Change log now available – CHESS Project User Technical Documentation

As part of our ongoing commitment to transparency and continuous improvement, we're pleased to announce that a change log will now accompany the CHESS Project User Technical Documentation.

This initiative reflects the evolving nature of our documentation - driven by your feedback and shaped by ASX's regular quality reviews. You'll find a clear summary of updates, refinements and additions as required, to help you stay aligned with the latest specifications and implementation guidance.

You can access the latest change log and documentation via the [CHESS User Technical Documentation site](#), accessible via the [CHESS Release 2 stakeholder engagement page](#).

In addition to the planned quarterly documentation drops, we will aim to include regular revisions based on your feedback.

Thank you for your continued engagement and collaboration on the CHESS Project. Should you have any questions, feedback or additional considerations, please reach out to the [CHESS Stakeholder Engagement Team](#) or bilaterally with your Stakeholder Engagement representative.

Kind regards,
The CHESS Project Team
