1. Response to Tranche 2 Consultation Paper

1.1. Tranche 2 consultation and response

On 21 February 2020, ASX released a Consultation Paper relating to tranche 2 rule amendments for the CHES replacement system.¹ These rule amendments addressed corporate actions, mFund and RTGS payment aspects for the new system. This paper:

- contains a summary of the feedback received in stakeholder submissions (see **Attachment A**);
- contains ASX's response to such feedback, including addressing respondents' requests for clarification and further information (see **Attachment A**); and
- includes the draft rule changes made to the ASX Settlement Operating Rules and Procedures, which take into account feedback received (see a summary of these rule changes in **Attachment B**, as well as the full set of tranche 2 rule amendments updated to incorporate these changes in **Attachment C**).

1.2. Submissions received

ASX received a total of 11 submissions from a range of stakeholders including registries, participants, payment providers, an industry body and an approved listing market operator. Eight of these submissions were confidential. ASX has published non-confidential submissions on the [ASX website](#).

ASX thanks all stakeholders who shared their views and provided submissions in response to the tranche 2 consultation paper.

2. Summary of the feedback received

2.1. Feedback received

Stakeholders provided both general and specific drafting feedback on the proposed tranche 2 rule amendments. This feedback is summarised on an anonymised basis in the table in **Attachment A**. Attachment A also contains ASX's response to feedback received, and indicates whether amendments to the rules have been made in response to this feedback.

2.2. Common themes raised

Some common themes were raised by stakeholders in relation to tranche 2, including:

- Concerns by two stakeholders with some aspects of the solution design for dividend and distribution reinvestment plan (DRP) and bonus share plan (BSP) elections, including having regard to anticipated use, complexity and issuer / share registry impacts.
- General support for other aspects of the tranche 2 rule amendments, subject to specific feedback received on some amendments set out in the high level summary in Section 2.3 below and Attachment A.
- Requests for clarification on the solution design, including in relation to the establishment and removal of corporate action records, and whether new functionality will be optional for participants and issuers.
- Requests for further detail on required revisions to plan rules for DRPs and BSPs.
- Requests for clarification as to the admission criteria and role for RTGS Participants and Corporate Action Payments Participants (CAPPs).
- Requests for further detail on use cases, process flows and fees for new services.
- Comments regarding the deferral of the implementation timeline and the overall rule amendment consultation process.

¹ The Tranche 2 Consultation Paper is available here: <https://www.asx.com.au/images/settlement/Tranche2ConsultationPaperandAttachments.PDF>.

2.3. Specific feedback raised

More specific feedback was also received on particular rule amendments. A high level summary of the feedback received is set out below. Please refer to **Attachment A** for a more detailed summary of all feedback received.

- Two stakeholders opposed aspects of the solution design for DRPs and BSPs, including the requirement for issuers to use CHESSE to notify acceptance of elections made directly to the issuer outside CHESSE.
- Feedback was received from three stakeholders in relation to the applicability of the new election functionality to existing DRP and BSP plans and as to required changes to terms and conditions to facilitate DRP and BSP elections through CHESSE. Two stakeholders requested further guidance from ASX on whether and how amendments should be undertaken. Another stakeholder queried whether ASX will provide guidance on standardised language for core representations in DRP and BSP plan rules.
- Two stakeholders queried whether the requirement on issuers to immediately notify ASX of DRPs, BSPs, rights offers and shares purchase plan (SPPs) to support the establishment of corporate action records, or otherwise to notify ASX of a non-takeover offer event that elects to use ASX provided functionality for processing of acceptances, should be required only upon the release of a public market announcement on the platform of the approved market listing operator.
- Two stakeholders requested additional functionality to give issuers visibility of rights offers and SPPs that have been accepted by participants through CHESSE but are pending payment.
- One stakeholder indicated that a unique investor identifier should be entered for all entitlement acceptances while another stakeholder indicated that it should not be required to be entered for entitlement acceptances.
- Three stakeholders suggested changes to cut off times and notification deadlines. Two stakeholders suggested a hard 4pm cut off time for RTGS instructions in order to give RTGS payment providers time to authorise payment. One stakeholder suggested a time limit on when non-takeover offer events can be initiated, and a standardised cut off time for all application close dates with respect to rights offers and SPPs. Another stakeholder suggested participants should be required to notify issuers of DRP standing instructions from holders by a scheduled time.
- Feedback was received from two stakeholders in relation to the removal of corporate action records for rights offers and SPPs after the application close date, including that the records should be retained until the corporate action has concluded.
- Two stakeholders proposed that issuers should be required to use CHESSE to process refunds for rejections of accepted rights offers and SPPs that had been transmitted by controlling participants through CHESSE or to notify of a rejection of an accepted rights offer or SPP. One stakeholder suggested that existing share registry refund processes would remain the most expedient method for returning money.
- Four stakeholders requested clarification on the admission criteria for RTGS participants, and three stakeholders requested clarification on the admission criteria and role for corporate action payments participants.
- One stakeholder queried whether effecting an exchange of consideration under schemes of arrangement processed through the non-takeover offer event functionality would be more difficult due to the operation of subpositions and restrictions on holdings by specialist settlement participants.
- One stakeholder sought further information in relation to the solution design for non-takeover offer events, including whether processing is mandatory for all CHESSE holdings.
- Feedback was received from two stakeholders on the terms used to name certain participant messages. One stakeholder queried whether “election” should be used to describe participant applications to participate in DRPs and BSPs, given that the election remains subject to acceptance or rejection by the issuer. One stakeholder queried whether the term “acceptance” should be used to describe participant applications to participate in shortfall offers under a rights issue or an SPP, given that the acceptance is subject to scaleback. Two stakeholders queried whether the term “acceptance” should be used for participant responses to non-takeover offer events, given issuer discretion to authorise or reject the response.

- One stakeholder opposed changes to the operation of new and existing locks on holdings or existing subpositions and sought further information on the impact on corporate actions processing for holding adjustments (other than reconstructions), in particular for scheme of arrangements.

3. ASX response to feedback received

3.1. ASX response to feedback

ASX is grateful for the feedback provided by stakeholders. **Attachment A** sets out ASX's response to each of the aspects raised in submissions, including:

- Providing further information (or links to further information) in relation to the proposed rule amendments, functionality design or consultation process where such information was requested.
- Responding to specific drafting comments on the rule amendments, adopting the drafting comments where appropriate or explaining why such drafting comments have not been adopted.
- Seeking to provide further clarification on the proposed rule amendments.

3.2. Changes to draft rules in response to feedback

In response to stakeholder feedback received, ASX is making the following changes to the draft rules:

- Amend the rules for DRP and BSP elections to reflect a simplified solution design whereby elections and cancellations by controlling participants will be notified to issuers on a pass through basis. This includes the removal of several issuer obligations, including the requirement to notify ASX Settlement of elections made directly to the issuer outside CHES.
- Amend the rules to more clearly allow for the creation of the 'corporate action record' (renamed as 'plan record') in relation to existing DRPs and BSPs to facilitate processing of elections for such DRPs and BSPs.
- Amend the rules to replace the requirement for inclusion in the plan or offer terms for the relevant DRP, BSP, rights offer or SPP of certain representations from holders relating to an election or acceptance through the new functionality, with a:
 - representation, warranty and associated indemnity from issuers that holders can apply to participate and cancel their participation in the relevant DRP or BSP or accept into the rights offer or SPP through an election or acceptance under the new functionality; and
 - in the case of a rights offer subject to regulated disclosure documents, a representation and warranty from issuers relating to the application of more limited form of holder representations to an acceptance under the new functionality (supporting the relief referred to in 3.3 below).
- Amend the requirements on issuers to notify ASX Settlement of DRPs, BSPs, rights offers, SPPs and non-takeover offer events, to clarify that notification is required only after the public release of the relevant market announcement on the platform of the approved listing market operator.
- Amend the rules to require ASX Settlement to notify the relevant issuer when a controlling participant has used CHES to notify of an acceptance in respect of a rights offer or SPP. This will give issuers visibility of acceptances pending payment. ASX is considering whether such notifications can be provided on an opt-out basis.
- Remove rules which relate to requests by participants for ASX to cancel RTGS instructions, to reflect that RTGS instructions are set to occur in real time once the instruction enters the settling phase and cannot be cancelled unless the RTGS payments provider rejects the RTGS instruction outside CHES.
- Amend the admission criteria and roles for RTGS participants and corporate action payments participants, to provide greater clarity and more clearly delineate corporate action payments participants from other types of participants.

