[CHES Project](#)

CHES Release 1 - end of Stage 1 Hypercare

Following the successful Go-Live of **CHES Release 1**, all planned operational milestones have now been achieved. As a result, the CHES Project has now moved from **Hypercare Stage 1 to Hypercare Stage 2**, representing the final stage before transitioning support to business-as-usual arrangements.

Since Go-Live, the new clearing service has achieved:

- over 40 million trades received
- no new issues added to the Known Issues Log, with no industry change planned in relation to Hypercare patches.

Further information on Hypercare is available in the [CHES Release 1 Cutover Runbook](#).

Please note that these documents will be accessible from the [ASX Stakeholder Engagement page](#) and may require [ASX Online](#) authentication. You will need your ASX Online credentials to access them. If you do not have an ASX Online account, please contact your organisation's Enterprise Administrator or reach out to the [ASX Technical Support Team](#) if your organisation does not have one.

Should you have any questions, feedback, or additional considerations, please email the [CHES Stakeholder Engagement Team](#) or contact your Stakeholder Engagement representative directly.

Kind regards,
The CHES Project Team
