Stock exchange listing

Loyal Lithium Limited shares are listed on the Australian Securities Exchange (ASX code: LLI)

By the end of 2022 Loyal Lithium had begun executing its strategic business plan with a sustained focus on North American lithium. This included a formal name change to Loyal Lithium Limited (ASX: LLI) and the launch of the new website www.loyallithium.com.

Continued investment into Canadian Hard-Rock lithium occurred with acquisitions including the Brisk Lithium Project and then the large and highly prospective Trieste Lithium Project in James Bay, Québec. Loyal Lithium's prospective North American Lithium landholdings (396km²) are now 8 times larger than the gold and base metal exploration properties it holds in Western Australia (50km²).

The Trieste Lithium Project was acquired due to its location along strike (14 km directly east) and around the same large structure with greenstones that extend from Winsome Resources' (ASX:WR1) Adina Lithium Project. To further support the acquisition an historical anomalous lithium outcrop sample (180ppm) and numerous historically mapped I1A (alkaline feldspar intrusive) pegmatites were also present and confirmed via satellite photography that form linear resistive outcrop ridges within a larger pluton.

Loyal Lithium's North American Lithium portfolio in Tier 1 mining jurisdictions includes (figure 1):

- Hard Rock – Trieste Lithium Project (Québec, Canada)
- Sediments & Brines – Scotty Lithium Project (Nevada, USA)
- Hard Rock – Brisk Lithium Project (Québec, Canada)

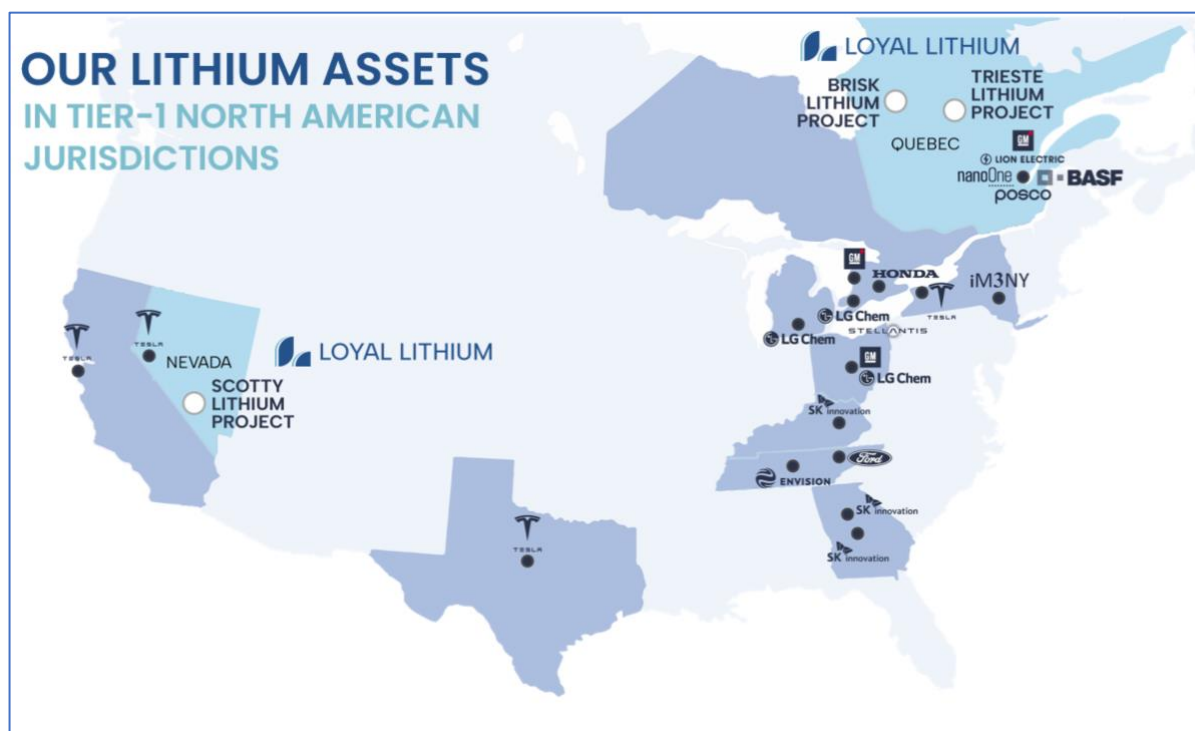

Figure 1: Location of LLI's Trieste, Brisk and Scotty Lithium Projects in North America

Trieste Lithium Project

The Trieste Lithium Project is a large-scale lithium project (covering 251 km²) located 14 km East of Winsome Resources' (ASX: WR1) Adina Lithium Project, where diamond drilling continues to define a significant discovery of hard rock lithium (figure 2). The Trieste Lithium Project is 8.6 times larger than the Adina Lithium Project and contains 35 I1A pegmatites (A-Type), which is the same classification used by Québec government geological surveys to originally describe Adina.

