DIRECTORS' REPORT

INTRODUCTION

The Directors present their report on the consolidated entity (referred to hereafter as "the Group") consisting of Zimi Limited ("Zimi" or "the Company") and its controlled entities for the half-year ended 31 December 2022.

This Directors' Report has been prepared in accordance with the requirements of the *Corporations Act 2001*.

BOARD OF DIRECTORS

The names of the Directors of Zimi Limited during the half-year period and up to the date of this report are:

Name	Position
Simon Gerard	Chair of the Board and Non-Executive Director
Jordan Tentori	Executive Director and Chief Executive Officer (CEO)
Peter Rossdeutscher	Non-Executive Director
Simon Beissel	Non-Executive Director

PRINCIPAL ACTIVITIES

Zimi is an innovative Australian technology company that creates 'the Zimi experience' by connecting everyday electrical products to the Internet and each other to create smarter living and working spaces.

The principal activities of the Group during the period were research and development within the Internet of Things (IoT) market, the assessment of new investment opportunities, product commercialisation and sale of electrical devices including switches, power points, fan and garage door controllers. There has been no significant change in the nature of these activities during this period.

REVIEW AND RESULTS OF OPERATIONS

KEY ACHIEVEMENTS

The Zimi team has continued to make headway over the last six months to progress our three phase growth plan, despite certain operational challenges in the overseas production environment. We have been working closely with our quality manufacturing partners to navigate labour and supply chain difficulties to bring our latest range of devices to market, which we expect to commence shipping in March 2023. Our team has also been focused on research and development activities to both expand and improve our product suite to integrate lifestyle & convenience, safety & security and energy management – the fundamental principles to our vision of a connected world. We continue to see significant market opportunities in Australia and globally for IoT devices and we are moving ever-closer to the next phase of larger scale commercialisation.

Important milestones achieved during the half-year period include:

- Significant growth in device pairings on the Zimi Cloud reflecting end user adoption, with total pairings jumping to 24,151 as at 31 December 2022 (an increase of 5,312 devices from 30 June 2022).
- Continued to invest engineering efforts into research and development activities in relation to new planned product offerings and technological advancements.
- Our team has worked hard to secure a production pipeline of over 46,000 devices. We have achieved pre-sales for approximately one-third of this stock and our customers have indicated we will receive further orders in the short-term.
- Focused our sales and marketing efforts by working with our customers who are looking to adopt the Zimi product suite into their design on a variety of property development projects. We continued to build strong relationships and advanced our engagement with our distribution partners to promote our brand awareness across the market.
- Completed a successful capital raise through share placement to continue to fund our operating activities and ongoing investment into research and development activities.

OPERATING RESULTS

For the half-year period ended 31 December 2022, the Group recorded a loss of \$3,247,131 (31 December 2021: \$2,824,487). This loss is not unexpected and reflects our continued investment into research and development activities, including working towards new product commercialisation and entrance into new markets, laying a strong foundation for Zimi's future success.

During the half-year ended 31 December 2022, the Group recognised revenue of \$104,590 (31 December 2021: \$2,710,800), reflecting that our inventory production was still in progress over the six-month period. We are now preparing for incoming deliveries of our next production runs consisting of approximately 46,000 devices, positioning the Group to generate material revenue.

Employee benefits expense largely represents amounts incurred for engineering staff, support staff and executive management. Depreciation and amortisation of \$1,427,704 (31 December 2021: \$1,371,734) primarily relates to the amortisation of identifiable intangibles recognised on the acquisition of Zimi Innovations Pty Ltd i.e. capitalised development costs and sales channel assets.

The Group reported a loss before interest, tax, depreciation and amortisation (EBITDA) of \$1,795,215 (31 December 2021: \$1,434,200). EBITDA is a non-IFRS financial measure used by management and the Directors to assess the financial performance of the Group. The Directors believe that this non-IFRS measure assists in providing additional meaningful information for stakeholders and provide them with the ability to compare against prior periods in a consistent manner. EBITDA is unaudited but is extracted from the reviewed financial statements.

