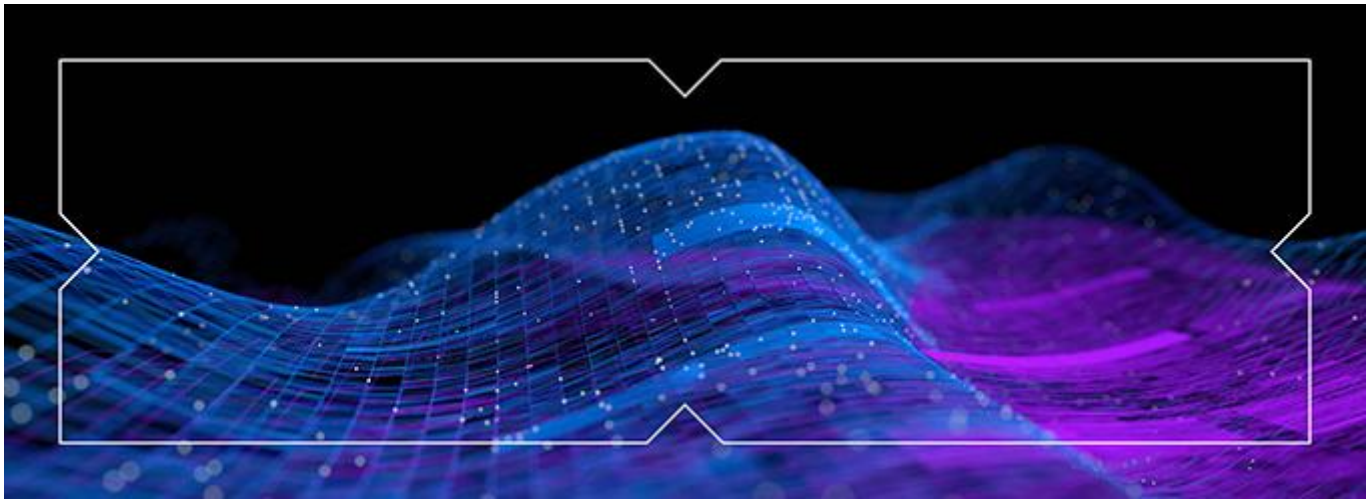
CHESS Project



Updates to APG and EIS messaging documentation for CHESS Release 1

We are pleased to advise that the updated **ASX Settlement Procedure Guidelines (APGs)** are now available. The latest version 4.0 of the APGs primarily reflects updates to incorporate CHESS Release 1 Clearing Service related changes, which will take effect at CHESS Release 1 Go-Live, planned for April 2026.

Updates to the APGs are required when CHESS Release 1 is live, as several EIS messages used by Approved Market Operators (AMOs) will be replaced by FIX messages outlined in the AMO User Technical Documentation. Until CHESS Release 1 Go-Live, the previous version 3.9 of the APGs will remain in effect.

View APG documentation

Additionally, the **CHESS External Interface Specifications (EIS)** documents have been updated to reflect the CHESS Release 1 AMO messaging changes. These updates include the decommissioning of a number of EIS messages that are no longer required. The EIS documents continue to provide detailed information on the protocol used to communicate with the CHESS system.

Please note that these documents will be accessible from the ASX Stakeholder Engagement page and may be protected using ASX Online authentication. This means you will be required to use your ASX Online credentials to access it. If you do not already have an ASX Online account, please contact your organisation's Enterprise Administrator, or reach out to the ASX Technical Support Team if you do not have an Enterprise Administrator.

Should you have any questions, feedback, or any additional considerations, please reach out via email to the CHESS Stakeholder Engagement Team or bilaterally with your Stakeholder Engagement representative.

Kind regards,
The CHESS Project Team