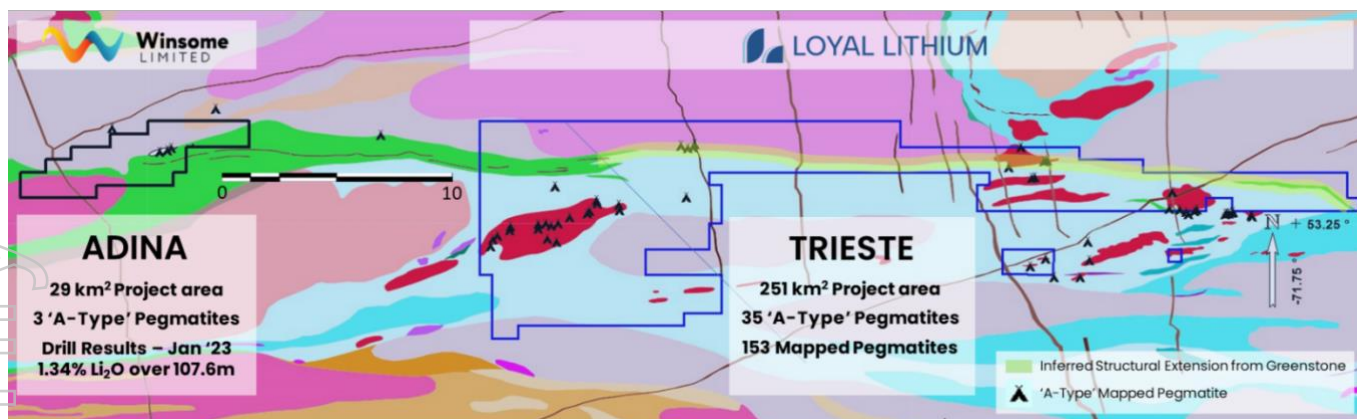

Figure 2: Trieste Lithium Project claims with historical outcrop points of I1A type pegmatites

LLI formulated a Trieste work plan in Q4 2022 with a historical data review undertaken of both publicly available and data obtained via option. The data and reports, although not focusing on lithium exploration, contained information on field survey outcrops and till sampling that identified 153 Mapped Pegmatite locations - 35 I1A type (the same type as found at Winsome's Adina) and 118 I1G type (is also prospective for lithium elsewhere in the James Bay region).

The putonic rock classification derives from the logging code systems used by historical explorers which is required to be used in submitted reports to the regulator in Quebec (MERN). The logging code system is in French as the primary language which takes precedence, translated into the English language:

- **French:** SIGEOM Roche I1A Granite à feldspath alcalin et I1G Pegmatite (granitique).
- **English:** I1A granite with alkali feldspars and I1G granitic pegmatite.
 - "I" means igneous
 - "1" is the felsic end of the spectrum while "4" is ultramafic
 - "A" represents Alkali feldspar

For example, an I2A is Syénite quartzifère à feldspath alcalin, Alkali feldspar quartz syenite.

All historical drill logs and drill core photos show I1G pegmatites. Although the drill core is not from the most lithium prospective areas, geochemical assaying will (as a minimum) assist geological definition and the prioritisation of field program targets (figure 3). The drill core was located at a storage facility in Northern Québec, with samples collected in early 2023.

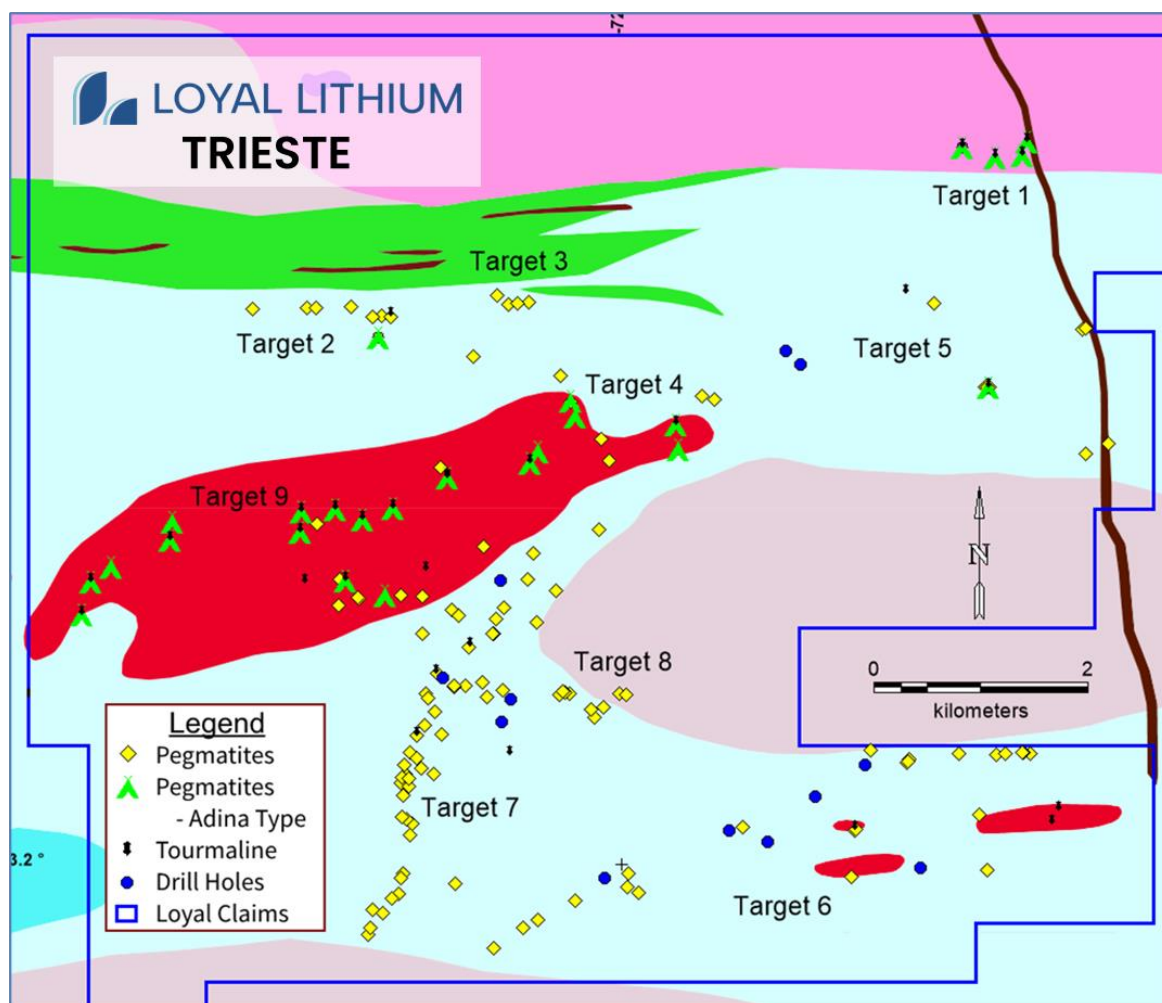

Figure 3: Trieste Lithium Project Initial Targets, Mapped Pegmatites

High resolution historical satellite data was also acquired with trial processing and interpretations completed by Geospatial Intelligence Ltd to confirm correlation between known mapped pegmatites. Subsequently, site wide work is planned for Q1 2023 with more advanced derivatives of the data by both Geospatial Intelligence Ltd and Terra Resources Ltd.