- Amend the rules to better reflect the mandatory processing by participants of holder instructions for non-takeover offer events for which an issuer opts to use the ASX provided facility for the processing of acceptances.
- Insert notes to clarify that the terms “election” and “acceptance” are used as general terms across the relevant functionality which provides for such notification for DRPs, BSPs, rights offers, SPPs and non-takeover offer events and to reflect that election or acceptance by controlling participants will be subject to processing and validation by the issuer in accordance with the relevant plan or offer terms.
- Permit holding adjustments and financial product transformations on holdings subject to a holding lock, holder record lock or subposition where the adjustment or transformation results in an increase to the number of financial products in the holding, or where the holding is subject to a holder record lock due to the death or bankruptcy of a holder.
- Make certain other changes to the tranche 2 rule amendments.

Each of the further changes to the tranche 2 rule amendments are identified in the last column in **Attachment A** within the relevant row which explains that change.

3.3. Other aspects

As indicated in the [Tranche 2 Consultation Paper](#)², there is uncertainty as to an issuer’s compliance with section 723(a) and 1016A(2)(a) of the Corporations Act in relation to an acceptance by the purchaser of traded rights where the offer under the renounceable rights issue must be made under a regulated disclosure document. These provisions provide that certain financial products subject to regulated disclosure documents may be issued by issuers only “in response to” or “pursuant to” an application form which was included in or accompanied by a prospectus, PDS or other regulated disclosure document.

Where the relevant entitlement has been renounced and traded through an on-market transfer or otherwise received through an off-market transfer, offer documents are not provided to purchasers or recipients of the entitlement so the controlling participant will be unable to link the acceptance to the original application form by including a unique identifier from the offer document. This applies to acceptances notified through the new entitlement acceptance functionality as well as existing paper based acceptance notification (and payment) processes by the holder or their controlling participant (generally through a form referred to as an Appendix E to which a cheque is attached).

ASX has been engaging with ASIC on the whether there should be provision of additional relief to issuers to cover the issue of financial products in respect of acceptances by purchasers or recipients of rights (whether pursuant to an on-market transfer or off-market transfer). ASX has also suggested extensions to the scope of ASIC Instrument 2016/993 to provide greater certainty regarding the scope and application of the relevant relief for such purposes, e.g. to make clearer that paragraph 5(1) of that instrument relieves the listed body from its obligation to only issue securities to a transferee of rights on an application form that accompanied a disclosure document.

The changes proposed apply equally to the exercise of rights through the new functionality or through existing industry practice.

ASIC has indicated that it has no policy objections to amending the instrument so that it is clear that the issuer is relieved from the obligation to only issue securities to a transferee of rights on an application from that accompanies a disclosure document. ASX and its external legal advisors are currently progressing the form of such amendments to the Instrument with ASIC.

² Refer to section 1.3 under heading “Potential need for disclosure relief or regulatory guidance for renounced and traded entitlements”

4. Further rule amendments

4.1. Other changes to draft rules

ASX has also made some additional rule changes relevant to the topics covered by the tranche 2 rule amendments that are not directly related to feedback received from stakeholders, but have been identified following further consideration of the proposed rule amendments.

- For holder elections under distribution reinvestment plans for mFund products, ASX intends that the election messaging under the new system will reflect the corresponding process under the current system. Consequently ASX proposes to remove the proposed addition of ASXSOR 18.13.1(c).
- The mFund initial application/investor data workflow is proposed to be amended such that the application will be required first followed by the investor data. ASX does not expect this change to have a material impact on participants, and notes that applicable business outcomes should not be affected by this change.
- Two defined terms will be amended to address the removal of mFund switch functionality referred to in the Tranche 2 Consultation paper: (i) the definition of “Fund Request Cut-Off” is amended; and (ii) the definition of “Switch” is deleted.

These changes will be consulted on as part of the consolidated rules package proposed for public consultation as referred to in section 5.1 below.

5. Further consultation process for rule amendments

5.1. Further public consultation on rule amendments

As set out in section 5 of ASX’s consultation paper on the [Revised Implementation Timetable](#) released on 30 June, ASX proposes to undertake a further rules consultation which will incorporate both the tranche 3 rule amendments (yet to be publicly consulted on) and a consolidated rules package across all the rule amendments for the new system (i.e. as covered by the three tranches).

The consultation paper proposed a 15 week consultation period (commencing in early November 2020 and concluding mid-February 2021) for providing feedback, with this timeframe subject to further consideration of feedback received through that consultation. The consolidated rules package will include the tranche 2 rule amendments as revised and reflected in section 3 and 4 above. The timing for the consultation on the consolidated rules package and tranche 3 rule amendments is subject to consideration, with the market to be updated in ASX’s response to consultation feedback (planned for release in late October / early November 2020).

As also indicated in ASX’s consultation paper on the revised implementation timetable, the tranche 3 rule amendments would include transitional rules addressing timing for enlivening rules for the following new features (supported through the tranche 2 rule amendments) that were contemplated to be made available in production after Day 1 of the new system as ‘release version 1.1’:

- Non-batch DVP bilateral settlement
- Electronic DRP and BSP elections, DRP enquiry
- Electronic acceptance of entitlement offers
- Electronic payment for entitlement offers.

The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

5.2. Response to consultation

This paper provides ASX’s response to consultation feedback received on the tranche 2 draft rule amendments.

ASX provided its response to consultation feedback received on the tranche 1 draft rule amendments on 22 May 2020.³

A response to consultation feedback received on both the tranche 3 draft rule amendments and the consolidated rules package will also be provided following consultation on those amendments. This will allow stakeholders to understand any changes made to the tranche 3 rule amendments and the consolidated rules package resulting from consultation. These changes will be reflected in the combined rules package that will be formally lodged with ASIC.

5.3. Regulatory clearance process

All rule amendments, including any changes made through the public consultation process, will be subject to the usual regulatory clearance processes. Following the regulatory clearance process, a final set of rule changes will be released.

ASX's consultation paper on the revised implementation timetable contemplated that the regulatory clearance process would be completed by the end of September 2021, allowing for the release of the final rule changes at least six months prior to go-live of the new system. In the revised implementation timetable consultation paper, ASX sought feedback from CHES users on their ability to meet a new target live date of April 2022. The April 2022 target go-live date is subject to consultation feedback and finalisation by ASX, with the market to be updated on this and the associated rules regulatory clearance process timing in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

The final form of the rule amendments will become effective at the time of go-live of the new system.

Attachment A: Summary of Submissions received on draft ASX Settlement Operating Rules, ASX Clear Operating Rules and ASX Enforcement and Appeals Rulebook

This table summarises the feedback received from stakeholders in response to the tranche 2 consultation paper, and ASX’s response to that feedback.

Issue	Feedback	ASX response	Rule changes
DRP and BSP elections (see row 1 of the table in Attachment A of our Tranche 2 Consultation Paper)			
1. Addressing of business requirement by solution	<p>Supports the deployment of the new system permitting participants and issuers to transmit electronic notifications of elections (and cancellations of elections) directly to an issuer/registry.</p> <hr/> <p>DRP/BSP election solution reflected in proposed rules inserts ASX into corporate action administration, including complex and risky duplication of data management.</p> <p>While supportive of the establishment of CHES as optional channel for elections, proposed solution is disproportionate to the market need being addressed.</p> <hr/> <p>Solution design (and supporting rules flowing from that design) goes beyond problem statements generated by industry (through 2017 working groups) for issuers to collect instructions by participants and allowing participants to understand what DRP standing instructions are held for HINs transferred between participants. Problem statement for ASX to solve was</p>	<p>The rule amendments for DRP and BSP elections included as part of ASX’s Tranche 2 rule amendments consultation paper reflected the proposed solution design for the new business requirement of electronic elections for DRPs and BSPs, as determined following consultation with stakeholders through Focus Groups and the Technical Committee and as communicated publicly in the Technical Documentation released by ASX in respect of such electronic DRP and BSP election functionality solution design.</p> <p>This solution design sought to align the CHES functionality with the election status recorded by issuers to support consistency of message workflows (e.g. supporting concurrent DRP/BSP partial elections) and minimise inconsistent elections / cancellations being forwarded to registries.</p> <p>Refer to section 1.2 of the tranche 2 consultation paper¹ for further details on the engagement processes undertaken, including a summary of feedback received through those processes.</p> <p>However, ASX acknowledges the further feedback received through the tranche 2 rule consultation regarding the complexity and costs imposed on issuers to support the proposed solution design for DRP and BSP elections.</p>	<p>ASXSOR definitions of “Corporate Action Election Status Advice Message”, “Election Issuer Notification Message” and Election Participant Notification Message”.</p> <p>ASXSORs 5.19A.2, 5.19A.3, 5.19A.5, 5.19A.7 and 5.19A.9.⁴</p>

¹ The tranche 2 consultation paper is available here: <https://www.asx.com.au/images/settlement/Tranche2ConsultationPaperandAttachments.PDF>

⁴ To aid comparison with the rules as proposed in the tranche 2 consultation paper, the paragraph numbers in Rule 5.19A have been preserved and not updated to account for the proposed deletion of Rule 5.19A.3. This numbering will be updated in any subsequent version of these rules.

not for ASX to hold all DRP standing instructions for all CHESS holders.

