Dominion Minerals Limited

Annual Report

For the year-ended 31 December 2022

ABN: 45 101 955 088

CONTENTS

DIRECTORS' REPORT

Your Directors present their report on Dominion Minerals Limited ("Company" or "Dominion") for the financial year ended 31 December 2022. Dominion is an entity incorporated and domiciled in Australia and is listed on the Australian Securities Exchange with the code DLM (ASX:DLM). The financial statements to which this report relate represent the financial statements of Dominion and the entities it controlled for the year ended 31 December 2022 (collectively "Group").

The names and qualifications of Directors in office during the financial year and up to the date of this report are detailed below. Directors were in office for the entire period unless noted otherwise.

- Dr David Brookes — Chairman
- Mr Anastasios Arima — Non-Executive Director
- Mr Dominic Allen — Executive Director and CEO

Dr David Brookes, MBBS FACRRM FAICD

Non-Executive Director and Chairman

Appointed Non-Executive Director 10 April 2019. Appointed Chairman 30 July 2020

Dr Brookes has extensive experience in the health and biotechnology industries and is currently Executive Chairman of Anatara Lifesciences Ltd (ASX:ANR) and a Non-Executive director of TALi Digital Ltd (ASX:TD1) and Island Pharmaceuticals Limited (ASX:ILA). He has previously been a director of several other ASX listed biotechnology companies, most recently as the Chairman of genomics solutions company, RHS Ltd, which was acquired by PerkinElmer Inc (NYSE:PKI) in June 2018. Until its acquisition in January 2022, Dr Brookes was Non-Executive Chairman of a private health services company, the Better Medical Group, and maintains roles as a clinician and a biotechnology industry consultant. Dr Brookes is a Fellow of the Australian College of Rural and Remote Medicine and a Fellow of the Australian Institute of Company Directors.

Anastasios Arima

Non-Executive Director

Appointed 1 November 2021

Mr Arima is a resource company executive with a strong history of identifying company-making resource projects. He was the founder of Piedmont Lithium (Nasdaq:PLL) and was instrumental in identifying and securing the Piedmont Lithium Project in North Carolina, USA. Mr. Arima is the founder and managing director of IperionX (ASX:IPX), focused on the development of the titan heavy mineral sand project and associated titanium metal technologies in Tennessee, USA. He has extensive experience in the formation and development of energy and resource projects in North America and Europe. He attended the University of Western Australia where he earned a Bachelor of Commerce whilst studying for a Bachelor of Engineering.

Dominic Allen

Executive Director and Chief Executive Officer

Appointed 1 November 2021

Mr Allen is a finance professional with over 15 years experience in the management and operations of natural resources organisations. Mr Allen is currently head of corporate development for IperionX (ASX:IPX), focused on the development of the titan heavy mineral sand project and associated titanium metal technologies in Tennessee, USA, having previously held senior roles with major resource organisations Rio Tinto Limited and Oyu Tolgoi LLC. Mr Allen commenced his career in the corporate finance team of international accounting firm Ernst & Young, holds a Bachelor of Commerce and a Bachelor of Science (Hons) from the University of Western Australia and is a qualified Chartered Accountant (CA ANZ).

DIRECTORS' INTERESTS IN COMPANY SECURITIES

	Number of Ordinary Shares[#]	Number of Options over Ordinary Shares[#]
D Brookes	4,901,250	500,000
D Allen	2,410,624	1,303,541
A Arima	910,624	1,303,541

DIRECTORS' MEETINGS

The number of meetings of Directors and committees of Directors held in the financial year ended 31 December 2022, and the number of meetings attended by each Director, is listed below.

	Directors' Meetings		Audit and Risk Management Committee		Nomination Committee		Remuneration Committee	
	Eligible to Attend	**Attended**	**Eligible to Attend**	**Attended**	**Eligible to Attend**	**Attended**	**Eligible to Attend**	**Attended**
D Brookes	2	2	2	2	-	-	-	-
D Allen[(i)]	2	2	2	2	-	-	-	-
A Arima[(i)]	2	2	2	2	-	-	-	-

The full Board fulfilled the roles of the Audit and Risk Management Committee, the Remuneration Committee and the Nominations Committee during the financial year.

COMPANY SECRETARY

Stephen Kelly (Chief Financial Officer and Company Secretary)

Appointed 8 October 2021

Mr Kelly is a highly experienced Director, Chief Financial Officer and Company Secretary. A qualified Australian Chartered Accountant, Mr Kelly has more than 30 years international experience in the areas of external and internal audit, risk management and compliance, treasury and corporate finance across a range of industry sectors including agribusiness, mining, infrastructure, property development and banking and finance. Mr Kelly is a member of the Institute of Chartered Accountants in Australia.

PRINCIPAL ACTIVITIES – REVIEW OF OPERATIONS

Georgia Lime Project, Georgia, USA

The Group holds a 100% interest over the Georgia Lime Project, comprised of an option to purchase ~360 acres of private surface and mineral rights in Early County, Georgia. The project comprises a mineral resource of high calcium limestone in a region where significant baseload demand exists in the form of agricultural lime, which is currently predominately supplied by Florida based limestone and dolomite operations.

Maiden Mineral Resource Estimate[1]

On 23 February 2022 the Company delivered a Maiden Mineral Resource Estimate ("MRE") for the Georgia Lime Project. The MRE contains 19.7 million tonnes of high calcium limestone for agricultural, industrial, and chemical markets at a grade of 97.1% $CaCO_3$, and 7.71 million tonnes of limestone for concrete and other civil and construction markets at a grade of 87.74% $CaCO_3$. Approximately 83% of the mineral resource is classified in the Indicated category.

Class	Tonnes Mt	$CaCO_3$ %	SiO_2 %	Fe_2O_3 %	MgO%
High Calcium (>95% $CaCO_3$)					
Indicated	16.7	97.1	1.2	0.35	0.27
Inferred	3.0	97.0	1.2	0.36	0.28
Sub-total	**19.7**	**97.1**	**1.2**	**0.36**	**0.27**
Aggregate (<95% $CaCO_3$)					
Indicated	6.00	88.17	8.06	1.19	0.38
Inferred	1.72	86.22	9.18	1.20	0.38
Sub-total	**7.71**	**87.74**	**8.31**	**1.19**	**0.38**

Table 1: Mineral Resource Estimate detail.

The deposit is hosted in the upper Ocala Limestone formation, a shallow and laterally extensive deposit that lies at or near the surface in southwestern Georgia. The formation is a product of shallow calcareous marine deposits resulting in a stratiform deposit of high purity $CaCO_3$ limestone with a typical thickness of 5 m to 10 m, increasing to 12 m at the south of the property.

