Estimated cash available for future operating activities

- These questions go to whether the entity meets the requirements in rules 12.1 and 12.2 that the entity's level of operations is sufficient, and its financial condition is adequate, in ASX's opinion, to warrant the continued quotation of its securities and its continued listing.
- For further guidance on completing these sections, see section 7 of GN 23.

8.1	Net cash from / (used in) operating activities (item 1.9)

8.6	If item 8.5 is less than 2 quarters, please provide answers to the following questions:	
8.6.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer:

Lodgement requirements for Appendix 4E preliminary final report

Rule 4.3C and GN 14

- An Appendix 4E must:
 - be clearly identified on the first page or on any covering page of the announcement as a preliminary final report given to ASX under rule 4.3A
 - if the entity has prepared several documents which together satisfy the reporting requirements in that rule, be bundled along with those other documents in a single PDF file and lodged as one announcement
 - include the information identified in Appendix 4E as 'Results for announcement to the market' at the beginning of the announcement, and
 - include the amount of, and record date for, any dividend or a distribution being made for the full year.
- A dividend or distribution on quoted securities for the full year will also need to be separately notified to ASX via an Appendix 3A.1 online form. That notification should be submitted to ASX after the Appendix 4E results announcement.
- Supplementary documentation related to the results announcement, such as media releases and analyst presentations, should not be bundled with a results announcement. These should be given to ASX in a separate announcement after the lodgement of the Appendix 4E and Appendix 3A.1 (if applicable).
- For further guidance, again see section 16 of [GN 14 ASX Market Announcements Platform](#).

Updating the information in an Appendix 4E

Rule 4.3D

- If an entity is or becomes aware of circumstances which are likely to materially affect the results or other information contained in the Appendix 4E given to ASX, the entity must immediately give ASX an explanation of the circumstances and the effects the circumstances are expected to have on the entity's current or future financial performance or financial position.
- This typically occurs where an entity lodges unaudited full year accounts with its Appendix 4E and the accounts are adjusted in the audit.
- To avoid this risk, many entities choose to lodge audited, rather than unaudited, accounts with their Appendix 4E.

Full year accounts

Rule 4.5

- All entities must give ASX audited full year accounts. They must do so:
 - when they lodge their full year accounts with ASIC
 - otherwise no later than **three months** after their full year end.
- If the entity is Australian, the accounts must include all of the documents that the entity must lodge with ASIC under section 319 of the Corporations Act, ie:
 - the financial statements required for the full year under Australian Accounting Standards
 - the notes to the financial statements
 - a directors' report on activities for the year
 - a directors' declaration that the entity is solvent and the accounts meet applicable requirements and give a 'true and fair' view.
- If the entity is foreign, the accounts must include all of the documents that the entity must lodge with ASIC under section 601CK of the Corporations Act.

Appendix 4F change of balance date 12 month period

Rules 4.4A, 4.4B and 4.4C

- If an entity, other than a mining/oil and gas exploration entity, changes its annual balance date so that its next annual accounts cover a period of more than 12 months, the entity must give ASX the information set out in Appendix 4F for the first 12 months of that period. It must do so:
 - immediately the information becomes available
 - otherwise no later than **two months** after the end of the 12 month period since its previous balance date.
- The accounts on which the information is based must be audited or reviewed if ASX or the relevant law requires.
- See rule 4.4C for lodgement requirements.

Appendix 4F Change of balance date 12 month period	
Rule 4.4A	
Appendix 4F Change of balance date 12 month period

Annual report to security holders

Rule 4.7

- An Australian entity must give ASX a copy of its annual report and any concise report provided to security holders under section 314 of the Corporations Act. It must do so:
 - the day it sends the report to security holders
 - otherwise, no later than the last day for the report to be given to security holders under section 315 of the Corporations Act (ie within **3 months** after the end of its financial year if it is a registered managed investment scheme, and by the earlier of **4 months** after the end of its financial year and **21 days** before its next AGM if it is not).
- A foreign entity that is required by the law of its home jurisdiction to prepare an annual report to its security holders, must give ASX a copy of that the annual report. It must do so:
 - the day it sends the report to security holders
 - otherwise, no later than the last day for the report to be given to security holders under the law of its home jurisdiction.
- An entity need not give ASX any of the above documents if they have already been given to ASX with its audited full year accounts under rule 4.5.