Solution design will involve incurring additional costs to issuers without clear articulation of expected new transaction costs and whether benefits outweigh initial effort to align with new functionality. No foreseeable benefits will be seen from expansion beyond already cost effective investor self service solutions offered by share registries.

Solution design for the DRP / BSP solution is not balanced in the benefits to participants and issuers.

Does not consider the transaction processing responsibilities placed on issuers will provide benefits to issuers and the majority of retail-oriented participants or investors.

Accordingly, ASX has revised the proposed solution for DRP and BSP election functionality so as to:

- Remove the requirement for issuers to notify to CHESS any elections or cancellations of elections direct to the issuer from holders;
- Remove the requirement for issuers to notify to CHESS any cancellation instigated by the issuer, e.g. due to zero balance, plan suspended or plan eligibility rules, other than for HINs with an existing CHESS notified election;
- Replace the requirement for issuers to “accept” an election received through CHESS, with an “acknowledgment” by issuers of a receipt of an electronic notification of an election through CHESS. Issuers will continue to be able to “reject” an election.
- Introduce a requirement for issuers to “acknowledge” the receipt of an electronic notification of a cancellation of an election through CHESS. Issuers will also be able to “reject” a cancellation.
- Bring forward the timing for the issuer to provide such “acknowledgement” or “rejection” message to be by the end of the day an election or cancellation notification message is sent to them (unless an earlier time is specified in the relevant plan rules), instead of within one business day of an election notification message being sent to them (unless an earlier time is specified in the relevant plan rules) - reflecting the change in the nature of the issuer response message.
- Remove the requirement for issuers to be required to incorporate in plan documents an authority from holders for elections or cancellation of elections made directly to the issuer to be notified to their controlling participant².

Appendix 1 as it relates to ASXSOR 5.19A. ASXSOR Procedures 5.19A.2 and 5.19A.5.

² This was to support the ability of issuers to provide that information to controlling participants in connection with the new electronic election process.

-
- Replace the requirement for Issuers to incorporate in plan documents certain core representations and warranties from holders who instruct their controlling participant to use CHES to notify DRP or BSP elections, with a representation and warranty and associated indemnity from issuers that holders can apply to participate and cancel their participation in the relevant DRP and BSP through an election under the new functionality under the terms and conditions of the relevant plan.

ASX will retain the other aspects of the proposed new functionality for DRP and BSP elections, namely:

- Controlling participants may use CHES to provide, or cancel, an investor election. Multiple elections for CHES holdings are allowed.
 - Issuers will be required to notify controlling participants through CHES, for HINs with an existing CHES notified election (only), of a cancellation of that election instigated by the issuer, e.g. due to zero balance, plan suspended or plan eligibility rules.
 - CHES will check that a plan is in operation for the issuer on receipt of an election message (disclosed by the issuer to the listing market) prior to processing such messages e.g. sending them to the issuer. To support this process, issuers will be required to notify ASX of a DRP or BSP notified to the listing market.
 - The issuer will continue to be responsible for determining the validity of elections having regard to the relevant plan rules for the DRP or BSP and determining the sequence and priority for elections or cancellations received (within or outside CHES).
 - A new enquiry functionality will be provided via CHES for controlling participants to request details of existing DRP or BSP elections, with issuers to be required to process such requests. This will allow controlling participants to identify if an election is
-

in place for a holding under an existing DRP or BSP of the issuer (whether established prior to or post the Day 1 implementation of the new DRP/BSP election functionality). As part of that functionality, controlling participants will warrant that they are legally entitled or authorised to request such details and issuers will warrant that election details provided accurately represent those recorded by the issuer and indemnify each other, the holder and ASX Settlement if this is not the case.

- Controlling participants and issuers submitting election or election cancellation notifications via CHES will warrant that they are legally entitled or authorised to do so (e.g. pursuant to an instruction by the holder or the plan terms) and indemnify each other, the holder and ASX Settlement if this is not the case. In the case of the warranty and indemnity from the issuer, this will be limited to a cancellation instigated by the issuer, given that as indicated above issuers will no longer be required to notify CHES of elections or cancellations of elections direct to the issuer from holders.

ASX considers that these changes strike the right balance in appropriately addressing the issues raised through the feedback received through the consultation on the rule amendments, including:

- duplication of data management as to election status recorded in CHES and by the issuer (generally through their registry as service provider); and
- related complexities and costs for issuers,

while also providing for new functionality which addresses the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically elect to participate in DRPs and BSPs for CHES holdings on behalf of their clients on an optional basis. It also addresses additional feedback received through focus group processes, including to allow

participants to understand what DRP standing instructions are held for HINs transferred between participants.

Relevantly, ASX notes that the revised proposal continues to support the rationale for the business requirement of streamlining the DRP and BSP election process, including:

- reducing the amount of paper and manual processes; and
- providing holders with additional certainty that the issuer received their election by generating a real time electronic acknowledgment of receipt³.

As indicated above, issuers will remain responsible for validating elections notified through CHESSE, against the relevant plan terms for the DRP and BSP, in the same way as for elections currently notified to issuers (e.g. paper based or issuer registry portal), which we understand generally occurs upon the relevant record date under the plan terms for the DRP and BSP. The changed reference to “acknowledgment” by issuers of a receipt of an electronic notification of an election through CHESSE, rather than an “acceptance” of an election, better supports such process and timing.

Changes have been made to the tranche 2 rule amendments contained in this response to consultation to reflect the above revisions to the proposed DRP and BSP solution (refer Attachments B and C).

Further details on the revised proposal for DRP and BSP functionality will also be contained in updated Technical Documentation to be made available to reflect the revised solution.

³ Refer to section 2.2.16 of the consultation paper [CHESSE Replacement: New Scope and Implementation Plan](#) released by ASX in April 2018 for further details on this business requirement

2. Usage	<p>Solution design benefits a narrow band of professional asset administrators (very small actively involved target audience – about 50 CHESS holders).</p> <p>Concerned that minimal use of new DRP/BSP functionality by the broader participant community when there is substantial system development required by share registries on behalf of issuers to accommodate new solution and supporting rules.</p> <p>Only small percentage of active changes to DRP standing instructions are made by participants with wholesale holdings who are expected to be interested in using the new DRP/BSP election function in the new system. Only an even smaller percentage of passive changes to DRP standing instructions are made by such participants with wholesale holdings, the overwhelming majority of which relate to increases in holdings relating to a partial DRP.</p>	<p>Refer to changes to the solution design referred to in row [1] above.</p> <p>As indicated above, ASX considers that these changes strike the right balance in:</p> <ul style="list-style-type: none"> • appropriately addressing the issues raised in feedback received through the consultation on the rule amendments, including complexities and costs for issuers; <p>while also</p> <ul style="list-style-type: none"> • providing for new functionality which addresses the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically elect to participate in DRPs and BSPs for CHESS holdings on behalf of their clients on an optional basis. <p>ASX also notes that this business requirement and related DRP/BSP functionality responds to feedback from various industry participants including retail brokers, institutional brokers and custodians.</p>
3. Different plan rules	<p>As an issuer has different choices about their plan rules, a generic participation channel like CHESS replacement is problematic. For example, the treatment of nil holders in plan rules is not consistent across all active plans.</p>	<p>The solution design for DRP and BSP functionality in the new system has been designed to facilitate the electronic notification of elections across issuer DRPs and BSPs and is agnostic as to the specific plan rules that may apply to such DRP and BSP.</p> <p>Issuers will continue to be responsible for validating elections received through CHESS against the relevant plan rules for the DRP or BSP, in the same way as for elections currently notified to issuers (e.g. paper based or issuer registry portal), which we understand generally occurs upon the relevant record date under the plan terms for the DRP and BSP.</p> <p>As indicated in row [1], the changed reference to “acknowledgment” by issuers of a receipt of an electronic notification of an election through CHESS, rather than an “acceptance” of an election, is also considered by ASX to better support such process for issuers to</p>

