### Minim Martap Bauxite Project (the Project) (100% CAY)

During the Half-Year ended 31 December 2022, the Company continued to attend meetings with senior Cameroon Government officials with a view to securing approvals for the grant of the Mining Permit for the development of the Project as well as continuing discussions with parties interested in pursuing joint venture and strategic partner arrangements. Alongside these efforts several other significant milestones were reached by the Company in relation to the Project.

### Strategic Placement to advance Minim Martap development

Since the release of the Minim Martap Bauxite Project Bankable Feasibility Study (BFS) in June 2022, Canyon was in receipt of strong inbound interest from potential joint venture and strategic partners. The robust economics outlined in the BFS, and the mining scheduling highlighted the world-class nature of the Project. Specifically, the attraction to potential joint venture and strategic partners is the ability of Minim Martap to deliver consistently high-grade bauxite over multiple decades.

In December 2022, Canyon secured a strategic placement of ~\$12.1m at \$0.06 per share with Eagle Eye Asset Holdings Pte. Ltd ("EEA"). EEA (branded as Fortuna Holdings SFO) is incorporated and based in Singapore with branch offices in Dubai. EEA has a successful track record of developing projects in Africa and in other geographies and has a long-term vision to develop an integrated bauxite and aluminium value chain from Africa.

The strategic placement was conducted at a significant price premium (+41.8%) to Canyon's 30-day VWAP of \$0.042 up to and including 20 December 2022. Each Placement Share has, subject to Shareholder approval, an attaching option (exercise price of \$0.07 per option and expiry date of 10 August 2025). The placement of shares to EEA was completed on 22 December and EEA is now Canyon's largest shareholder with 19.9% of the Company's issued share capital.

EEA represents a highly attractive, long term strategic partner, with capability to assist Canyon with project funding solutions to facilitate the Minim Martap Project moving towards development.

Under the terms of the strategic placement, EEA has the right to nominate one representative to the Canyon Board.

## Canyon Resources Limited Directors' report 31 December 2022

### **Makan Bauxite Permit**

In addition to the Minim Martap Bauxite Project, the Company has continued to progress early-stage resource definition work and the identification of long-term Direct Shipping Ore (**DSO**) options at the Makan Permit. To date, the Makan Permit has not been as extensively explored as the Ngaoundal and Minim Martap Permits. As announced on 7 October 2022, the exploration activities will focus on defining sufficient bauxite mineralisation to develop sustainable long-term DSO operations to be included in the Minim Martap Bauxite Project.

The activities planned will satisfy the requirements to maintain the Permit under the terms of the extension granted in February 2022. The program aims to improve the resource knowledge on this ground, eventually growing the existing contribution of the Permit into the Minim Martap mining schedule.

Exploration work planned for the coming half year includes the following:

Continue target generation activities with the advancement of new pits on the Greenfield plateaux.
 Dispatch pit samples for primary assay and the interpretation of assay results.
 Commence resource drilling on high grade plateaux defined by the target generation campaign.

### Grant of Certificate of Environmental Compliance

In October 2022, Canyon announced that it had been granted a Certificate of Environmental Compliance (CEC) after submission by the Company of a detailed Environmental Social Impact Assessment (ESIA). The ESIA included extensive public consultation of multiple stakeholders and related communities. The grant of the ESIA was a further step in progressing the Minim Martap Project and is further demonstration of the positive momentum Canyon is building through the ongoing interaction with all stakeholders in Cameroon.

### Application for Mining Permit

Camalco Cameroon SA (Camalco), Canyon's wholly owned subsidiary in Cameroon, has completed the application process in Cameroon for the grant of the Mining Permit for development of the Project and all subsequent clarifications and negotiations have been successfully completed and submitted. Canyon's capacity to develop the Project has likewise been accepted by His Excellency the Minister of Mines, Industry and Technological Development. Notably, the period for the Government of Cameroon to object to the processing and approval of the Mining Permit application has passed.

Canyon management, including Chief Executive Officer, Mr Jean-Sebastien Boutet, continue to hold positive and constructive meetings with representatives of the Cameroon Government, including Prime Minister Ngute, who has personally expressed his support for the Project during recent meetings. Canyon continues to actively lobby at all levels of government for the signing of the Mining Convention which remains the major focus of the Company and Management.

The Company anticipates that the recent securing of the Strategic Placement with EEA as well as EEA's demonstrable track record of delivering projects in Africa is an important demonstration of the increased capability of Canyon management to execute the Project and will be viewed positively with respect to the granting of the Mining Permit.

#### **CORPORATE**

## **Board Changes**

As announced on 11 July 2022, Mr Phillip Gallagher concluded his role as Managing Director of the Company.

To drive the development of the Minim Martap Bauxite Project, Canyon CEO Mr Jean-Sebastien Boutet, an experienced bauxite executive, took over the leadership of the Company to finalise and drive the funding and construction phases of the Project.

In a further Board restructure, on 8 August 2022 the Company announced that Mr Cliff Lawrenson and Mr Steven Zaninovich had provided notice to the Company of their resignations as Non-executive Directors of the Company. In their place, the Company appointed experienced mining, bauxite, and alumina executives, Mr Mark Hohnen as Non-executive Chairman and Mr Scott Phegan as a Non-executive Director.

## Canyon Resources Limited Directors' report 31 December 2022

These Board changes came as part of Canyon's transition from explorer to developer at its 100% owned Minim Martap Project in Cameroon, with the Board refreshment being undertaken to better position the Company for its next stage of growth. The combined experience of Mr Boutet, Mr Hohnen and Mr Phegan across the development, operational and business development spectrum of the bauxite/alumina industry will provide the necessary skillset to direct and support the Company into the future.

## Shareholder Meetings

An Extraordinary General Meeting of the Company was held on Wednesday, 10 August 2022 and the Annual General Meeting of the Company was held on 21 November 2022. All resolutions put to a poll at these two meetings were carried.

Post 31 December 2022, the Company held a further Extraordinary Shareholder Meeting on 28 February 2023, with all resolutions put to a poll (including the issue of options to EEA) being carried.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Canyon Resources Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2022 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### Basis for conclusion

We conducted our review in accordance with ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity. Our responsibilities are further described in the Auditor's responsibilities for the review of the financial report section of our report. We are independent of the company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