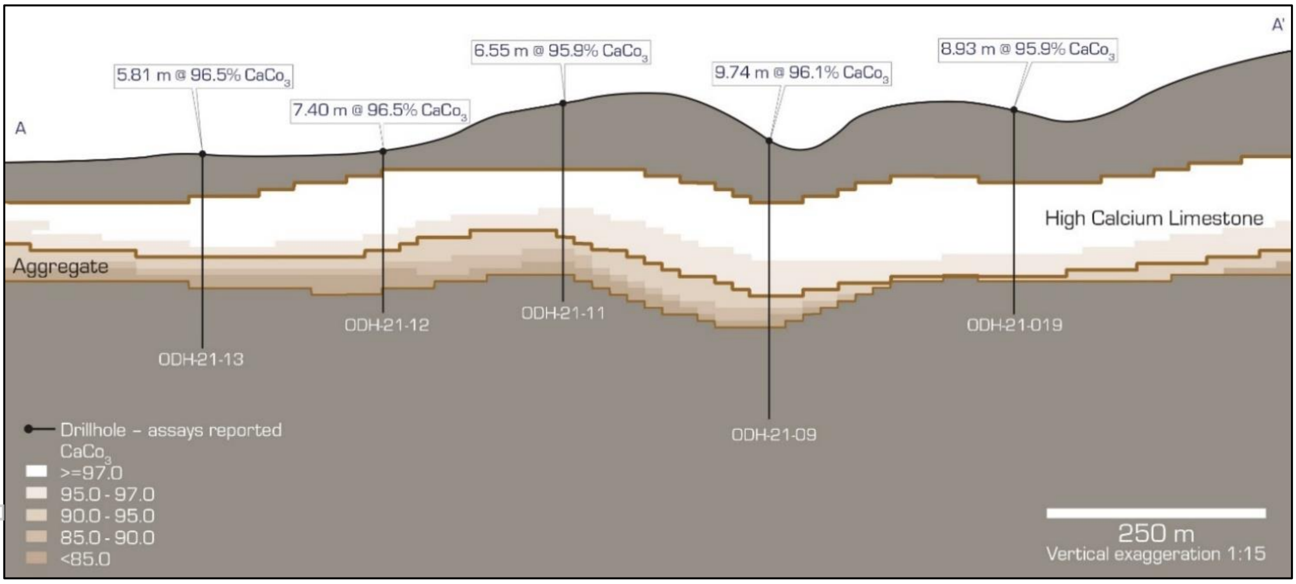

Figure 1: Cross section A – A' highlighting the thickness and continuity of grade across the MRE model.

The results of the MRE demonstrate a shallow, high purity limestone resource under unconsolidated overburden that averages 3 meters in thickness, with the potential for low-cost mining operations limestone in a region where significant baseload demand exists in the form of agricultural lime, currently predominately supplied by Florida based limestone

[1] *Dominion's ASX Announcement dated 23 February 2022 ("Original ASX Announcement") which is available to view at Dominion's website at www.dominion-minerals.com. Dominion confirms that a) it is not aware of any new information or data that materially affects the information included in the Original ASX Announcement; b) all material assumptions included in the Original ASX Announcement continue to apply and have not materially changed; and c) the form and context in which the relevant Competent Persons' findings are presented in this report have not been materially changed from the Original ASX Announcement.*

and dolomite operations, as well as other high value markets such as the glass industry and other chemical and industrial applications.

The maiden MRE was informed by 21 drill holes and 8 test pits completed between 2019 and 2021 that confirmed the presence of thick high calcium limestone across the property (Figure 2). The high calcium limestone drill hole intervals ranged from 4.5 m to 9.7 m with almost all results above 95% $CaCO_3$.

The exploration results to date demonstrate a shallow, high purity limestone resource under unconsolidated overburden that averages 3 meters in thickness, with the potential for low-cost mining operations limestone in a region where significant baseload demand exists in the form of agricultural lime, currently predominately supplied by Florida based limestone and dolomite operations, as well as other high value markets such as the glass industry and other chemical and industrial applications.

On 16 November the Company announced that it had secured an extension of the option period from 30 November 2022 until 3 August 2023. A payment of US$150,000 was made to secure the extension to the Option Period.

The extension of the Option Period will provide the Company sufficient time to undertake a test work program to confirm the marketability of product from the Georgia Lime Project for major regional markets and end-users.

Technical activities the Project during the reporting period have been focused upon sales and marketing assessments to identify optimal end markets for potential future production from the Project. The Company has engaged a consultant with experience in limestone markets in the southeast of the U.S. to assist in the planning of a test work program to increase the understanding of the market potential for products from the Georgia Lime Project.

Outcomes of the sales and marketing assessments and future proposed test work programs will inform key inputs in technical studies to evaluate potential mining and processing scenarios at the Project, including potential scale of operations.

The decision to undertake the test work program was based on the results of a preliminary marketing investigations that highlighted the sensitivity of marketing assumptions to factors such as the markets that the Project may be able to sell its product into, the distance from other limestone producers and the distance from potential customers. These factors are likely to significantly impact a number of production parameters including the scale of the Project and selection of the preferred processing methodology. It was therefore determined that further work is required should be undertaken on product marketing, including additional test work, prior to progressing technical studies.

LUNA LITHIUM, NEVADA, USA

In January 2022 Dominion subscribed for shares in a capital raising undertaken by Luna Lithium Ltd ("Luna Lithium"), a private Canadian company. Luna was initially focussed on exploring the Pilot Peak lithium brine project in Nevada, USA. Based on the results of initial exploration drilling at the Pilot Peak Project, Luna Lithium elected not to continue exploration of the Pilot Peak Project.

Luna Lithium is now actively engaged in the process of securing exploration rights over land in North America and South America that is prospective for Lithium.