		determine the validity of elections under their respective plan terms, and the timing for doing so.	
4. Issuer sponsored holders	No benefits are available for issuer sponsored holders from this functionality even though it could be feasible to have an ISO 20022 message relay DRP standing instructions for an issuer sponsored holder known to the participant.	<p>As identified through the Corporate Actions Focus Groups which considered this functionality, the application of the solution design is limited to facilitating electronic notification of elections for CHES holdings. The extension of this functionality to issuer sponsored holdings was not raised through this forum.</p> <p>ASX also notes that the extension of this functionality to issuer sponsored holdings raises additional matters that would need to be worked through with industry. This includes the ability for issuers to rely on such a notification by a participant for a SRN absent the validation by CHES, which is performed for CHES holdings, that the participant submitting an election notification message in respect of a HIN is the controlling participant for that holding.</p>	
5. Sponsorship Agreement	Will the sponsorship agreement include minimum terms of service for managing DRP standing instructions in CHES replacement for sponsored holders?	<p>ASX does not propose to incorporate the processing of DRP/BSP standing instructions into the ASX prescribed standard terms for sponsorship agreements (the minimum terms for which are prescribed in Appendix 3 to the ASXSORs) as this is an optional service offering by participants.</p> <p>However, participants will be expected to consider any necessary terms and conditions for inclusion in their client documentation to support any new service offerings they are planning to make connected with the replacement system (where made available to their clients).</p>	
6. Revision to plan rules	<p>For certain core representations expected to be incorporated into issuers' DRP / BSP terms (under proposed ASXSOR 5.19A.9), will ASX be providing guidance around language standardisation?</p> <hr/> <p>Does ASX have authority to require amendment to an issuer's DRP and BSP plan rules to support ASX requirements with respect to elections, or is this more</p>	<p>ASXSOR 5.19A.9 contemplated the incorporation of terms and conditions into plan terms:</p> <ul style="list-style-type: none"> in order to recognise the ability of holders to apply to participate and cancel their participation in the relevant DRP or BSP where they notify their DRP/BSP election via their controlling participant under the new system, and 	ASXSOR 5.19A.1 and 5.19A.9

appropriately considered in the relevant exchange's listing rules?

Is there potential for conflict between non-ASX ALMO Listing Rules and these proposed Rules?

No consideration given to how such plan amendments should (or could) be undertaken by issuers.

- Will the issuer need to communicate changes to plan terms to all current shareholders with an election? This would be a considerable cost for issuers.
- How will ASX monitor issuers' compliance?
- At what point will elections communicated via ASX become available (e.g. on implementation of new system or only following relevant changes to plan terms or their communication to shareholders)? How could this be coordinated across the market?

Further guidance required to assist issuers review and re-write plan rules. New plan rules may also need to be communicated to investors, at the issuer's cost.

Issuer plan rules currently do not contemplate another external stakeholder and responsibilities to update ASX on CHES holder's participation. Will require issuers to make changes to their plan rules.

- where they do so, to expressly extend certain representations from holders to issuers concerning matters that would apply to elections notified directly by holders to issuers, e.g. by hard copy form. This includes that the investor has read and understood the terms and conditions of the relevant plan and that their election is made in accordance with those terms and conditions.

ASX however recognises that any changes required to give holders the ability to apply to participate and cancel their participation in the relevant DRP or BSP under the new functionality will be dependent on each issuer's plan terms.

ASX also recognises that the provision of representations from holders could be addressed in various ways, depending on the relevant plan documents. This could include by the plan documents extending existing representations from holders to issuers so as to apply irrespective of whether the holder notifies a DRP/BSP election using existing mechanisms or via their controlling participant through the new functionality.

Accordingly, ASX will be removing the proposed requirement for issuers to include in their plan documents certain term and conditions as specified in ASXSOR 5.19A.9. Instead, ASX will be seeking a representation and warranty from issuers that holders can apply to participate and cancel their participation in the relevant DRP or BSP using this new functionality. This will also be supported by an indemnity in favour of holders, controlling participants and ASX.

This leaves it to the issuer and their professional advisers to determine whether changes are required to their DRP or BSP plan terms to comply with that representation and warranty, and if so, as to the form of those changes. It also leaves it to the issuer and their professional advisers to determine whether any additional express representations are to be sought from holders in connection with the new functionality or if there is to be reliance on existing

representations through their application to all mechanisms for providing such notification.

It also leaves it to the issuer and their professional advisers to determine (if a change to the issuer's plan terms is required), as to the relevant requirements for making such amendments.

On a sample of plans viewed by ASX, many DRP plan terms provide for notification of an amendment by a market announcement, while many BSP plan terms either provide for notification to the market or give Issuers discretion as to the method of notification. Some BSP plan terms provide for notification to be given to participating shareholders. ASX also notes that such a market announcement of an amendment to DRP or BSP plan terms is typically also required under the listing rules of an ALMO⁵.

The reframing of the relevant requirements also makes clearer the obligations on issuers in relation to their DRP and BSP plan terms as required to support functionality addressing the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically elect to participate in DRPs and BSPs for CHESS holdings on behalf of their clients on an optional basis.

The requirements for inclusion of such terms and conditions in plan terms apply to existing DRP and BSP plans (i.e. plans in place prior to the introduction of the new functionality) as well as plans notified after the commencement date of the new rules dealing with DRP and BSP elections. For existing plans, such provisions will need to be in place by the date of the introduction of such functionality.

This reflects that as from the date that the new functionality is introduced, the new system will be seeded with each of the existing DRPs and BSPs of which ASX is aware, with elections notified by

⁵ For example refer to ASX Listing Rule 3.10.8 and SSX Listing Rule 23.9.

participants through CHESS being processed in CHESS and sent to issuers as from that time.

The CHESS Replacement: [Revised Implementation Timetable](#) consultation paper released in June 2020 contemplated that the new DRP/BSP election functionality would be released into production after the go-live date for the new system as ‘release version 1.1’. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

Further amendments to ASXSOR 5.19A.1 to more clearly allow for the creation of a corporate action record (renamed as plan record) in relation to an existing DRP/BSP, to facilitate processing of elections for such DRPs and BSPs have also been introduced.

Where there is no DRP or BSP in place for an issuer at the time of commencement of the new functionality, but a new DRP or BSP is subsequently introduced, elections by participants notified through CHESS will only be processed as from the time of the subsequent recording in CHESS of the operation of a DRP or BSP for the issuer (i.e. following the subsequent disclosure of the DRP or BSP by the issuer to the listing market and notification of this to ASX Settlement).

ASX also notes that, by expressly addressing these aspects of the election process in the ASX Settlement Operating Rules, ASX is seeking to facilitate a degree of procedural standardisation in connection with this process across issuers on a transparent basis. This applies irrespective of the listing market for that issuer, reflecting the extension of this service offering across listing markets.

<p>7. Election data</p>	<p>On what legal basis will issuers be compelled to provide all election data to ASX to be stored?</p> <p>In what capacity is ASX acting in collating election data (e.g. is this within scope of limited agency role for issuers in administering the CHESSE subregister)? If so, burden placed on issuers disproportionate to ASX limited role to facilitate handling of corporate actions on CHESSE subregister.</p> <p>What are the privacy and authorisation impacts of passing through elections to controlling participants?</p> <p>Duplication of election data by storing it on ASX's systems creates operational risk and is an excessively complex approach to provide an optional election channel. For example - under ASXSOR 5.19A.3(c) an issuer can only process an update to an existing accepted or pending election for all of a CHESSE holding by first cancelling or rejecting the accepted/pending election (regardless of whether communicated by a channel other than ASX); and under ASXSOR 5.19A.3(d) an issuer can only process an update to an existing accepted election for part of a CHESSE holding by first cancelling the partial acceptance and then providing a new election for the whole holding.</p> <p>Issuer's registry (as agent for issuer) must manage elections received from all channels and all holders (including issuer sponsored) in accordance with the plan rules. ASX records (to extent needed at all) should be secondary to the registry data, e.g. should not involve rules mandated process that ASX records be updated before registry can process any amended elections on its record.</p>	<p>As indicated in row [1] above, the rule amendments for DRP and BSP elections included in the Tranche 2 consultation paper reflected the proposed solution design for the new business requirement for electronic elections of DRPs and BSP, as determined following consultation with stakeholders through Focus Groups and the Technical Committee.</p> <p>However, as also indicated in row [1] above, having regard to stakeholder feedback received through the tranche 2 consultation, ASX is revising its proposed solution design for DRP and BSP elections, including to:</p> <ul style="list-style-type: none"> • Remove the requirement for issuers to notify to CHESSE any elections or cancellations of elections direct to the issuer from holders; • Remove the requirement for issuers to notify to CHESSE any cancellation instigated by the issuer, e.g. due to zero balance, plan suspended or plan eligibility rules, other than for HINs with an existing CHESSE notified election (only). <p>These revisions to the proposed solution design for DRP and BSP elections address the issues raised in the tranche 2 consultation of:</p> <ul style="list-style-type: none"> • duplication of data management as to election status recorded in CHESSE and by the issuer (generally through their registry as service provider); and • related complexities for issuers in the associated processing requirements to achieve alignment of the CHESSE functionality with the election status recorded by issuers. <p>While addressing such issues, the revised proposal will still provide for new functionality delivering on the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically elect to participate in DRPs</p>
--------------------------------	--	--