From historically collected data analysis, historically drill core sampling and satellite data derivatives, field mapping programs across the entire project will be planned. They will be continuously improved up until start date in the Canadian summer of 2023. To assist in designing field survey locations and also the submission of a pre-emptive drill permit application, a series of geophysics surveys, including high-resolution magnetics, wider-spaced magnetics and radiometric surveys, UAV drone type geophysics and Mobile MT, and hyperspectral flown surveys are being scoped out for their type/cost/availability to be completed both before and concurrently with, field geological surveys.

Scotty Lithium Project

The Scotty Lithium Project 700 claims (filed) were acquired by LLI as part of the Company's acquisition of American Consolidated Lithium Pty Ltd, who held rights to the project in Nevada, USA. The project is located 70km from Albemarle Corp's Clayton Valley (Silver Peak) Lithium Mine – the only producing lithium mine in the USA and 330km from Tesla's Gigafactory, one of the largest globally (figure 4). Two of the 700 claims (40 acres – 16.19 ha) were recently closed as they were partially on a gazetted road. A further 264 claims have been staked (non-active) to the south of the core 698 claims.

Exploration work continues to significantly advance the Scotty Lithium Project:

- Extensive soils program completed - 540ppm peak Lithium recorded and five target areas defined with Target 2 in the mid-west of the claims the most contiguous, highest priority
- The 698 claims contain all of the highest priority most prospective sedimentary and brine lithium targets

- In-country geological partner engaged – Dahrouge Geological Consulting
- Drilling program optimised via historical data obtained and constructed 3D basin models from acquired (Caeneus Minerals Ltd) and Terra Resources gravity data
- Drilling pre-approval environmental survey completed
- Regulator drilling approvals submitted in August 2022, revised in December 2022 (Bureau of Land Management drill permit subsequently received for nine drill holes in Jan 2023 NV-101433, with bond payment secured)
- Magnetotelluric geophysics survey completed on five traverses for 19.2 km by KLM Geoscience, and inversions by Phoenix, with results finalised Q1 2023
- Two stages of drilling programs were designed with contractors short listed at the end of 2022 (contract signed subsequently with Boart Longyear in Jan 2023), with ground conditions to define start date, anticipated in late Q1 2023

