* Average % Spread = provides the time weighted average of all bid/ask spreads as a percentage of the mid price. The bid/ask points used for the computation correspond to the quotes received for the period for the first business day of the month until the last business day of the month. Bid/ask spread points are only considered during the continuous trading period, and only when the spread is defined and non-negative.

^ Identifies an ETF that invests in whole or in part into another ETF admitted to ASX.

** Funds Inflow / Outflow represents the value of the units that were issued and redeemed during the month, as disclosed by the issuer. 12M Funds Inflow / Outflow represents the cumulative value of monthly reported inflows and outflows on a rolling twelve month basis.

*** CHESS Funds Inflow / Outflow represents the number of CHESS units changed times by the end of the month close. 12M CHESS Funds Inflow / Outflow represents the cumulative value of monthly reported CHESS inflows and outflows on a rolling twelve month basis.

The FUM for each ETP is based off the last reported number of units multiplied by the closing price on the last Transaction day of the month. This figure does not take into account fund-of-fund structures that invest into other ASX-quoted ETPs (i.e. these figures may appear to double-count the figure).
MER (management expense ratio) figures have been extracted from the relevant PDS or as updated by the issuer of the product. Under the Corporations Regulations, management costs do not include transactional or operational costs or certain other fees and costs which may also apply. Such costs may be significant. When considering a product or comparing between products you should refer to the relevant PDS(s) for more information on any additional costs associated with each product.

All values are as at Sep-26. Month Total return, 1/3 & 5 year return data and spread % data is provided by Bloomberg. Dividends are reinvested. Gross dividends are used in the calculation for returns. Price is used to calculate total returns.

Spreads in international ETFs and some ETCs can vary throughout the day due to opening hours of the underlying markets. Please contact the product issuers for further information.