CAPITAL MANAGEMENT AND CORPORATE UPDATE

During the six months, the Company conducted a capital raise via a placement to sophisticated and institutional investors at an issue price of \$0.08 per share to raise \$1,535,000 (before costs). \$1,185,000 was raised in cash funding and \$350,000 of shares were issued in exchange for services provided and to be provided to the Company by entities related to Director, Simon Gerard. In conjunction with the capital raise, the Company granted unlisted options to placement participants and unlisted options to the Company's lead manager for broker services.

There were a number of additional ordinary share, option and performance right issuances during the six month period which are outlined in detail further in the Financial Report.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There have been no significant changes in the state of affairs of the Group that occurred during the period not otherwise disclosed in this Interim Financial Report.

DIVIDENDS

No dividends have been paid or declared since the start of the financial period and the Directors do not recommend the payment of an interim dividend for the half-year ended 31 December 2022.

EVENTS OCCURRING AFTER THE REPORTING PERIOD

On 5 January 2023, the Company entered into an agreement with an external party to provide design and development services. The project is expected to span approximately a 12 month period and has a total fee of \$220,000 USD, which is payable in a combination of share and cash consideration. There are four key payment milestones included in the agreement, the first of which occurred on 19 January 2023 where Zimi issued 592,958 fully-paid ordinary shares in consideration.

Other than the events stated above, there have not been any additional matters or circumstances that have arisen after balance date that have significantly affected or may significantly affect, the operations of the Group, the results of those operations or the state of affairs of the Group in future financial periods.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7.

A BASIS OF PREPARATION

A1 BASIS OF PREPARATION

Zimi Limited is a listed for-profit public Company incorporated and domiciled in Australia. This Condensed Consolidated Interim Financial Report for the half-year ended 31 December 2022 was authorised for issue in accordance with a resolution of the Board of Directors on 24 February 2023.

This Condensed Consolidated Interim Financial Report is a general-purpose financial report which has been prepared in accordance with the *Corporations Act 2001* and with Accounting Standard AASB 134 *Interim Financial Reporting*.

This report should be read in conjunction with the Group's last Annual Report as at and for the year ended 30 June 2022. This report does not include all of the information required for a complete set of financial statements prepared in accordance with accounting standards. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual financial report.

The accounting policies and methods of computation adopted are consistent with those of the previous financial year and corresponding half-year.

The Condensed Consolidated Interim Financial Report has been prepared on the historical cost basis except for derivative financial instruments which have been measured at fair value.

This Condensed Consolidated Interim Financial Report is presented in Australian currency and amounts have been rounded to the nearest dollar unless otherwise stated, in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*.

A2 GOING CONCERN

The Condensed Consolidated Interim Financial Report has been prepared on a going concern basis, which assumes that the Group will be able to meet its debts as and when they become due and payable.

Notwithstanding the fact that the Group incurred an operating loss of \$3,247,131 for the half-year ended 31 December 2022, and a net cash outflow from operating activities of \$1,034,427, the Directors are of the opinion that the Group is a going concern for the following reasons:

- The Company completed a capital raise through the issuance of 19,187,500 shares to raise \$1,535,000 during the half-year period;
- The Research and Development (R&D) tax incentive of \$869,405 was received in September 2022;
- As at 31 December 2022, the Group has current assets exceeding current liabilities by \$1,670,114;
- The Group is forecasting significant revenue from upcoming production runs; and
- The Group can raise capital to secure additional sources of funds where required and has a history of successfully raising capital when required.

As at the date of approving this report, the cash flow forecast supports the Group's ability to continue as a going concern. The Directors have formed a judgement that there is a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future, and at least for 12 months from the date of approving this report.

A3 SIGNIFICANT ACCOUNTING POLICIES

(A) Significant accounting estimates and judgements

In preparing the Condensed Consolidated Interim Financial Report, the Directors have made judgements, estimates and assumptions that affect the application of accounting policies and the reporting amounts of assets and liabilities, revenue and expenses.

The significant judgements made by the Directors in applying the Group's accounting policies and key sources of estimation uncertainty are the same as those described in the Group's Consolidated Financial Report for the year ended 30 June 2022. The estimates, judgements and assumptions are based on historical experience, adjusted for current market conditions, and other factors that are believed to be reasonable under the circumstances, and are reviewed on a regular basis. Actual results may differ from these estimates.