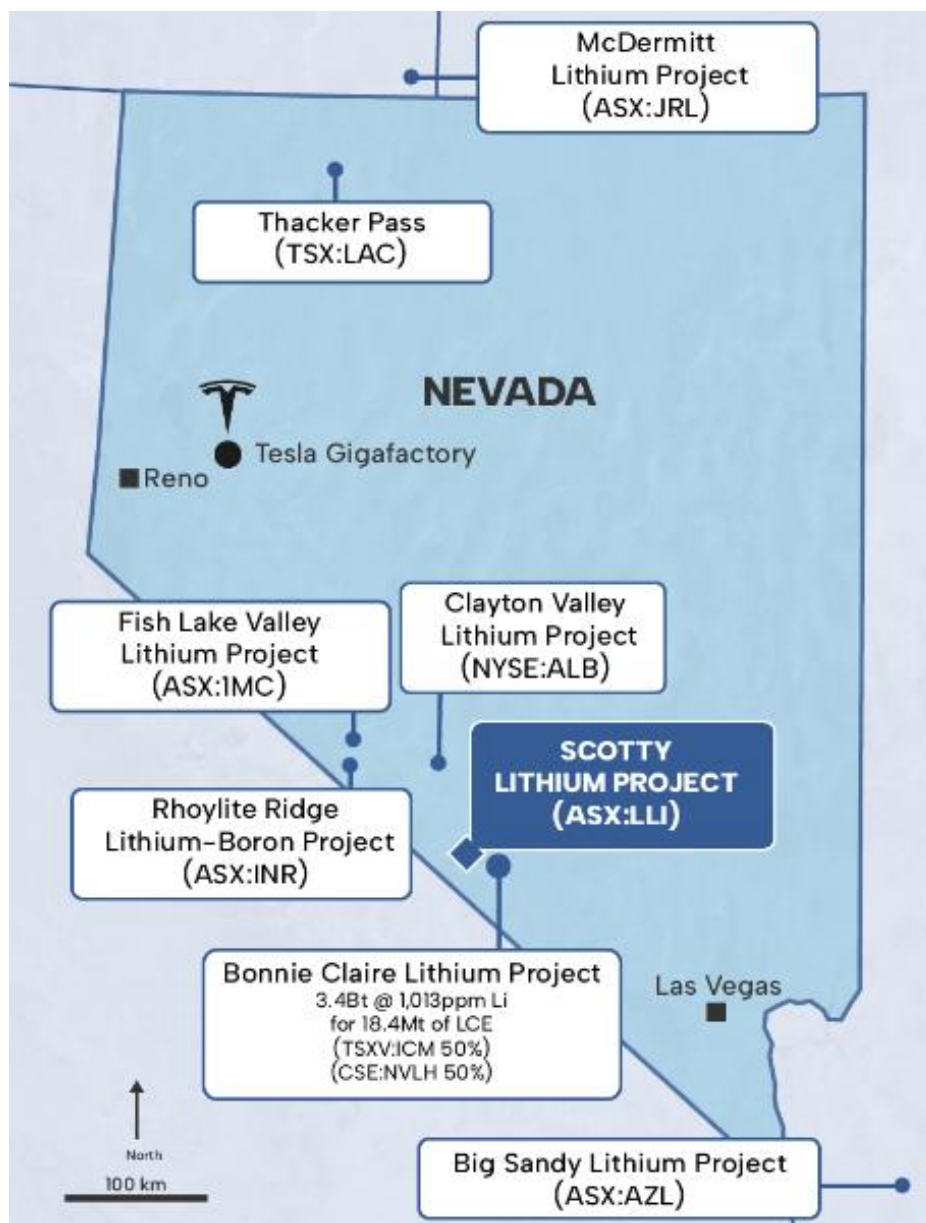

Figure 4: Scotty Lithium Project well positioned within Nevada

An auger soil sampling program completed in July 2022, covered the entire Scotty Lithium Project with 643 samples collected. A total of 177 samples (~27%) recorded greater than 200ppm Li and 89 samples (~14%) recording greater than 264ppm Li. Five target zones were identified from the soils data (figures 5, 6a and 6b and table 1). Results from the soil sampling program assisted LLI define targets to test in

a maiden drilling program. Previous soil sample programs were effective in delineating the potential of the Bonnie Claire Lithium Resource for lithium compounds in clay.

Table 1: Characteristics of target areas generated from soils

Characteristics of the auger soils targets generated as are follows:

Target 1 is in the very north of the project area across both recent alluvial fan sediments and gully erosion that has exposed finer grained clays and evaporites. Over 5.4km² of >164ppm lithium with the highest value in the northwest at 540ppm Lithium. Target 1 contains an interpreted North Embayment deepening of the basin (~500m) that has returned strong soils and is seen as a primary sediment target with assumed depth and mineralogy like that at the adjacent Bonnie Claire Project which holds 18.37Mt Lithium Carbonate Equivalent.

Target 2 is in the mid-west of the project area covering an area in excess of 10km² with >165ppm lithium and a peak value of 448ppm lithium, which is more than 40% higher than the maximum soils value found on the adjacent Bonnie Claire resource surface, which occurs over an approximate 16 km² area at depth. The lithium grades follow the lake surface and recent alluvial fan material may have concealed finer-grained evaporites and clays beneath that contain lithium.

Target 3 is located in the very east of the project area over a >2km² area of >165ppm lithium with the highest value at 421 ppm Lithium. This area is on the south-eastern flank along trend from the Bonnie Claire deposit. Alluvial fan material partially covers the finer-grained clays and evaporites that have been found to contain higher lithium grades elsewhere.

Target 4 is in the upper south of the project area over a >7km² area of >165ppm lithium with the highest value at 364 ppm Lithium. This area is directly along trend south from the Bonnie Claire deposit and is both a sediment and brine lithium target for drilling. Alluvial fan material partially covers the finer-grained clays and evaporites that have been found to contain higher lithium grades at Bonnie Claire.

For personal use only

Target 5 contains the lowest lithium on surface of all five targets, however a distinct soils anomaly persists across recent alluvial fan sediments that may be concealing higher grade lithium in evaporites and clays beneath. There is also the potential extension of lithium brines at depth as found to the north of this area. Gravity and MT data suggest the basin is deeper than originally thought towards this southern area therefore may have substantial host sediments and brine at depth.

Strong lithium-boron drill results were reported in 2022 on the adjacent Bonnie Claire Project from 1 to 4km east of LLI's Scotty Target 2, on the mid-west area of LLI's 698 claims block. Two mineralised layers with assays to maximum of 5,570ppm lithium and >10,000ppm boron maximum were found in the drilling. LLI's Scotty Target 2 soils shows lithium-boron anomalous assay results to a maximum of 448ppm lithium and 3,360ppm boron from a >10km² contiguous surface area >165ppm Li (figs 6a/6b).