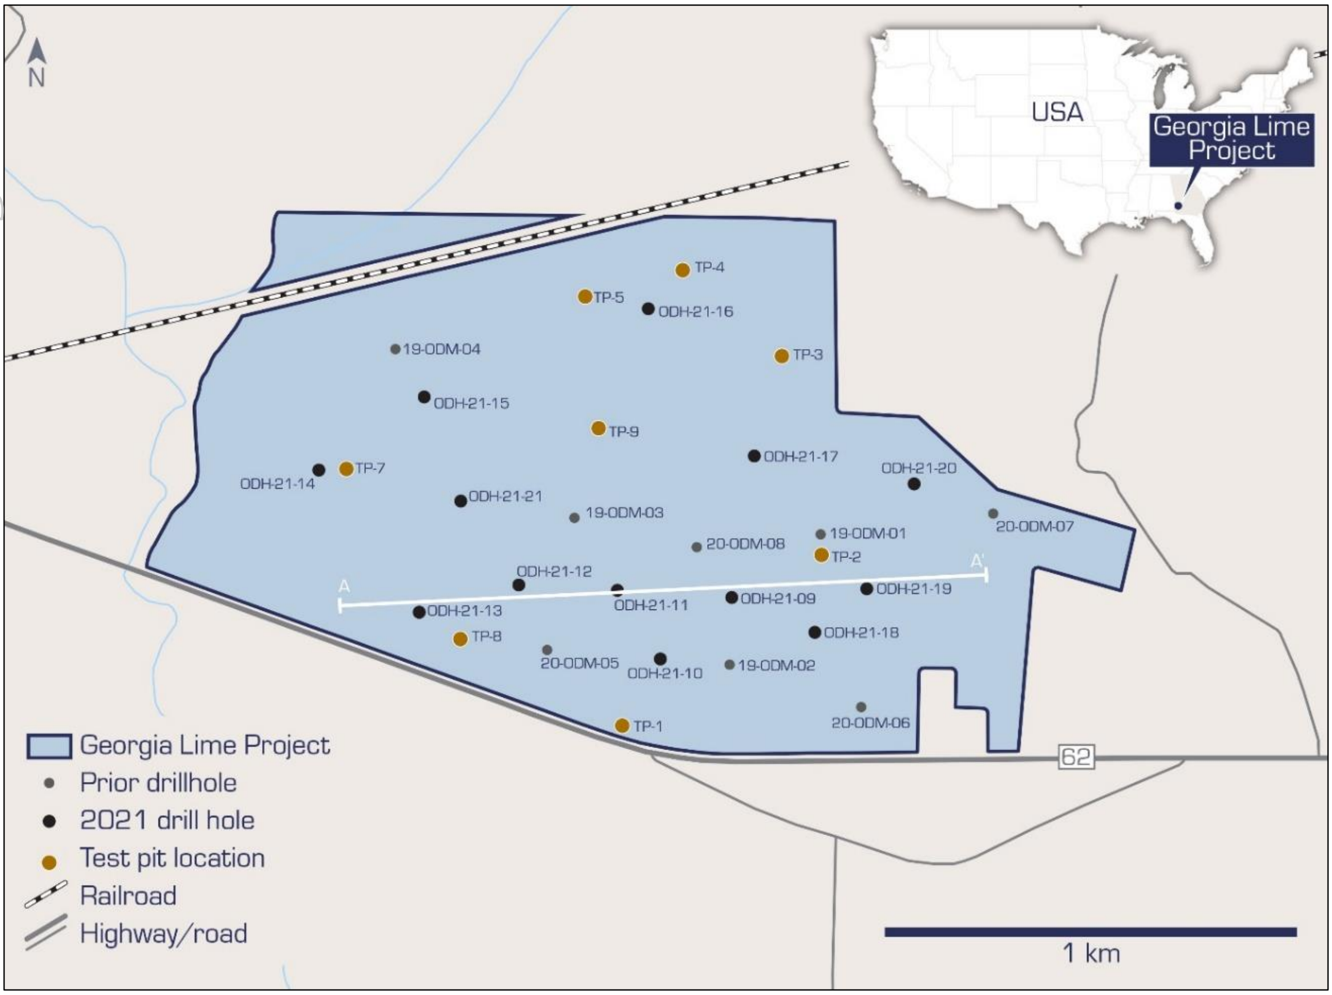

Figure 2: Plan view highlighting drill hole locations.

OPERATING RESULTS AND DIVIDENDS

The loss after tax of the Group for the financial year ended 31 December 2022 was $872,748 (2021: loss after tax $1,067,342). No dividend was proposed or paid.

The significant items affecting the loss after tax were:

i. In the current reporting period the Company incurred costs totalling $75,899 in relation to legal and technical consultant costs in relation to undertaking due diligence on business development opportunities presented to the Company (2021: costs totalling $265,685 including legal costs, ASX and share registry costs and insurance costs associated with the PowerLime acquisition and the re-compliance listing of the Company's shares on the ASX).

ii. Exploration expenses totalling $61,400 incurred in relation to the exploration programs undertaken at the Georgia Lime Project (2021: $200,950).

CHANGES IN ISSUED CAPITAL

There were no changes in the Company's issued capital during the year ended 31 December 2022.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Other than the matters reported elsewhere in this report, there were no significant changes in the state of affairs of the Company during the financial year.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

The Company has engaged a consultant with experience in limestone markets in the southeast of the U.S. to assist in the planning of a test work program to increase the understanding of the market potential for products from the Georgia Lime Project. The Company is also in advanced discussions with a consultant who has developed a limestone operation in near proximity to the Georgia Lime Project to assist with project development planning. The outputs of these studies will be critical inputs into further technical studies proposed to be undertaken in relation to the Georgia Lime Project.

ENVIRONMENTAL REGULATION AND PERFORMANCE

The Company's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation. Nonetheless, the Company is committed to high standards of environmental care.

UNISSUED SHARES: SHARE OPTIONS

At the date of this report there were 16,187,498 (31 December 2021: 16,312,498) unissued ordinary shares under options as detailed in the table below. Option holders do not have any rights to participate in any issues of shares or other interests of the Company or any other entity. During the financial year ended 31 December 2022, no ordinary shares of the Company were issued on the exercise of share options granted.

Grant Date	Expiry Date	Exercise Price	Number of Options
27-Sep-2021	26-Sep-2025	$0.12	10,687,498
08-Oct-2021	07-Oct-2025	$0.12	5,000,000
01-Nov-2021	31-Oct-2025	$0.12	500,000

SIGNIFICANT EVENTS AFTER THE BALANCE DATE

There have been no subsequent events that required adjustment to or disclosure in the Directors' Report or the Financial Statements of the Company for the year ended 31 December 2022.

REMUNERATION REPORT (AUDITED)

This Remuneration Report for financial year ended 31 December 2022 outlines the remuneration arrangements for the Company in accordance with the requirements of the *Corporations Act 2001* and its regulations. This information has been audited as required by section 308(3C) of the *Corporations Act 2001*.

The Company's remuneration framework and practices are designed to align remuneration outcomes with shareholder interests and to attract and retain persons with appropriate and relevant capability. This remuneration report details the remuneration arrangements for key management personnel (KMP) who are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Company, directly or indirectly, including any Director, whether executive or otherwise.

For the purposes of this report, the term "Director" refers to Non-executive Directors (NEDs) and Executive Directors. "KMP" refers to other key management personnel.

The names and details of the Directors and KMP of the Company in office during the financial year and until the date of this report are detailed below. Unless otherwise noted, Directors and KMP listed are in office at the date of the report. There were no changes to KMP after the Balance Date and before the date this financial report was authorised for issue.

Non-Executive Directors

David Brookes	Non-Executive Director and Chairman
Anastasios Arima	Non- Executive Director

Executive Director

Dominic Allen	Executive Director and Chief Executive Officer

Director Remuneration

Under the Constitution, the Board may decide the remuneration from the Company to which each Director is entitled for their services as a Director of the Company. However, under the Constitution and ASX Listing Rules, the total aggregate amount provided to all non-executive Directors for their services as Directors must not exceed in any financial year the aggregate amount approved by Shareholders at the Company's general meeting. This amount is currently fixed at $400,000 per annum.

Each Director receives an annual fee for being a Director of the Company, which reflects their obligations and responsibilities and takes into account the overall situation of the Company and its cash position. The following annual non-executive Directors' fees are agreed to be paid by the Company:

(a) Chairman's fee: $82,800 (exclusive of applicable superannuation); and

(b) non-executive Director fee: $65,748 (inclusive of applicable superannuation)

Directors do not receive additional fees for being a member of a Board committee. The remuneration of Directors must not include a commission on, or a percentage of profits or operating revenue. There are no retirement benefits.

The amount of aggregate remuneration sought to be approved by shareholders and the fees paid to Directors are reviewed annually.

Key Management Personnel Remuneration – General Philosophy

The Company's philosophy on remuneration is that executive and key employee remuneration should be aligned with Shareholder interests by providing levels of fixed remuneration and 'at risk' pay sufficient to attract and retain individuals with the skills and experience required to build on and execute the Company's business strategy, ensuring 'at risk' remuneration is contingent on outcomes that grow and/or protect shareholder value, and aligning the interests of executives and shareholders by ensuring a suitable proportion of remuneration is received as a share-based payment.

To ensure that the Company continues to attract, retain and motivate talented staff at a competitive cost, the Company will aim to align total fixed remuneration to the median rate of the relevant market, with consideration given to experience, qualifications, performance and other non-financial benefits.

The Remuneration Committee recommends to the Board the remuneration packages for the executive team. These are reviewed annually. The Remuneration Committee may seek external advice to determine the appropriate level and structure of the remuneration packages.

Remuneration consists of:

- total fixed remuneration – base salary and superannuation; and
- 'at risk' remuneration – short-term incentives (STI) and long-term incentives (LTI).

To ensure that the Company continues to attract, retain and motivate talented staff at a competitive cost, Dominion will:

- aim to align total fixed remuneration to the median rate of the relevant market, with consideration given to experience, qualifications, performance and other non-financial benefits; and
- ensure 'at risk' remuneration provides an incentive for performance aligned with the strategic objectives of the Company.

