CHESS Release 2 Drop 2 Connectivity Guide update

ASX is pleased to advise that the **CHESS Release 2 Connectivity Guide** (Guide) has been updated and is now available for **Drop 2** of the CHESS Project.

The updated Guide provides Software Providers with the latest information to support connectivity for Release 2 Drop 2 functionality, including updated information to connect to the Secure File Transfer Protocol service that facilitates the transmission of Test Trade files in CHESS Release 2.

Software Providers are encouraged to review the updated Guide to ensure readiness for upcoming Drop 2 activities and SFTP processes, and to familiarise themselves with any changes or clarifications.

[View updated CHESS Release 2 Connectivity Guide](#)

The updated Guide is also available on the [CHESS Release 2 Stakeholder Engagement page](#), alongside other relevant Release 2 technical and testing documentation.

If you have any questions or require support, please contact the CHESS Project Team via the below channels:

- **Technical support queries** (i.e. connectivity, onboarding, AMQP CHESS UI, SFTP setup and testing): [Customer Technical Support](#)
- **Functional support queries** (i.e. documentation, ISO, business processes and readiness queries): [CHESS Project Help](#)
- **General stakeholder engagement, support and escalations:** [CHESS Stakeholder Engagement Support](#) (or via your Stakeholder Engagement representative).

Kind regards,
The CHES Project Team