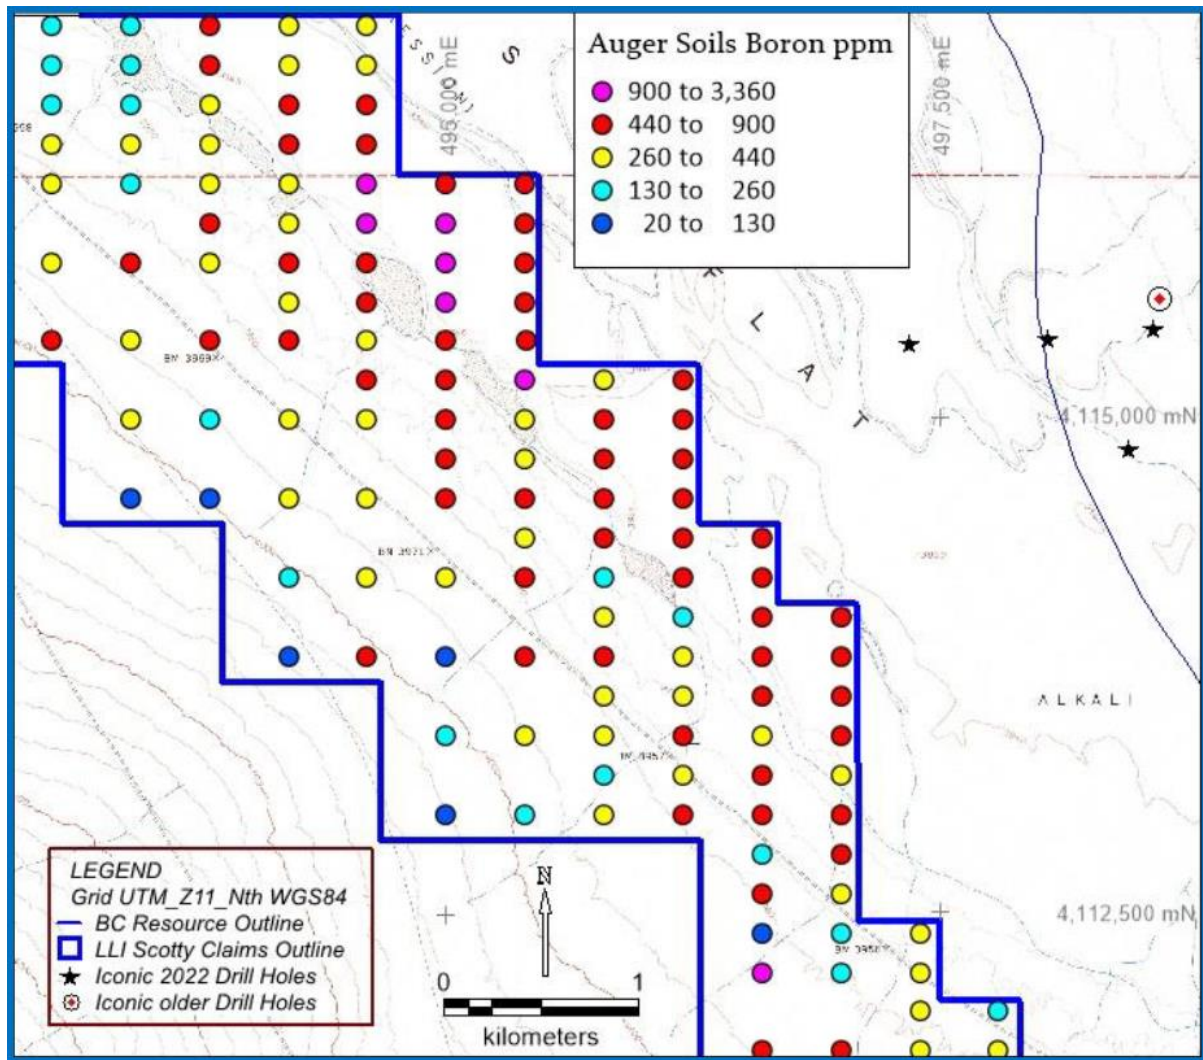

Figure 6b: Target 2 auger soils points boron with 2022 Nevada Lithium drill hole collars

A 3-dimensional model was built of the Scotty Lithium Project subsurface, based on publicly available information (gravity, magnetotelluric data). A new 3D model is planned from the new MT traverse data survey and gravity data acquired from Caeneus Minerals Ltd, who completed the gravity survey in 2016, to assist in the preliminary definition of drill target areas. These models will be used in conjunction with the new auger soils data and 2022 drilling completed adjacent to Target 2, for drill targeting at LLI's Scotty Lithium Project.

A Notice of Intent to Drill with an environmental survey was submitted to the Bureau of Land Management, with approval for ground disturbance received in January 2023 and bond payment was made so that drilling could commence. A contract was signed with Boart Longyear drilling contractor and a deposit was made for the services for drilling three drill holes between 150m to 400m on Target 2 using a sonic drill rig.

Brisk Lithium Project

A total of 192 mining claims covering 98.5km² were acquired when the option was exercised with Dahrouge Geological Consulting Ltd after field survey outcrop assay results were received (figure 8). The claims are divided into six separate claim blocks, extending over 70km in an east-west direction. A maiden geological mapping and sampling program along traverses, with helicopter transport dropping Geologists onto air photo and historically mapped pegmatite and logged indicator minerals targets. A total of 145 samples were sent for analysis for lithium and 57 elements.

For personal use only

An inaugural field program was completed at Brisk yielding the following highlights:

- More pegmatite outcrops than originally anticipated at Area 1
- Areas 1 & 2 considered prospective for lithium; further field work recommended
- Multiple samples containing highly fractionated pegmatites with indicator elements and mineralogy (lithium, tantalum, niobium, beryllium and bismuth, tourmaline, apatite and garnet)
- Area 3 southwest pegmatite body is highly continuous with rubidium detected in the geochemical signature and further field work recommended

Western Australia Projects – Gold, Silver, Zinc, Copper and Nickel

An August 2022 Strategic Review of Loyal Lithium's West Australian assets concluded that: Monger North, Monger South and Gibraltar Projects are better suited to be incorporated into a larger regional package. Therefore, in order to fully unlock the value from LLI's discoveries of gold exploration targets and a JORC resource, The Company has sought joint venture or divestment of these assets. A due diligence data room was established for prospective purchasers of Loyal Lithium's West Australian gold and base metal assets. Stronger market conditions for gold, silver, copper, zinc and nickel in 2023 are more likely to source an accretive JV or divestment outcome for LLI shareholders.

Western Australian Gold and Base Metal tenements were explored in 2022 with the following highlights:

1. Monger North Project: Providence Prospect 16,400 oz JORC Inferred gold resource estimate, an LLI discovery that is open in two directions (SW along strike and NW at depth) and has a DMIRS approval for a total of 80 drill holes until 30/09/2024 with 23 holes completed by LLI. Providence trends just south of the Divine Prospect where LLI found an RC intercept of 3m @ 7.07g/t. Additionally, increased prospectivity of a gold and copper prospect at Hoffmann and southeast Providence with LLI having one RC drill hole intersect 7m @ 1.92g/t Au at Hoffmann and highly anomalous gold geochemistry in trenches of 52m @ 106ppb gold at SE Providence.
2. Monger South Project: Ben Nevis Prospect copper-zinc-silver anomalous outcrop samples with a 100m deep FLEM geophysics conductor generated; also gold, Cu-Zn-Ag, nickel-cobalt ultrafine soils and outcrop anomalies generated.
3. Gibraltar Project: Advanced by LLI with exploration target tonnage and gold grade range between a minimum of 285,500t @ 0.71g/t and maximum 386,000t @ 0.97g/t estimated from historical drilling by an independent consultant using mining software and inverse distance squared interpolation. *NOTE: due to the uncertainty in supporting data, these minimum and maximum tonnage and grade ranges are conceptual in nature, as there has been insufficient exploration to estimate a JORC Mineral Resource. It is uncertain if further exploration will result in JORC Mineral Resource estimates.*

Ultrafine soils gold, base metals and lithium indicator elements anomalies were discovered on the contiguous block of southern tenements with a comprehensive analysis of the data completed by CSIRO as Loyal Lithium was a sponsor of the Ultrafine research program. The lease containing the Exploration Target is a 3.8 km² mining lease application M15/1876, with native title negotiations progressing.