		<p>and BSPs for CHES holdings on behalf of their clients on an optional basis.</p> <p>Under both the proposed solution design and the revisions referred to in this response to consultation, issuers remain responsible for determining the validity of elections notified through CHES, against the relevant plan terms for the DRP and BSP, in the same way as for elections currently notified to issuers (e.g. paper based or issuer registry portal).</p>
8.	<p>Opt-out for investors</p> <p>Is there a need to provide a function for an investor to opt-out of notifications to the controlling participant? Will issuers be required to provide an opt-out for shareholders and if so, how will this operate?</p>	<p>ASX is revising its proposed solution design for DRP and BSP elections, including to remove the requirement for issuers to notify to CHES any elections or cancellations of elections direct to the issuer from holders (see row [1] above).</p>
9.	<p>Enquiry facility</p> <p>Considered enquiry facility useful, subject to the appropriate warranty and indemnity protections for all stakeholders and confirmation that there are no privacy implications for shareholders. All stakeholders should be informed there has been a change in approach to the enquiry facility.</p> <hr/> <p>Unlike other rule changes, this functionality hasn't had adequate consultation e.g. it was not part of the project scope that was subject to public consultation in 2018 and was not included as a formed proposal in any Focus Group presentation material.</p> <p>When raised in discussions in one of the ASX stakeholder engagement forums, this was in context of facilitating an enquiry by a participant for a specific holder's current standing instruction status as an alternative to a solution design for the new functionality</p>	<p>The enquiry facility represents an industry generated function which arose during stakeholder discussion regarding the solution design for the DRP/BSP election functionality, particularly in the fourth Focus Group on Corporate Actions on 31 October 2019, with support for the enquiry facility across participant and registry representatives.</p> <p>It provides a channel through which participants may seek information directly from the issuer registry (which continues to maintain the determinative record of election status across holdings for each issuer), about the current DRP/BSP election status for a particular holding.</p> <p>Refer to section 1.2 of the tranche 2 consultation paper⁶ for further details on such engagement processes, including a summary of feedback received.</p>

which records all changes for every CHES holder's standing instructions direct to the issuer.

Will participants have to assess if they are legally entitled or authorised to request data from the issuer before making the request? If so, concerned that issuers and share registries need to support this function where participants are not intending to use.

Does not recognise the benefit of the election enquiry process in the event that the issuer/registries also notify participants where prior elections have been cancelled.

As indicated in row [1] above, ASX will be revising the proposed solution for the new DRP/BSP election functionality to:

- Remove the requirement for issuers to notify to CHES any elections or cancellations of elections direct to the issuer from holders;
- Remove the requirement for issuers to notify to CHES any cancellation instigated by the issuer, e.g. due to zero balance, plan suspended or plan eligibility rules, other than for HINs with an existing CHES notified election;
- Replace the requirement for issuers to "accept" an election received through CHES, with an "acknowledgment" by issuers of a receipt of an electronic notification of an election through CHES. Issuers will continue to be able to "reject" a cancellation.

Accordingly, as ASX will no longer maintain a record of election status across all CHES holdings, the enquiry facility will perform a greater role in supporting participants being able to identify the current DRP/BSP election status for a particular CHES holding when:

- determining whether a new election (including an update to an election) is required; and
- notifying that election, whether through CHES or otherwise.

This includes, but is not limited to, where a controlling participant takes on a new client for a new CHES holding or on a change of controlling participant for an existing CHES holding.

ASX notes that under ASXSOR 5.19A.11 and 5.19A.12, controlling participants seeking details of the election status for a CHES holding in relation to a DRP or BSP, provide a warranty and indemnity (in favour of issuers, holders and ASX Settlement) that they were legally entitled or authorised to request such election status details. This is appropriate as the relevant controlling participant is in a position to determine that it has the relevant authorisations and approvals from

its investor client (e.g. to act on behalf of the client in this regard, and obtaining all required consents).

In relation to privacy matters for data provided through CHES, as is the case currently in CHES, data is provided in accordance with the operating rules and is used by ASX to provide clearing and settlement services. The operating rules specify what data needs to be provided and the purpose for which it is to be used. The supporting rule amendments for the DRP/BSP election functionality are set out in the tranche 2 rules consultation paper.

ASX notes that its data governance framework includes arrangements to ensure that ASX complies with applicable privacy laws across its organisation. ASX is preparing an information paper on its approach to data governance including privacy arrangements for personal information, which is planned for publication in November 2020.

In relation to ASXSOR 5.19A.10, what will be the “scheduled time” for the issuer to reply to the enquiry? If ASX purge the enquiry, will the controlling participant be advised?

The scheduled time for an issuer to respond to an election enquiry message is within 12 Business Hours of receiving the message from ASX. Refer to draft ASXSOR 5.19A.10(c) and Appendix 1 Scheduled Times as it relates to ASXSOR 5.19A.10(c).

ASXSOR
5.19A.10(e)

A pending DRP or BSP election enquiry message will be house kept if it remains in a pending state (i.e. the issuer has not responded with the election status details requested) at the end of the business day after the enquiry was initiated: Draft ASXSOR 5.19A.10(d).

To better reflect that both the relevant participant and the Issuer are notified of house kept enquiry messages, this is to be expressly addressed in a further amendment to draft ASXSOR 5.19A.10.

10. **Drafting
feedback**

ASXSOR 5.19A.10(e) contradicts 5.19A.10(c). If a participant has sent out a message to ASX Settlement within the relevant scheduled time, the issuer must

ASX acknowledges this feedback, but also notes that the settlement system must retain the ability for ASX to purge unactioned messages.

respond. Purging the 'unactioned' message is not the correct behaviour.

Issuers will be subject to rule based obligations to respond to an enquiry under the DRP/BSP enquiry functionality within the scheduled time, i.e. within 12 Business Hours of receiving the message from ASX. Refer to draft ASXSOR 5.19A.10(c) and Appendix 1 Scheduled Times as it relates to ASXSOR 5.19A.10(c).

Should an issuer (through its share registry) not respond within the required time, the relevant message will be house kept, and the issuer's non-compliance can be addressed in accordance with existing enforcement processes. Relevantly, Rule 2.2.2 allows ASX to take certain action if it considers that an issuer has contravened the ASXSORs.

ASXSOR 5.19A.1(a), 5.19A.1(c) and 5.21A.1 require an issuer to "immediately notify" ASX Settlement of proposed corporate actions after notice has been provided to the Approved Listing Market Operator (ALMO). This should be amended to provide sufficient time for the issuer's market notice regarding the corporate action to be verified and made public by the ALMO before notification to ASX Settlement is required.

To address this issue, ASX proposes to amend ASXSOR 5.19A.1(a), 5.19A.1(c), 5.21A.1(a) and 5.21A.1(c) to provide for immediate notification to ASX Settlement after public release of the relevant market announcement on the ALMO public announcement platform.

ASXSOR
5.19A.1(a),
5.19A.1(c),
5.21A.1(a) and
5.21A.1(c)

In connection with ASXSOR 5.19A.1, the requirement to immediately notify ASX Settlement indicates it is simultaneous to the notification to the market operator but without the benefit of the announcement platform for that notification to be lodged. For issuers on ASX's official list, is this an additional notification or is immediate notification managed internally by ASX? ASX Listing Rules 3.10.8 does not provide guidance.

The notification contemplated under ASXSOR 5.19A.1 is an additional step to inform ASX Settlement of the announcement of the relevant DRP/BSP. Relevantly, this aspect of the Rules has been drafted so that it may apply to the relevant announcement via ASX's MAP or the announcement platform of another ALMO.

ASX has also proposed clarificatory changes to ASXSORs 5.19A.1(a), 5.19A.1(c), 5.21A.1(a) and 5.21A.1(c) to recognise that an issuer's financial products may be admitted to trading status under the operating rules of the ALMO rather than admitted to its official list under its listing rules, e.g. quoted exchange traded products.