Adjustments to fixed remuneration and 'at risk' remuneration will be paid/issued following the annual performance and remuneration review, which is conducted by executive management based on achievement against the KPIs and recommended to the Remuneration Committee; a review by the Remuneration Committee and recommendation to the Board; and approval by the Board.

Calculation of STI awards is based on achievement of KPIs set at the beginning of each year.

LTIs are offered to incentivise, reward and retain personnel, and to further align the interests of personnel and shareholders. The terms of any LTI grant are determined by the Board. LTI grants normally take the form of the issue of unlisted share options. Share options are normally issued under the company's employee share option plan (ESOP). All grants of equity are determined by the Board, following a recommendation from the Remuneration Committee.

Executive Director – Dominic Allen

The Company has entered into a consultancy contract with Dominic Allen to provide Chief Executive Officer services to Dominion on the following terms:

Condition	Description
Term	Commencing 1 November 2022 for a period of 24 months
Base fee	$120,000 per annum inclusive of statutory superannuation and exclusive of GST
Short term incentive (STI)	Up to 20% of base salary based on achievement of objectives and KPIs set by the Board
Other benefits	Nil
Termination	Three months notice by either party. No additional termination benefits.
Restraints	Nil

Remuneration year ended 31 December 2022

Related Party Transactions with KMP

Remuneration: Remuneration to KMP is recorded in the tables above.

Loans: There were no loans between the Company and any KMP in the year ended 31 December 2022.

Other transactions:

Other than those noted above, there were no related party transactions with any KMP in the year ended 31 December 2022.

Grants of options affecting remuneration

There are no options on issue which affect remuneration in the current or a future reporting period.

Remuneration, Group performance and shareholder wealth

The development of remuneration policies and structures is considered in relation to the effect on Group performance and shareholder wealth. They are designed by the Board to align Director and Executive behaviour with improving Group performance and ultimately shareholder wealth.

Executives are currently remunerated by a combination of cash base remuneration and options. The options granted are considered by the Board to provide an alignment between the employees and shareholders interests.

The table below shows for the current financial year and previous four financial years the total remuneration cost of the key management personnel, earnings per ordinary share (EPS), dividends paid or declared, and the closing price of ordinary shares on ASX at year end.

Financial Year	Total Remuneration $	EPS (Cents)[1]	Dividends (Cents)	Share Price (Cents)[1]
2022	275,035	(0.39)	-	4.7
2021	284,538	(0.84)	-	6.4
2020	176,341	0.3	-	5.0
2019	87,712	1.6	-	3.0
2018	1,304,385	(0.136)	-	2.0

[1] EPS and share price data for all the years 2018 to 2021 inclusive have been adjusted to reflect the 10:1 capital consolidation completed in the 2021 financial year.

Given the stage of the Company's development and the fact that it does not currently have any revenue producing operations, the Board does not consider EPS or dividends paid or declared to be meaningful measures for assessing executive performance.

Voting and comments made at the Company's 2022 Annual General Meeting

The Company received more than 99% of "yes" votes on its remuneration report for the financial year ended 31 December 2021. The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

END OF REMUNERATION REPORT

MATERIAL BUSINESS RISKS

Mineral exploration and development, is considered by its nature to be high-risk and is affected by risks and uncertainties, some of which are beyond the Group's reasonable control. The uncertainties arise from a range of factors, including the nature of the mineral exploration industry and changing economic factors. The business risks assessed as having the potential to have a material impact on the business, operating and/or financial results and performance of the Group include:

Exploration Activity Risk

Mineral exploration activity, especially drilling, is considered by its nature to be high-risk and is affected by numerous factors. Drilling operations can be affected by breakdowns, adverse weather conditions, site and geographical conditions, operational risks, shortage or delays in the delivery of rigs and/or other equipment, industrial disputes, government regulations, environmental issues and unanticipated costs. Hazards incident to the exploration and development of mineral exploration properties such as unusual or unexpected formations, pressures or other factors are inherent in drilling and may be encountered by Dominion. Exploration may be unsuccessful and may prove to be more costly than expected or the proposed timing of exploration may not be achieved.

To maximise the possibility of success in its exploration activities, Dominion seeks to employ technical staff of the highest calibre and to engage proven contractors and service providers to plan and implement its exploration and development programs.

Governmental and Regulatory Risk

Dominion's current and future exploration, development and production activities are subject to various laws and statutory regulations governing exploration, development, production, taxes, royalty payments, labour standards and occupational health, mine safety, toxic substances, land use, water use, communications, land claims of local people and other matters, and to obtaining and maintaining the necessary titles, authorisations, permits and licences.

No assurance can be given that new laws, rules and regulations will not be enacted or that existing laws, rules and regulations will not be applied in a manner which could have an adverse effect on Dominion's financial position and results of operations, or on the success of its exploration and development projects.

Failure to comply with any applicable laws, regulations or permitting requirements may result in enforcement actions against Dominion including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions.

Continuous monitoring of legislative and regulatory changes and associated risks is undertaken and regular engagement with regulators and governments supports the management of risks arising from these changes.

Native Title and Land Access Risk

In addition, Dominion requires access to traditional, private and public lands which its exploration projects overlay. Exploration activities may be adversely impacted or delayed if Dominion is unable to negotiate access or entry agreements to those lands, or if disputes arise in relation to negotiated land access and entry agreements.

Dominion works closely with local communities, private and public landholders and other stakeholders to develop positive working relationships with those parties and to ensure that they are kept informed of Dominion's proposed and actual activities.

Reserve and Resource Estimates Risk

Reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice of independent experts. In addition, such estimates are necessarily imprecise and depend to a significant extent on interpretations, which may prove inaccurate. The calculation of any possible quantities of minerals in a prospect may be proved incorrect by future exploration, production, mapping and/or drilling activity. Further, there is no guarantee that estimated reserves and resources can be profitably exploited.

Dominion engages highly reputable and independent international experts to review its resource estimates in accordance with the 2012 JORC code.

Dependence upon key personnel

Dominion's success depends in part on the core competencies of the Directors and management and the ability of the Group to retain key personnel. Loss of key personnel could have an adverse impact on the Group's performance. Dominion has in place employment arrangements designed to secure and retain the services of key personnel.

Health, safety and environment

The nature and complexity of Dominion's operations pose risks in relation to the health and safety of employees and contractors, and a range of environmental risks exist when carrying out exploration activities. Environmental incidents, and real or perceived threats to the environment or the amenity of local communities, could result in a loss of Dominion's licence to operate, leading to delays, disruption or the shut-down of exploration and production activities. Dominion's field activities are conducted pursuant to and compliant with applicable legislation and regulations.

Access to capital and liquidity

Dominion's business and, in particular its exploration and development activities, relies on access to equity financing. The ability to secure financing, or financing on acceptable terms, may be adversely affected by volatility in the financial markets. These effects may be global or affecting a particular geographic region, industry or economic sector.

A major focus of Dominion's Board and management is on ongoing cash flow forecasting and management of cash flows to ensure that the Group has sufficient funds to cover its planned activities and any ongoing obligations.

Climate change risk

Dominion recognises that climate change is a global phenomenon and that global, country and state specific policies in response to a changing climate may affect the Group through increased regulation and costs. Dominion identifies climate change regulation as a strategic risk that ultimately may affect the Group's future operating and financial performance. The regulatory risks and perception of the speed of a changing climate may have direct and indirect adverse impacts on the Group's operations or customer markets, including capital markets.