Matters subsequent to the end of the financial year

The following events have occurred subsequent to the period end:

- The Company has continued its exploration activities at the Large-Scale Trieste Lithium Project, with continued historical data compilation and interpretation, historical core pegmatite samples submitted for assay, a high-resolution magnetic survey was completed; acquisition, processing and derivative products of satellite data and planning underway for further geophysics and inaugural field programs in the 2023 Canadian Spring
- The Company received data from an MT geophysics survey, received a Bureau of Land Management - Nevada Drilling Permit and bond payment was made, signed contracts for ground preparation (Pinion) and exploration drilling (Boart Longyear) at the Scotty Lithium Project in Nevada USA
- The Company has negotiated the acquisition of the remaining 20% of the Scotty Lithium Project. Under the terms of the agreement the Company has cancelled the 18,000,000 Performance Shares and 9,000,000 options. The Company has issued 7 million Ordinary Shares and will issue 3.5million unquoted options exercisable at A\$0.50 and expiring 3 years from the date of issue (subject to shareholder approval)
- The Company announced the resignation of non-executive Director Benjamin Fogelgarn and the appointment of Adam Ritchie as Managing Director and Peretz Shapiro as Executive Chairman.

Loyal Lithium Limited
Directors' report
31 December 2022

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Loyal Lithium Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the year ended 31 December 2022.

Directors

The following persons were directors of Loyal Lithium Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mr. Peretz Schapiro – Executive Chairman
Mr. Andrew Graham – Non-Executive Director
Mr. Benjamin Fogelgarn - Non-Executive director (appt 11/07/2022 – resigned 27/02/2023)
Mr. Yehoshua Gestetner - Non-Executive director (appt 16/05/2022 – resigned 11/07/2022)
Mr. Romy Hershman Non-Executive director (resigned 16/05/2022)
Mr Adam Ritchie – Executive Director (appt 27/02/2023)

Principal activities

The principal activities of the group during the course of the financial year were the exploration and evaluation of mineral interests. There were no significant changes in the nature of those activities during the financial Period.

Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Review of operations

Statement of profit or loss and other comprehensive income

As an exploration company, Loyal Lithium does not have an ongoing source of revenue. Its revenue stream is normally from interest received on cash at bank. Employee benefits increased from \$105,511 in 2021 to \$389,732 in 2022 primarily due to an increase in director fees, and employee wages. Professional fees increased from \$252,682 in 2021 to \$452,300 primarily due to an increase in legal and contractor fees. As a result, the Company made a net loss after tax of \$4,039,839 in 2022 compared to a net loss after tax of \$1,087,334 in 2021.

Statement of financial position

At 31 Dec 2022, the Company had cash at bank of \$6,573,702 (Dec 2021: \$3,640,881). During the period, trade and other receivables increased from \$58,660 to \$137,519, capitalised exploration expenditure increased from \$1,230,497 to \$5,648,243 as result expenditure incurred on the projects.

At 31 December 2022, the Company had total liabilities of \$545,642 (Dec 2021: 64,291). As a result, the Company had net assets of \$11,837,048 on 31 December 2021 (31 Dec 2021: \$4,893,198).

Cashflow

During the year, the Company paid \$954,123 (2021: \$258,648) for operating activities; paid 1,844,803 (2021: \$327,744) for investing activities; and received \$5,731,747 (2021: \$4,227,273) from financing activities.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the consolidated entity during the financial year.

Matters subsequent to the end of the financial year

The following events have occurred subsequent to the period end:

- The Company has continued its exploration activities at the Large-Scale Trieste Lithium Project, with continued historical data compilation and interpretation, historical core pegmatite samples submitted for assay, a high-resolution magnetic survey was completed; acquisition, processing and derivative products of satellite data and planning underway for further geophysics and inaugural field programs in the 2023 Canadian Spring
- The Company received data from an MT geophysics survey, received a Bureau of Land Management - Nevada Drilling Permit and bond payment was made, signed contracts for ground preparation (Pinion) and exploration drilling (Boart Longyear) at the Scotty Lithium Project in Nevada USA
- The Company has negotiated the acquisition of the remaining 20% of the Scotty Lithium Project. Under the terms of the agreement the Company has cancelled the 18,000,000 Performance Shares and 9,000,000 options. The Company has issued 7 million Ordinary Shares and will issue 3.5million unquoted options exercisable at A\$0.50 and expiring 3 years from the date of issue (subject to shareholder approval)
- The Company announced the resignation of non-executive Director Benjamin Fogelgarn and the appointment of Adam Ritchie as Managing Director and Peretz Shapiro as Executive Chairman.

No other matter or circumstance has arisen since 31 December 2022 that has significantly affected, or may significantly affect the consolidated entity's operations, the results of those operations, or the consolidated entity's state of affairs in future financial years.

Likely developments and expected results of operations

Information on likely developments in the operations of the consolidated entity and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the consolidated entity.

Environmental regulation

The consolidated entity is not subject to any significant environmental regulation under Australian Commonwealth or State law.

