CHESS Release 2 - Drop 3 User Technical Documentation now available

ASX is pleased to announce that the **CHESS Release 2 User Technical Documentation (UTD)** is now available for **Drop 3** of the CHESS Project.

The CHESS Release 2 Drop 3 UTD provides the specifications required by development teams to integrate with CHESS. It includes functional details of message flows, ISO message specifications and validation rules. The documentation also includes links to Swift's MyStandards, the web platform used by ASX to publish ISO 20022 Usage Guidelines.

Drop 3 UTD includes the following new features:

- payment facilities
- settlement instruction management
- batch settlement payments
- SRN enquiry
- transfers and conversions between sub-registers
- holding sub-positions
- corporate actions
- additional reporting.

[View Drop 3 UTD](#)

In addition to the Drop 3 UTD, on the [ASX Stakeholder Engagement page](#), you will find a number of enhancements to the suite of documents available, including links to key supporting Business Design and ISO 20022 Design documentation from the respective working groups.

Please note that these documents may be protected using ASX Online authentication. This means you will be required to use your [ASX Online](#) credentials to access it. If you do not already have an ASX Online account, please contact your organisation's Enterprise Administrator, or reach out to the [ASX Technical Support Team](#) if you do not have an Enterprise Administrator.

Should you have any questions, feedback, or any additional considerations, please reach out via email to the [CHESSE Stakeholder Engagement Team](#) or bilaterally with your Stakeholder Engagement representative.

Kind regards,
The CHESSE Project Team