The Company remains alert to scenarios around domestic and global policy trends caused by a changing climate, and how these might impact the Group's activities.

INDEMNITY

Subject to the Corporations Act and the Constitution of the Company, the Company must indemnify each Director, Company Secretary and Executive Officer to the maximum extent permitted by law, against any liability incurred by them as, or by virtue of their holding office as and acting in the capacity of Director, Company Secretary or Executive Officer of the Company. Insurance premiums have been paid during the period in respect of a contract insuring Directors and Officers against legal costs incurred in defending proceedings against them. Details of the nature of liabilities covered or the amount of premiums paid are not disclosed as such disclosure is prohibited in the terms of the contract.

SCHEDULE OF MINING TENEMENTS

As at 31 December 2022, Dominion did not have an ownership interest in any mineral exploration tenements. The Company's 100% owned U.S. subsidiary, PowerLime, Inc has an option to purchase the Georgia Lime Project in southwest Georgia, USA.

PROCEEDINGS ON BEHALF OF THE GROUP

The Group is not aware that any person has applied to the court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Group, or to intervene in any proceedings in which the Group is a party, for the purpose of taking responsibility on behalf of the Group for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Group with leave of the court under section 237 of the Corporations Act 2001.

NON-AUDIT SERVICES

The Group may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Group and/or the Group are important. During the financial year the Group paid $Nil to the auditors non-audit services (2021: $25,000 to the auditors for the preparation of an Investigating Accountant's Report for inclusion in the Company's Prospectus dated 9 September 2021).

Details of the amounts paid or payable to the auditor, PKF Brisbane Audit for audit and non-audit services provided during the year are set out in Note 26 to the financial report.

AUDITOR INDEPENDENCE AND NON-AUDIT SERVICES

A statement of independence has been provided by the Company's auditor, PKF Brisbane Audit, and is attached to this Directors' Report as required by section 307C of the *Corporations Act 2001*.

ROUNDING OF AMOUNTS IN ACCORDANCE WITH ASIC CORPORATIONS (ROUNDING IN FINANCIAL / DIRECTORS' REPORTS) INSTRUMENT 2016/191

The amounts in the Directors' report and in the financial report have been rounded to the nearest dollar. This report is made in accordance with a resolution of directors.

Signed in accordance with a resolution of the Directors

Dr David Brookes

Chairman
31 March 2023

AUDITOR'S INDEPENDENCE DECLARATION
UNDER SECTION 307C OF THE CORPORATIONS ACT 2001
TO THE DIRECTORS OF DOMINION MINERALS LIMITED

I declare that, to the best of my knowledge and belief, during the year ended 31 December 2022, there have been no contraventions of:

(a) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and

(b) any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Dominion Minerals Limited and the entities it controlled during the year.

1. GENERAL INFORMATION

Dominion Minerals Limited ("Dominion" or "Company") is a public company limited by shares incorporated in Australia whose shares were listed on the Australian Securities Exchange on 19 March 2004 (ASX: DLM).

On 27 September 2021, the Company completed the acquisition of PowerLime Inc at which time the business of the Company changed to that of mineral exploration activities.

2. APPLICATION OF NEW AND REVISED ACCOUNTING STANDARDS

The Company has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for the current year. The adoption of these new and revised accounting standards and interpretations did not have any material effect on the financial results or financial position of the Group or the Company for the reporting period.

The Directors do not consider that the adoption of any new standards and Interpretations in issue but not yet effective at the date of these financial statements will have a material impact on the financial statements of the Group.

3. CHANGES IN ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these financial statements are consistent with the accounting policies adopted by the Company for the preparation of its financial statements for the year ended 31 December 2021 other than the adoption of all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for the current year as described in Note 2.

4. SIGNIFICANT ACCOUNTING POLICIES

a. Statement of compliance

The financial statements comprise the consolidated financial statements of the Group consisting of Dominion Minerals Limited and its subsidiaries. The Group is a for-profit entity for the purpose of preparing the financial statements.

This financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

Except for cash flow information, the financial report has been prepared on an accruals basis, based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The financial report was authorised for issue by the Company's Board of Directors on 31 March 2023.

b. Going concern

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the normal course of business.

The Group incurred a loss for the year ended 31 December 2022 of $872,748 (2021 loss $1,067,342), net cash outflows from operating activities of $993,572 (2021: $979,417 outflows) and net outflows from investing activities of $917,358 (2021: $Nil).

As at 31 December 2022 had cash and cash equivalents of $3,686,981 (2021: $4,909,553). As at 31 December 2022 the Group had net working capital of $3,709,787 (2021 $4,973,738) and net assets of $5,823,323 (2021: $6,723,451).

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

The ability of the Group to continue as a going concern is principally dependent upon the Group managing its cash reserves in order to balance the execution of its exploration and development strategy with maintaining adequate working capital reserves.

Having carefully assessed the Group's forecasts and its ability to effectively manage expenditures and cash flows from operations, the Directors believe that the Group's existing cash reserves are adequate to fund the Group's committed expenditures for at least 12 months from the date of this report and that there is a reasonable basis to prepare the financial statements on a going concern basis.

c. Basis of preparation

The consolidated general purpose financial statements have been prepared on the basis of historical cost, except for certain financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair values of the consideration given in exchange for goods and services. All amounts are presented in Australian dollars, unless otherwise noted. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of AASB2 and measurements that have some similarities to fair value but are not fair value such as value in use in AASB 136.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that that the entity can access at the measurement date.
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

d. Subsidiaries

Subsidiaries are entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

In the Company's statement of financial position, investments in subsidiaries are accounted for at cost less accumulated impairment losses. On disposal of the investments, the difference between disposal proceeds and the carrying amount of the investments are recognised in profit or loss.

e. Basis of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of the Company as at 31 December 2022 and the results of all subsidiaries for the year then ended. The Company and its subsidiaries together are referred to in this financial report as the Group.

4. CHANGES IN ACCOUNTING POLICIES (continued)

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group. Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

e. Foreign currency

Functional and presentation currency

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements of the Group are presented in Australian dollars, which is the Company's functional and presentation currency.

Transactions and balances

Transactions in a currency other than the functional currency ("foreign currency") are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Currency translation gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except for currency translation differences on the net investment in foreign operations and borrowings and other currency instruments qualifying as net investment hedges for foreign operations, which are included in the currency translation reserve within equity in the consolidated financial statements.

Non-monetary items measured at fair values in foreign currencies are translated using the exchange rates at the date when the fair values are determined.

Translation of group entities' financial statements

The results and financial position of all group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the Company's presentation currency are translated into the presentation currency as follows:

(i) Assets and liabilities are translated at the closing rates at the date of the Statement of Financial Position.

(ii) Income and expenses are translated at average exchange rates (unless the average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated using the exchange rates at the dates of the transactions); and

(iii) All resulting exchange differences are recognised in the currency translation reserve within equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations (including monetary items that, in substance, form part of the net investment in foreign entities), and of borrowings and other currency instruments designated as hedges of such investments, are taken to the foreign currency translation reserve.

On disposal of a foreign group entity, the cumulative amount of the currency translation reserve relating to that foreign entity is reclassified from equity and recognised in profit or loss when the gain or loss on disposal is recognised.

4. CHANGES IN ACCOUNTING POLICIES (continued)

f. Income Tax

The income tax expense (income) for the year comprises current income tax expense (income) and deferred tax expense (income). Current income tax expense (income) charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well unused tax losses.

Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

g. Exploration and evaluation expenditure

Exploration and evaluation costs, including the costs of acquiring licences are expensed in the profit or loss when incurred. Costs incurred before the Company has obtained the legal rights to explore an area are expensed in the profit or loss.

h. Intangibles

Licenses, Patents and Intellectual Property

Licenses and patents are recognised at cost of acquisition. They have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Licenses and patents are amortised over their useful life, which has been assessed as ten years from the date the intangible asset is in its intended use.

i. Employee benefits

Provision is made for the Group’s liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs.

Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits with consideration given to employees’ wages increases and the probability that the employees may satisfy vesting requirements. Those cash flows are discounted using market yields on corporate bonds with terms to maturity that match the expected timing of cash flows attributable to employee benefits.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

j. Share based compensation

The Group makes equity-settled share-based payments to directors, employees and other parties for services provided to the Group. Where applicable, the fair value of the equity is measured at grant date and recognised as an expense over the vesting period, with a corresponding increase to an equity account. The fair value of shares is ascertained as the market bid price. The fair value of options is ascertained using the Black Scholes option valuation pricing model which incorporates all market vesting conditions. Where applicable, the number of shares and options expected to vest is reviewed and adjusted at each reporting date such that the amount recognised for services received as consideration for the equity instruments granted shall be based on the number of equity instruments that eventually vest.

Where the fair value of services rendered by other parties can be reliably determined, this is used to measure the equity-settled payment.

k. Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments, and bank overdrafts.

l. Financial assets

Recognition and derecognition

Regular purchases and sales of financial assets are recognised on trade-date which is, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition of financial assets (other than financial assets at fair value through profit or loss) are added to the fair value of the financial assets on initial recognition. Transaction costs directly attributable to acquisition of financial assets at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the Group intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

Classification and measurement

All financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. The Group classifies its financial assets based on the Group's business model for managing the financial asset and the contractual cash flow characteristics of the financial assets. The Group's financial assets are classified at amortised cost which comprise other receivables and cash and cash equivalents.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified, or impaired. Interest income from these financial assets is included in interest income using the EIR method.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment

The Group recognises an allowance for expected credit losses (“ECLs”) for financial assets carried at amortised cost. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

The Group recognises an impairment gain or loss in profit or loss for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account.

Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset, and the net amount presented on the balance sheet when, and only when the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

m. Financial liabilities

Financial liabilities include trade and other payables. Financial liabilities are recognised on the balance sheet when, and only when, the Group becomes a party to the contractual provisions of the financial instruments. Financial liabilities are initially recognised at fair value plus directly attributable transaction costs and subsequently measured at amortised cost, comprising original debt less principal payments and amortisation

A financial liability is derecognised when the obligation under the liability is extinguished. Gains and losses are recognised in profit or loss when the liabilities are derecognised and through the amortisation process. Financial liabilities are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

n. Trade receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

o. Revenue recognition

Revenues are recognised at fair value of the consideration received net of any applicable taxes.

Interest revenue is recognised as it accrues taking into account the interest rates applicable to the financial assets.

Government grants are recognised at fair value where there is reasonable assurance that the grant will be received, and all grant conditions will be met. Grants relating to expense items are recognised as income over the periods necessary to match the grant to the costs they are compensating. Grants relating to assets are credited to deferred income at fair value and are credited to income over the expected useful life of the asset on a straight-line basis.

All revenue is stated net of the amount of goods and services tax.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

p. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the ATO is included in other receivables or payables in the Statement of Financial Position. Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

q. Property, plant and equipment and contract to acquire land

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment and contract to acquire land

Plant and equipment and contract to acquire land are measured on the cost basis and therefore carried at cost less accumulated depreciation and any accumulated impairment. In the event the carrying amount of plant and equipment or the contract to acquire land is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 4(q) for details of impairment).

The carrying amount of plant and equipment and contract to acquire land is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Consolidated Statement of Profit or Loss and Other Comprehensive Income during the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including building and capitalised lease assets, but excluding freehold land, is depreciated on a straight-line basis over their useful lives to the Group commencing from the time the asset is held ready for use. The expected useful life for plant and equipment is 3 to 10 years.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the Consolidated Statement of Profit or Loss and Other Comprehensive Income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

r. Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of the financial year which are unpaid. The amounts are unsecured, non-interest bearing and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised initially at their fair value and subsequently measure at amortised cost using the effective interest method.

4. SIGNIFICANT ACCOUNTING POLICIES (continued)

s. Impairment of non-financial assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the statement of profit or loss and other comprehensive income. Impairment testing is performed annually for intangible assets with indefinite lives. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

t. Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incurs expenses, including revenues and expenses that relate to transactions with other components of the Group. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the directors.

u. Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial period.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL ACCOUTING JUDGEMENTS

When preparing the financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results. Information about significant judgements, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expense is provided below.

i. *Investments in financial assets*

In January 2022 acquired a minority shareholding in Luna Lithium an unlisted Canadian company focused on lithium exploration in North and South America. As the shares of Luna Lithium are not actively traded, their fair vale cannot be determined based on market prices, the fair value recognised has been determined by reference to the most recent capital raisings undertaken by Luna Lithium.

ii. *Contract to acquire land*

On 27 September 2022 Dominion completed the acquisition of 100% of the issued capital PowerLime Inc (PowerLime). The directors determined that at the time of the acquisition, PowerLime lacked the necessary inputs and processes required to generate outputs that have the ability to provide a return on investment to the owner. Consequently, the acquisition of PowerLime did not meet the criteria of a business combination and were outside the scope of *AASB3: Business Combinations*. As the fair value of neither the shares in PowerLime nor PowerLime's principal asset being an option to acquire the land on which the Georgia Lime Project is located, could be estimated reliably, the fair value recognised at the time of the acquisition was measured largely by reference to the fair value of the equity instruments issued by Dominion Minerals Limited as the major part of the consideration provided for the acquisition.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY AND CRITICAL ACCOUTING JUDGEMENTS (continued

iii. *Deferred tax assets*

No members of the Group have generated taxable income in the financial year and as such the Group continues to carry forward tax losses that give rise to deferred tax assets. Given that the Group's projects remain in early exploration stages, it is unlikely that the Group will generate taxable income in the foreseeable future in the absence of asset sales.

Taking account of the above, the deferred tax assets have not been recognised in the financial statements as management does not believe that the members of the Group satisfy the criteria set out in paragraph 35 of AASB 112.

6. EXPENSES

	2022 $	2021 $
Loss before tax includes the following specific expenses:		
Realised gains/(losses) on foreign exchange	(3,075)	(11,835)
Unrealised gains/(losses) on foreign exchange	18,201	(4,275)
Total gain/(loss) on foreign exchange	**15,126**	**(16,110)**
Amortisation of intangible assets	(3,835)	(639)
Superannuation expense	(8,487)	(13,231)

7. CASH AND CASH EQUIVALENTS

Cash at bank	3,665,355	4,887,997
Short term bank deposits - at call	21,626	21,556
	3,686,981	**4,909,553**

8. TRADE AND OTHER RECEIVABLES - CURRENT

GST/VAT receivable	2,509	666
	2,509	**666**

9. CONTRACT TO ACQUIRE LAND

	2022 $	2021 $
Contract to acquire land	1,640,432	1,256,162
	1,640,432	**1,256,162**

The Group has entered into an Option Agreement to purchase the property on which the Georgia Lime Project is located. The Option Agreement expires on 9 August 2023. If the Group exercises the option, the Group is required to pay the landholder US$1,500,000 and the landholder will transfer title to the property and all mineral rights, except oil and gas rights to the Group. Further information regarding the acquisition of PowerLime is provided in Note 27.