Note 1. Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 21.

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Loyal Lithium Limited ('company' or 'parent entity') as at 31 December 2022 and the results of all subsidiaries for the year then ended. Loyal Lithium Limited and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Subsidiaries are all those entities over which the consolidated entity has control. The consolidated entity controls an entity when the consolidated entity is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the consolidated entity loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The consolidated entity recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Note 1. Significant accounting policies (continued)

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

Revenue recognition

The consolidated entity recognises revenue as follows:

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

Income tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Loyal Lithium Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The head entity and each subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

Note 1. Significant accounting policies (continued)

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the consolidated entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The consolidated entity has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Plant and equipment	3-10 years
---------------------	------------

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the consolidated entity. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Exploration and evaluation assets

Exploration and evaluation expenditure in relation to separate areas of interest for which rights of tenure are current is carried forward as an asset in the statement of financial position where it is expected that the expenditure will be recovered through the successful development and exploitation of an area of interest, or by its sale; or exploration activities are continuing in an area and activities have not reached a stage which permits a reasonable estimate of the existence or otherwise of economically recoverable reserves. Where a project or an area of interest has been abandoned, the expenditure incurred thereon is written off in the year in which the decision is made.

Note 1. Significant accounting policies (continued)

Impairment of non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Trade and other payables

These amounts represent liabilities for goods and services provided to the consolidated entity prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees. Share-based payments are also provided to consultants and other suppliers in exchange for the rendering of services.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial, Trinomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

Note 1. Significant accounting policies (continued)

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of Loyal Lithium Limited, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

Goods and Services Tax ('GST') and other similar taxes

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 31 December 2022. The consolidated entity's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the consolidated entity, are set out below.

Note 2. Critical accounting judgements, estimates and assumptions.

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Fair value measurement hierarchy

The consolidated entity is required to classify all assets and liabilities, measured at fair value, using a three level hierarchy, based on the lowest level of input that is significant to the entire fair value measurement, being: Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date; Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3: Unobservable inputs for the asset or liability. Considerable judgement is required to determine what is significant to fair value and therefore which category the asset or liability is placed in can be subjective.

The fair value of assets and liabilities classified as level 3 is determined by the use of valuation models. These include discounted cash flow analysis or the use of observable inputs that require significant adjustments based on unobservable inputs.

Estimation of useful lives of assets

The consolidated entity determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Impairment of property, plant and equipment

The consolidated entity assesses impairment of property, plant and equipment at each reporting date by evaluating conditions specific to the consolidated entity and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

Income tax

The consolidated entity is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The consolidated entity recognises liabilities for anticipated tax audit issues based on the consolidated entity's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Employee benefits provision

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Exploration and evaluation costs

Exploration and evaluation costs have been capitalised on the basis that the consolidated entity will commence commercial production in the future, from which time the costs will be amortised in proportion to the depletion of the mineral resources. Key judgements are applied in considering costs to be capitalised which includes determining expenditures directly related to these activities and allocating overheads between those that are expensed and capitalised. In addition, costs are only capitalised that are expected to be recovered either through successful development or sale of the relevant mining interest. Factors that could impact the future commercial production at the mine include the level of reserves and resources, future technology changes, which could impact the cost of mining, future legal changes and changes in commodity prices. To the extent that capitalised costs are determined not to be recoverable in the future, they will be written off in the period in which this determination is made.

Note 3. Operating segments

Operating segment information is disclosed on the same basis as information used in internal reporting.

At regular intervals, the board is provided management information for the Company's cash position, the carrying values of exploration permits and Company cash forecast for the next twelve months of operation. On this basis, the board considers the consolidated entity operates in 3 segment being exploration of minerals and three geographical areas, being Australia, Canada and United States

Performance Rights

During the period the Company issued 24 million performance rights (2.4 million post-consolidation to three directors. The terms of the performance rights issued were disclosed in the annual general meeting notice announced 22 October 2021. The performance rights are long-term incentives to offer conditional rights to fully paid ordinary shares in the Company upon satisfaction of vesting criteria over the vesting periods for no cash consideration. Fair value has been measured using the share price at grant date.

Vesting conditions for the rights are set out in the table below:

Applicable Milestone	Class of Performance Rights	Lapse date	Number rights issued
Class A Performance Rights	6 months of continuous employment from the Commencement Date; and the development of a comprehensive strategic plan approved by the board and released to the market.	6 months from commencement date	500,000
Class B Performance Rights	12 months of continuous employment from the Commencement Date; and the volume weighted Share price being greater than \$0.35 over 20 consecutive days in which trading in the Company's securities occurred.	12 months from commencement date	500,000
Class C Performance Rights	18 months of continuous employment from the Commencement Date; and the volume weighted Share price being greater than \$0.50 over 20 consecutive days in which trading in the Company's securities occurred..	18 months from commencement date	500,000

The performance rights were valued at \$0.1754 using the Black-Scholes option pricing model on the grant date 25 July 2022. The total share-based payment expense recognised on the performance rights issued for the year was \$526,244.

Note 15. Dividends

There were no dividends paid, recommended or declared during the current or previous financial year.

Note 16. Financial instruments

The consolidated entity activities expose it to a variety of financial risks, market risk, credit risk and liquidity risk.

The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects of the financial performance of the entity.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange risk, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company operates internationally and therefore there is exposure to foreign exchange risk arising from currency exposures. The Company is not exposed to equity security price risk and holds no equity investments. The Company is not exposed to commodity price risk as the Company is still carrying out exploration.