Rules look acceptable, but will not be in a position to confirm that fully operational until testing is completed,

ASX acknowledges this feedback. Please refer to row [1] above for information as to revisions by ASX of the proposed solution for the new DRP/BSP election functionality, including to introduce a

<p>particularly in relation to 5.19A.5 (election cancellations).</p>	<p>requirement for issuers to acknowledge or reject an election cancellation.</p>
<p>There is no scheduled time for an issuer to consider how promptly to report the investor’s plan participation standing instruction change received directly through the channels they support.</p>	<p>Under the draft Tranche 2 rule amendments released for consultation (which supported the proposed solution design for DRP and BSP elections), an Issuer was required to transmit to ASX notification of an election provided directly to the issuer within 1 Business Day of the relevant election being accepted by the Issuer. Please refer to draft ASXSOR 5.19A.3(a) and Appendix 1 Scheduled Time as it relates to ASXSOR 5.19A.3(a).</p> <p>However, as indicated in row [1] above, having regard to the further feedback received through the tranche 2 consultation, ASX will be revising the proposed solution for the new DRP/BSP election functionality to remove the requirement for issuers to notify to CHES any elections or cancellations of elections direct to the issuer from holders.</p> <p>Accordingly, any timing requirements for issuers to provide such notification also fall away.</p>
<p>Reconsider use of the term “election” to describe application or changes to participation in connection with ASXSOR 5.19A.3. Most plan rules require the investor to “apply” to participate in a plan, with the issuer able to accept or reject the application.</p>	<p>While ASX acknowledges references to “application” in some DRP and BSP documentation for the purpose of notifying an intention to participate in the DRP or BSP, ASX also notes that alternative terminology is used for notifying such intention to participate in the DRP or BSP, including “elections” and “instructions”. As an example, the last day for holders to indicate an intention to participate in a DRP or BSP is commonly referred to as the “last election date”.</p> <p>Having regard to such existing alternative terminology, ASX has determined to refer to “elections” when describing the communication of a choice to participate in the DRP or BSP using the new DRP / BSP election functionality.</p> <p>ASX also notes that an election transmitted through CHES remains subject to processing and validation under the relevant plan terms</p>

		for the DRP or BSP.	
		To assist with interpretation, a note has been added to ASXSORs 5.19A.2(a) and the note to ASXSOR 5.19A.2(d) has been amended to clarify what is meant by the term “election”.	
11. Timing for processing instructions	<p>There is no scheduled time imposed on a participant to notify an issuer of a sponsored holder’s DRP standing instruction or cancellation, other than the period between dividend record dates.</p> <p>Participants could stockpile instructions. Issuers need comfort that the participant has to notify the investor of the timely processing of their instruction. Otherwise issuers have less certainty of how current the instructions are or whether they come to the share registry via the new system for processing in the correct order and represent the investor’s current instruction.</p> <p>Noted that issuers are obliged to notify DRP standing instruction changes within one business day after being accepted by the issuer.</p>	<p>ASX does not propose to introduce timing obligations on participants to process instructions based on the timing of receipt of client instructions.</p> <p>The introduction of such requirements for notification of DRP and BSP elections through CHES using the new DRP/BSP functionality would involve imposing additional timing obligations applying to participants using that new functionality which would not apply to participants involved in notifying DRP and BSP elections through other channels (e.g. paper based or issuer registry portal).</p> <p>For such other channels, the relevant timing for notifying elections is by the relevant election deadline (e.g. election date specified in the relevant plan rules). The timing for notifying an election through CHES using the new DRP/BSP functionality seeks to replicate such timing - refer to draft ASXSOR 5.19A.2(a) and Appendix 1 Scheduled Time as it relates to ASXSOR 5.19A.2(a).</p>	
12. Cancellation	<p>In relation to cancellations of elections by participants under ASXSOR 5.19A.5(b), ASX will process the cancellation on its records without provision for the issuer to require the election to remain on foot if required under the plan terms. This could result in a mis-match between ASX and registry records of entitlements, where the cancellation was not valid per plan terms.</p> <hr/> <p>Where there is a cancellation of a pending election request, it is preferable that such cancellation only be</p>	<p>Under the proposed solution design for DRP and BSP elections, certain updates to an election required the prior submission of a cancellation message in respect of an existing election and the provision of a new election notification through CHES – refer ASXSOR 5.19A.2(e) and 5.19A.2(f).</p> <p>ASX notes that a cancellation of an election by a participant under ASXSOR 5.19A.5(b), as reflected in ASX records, is subject to processing and validation of the cancellation by the issuer under the relevant plan rules - refer to draft Note to ASXSOR 5.19A.5(b) included in the tranche 2 rule amendments provided for consultation, as amended.</p>	<p>ASXSOR 2.13 definitions of “Corporate Action Election Status Advice Message” and “Election Cancellation Message”.</p>

	able to occur after the pending election request has first been accepted or rejected by the issuer.	As indicated in row [1] above, ASX will be revising the proposed solution for the new DRP/BSP election functionality.	ASXSOR 5.19A.5
		As a result of these changes, ASX will no longer maintain a record of election status across all CHESS holdings. DRP elections and cancellation of elections will be notified on a pass through basis as received by ASX from the controlling participant. This includes the introduction of a requirement for issuers to “acknowledge” the receipt of an electronic notification of a cancellation of an election through CHESS (other than for a cancellation of a pending election, i.e. an election for which the issuer is yet to provide an acknowledgment). Issuers will also be able to “reject” a cancellation.	ASXSOR Procedure 5.19A.5
		The cancellation of an election by a participant submitted under ASXSOR 5.19A.5(a), (as reflected in ASX records under ASXSOR 5.19A.5(b)), will also continue to be subject to acceptance or rejection of the cancellation by the issuer under the relevant plan rules - refer to draft Note to ASXSOR 5.19A.5(b).	
13. Managing standing instructions	Standing instructions are not accepted or rejected by issuer share registries. If the DRP/BSP plan participant fails a qualifying criteria (e.g. not from a qualifying country, holding less than minimum qualifying securities or the nominated shares exceed the cap established in the plan terms), the plan ignores them, it does not purge or reject the standing instructions.	As indicated in row [1] above, ASX will be revising the proposed solution for the new DRP/BSP election functionality, including to replace the requirement for issuers to “accept” or “reject” an election received through CHESS, with an “acknowledgment” by issuers of a receipt of an electronic notification of an election through CHESS or a “rejection” of that notified election. Issuers will remain responsible for validating elections notified through CHESS, against the relevant plan terms for the DRP and BSP, in the same way as for elections currently notified to issuers (e.g. paper based or issuer registry portal), which we understand generally occurs upon the relevant record date under the plan terms for the DRP and BSP. The changed reference to “acknowledgment” by issuers of a receipt of an electronic notification of an election through CHESS, rather than an “acceptance” of an election, better supports such process.	Note to ASXSOR 5.19A.2(d)

		<p>The election for and issue of securities under a DRP or BSP election for which an acknowledgement of receipt is notified by an issuer also continues to be subject to the processing and validation of the election under the applicable plan rules – refer to updated Note to ASXSOR 5.19A.2(d).</p>
<p>14. Enforcement regime</p>	<p>Recommends introducing an enforcement regime if issuers do not respond to messages under 5.19A.10(e) within the scheduled time to mitigate a poor investor experience and potential claims made against a controlling participant.</p>	<p>Issuers will be subject to rule based obligations to respond to requests for details of the election status for a holding within 12 business hours. Refer to draft ASXSOR 5.19A.10(c) and Appendix 1 Scheduled Times as it relates to ASXSOR 5.19A.10(c).</p> <p>Failure by an issuer to comply with such obligations can be addressed through the normal enforcement processes for non-compliance with the operating rules. Relevantly, Rule 2.2.2 of the ASX Enforcement and Appeals rulebook allows ASX to take certain action if it considers than an issuer has contravened the ASXSORs.</p>
<p>15. Communications to holders</p>	<p>Will the e-Statements solution also provide notice of the new optional elections? If so, this will provide benefits to investors and also issuers (from the reduction of transaction confirmation by the share registry).</p> <p>Will issuers need to report changes to DRP standing instructions to investors, when a change is notified by a participant on behalf of investor through CHES? Currently, issuers can notify such update online (if online update by investor) or by post (if printed form submitted by investor). Providing for such notification in all instances (including where notified through CHES) will reduce system complexities but increase issuer’s cost of offering a DRP.</p>	<p>The proposed introduction of electronic CHES holding statements (replacing existing paper CHES holding statements at the election of the holder) does not extend to the provision of notice of new optional DRP/BSP elections.</p> <p>ASX notes that this was not identified by industry as a business requirement during processes to identify business requirements for the new system or as a requirement for the solution design for the new optional DRP/BSP elections during the stakeholder engagement processes.</p> <p>ASX notes that the provision of such additional information would likely lead to increased costs to issuers in connection with this new functionality. It would also lead to a difference in the information provided through CHES notifications to holders, depending on whether an election was notified through CHES (or not).</p>

ASX will not be requiring that issuers report changes to DRP standing instructions to investors when a DRP or BSP election has been notified by a participant on behalf of an investor through CHES.