Movement		
Balance at beginning of year	1,256,162	-
Acquisition of PowerLime Inc	-	1,256,162
Option extension payments	384,270	-
Balance at end of year	**1,640,432**	**1,256,162**

10. OTHER ASSETS

Current		
Prepayments	77,111	228,009
	77,111	**228,009**
Non-current		
Prepayments	77,526	94,137

Balance at end of year	**259,350**	**259,350**

b) Foreign Exchange Translation Reserve

The foreign exchange translation reserve records exchange differences arising on translation of a foreign controlled subsidiary.

Movement		
Balance at beginning of year	(765)	-
Movement during the year	(18,261)	(765)
Balance at end of year	**(19,026)**	**(765)**

17. CAPITAL MANAGEMENT

Management controls the capital of the Group in order to maintain an appropriate debt to equity ratio and ensure that the Group can fund its operations and continue as a going concern. The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets. There are no externally imposed capital requirements. Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues. There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year.

18. FINANCIAL RISK MANAGEMENT

Financial Risk Management Policies

The Group's financial instruments consist mainly of deposits with banks in functional and foreign currencies, short-term investments, and accounts receivable and payable.

Treasury Risk Management: The Board, at each of its meetings, analyses financial risk exposure and evaluates treasury management strategies in the context of the most recent economic conditions and forecasts. The Board's overall risk management strategy seeks to assist the Group in meeting its financial targets, whilst minimising potential adverse effects on financial performance. Risk management policies are approved and reviewed on a regular basis.

18. FINANCIAL RISK MANAGEMENT continued

Financial Risk Exposures and Management: The main risks the Group is exposed to through its financial instruments are credit risk, interest rate risk, liquidity risk and foreign currency risk.

Credit risk exposures: Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group. The credit risk on financial assets of the Group which have been recognised on the statement of financial position is generally the carrying amount, net of any provisions for doubtful debts.

Interest rate risk exposures: Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group is also exposed to earnings volatility on floating rate instruments. At balance date, the Group does not have material exposure to interest rate risk.

Liquidity risk: Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages liquidity risk by monitoring forecast cash flows and ensuring that adequate facilities or financing options are maintained. At balance date, the Group does not have material exposure to liquidity risk.

Foreign currency risk: Exposure to foreign currency risk may result in the fair value or future cash flows of a financial instrument fluctuating due to movement in foreign exchange rates of currencies in which the Group holds financial instruments which are other than the functional currency of the Group. The Group manages foreign currency risk by monitoring forecast foreign currency commitments and foreign exchange rates. At balance date, the Group's exposure to foreign currency risk arises from the US$ denominated net financial liabilities of PowerLime Inc of A$2,337 at an exchange rate of 1.4667 (2021: US$ denominated net financial assets of PowerLime Inc of A$66,522 at an exchange rate of 1.3781).

Net fair value of financial assets and liabilities: The net fair value of cash and cash equivalents and non-interest bearing monetary financial assets and the financial liabilities of the Group approximates their carrying amounts. The net fair value of other monetary financial assets and financial liabilities is based upon market prices where a market exists or by discounting the expected future cash flows by the current interest rates for assets and liabilities with similar risk profiles.

Sensitivity analysis: The Group has performed a sensitivity analysis relating to its exposure to interest rate and foreign currency exchange rate risks, to assess the effect on reported results and equity which could result from a change in these risks. Management have determined that, at 31 December 2022, the effect on profit and equity as a result of changes in foreign currency exchange rates by +100 basis points or -100 basis points would be $2 (2021: $665). The effect on profit and equity as a result of changes in interest rates by +100 basis points or -100 basis points would be $36,869 (2021: $49,096) additional, or less, interest revenue.

19. SHARE-BASED PAYMENTS

	2022	2021
	$	$
Recognition of share-based payment expense		
Expense arising from equity-settled share-based payment transactions	-	6,800

19. SHARE-BASED PAYMENTS continued

Summary of options granted and lapsed during the financial year ended 31 December 2022

The following table illustrates the number and weighted average exercise price (WAEP) of, and movements in, share options issued during the year:

	2022 Number	2022 WAEP	2021 Number	2021 WAEP
Outstanding at the beginning of year	16,312,498	$0.11	5,250,000	$0.11
Options lapsed during the year (pre capital consolidation	-	-	(3,000,000)	-
Capital consolidation	-	-	(2,025,000)	-
	16,312,498	$1.10	225,000	$1.10
Options issued during the year	-	$0.12	16,187,498	$0.12
Options lapsed during the year (post capital consolidation)	(125,000)	$1.10	(100,000)	$1.10
Outstanding at the end of the year	**16,187,498**		**16,312,498**	
Exercisable at the end of the year	16,187,948	$0.12	16,312,498	$0.13
Weighted average remaining contractual life		2.44 years		3.40 years

The Company did not issue any option during the reporting period.

The fair value of options issued by the Group during the prior financial year was determined using the Black Scholes valuation model, considering the terms and conditions upon which the options were granted. The following assumptions were used:

	Options issued to the vendors of Power Lime	**Options issued to the management of Power Lime**	**Options issued as Director remuneration**	**Options issued to brokers to the capital raising**
Grant date	27 Sep 21	27 Sep 21	1 Nov 21	8 Oct 21
Expiry date	26 Sep 25	26 Sep 25	31 Oct 25	7 Oct 24
Exercise price	$0.12	$0.12	$0.12	$0.12
Expected volatility	79%	79%	79%	79%
Risk free interest rate	0.48%	0.48%	1.18%	0.67%
Grant date share price	$0.04	$0.04	$0.04	$0.04
Fair value per option	$0.0134	$0.0134	$0.0136	$0.01

\20. COMMITMENTS FOR EXPENDITURES

The Group held no contractual commitments as at 31 December 2022.

21. CONTINGENT LIABILITIES AND ASSETS

The directors are not aware of any other contingent assets or any contingent liabilities that are likely to have a material effect on the results of the Group as disclosed in these financial statements other than the following:

i. The Group has entered into an Option Agreement to purchase the property on which the Georgia Lime Project is located. The Option Agreement expires on 31 August 2023. If the Group exercises the option, the Group is required to pay the landholder US$1,500,000 and the landholder will transfer title to the property and all mineral rights, except oil and gas rights to the Group. Further information regarding the acquisition of PowerLime and the valuation of the option to acquire land is provided in Note 9..

22. RELATED PARTY TRANSACTIONS

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

Key management personnel compensation: Details of remuneration of the key management personnel are provided in the Remuneration Report in the Directors' Report.

Loans: There were no loans between the Group and any KMP in the year ended 31 December 2022 (2021: $Nil).

23. SEGMENT INFORMATION

Operating segments are identified, and segment information disclosed, on the basis of internal reports that are regularly provided to, or reviewed by, the Group's chief operating decision maker which, for the Group, is the Board of Directors.

The Group is managed primarily on a geographic basis, that is, the location of the respective areas of interest. Operating segments are therefore determined on the same basis.

Activity by segment

Georgia Lime Project
On 27 September 2021 the Company acquired PowerLime Inc. The principal asset of PowerLime is an Option Agreement to purchase the property in Georgia, USA, on which the Georgia Lime Project is located.

Corporate
Expenditure incurred that is not directly allocated to other segments is reported as corporate costs in the internal reports prepared for the chief operating decision maker.

