrowd Europe and the Presence Control solution on 15 January 2019. This goodwill has previously been allocated to the Presence Control Cash Generating Unit (CGU) for impairment testing purposes and is now fully impaired.

The Presence Control business unit will continue to operate and generate revenue, however given the material reduction in sales thus far in FY23, the Company has decided to write down the remaining value of goodwill in the current reporting period.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of RightCrowd Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of RightCrowd Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2022 and of its financial performance for the half-year ended on that date; and
- (ii) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Emphasis of matter - Material uncertainty relating to going concern

We draw attention to Note 4 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