Issuers can take their own view as to whether a DRP or BSP election or cancellation submitted on behalf of an investor through CHES should be separately notified to the investor by the issuer, including having regard to current processes of the issuer to notify investors of elections received through existing channels (e.g. paper based or issuer registry portal).

16. **Partial participation** In connection with ASXSOR 5.19A.2, participants may look to simplify the processes for changing partial participation by first cancelling a partial instruction before replacing with a new partial instruction, even though such cancellation step is not technically required. This may lead to unnecessary messages being processed and potentially additional cost to issuers.

ASX acknowledges that participants may seek to design their operational processes in the manner described. ASX notes that the rationale behind allowing an update to a partial election was to minimise messages. However, should the participant decide to cancel partial elections and then send a message with the new election the rules supported this. This would be a decision for the participant.

As indicated in row [1] above, ASX will be revising the proposed solution for the new DRP/BSP election functionality.

As a result of these changes, ASX will no longer maintain a record of election status across all CHES holdings. DRP elections and cancellation of elections will be notified on a pass through basis as received by ASX from the controlling participant.

17. **Non acceptance** Messages should inform the controlling participant and investor of the reasons for non-acceptance of a message.

As indicated in row [1] above, ASX will be revising the proposed solution for the new DRP/BSP election functionality, including to replace the requirement for issuers to “accept” or “reject” an election received through CHES, with an “acknowledgment” by issuers of a receipt of an electronic notification of an election through CHES or a “rejection” of a notified election.

ASX notes that if an issuer rejects an election there is a reason code on the relevant message. The current proposed reason codes are listed below:

- Ineligible to Participate (PARX)
- Percentage Elections Not Supported (PENS)
- Partial Elections Not Supported (PANS)
- Plan Suspended (SUSP)
- Other (OTHR)

announced after the introduction of the new election functionality, across ALMOs. This is an important step to enable ASX Settlement to create the corporate action record for the relevant DRP or BSP announced after the introduction of the new functionality, which is a prerequisite for the processing of elections received through the new system for such DRP or BSP. Relevantly, the new system will validate against each election received that a plan is active (based on the existence of the corporate action record), and reject any elections for issuers without an active plan. Where a plan has been suspended (but not cancelled), the Plan Record will remain in place and accordingly, the new system will continue to process elections received in respect of that plan.

As indicated in row [6] above, the new functionality will also apply to existing DRP and BSP plans (i.e. plans in place prior to the introduction of the new functionality). This reflects that as from the date that the new functionality is introduced, the new system will be seeded with each of the existing DRP and BSP plans of which ASX is aware, with elections by participants notified through CHES being processed in CHES and sent to issuers as from that time. Further amendments to ASXSOR 5.19A.1 to more clearly allow for the creation of a corporate action record (renamed as plan record) in relation to an existing DRP/BSP to facilitate processing of elections for such DRPs and BSPs, have also been introduced.

Note that the above requirement for establishing a corporate action record relates to the announcement of the plan (e.g. the establishment of a DRP) and is not limited to a live dividend announcement (which can occur subsequent to the announcement of the plan). Accordingly, DRP and BSP elections will be able to be received through CHES under the new DRP/BSP functionality following the announcement of the plan, irrespective of whether a dividend has been announced to which the plan applies. In the context of the example provided, this would mean that where an issuer listed on ASX announces a dividend or distribution plan under

ASXLR 3.10.8, ASX Settlement at that time establishes the corporate action record for that plan and begins accepting and processing elections received from participants, irrespective of whether there is a live dividend announcement under ASXLR 3.21 through an Appendix 3A.1.

To avoid potential confusion that a live dividend announcement is required for elections to be received through the new DRP/BSP functionality, ASX will rename the proposed “Corporate Action Record” as “Plan Record” in the draft ASXSORs relating to this functionality.

The new system will not generate a notification confirming the creation of a plan record, nor will the establishment of a plan record form part of the ReferencePoint Master List or Signals E01 or E02.

19. **Participant obligations** Will there be a change in roles for participants maintaining elections, i.e. will additional obligations and requirements apply if assuming this role?

The proposed DRP/BSP functionality will be optional for participants to use, and does not replace other existing election communication channels.

Where a participant elects to use the new DRP/BSP functionality to transmit election messages, it will need to comply with ASXSOR 5.19A. In particular:

- ASXSOR 5.19A.2, which specifies the relevant messages that may be used to communicate elections (including changes to elections within permitted timeframes);
- ASXSOR 5.19A.5, which specifies the procedure for cancelling elections;
- ASXSOR 5.19A.7 and 5.19A.8, which specify certain core representations and warranties that are given by participants that transmit elections via the new system, and related indemnities;

- ASXSOR 5.19A.10, which specifies how a participant may submit an enquiry for details of the status of an election with an issuer; and
- Rule 5.19A.11 and 5.19A.12, which specify certain core representations and warranties (and associated indemnities) that are given by Participants that submit an enquiry request for election status details.

Participants who opt to make this new service for electronic notification of elections (and cancellation of elections) for DRPs and BSPs via CHES available to their clients will need to also consider systems and operational processes, and any relevant client documentation to support the new service.

20. **Optional vs mandatory functionality**

Will participants be able to opt into this functionality at a later date?

The proposed DRP/BSP functionality will be optional for participants to use, with participants able to continue to use current election communication channels if they so wish. Issuers will be obliged to support the new DRP/BSP election and enquiry functionality.

The [CHES Replacement: Revised Implementation Timetable](#) consultation paper released in June 2020 contemplated that the new DRP/BSP election functionality would be released into production after the go-live date for the new system as 'release version 1.1', with the associated technical accreditation and operational readiness processes for this functionality to occur subsequent to the technical accreditation and operational readiness processes for functionality with a Day 1 go-live. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

As issuers are compelled to provide a new plan participation and reporting channel but participants may choose not to use this channel – a share registry

The new DRP/ BSP functionality addresses the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically elect to participate in DRPs and BSPs for CHES holdings on behalf of their clients on an optional

must build this functionality even if no participants are ready to use it or ever plan to use it.

basis. Refer to 2.2.16 of the April 2018 consultation paper *CHES Replacement: New Scope and Implementation Plan*⁸.

The solution design for such functionality, which has been the subject of consultation with industry stakeholders, reflects the optional nature of the use by participants (on behalf of holders) of the new functionality as well as the need for it to be supported across issuers in order to deliver on the business requirement.

Given the industry driven demand for this functionality, ASX expects it be a competitive service offering across participants, which will drive the take-up of the functionality.

Should be removed from Day-1 scope and de-scoped to facilitate an optional pass-through election channel (with confirmations back from the issuer), in conjunction with the enquiry facility for participants to confirm elections submitted by other channels with the issuer's registry.

The [CHES Replacement: Revised Implementation Timetable](#) consultation paper released in June 2020 contemplated that the new DRP/BSP election functionality would be released into production after the go-live date for the new system as 'release version 1.1'. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

As also indicated in row [1] above, ASX will be revising the proposed solution for the new DRP/BSP election functionality.

As a result of these changes, ASX will no longer maintain a record of election status across all CHES holdings, with DRP elections and cancellation of elections to be notified on a pass through basis as received by ASX from the controlling participant, with confirmations as to "acknowledgment" or "rejection" back from the issuer.