The following tables present revenue and profit information for the Group's operating segments for the year ended 31 December 2022 and 2021, respectively.

23. SEGMENT INFORMATION (continued)

a. Segment performance

Year ended 31 December 2022	Georgia Lime Project	Corporate	Total
Total segment revenue	-	33,815	33,815

	2022	2021
	$	$
Loss after income tax benefit attributable to the Group	(872,748)	(1,067,342)

Weighted average number of shares used as the denominator	No.	No.
Weighted average number of ordinary shares outstanding during the year used in calculation of Basic EPS	225,850,957	127,419,842
Weighted average number of options outstanding which are considered potentially dilutive	-	-
Weighted average number of potential ordinary shares outstanding during the year used in calculation of Diluted EPS	**225,850,957**	**127,419,842**

Options and other potential equity securities on issue at the end of the period have not been included in the determination of diluted earnings per share as the Group has incurred a loss for the period and they are therefore not dilutive in nature.

	Cents	Cents
Basic earnings per share	(0.39)	(0.84)
Diluted earnings per share	(0.39)	(0.84)

26. REMUNERATION OF AUDITORS

Audit services – PKF Brisbane Audit	58,123	55,166
Non-audit services – Investigating Accountant Report for prospectus	-	25,000
	58,123	**80,166**

27. CONTROLLED ENTITIES

The consolidated financial statements incorporate the assets, liabilities, and results of the following subsidiaries in accordance with the accounting policy described in Note 4(e).

Name of entity	Country of Incorporation	Class of shares	Equity holding (%)	
			2022	2021
PowerLime Inc	United States	Ordinary	100%	100%

On 27 September 2021, the Company acquired all of the issued capital of PowerLime, Inc (PowerLime) from the shareholders of PowerLime.

27. CONTROLLED ENTITIES (continued)

The consideration paid by Dominion to the vendors for the acquisition comprised:

	A$
18,750,000 shares to the former shareholders of PowerLime at A$0.04	750,000
6,249,998 options to the former shareholders of PowerLime with an exercise price of $0.12 per option expiring on 16 September 2025	83,750
4,437,500 options to the former management team of PowerLime with an exercise price of $0.12 per option and expiring on 16 September 2025.	59,463
Payment of the second option equal to US$150,000 which grants PowerLime the right to acquire the real property located in Early County, South Georgia which is prospective for the development of an advanced high calcium limestone project	206,725
Transaction costs representing legal costs incurred in relation to the acquisition of PowerLime	164,613
	1,264,551

At the time of acquisition, the activities of PowerLime were not considered to be a business for the purposes of AASB 3 *Business Combinations* and as such the acquisition is accounted for as an asset acquisition with the cost allocated to individual identifiable assets on the basis of their relative fair value at the date of acquisition as summarised below:

	PowerLime A$
Net assets at fair value as at 27 September 2021	
Cash and cash equivalents	8,389
Net assets acquired	8,389
Fair value of consideration	1,264,551
Excess of consideration over fair value of net assets acquired adjusted against the contract to acquire the land parcel located in Early County, South Georgia	**1,256,162**

The parent entity did not enter into any guarantees in the current or previous financial year, in relation to the debt of its subsidiaries

Contingent liabilities of the parent entity

The parent entity did not have any contingent liabilities as at 31 December 2022 and 31 December 2021,

Contractual commitments for capital expenditure

The parent entity did not have any contractual commitments for capital expenditure as at 31 December 2022 or 31 December 2021.

29. EVENTS SUBSEQUENT TO REPORTING DATE

There have been no subsequent events that required adjustment to or disclosure in the or the Financial Statements of the Group for the year ended 31 December 2022.

DIRECTORS' DECLARATION

In the opinion of the Directors:

- the financial statements and notes of the Group are in accordance with the *Corporations Act 2001*, including:
  i. giving a true and fair view of the Company's financial position as at 31 December 2022 and of its performance for the financial year ended on that date; and
  ii. complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
- the financial statements and notes also comply with International Financial Reporting Standards; and,
- there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the *Corporations Act 2001* and as recommended under ASX Corporate Governance Council's Corporate Governance Principles for the financial year ended 31 December 2022.

Dr David Brookes

Chairman

Adelaide, 31 March 2023

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF DOMINION MINERALS LIMITED

Report on the Financial Report

Opinion

We have audited the accompanying financial report of Dominion Minerals Limited (the company), which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the company and the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

In our opinion the financial report of Dominion Minerals Limited is in accordance with the *Corporations Act 2001*, including:

a) Giving a true and fair view of the consolidated entity's financial position as at 31 December 2022 and of its performance for the year ended on that date; and

b) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the consolidated entity in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

PKF Brisbane Audit ABN 33 873 151 348
Level 6, 10 Eagle Street, Brisbane, QLD 4000 | GPO Box 1568, Brisbane, QLD 4001 | T: +61 7 3839 9733
Brisbane | Rockhampton www.pkf.com.au

1. Funding and Liquidity

Why significant	How our audit addressed the key audit matter
The accompanying financial report has been prepared on a going concern basis, which assumes that the consolidated entity will • be able to pay its debts as and when they become due and payable; and • continue its operations for the foreseeable future. As disclosed at note 4(b), the ability of the consolidated entity to continue as a going concern is principally dependent upon the consolidated entity managing its cash reserves in order to balance the execution of its exploration and development strategy with maintaining adequate working capital reserves.	We evaluated the consolidated entity's funding and liquidity position at 31 December 2022 and the ability of the consolidated entity to balance the execution of its exploration and development strategy with maintaining adequate working capital reserves. Our work included, but was not limited to: • reviewing the process undertaken to determine the appropriateness of the use of the going concern basis; • considering expenditure incurred to date with reference to the proposed use of funds as outlined in the company's Replacement Prospectus dated 9 September 2021; and • evaluating the consolidated entity's funding and liquidity position at 31 December 2022 and the ability of the consolidated entity to repay its debts as and when they fall due for a minimum of 12 months from the date of signing the financial report.

2. Valuation of Investment in Luna Lithium ("Luna")

Why significant	How our audit addressed the key audit matter
In December 2022, the consolidated entity invested CAD$350,000 to acquire a minority stake in Luna Lithium, a private Canadian company exploring the Pilot Peak lithium brine project in Nevada, USA The valuation of the company's investment in Luna Lithium, an unlisted entity, is considered a Key Audit Matter due to: • the size of the balance, being material to the consolidated entity's financial position; • the valuation technique applied to determine fair value of the investment requires judgement, particularly where inputs to the underlying calculation were not observable in an active market. • the judgement involved in determination of the fair value hierarchy. Refer to notes 5(i) and note 11 to the financial statements for additional details.	Our audit procedures included, but were not limited to: • assessing the appropriateness and accuracy of the valuation methodology applied by management; • obtaining an understanding of the key events and conditions supporting the valuation; • confirming the company's ownership interest in Luna Lithium directly with Luna Lithium management; • reviewing other available information for any indicators of impairment; and • evaluating the appropriateness of disclosures made in the financial report against the relevant accounting standards.

Other Information

The Directors are responsible for the other information. The other information comprises the information included in the consolidated entity's Annual Report but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' Responsibilities for the Financial Report

The Directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the consolidated entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the consolidated entity or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.
As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the consolidated entity's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the consolidated entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our

PKF

auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the consolidated entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the consolidated entity to express an opinion on the group financial report. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 31 December 2022. The Directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Dominion Minerals Limited for the year ended 31 December 2022 complies with section 300A of the *Corporations Act 2001*.