Interest rate risk

Interest rate risk arises from investment of cash at variable rates. The consolidated entity income and operating cash flows are not materially exposed to changes in market interest rates. At the reporting date, the interest rate profile of the Company's interest bearing financial instruments was:

	Consolidated	
	2022	2021
	\$	\$
Variable rate instruments		
Cash and cash equivalents	6,573,702	3,640,881

Note 16. Financial instruments (continued)

	Carrying amount	Profit or loss 100 bp increase \$	Profit or loss 100 bp decrease \$	Equity 100 bp increase \$	Equity 100 bp decrease \$
Consolidated 2021					
Variable rate instruments					
Cash and cash equivalents	3,640,881	36,409	(36,409)	36,409	(36,409)
	Carrying amount	Profit or loss 100 bp increase	Profit or loss 100 bp decrease	Equity 100 bp increase	Equity 100 bp decrease
Consolidated 2022					
Variable rate instruments					
Cash and cash equivalents	6,573,702	65,737	(65,737)	65,737	(65,737)

Interest rate risk arises from investment of cash at variable rates. The Company's income and operating cash flows are not materially exposed to changes in market interest rates.

An increase of 100 basis points (decrease of 100 basis points) in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts presented below. This analysis assumes that all other variables remain constant. The analysis was performed on the same basis for June 2021. The following table summarises the sensitivity of the Company's financial assets (cash) to interest rate risk:

Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The Company has no significant concentration of credit risk. Credit risk arises from cash and cash equivalents held with the bank and financial institutions and receivables due from other entities. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted.

The maximum exposure to credit risk is the carrying amount of the financial asset. The maximum exposure to credit risk at the reporting date was:

	Consolidated	
	2022 \$	2021 \$
Cash and cash equivalents	6,573,000	3,640,881
Goods & services tax	(17,122)	58,660
Trade receivables	77,000	-
	<u>6,632,878</u>	<u>3,699,541</u>

Liquidity risk

Liquidity risk is the risk that the consolidated entity will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's liquidity risk arises from operational commitments. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities. Management aims at maintaining flexibility in funding by regularly reviewing cash requirements and monitoring forecast cash flows.

The following are the contractual maturities of financial liabilities:

Note 16. Financial instruments (continued)

	Weighted average interest rate %	1 year or less \$	Between 1 and 2 years \$	Between 2 and 5 years \$	Over 5 years \$	Carrying Amount \$	Remaining contractual maturities \$

Fair value

The carrying amount of the financial assets financial liabilities recorded in the financial statements represent the their respective net fair value determined in accordance with the accounting policies.

Capital management

The Company's policy in relation to capital management is for management to regularly and consistently monitor future cash flows against expected expenditures for a rolling period of up to 12 months in advance. The Board determines the Company's need for additional funding by way of either share placements or loan funds depending on market conditions at the time. Management defines working capital in such circumstances as its excess liquid funds over liabilities, and defines capital as being the ordinary share capital of the Company. There were no changes in the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements.

Note 22. Acquisition of exploration projects

Projects Acquired

On 7th June 2022, Loyal Lithium Limited acquired 80% of American Consolidated Lithium Pty Ltd ("ACL"). ACL holds the rights to acquire a 100% interest in 700 unpatented placer mining claims covering approximately 14,000 acres in Nye County, southern Nevada, USA, known as the Scotty Lithium Project. Under the agreement, 8,000,000 Shares and 4,000,000 in the capital of options (exercisable at \$0.30 and expiring on 6 July 2024) were issued to the vendors as consideration for the Projects.

As the assets acquired do not meet the definition of a business under Australian Accounting Standard AASB 3 Business Combinations, the transaction has been accounted for as an asset acquisition.

INDEPENDENT AUDITOR'S REPORT

To the members of Loyal Lithium Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Loyal Lithium Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2022, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies and the directors' declaration.

In our opinion the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 31 December 2022 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Carrying value of exploration and evaluation expenditures

<i>Key audit matter</i>	<i>How the matter was addressed in our audit</i>
<p>As the carrying value of the capitalised exploration and evaluation expenditures represents a significant asset of the company, we considered it necessary to assess whether facts and circumstances existed to suggest that the carrying amount of this asset may exceed its recoverable amount.</p> <p>AASB 6 <i>Exploration for and Evaluation of Mineral Resources</i> contains the requirements with respect to both the initial recognition of such assets and ongoing requirements to continue to carry forward the assets.</p> <p>Note 1 to the financial statements contains the accounting policy and note 9 disclosures in relation to exploration and evaluation expenditures.</p>	<p>Our procedures included:</p> <ul style="list-style-type: none"> • Obtaining evidence that the Group has valid rights to explore in the areas represented by the capitalised exploration and evaluation expenditure • Confirming whether the rights to tenure of the areas of interest remained current at the reporting date as well as confirming that rights to tenure are expected to be renewed for tenements that will expire in the near future • Agreeing a sample of additions to supporting documentation and ensuing amounts capitalised were permissible and capitalised correctly • Reviewing the directors' assessment of the carrying value of the exploration and evaluation costs, ensuring that management have considered the effect of impairment indicators, commodity prices and the stage of the Group's projects • Reviewing budgets and challenging assumptions made by the entity to ensure that substantive expenditure on further exploration for and evaluation of the mineral resources in the areas of interest were planned • Reviewing ASX announcements and minutes of directors' meetings to ensure that the company had not decided to discontinue activities in any of its areas of interest.

Other information

The directors are responsible for the other information. The other information comprises the information contained in directors report for the year ended 31 December 2022, but does not include the financial report and our auditor's report thereon, which we obtained prior to the date of this auditor's report, and the annual report, which is expected to be made available to us after that date.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

For personal use only

In connection with our audit of the financial report, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the directors report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and will request that it is corrected. If it is not corrected, we will seek to have the matter appropriately brought to the attention of users for whom our report is prepared.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 5 to 8 of the directors' report for the year ended 31 December 2022.

In our opinion, the Remuneration Report of Loyal Lithium Limited, for the year ended 31 December 2022, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