(B) New and amended standards adopted by the Group

The accounting policies applied in these Condensed Consolidated Interim Financial Statements are the same as those applied in the Group's Consolidated Financial Statements for the year ended 30 June 2022. A number of new standards are effective from 1 July 2022 but these do not have a material effect on the Group's Financial Statements.

Certain new accounting standards and amendments to standards have been published that are not mandatory for reporting periods commencing 1 July 2022 and have not been early adopted by the Group. These standards are not expected to have a material impact on the Group in the current or future reporting periods.

B PERFORMANCE FOR THE PERIOD

B1 SEGMENT INFORMATION

AASB 8 *Operating Segments* requires operating segments to be identified on the basis of internal reports that are reviewed and used by the Chief Operating Decision Maker (CODM). The Board and executive management, identified as the CODM, assess the performance of the Group and determine the allocation of resources.

The Group's operating segments have been determined with reference to the monthly management accounts used by the CODM to make decisions regarding the Group's operations and allocation of working capital.

Based on the quantitative thresholds included in AASB 8 *Operating Segments*, there is only one reportable segment, being development and manufacturing and one geographical segment, namely Australia.

The revenues and results of this segment are those of the Group as a whole and are set out in the Condensed Consolidated Interim Statement of Comprehensive Income. The assets and liabilities of the Group as a whole are set out in the Condensed Consolidated Interim Statement of Financial Position.

As the Group is loss making, there is no dilutive effect of the potential ordinary shares. (C) Options

(i) Lead manager unlisted options

During the interim period, the Company conducted a capital raise. Zimi granted lead manager unlisted options to PAC Partners in respect of brokerage services relating to the capital raise. Options granted to advisors for capital raising services are valued and recognised as an associated cost to issued capital.

The fair value of the lead manager unlisted options issued for brokerage services has been determined based on a Black-Scholes option pricing model. The lead manager unlisted options have no vesting conditions. The variables in the table below were used as inputs into the model to determine the fair value of the lead manager unlisted options.

Grant Date	Expiry date	Number of options	Exercise price	Share price volatility	Risk-free rate	Value per option	Value of options
14 Oct 2022	18 Oct 2025	1,481,250	\$0.12	126%	3.45%	\$0.0407	\$60,231

The balance of 5,475,700 lead manager unlisted options are all exercisable at period end.

(ii) Free attaching options

As part of the capital raise conducted in the interim period, for every one share, one free-attaching placement option was also issued (total of 19,187,500 free-attaching options). Free-attaching options are not valued and recognised in the share-based payments reserve unless the attaching options were issued in respect of services relating to the capital raise (refer to note F1(C)(i)). These placement options are exercisable at \$0.12 and expire 3 years from the date of issue.

(D) Director performance rights

In the interim period ended 31 December 2022, the Company issued 2,500,000 performance rights to Jordan Tentori (Executive Director and CEO) upon approval from shareholders. The grant date of the performance rights was 28 November 2022. The performance rights do not have an exercise price. In addition to the service period being met for all three tranches, the performance rights had three separate vesting conditions, as set out below.

- Tranche one – 1,250,000: Will vest if the employee or contractor is continuously employed or contracted by the Company or a subsidiary until 30 June 2024.
- Tranche two – 625,000: Will vest if paired devices with the Zimi Cloud exceeds 37,500 by 30 June 2024.
- Tranche three – 625,000: Will vest if paired devices with the Zimi Cloud exceeds 75,000 by 30 June 2024.

F1 SHARE-BASED PAYMENTS (continued)

(D) Director performance rights (continued)

The fair value of the performance rights has been determined based on the Company's share price at the date of grant, being \$0.067. The total value of these rights of \$167,500 is being brought to amount over the period from grant date to expiry date.

Set out in the table below is a reconciliation of Director performance rights.

- Tranche three – 150,000: Will vest if paired devices with the Zimi Cloud exceeds 75,000 by 30 June 2024.

These performance conditions are consistent with those associated with the existing performance rights previously issued to employees in May 2022 and to Jordan Tentori during the half-year period.

The fair value of the performance rights has been determined based on the Company's share price at the date of grant, being \$0.067. The total value of these rights of \$40,200 is being brought to amount over the period from grant date to expiry date.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Zimi Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Responsibility of the directors for the financial report

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