ASX requirements for annual reports

Rule 4.10

- An entity must include the information set out in rule 4.10 in its annual report.
- Unless otherwise specified in that rule, the information must be current at a date specified by the entity, which must be **on or after the entity's balance date and not be more than 6 weeks before the report is given to ASX.**
- The required information includes:
 - the names of substantial shareholders in the entity and the number of equity securities to which each substantial holder and the substantial holder's associates have a relevant interest, as disclosed in substantial holding notices given to the entity under the Corporations Act or any equivalent overseas law
 - the number of holders of each class of equity securities
 - the voting rights attached to each class of equity securities
 - a distribution schedule for each class of equity securities broken into the categories in rule 4.10.7
 - the number of holders holding less than a marketable parcel of the entity's main class of securities

ASX requirements for annual reports

Rule 4.10 (cont.)

- the name of the entity's secretary
- the address and telephone number of the entity's registered office in Australia and of its principal administrative office, if the two are different
- the address and telephone number of each office at which a register of securities, register of depositary receipts or other facilities for registration of transfers is kept
- a list of other stock exchanges on which any of the entity's securities are quoted
- the number and class of restricted securities or securities subject to voluntary escrow that are on issue, and the date that the escrow period ends
- for each class of unquoted equity securities (except CDIs), the number of equity securities that are on issue and the number of holders and, if a person holds 20% or more of the equity securities in an unquoted class, the name of the holder and number of equity securities held, unless the securities were issued or acquired under an employee incentive scheme

ASX requirements for annual reports

Rule 4.10 (cont.)

- a review of operations and activities for the reporting period that complies with sections 299 and 299A of the Corporations Act or, if the entity is not established in Australia but it is subject in its home jurisdiction to an equivalent law to sections 299 and 299A, that law
- whether there is a current on-market buy-back
- for the first two annual reports after an entity's admission or re-admission to the official list, a statement about whether the entity used the cash and assets in a form readily convertible to cash that it had at the time of admission/re-admission in a way consistent with its business objectives and, if not, an explanation of how the cash and assets were used
- if the entity is an investment entity, various information about its investments and investment activities (see rule 4.10.20)
- a summary of any issues of securities approved for the purposes of Item 7 of section 611 of the Corporations Act which have not yet been completed, and

ASX requirements for annual reports

Rule 4.10 (cont.)

- if during the reporting period any securities were purchased on-market:
 - under or for the purposes of an employee incentive scheme, or
 - to satisfy the entitlements of the holders of options or other rights to acquire securities granted under an employee incentive scheme,

the total number of securities purchased, and the average price per security at which the securities were purchased during the reporting period.

- Where a disclosure requirement in rule 4.10 is not applicable, it will assist ASX (and others) in determining whether the entity has met its disclosure obligations if the entity states that is the case.
- To take the last example above, if during the reporting period the entity did not purchase any securities on-market under or for the purposes of an employee incentive scheme or to satisfy the entitlements of the holders of options or other rights to acquire securities granted under an employee incentive scheme, it would be helpful for the entity to state that fact in its annual report, rather than say nothing because there is nothing to be disclosed under that requirement.

ASX requirements for annual reports

Other disclosure obligations

- Mining/oil and gas entities must include in their annual report the additional information required by rules 5.20 – 5.21 and rules 5.37 – 5.40 respectively. Further information about these requirements can be found in [GN 31 Reporting on Mining Activities](#) and [GN 32 Reporting on Oil & Gas Activities](#).
- An entity must also include in its annual report:
 - a corporate governance statement that meets the requirements of rule 4.10.3, or
 - the URL of the page on its website where a corporate governance statement that meets the requirements of that rule is located,

and give ASX a completed Appendix 4G *Key to Corporate Governance Disclosures* at the same time as it gives ASX its annual report.

Further information about these requirements can be found in module 6 of this course or in [GN 9 Disclosure of Corporate Governance Practices](#).

The consequences of non-compliance

Rule 17.5

- If an entity fails to give ASX a periodic report covered in this module by its due date, ASX will automatically suspend quotation of the entity's securities before market open on the next trading day after the due date, without further warning (rule 17.5). ASX will not waive this rule.
- If an entity's securities are suspended under rule 17.5 for failure to lodge a periodic report, ASX will normally reinstate quotation of the securities just before the commencement of trading on the day after ASX receives the report and any outstanding fees payable by the entity to ASX (rule 17.8).
- ASX may decide not to reinstate quotation if the entity's securities should be suspended for some other reason (rule 17.3).
- If an entity fails to lodge a periodic report covered in this module within one year after the deadline for lodgement of that report, ASX will automatically remove the entity from the official list under ASX's long term suspended entity policy (see section 3.4 of [GN 33 Removal of Entities From the Official List](#)).
