Calendar year 2016 IPO capital raised

ASX is a globally competitive market

US \$billion

Calendar year 2016 number of IPOs

ASX is a globally competitive market

Expanding listings franchise

Foreign and technology listings success

- Globally respected market - 3rd largest in Asia based on free float market capitalisation
- Developing critical mass of technology listings. Technology sector is now third largest by number of listings and continues to grow with 40 new listings¹ in FY17
- Success in attracting foreign listings including from New Zealand, Singapore, Malaysia, Israel and the United States. Focused effort in Israel yielding 10 listings during FY17
- 'Sweet spot' for companies listing with a market capitalisation between \$50 million and \$500 million

ASX technology new listings¹

ASX foreign new listings¹

New futures trading platform

Implemented March 2017

- Replaced proprietary SYCOM platform introduced in the late 1990s
- Significant testing and preparation with close customer collaboration
- Approximately 50 ASX participants plus 30 other customers
 - Broad range of global data vendors and software providers
 - 120 customer applications supported through conformance
 - Over 820 users connected
- Legacy systems rationalised
 - 7 systems, comprising 17 separate applications, decommissioned
 - 20 databases across multiple environments eliminated
- Richer functionality and technical enhancements
 - Real-time platform and user interface monitoring
 - Improved latency
 - Enhanced pre-trade risk management
 - Customers able to manage own trading limits
 - Faster resolution of customer issues
- Smooth go-live with positive customer feedback
 - Improved capacity and functionality particularly around contract roll

Above: Commemorating the replacement of SYCOM:
Plaque incorporating chip from the replaced infrastructure

CHES replacement

On track for assessment of DLT in December 2017

Stakeholder engagement

- Industry wide formal consultation and follow up questionnaires
- Quarterly webinars with over 150 attendees
- Over 60 DLT system demos to 110 companies and 450 attendees from global financial services industry
- A series of stakeholder engagement workshops in progress with around 25 industry participants
- Six Business Committee meetings with exchanges, C&S participants, and industry association representatives
- Six ISO 20022 Technical Committees with approximately 30 member organisations

Project update

- Enterprise-grade DLT software development of equity clearing and settlement functionality on track for December assessment
- Global standard SWIFT / ISO 20022 message definition work (to replace proprietary CHES messaging) via the Technical Committee on track
- Potential for significant operational efficiency and new service offerings for the entire industry

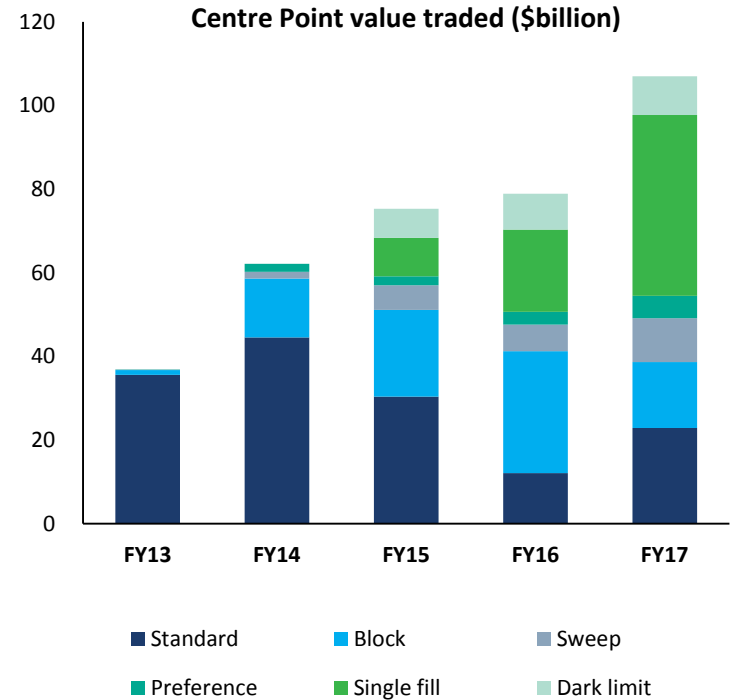

Timeframe

- Assessment of the technology to replace CHES in late calendar 2017
- 'Day 1' functional scope for equity clearing and settlement – final consultation anticipated in March 2018

ASX Trade execution innovation – Centre Point

Mid-point anonymous matching referencing ASX liquidity

- Australia's largest anonymous mid-point trade matching system
- Offers customers deep liquidity, meaningful price improvement and reduced risk of information leakage – tangible benefits in a fragmented market
- Centre Point value traded in FY17 was \$107 billion, representing 9.9% of ASX on-market value traded
- Increased utilisation of advanced order types - particularly single fill, where orders are executed only when the minimum acceptable quantity is filled by a single opposing order
- Success a reflection of greater end user understanding of the costs of a fragmented market

Capital expenditure

Continued investment in existing and new technology

FY17 projects completed

- New futures trading platform implemented in March 2017
- Enhancement to OTC Clearing service including extended hours
- BBSW platform
- Cyber security command centre

FY17 projects in progress

- DLT development for potential CHES replacement
- OTC clearing service expansion including NZ\$
- Investment in existing infrastructure and platform upgrades

Outlook

- FY18 guidance approximately \$50 million