⁸ The April 2018 consultation paper is available here: <https://www.asx.com.au/documents/public-consultations/chess-replacement-new-scope-and-implementation-plan.pdf>

		This will also be supported by a DRP/BSP enquiry function to allow participants to check the current election status for a holding with the issuer.
21. Migration	Understands that issuers will not be required to seed the replacement system with any current plan participation settings for CHES holders with live holdings and live DRP standing instructions at the point of migration from CHES to the replacement system. If there was a requirement to do so, it would be a significant undertaking to migrate the complete inventory of current standing instructions as at the migration date and would also require a review of the plan rules and associated documents.	<p>ASX confirms that this understanding is correct. Namely, under the proposed solution for DRP/BSP election functionality, issuers would not be required to migrate current plan participation settings to the new system at the time of migration.</p> <p>As indicated in row [1] above, having regard to the further feedback received through the tranche 2 consultation, ASX will also be revising the proposed solution for the new DRP/BSP election functionality to remove the requirement for issuers to notify to CHES any elections or cancellations of elections direct to the issuer from holders. Accordingly under the revisions to the proposed solution, live DRP standing instructions are no longer be required to be provided by issuers to CHES.</p>
22. Signal E classification	<p>How will securities be identified in Signal E (Reference Point)?</p> <hr/> <p>What data record and values should both participants and the share registry expect to see in ASX's Reference Point Master List and Master List increment (Signals E01 and E02)?</p>	<p>As indicated in row [18] above, the new system will not generate a notification confirming the creation of a plan record, nor will the establishment of a plan record form part of the ReferencePoint Master List or Signals E01 or E02.</p> <p>ReferencePoint will include information announced by issuers and made available for this service by the relevant AMO in relation to a specific corporate action, e.g. for a particular dividend, whether the DRP and/or BSP applies and details about the DRP and/or BSP⁹. The ISO 20022 output will confirm the event type based on whether the DRP applies or not, and include relevant details, e.g. a cash dividend is DVCA event type, a DRP dividend could be DRIP or DVOP event type.</p>

⁹ Refer to questions 2A.11-2A.11c and Parts 4A to 4C in the Appendix 3A.1 form for completion by ASX listed issuers when announcing the relevant corporate action – word version of the online form available here: https://www.asxonline.com/static/companies/files/Appendix_03A.01.doc. This form is also available to issuers as an online form (requiring log-in) through the ASX Online Companies page.

23. **Cost of implementation**

Anticipates each issuer will need to incur significant legal and other costs to perform the revision to their plan terms and communicate those changes to each existing DRP participant (digitally or by post), in addition to other development and compliance costs.

Such costs stand in contrast to likely usage of functionality. Retail investors, who form largest group of DRP participants by number of holders, predominantly participate on a 'set and forget' election basis, and have access to other election channels, including digital methods. Even though institutional investors more actively manage their DRP elections, particularly around dividend time, it appears that the proposed solution derives benefits for a small subset of investors yet with costs and risks imposed disproportionately on issuers.

As noted in row [6] above, ASXSOR 5.19A.9 contemplated the incorporation of certain terms and conditions into plan terms in order to recognise the ability of holders to apply to participate and cancel their participation in the relevant DRP or BSP where they notify their DRP/BSP election via their controlling participant under the new system and to expressly extend certain representations from holders to issuers where they do so, in respect of the types of matters that would otherwise apply to elections notified directly by holders to issuers, e.g. hard copy documents.

However, as also indicated in row [6], ASX will be removing the proposed requirement for issuers to include in their plan documents certain terms and conditions as specified in ASXSOR 5.21A.9.

Instead, ASX will be seeking a representation and warranty from issuers that holders can apply to participate and cancel their participation in the relevant DRP or BSP through the new functionality. This will also be supported by an indemnity in favour of holders, controlling participants and ASX.

This leaves it to the issuer and their professional advisers to determine whether changes are required to their DRP or BSP plan terms to comply with that representation and warranty, and if so, the form of those changes. It also leave it to the issuer and their professional advisers to determine whether any additional express representations are to be sought from holders in connection with the new functionality or if there is to be reliance on existing representations through their application to all mechanisms for providing such notification (including through the new functionality).

It also leaves it to the issuer and their professional advisers to determine, if a change to the issuer's plan terms is required, as to the relevant requirements for making such amendments. On a sample of plans viewed by ASX, many DRP plan terms provide for notification of an amendment by a market announcement, while many BSP plan terms either provide for notification to the market or

give Issuers discretion as to the method of notification. Some BSP plan terms provide for notification to be given to participating shareholders. ASX also notes that such a market announcement of an amendment to DRP or BSP plan terms is typically also required under the listing rules of an ALMO¹⁰.

The reframing of the relevant requirements also makes clearer the obligations on issuers in relation to their DRP and BSP plan terms as required to support functionality addressing the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically elect to participate in DRPs and BSPs for CHES holdings on behalf of their clients on an optional basis. Refer to 2.2.16 of the April 2018 consultation paper CHES Replacement: New Scope and Implementation Plan¹¹.

The requirements for inclusion of such terms and conditions in plan terms apply to existing DRP and BSP plans (i.e. plans in place prior to the introduction of the new functionality) as well as plans notified after the commencement date of the new rules dealing with DRP and BSP elections. For existing plans, such provisions will need to be in place by the date of the introduction of such functionality.

This reflects that as from the date that the new functionality is introduced, the new system will be seeded with each of the existing DRP and BSP plans of which ASX is aware, with elections notified by participants through CHES being processed in CHES and sent to issuers as from that time.

The [CHES Replacement: Revised Implementation Timetable](#) consultation paper released in June 2020 contemplated that the new DRP/BSP election functionality would be released into

¹⁰ For example refer to ASX Listing Rule 3.10.8 and SSX Listing Rule 23.9.

production after the go-live date for the new system as 'release version 1.1'. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

Requested further information to assess the financial merit or efficiency of the new system functions for issuers compared to the status quo.

Ongoing responsibilities of issuers to interpret which changes made in their records should be transmitted to new system will be more expensive and less efficient than current state. Provision of changes to DRP standing instructions by issuers to ASX does not appear beneficial to issuers in function or cost for vast majority of investors when compared to existing share registry managed solutions.

As indicated in row [1] above, the rule amendments for DRP and BSP elections included as part of ASX's Tranche 2 consultation paper reflected the proposed solution design for the new business requirement for electronic elections of DRPs and BSPs, as determined following consultation with stakeholders through Focus Groups and the Technical Committee. Refer to section 1.2 of the tranche 2 consultation paper¹² for further details on such engagement processes, including a summary of feedback received through such process.

This business requirement for electronic elections of DRPs and BSP through CHES was generated by industry through stakeholder engagement processes in 2017 and 2018. Refer to 2.2.16 of the April 2018 consultation paper CHES Replacement: New Scope and Implementation Plan¹³

However, ASX acknowledges the further feedback received through the tranche 2 rule consultation regarding the complexity and costs imposed on issuers to support the proposed solution design for DRP and BSP elections.

Accordingly, ASX has revised the proposed solution for DRP and BSP election functionality, including so as to remove the requirement for

Further information requested	<p>Requested further detail and use cases.</p>	<p>Please refer to section 2.2.16 of the 2018 consultation paper and section 1.2 of the Tranche 2 consultation paper for information relating to the rationale for the business requirement for electronic elections for DRPs and BSPs and the operation and application of the DRP and BSP election functionality.</p>

how such conflicts are managed and appropriate indemnities offered to participants.

Further clarification required in relation to ASXSOR 5.19A.4, detailing how an issuer will process instructions where a conflicting instruction may have been received (i.e. a duplication) or where there has been difficulty determining the time of receipt of an instruction.

CHESS messages should inform a controlling participant and investor of the reasons for non-acceptance of a message.

override existing election process and determination of elections by issuers in accordance with their DRP/BSP terms.

As indicated in row [1] above, having regard to the further feedback received through the tranche 2 rule amendments consultation, ASX will be revising the proposed solution for DRP and BSP election functionality. As a result of these changes, ASX will no longer maintain a record of election status across all CHESS holdings, with DRP and BSP elections to be notified on a pass through basis as received by ASX from the controlling participant.

To the extent that there are any conflicting or duplicated instructions transmitted to or received by issuers (including via different communication channels), issuers are expected to determine the relevant sequence of those messages, and determine their priority in accordance with their usual processes or the plan rules (if applicable), consistent with current practice: see proposed Rule 5.19A.4. ASX does not propose to prescribe how the processing of instructions by issuers is to occur across each of the issuer plans.

ASX however expects that the electronic transmission of elections through CHESS will assist issuers in determining any sequencing considerations given the electronic record available to the issuer of the timing of its receipt of the election through new DRP/BSP functionality in CHESS.

If an issuer rejects an election there is a reason code on the relevant message. The current proposed reason codes are listed below:

- Ineligible to Participate (PARX)
- Percentage Elections Not Supported (PENS)
- Partial Elections Not Supported (PANS)
- Plan Suspended (SUSP)

- Other (OTHR)

If both an instruction and its cancellation are withheld behind DvP Batch because ASX Settlement controls the flow of transactions and requests across the ledger, will ASX itself give effect to the cancellation and not pass the initial (now irrelevant) request and cancellation to the issuer or will they still be sent to the issuer to assess which had priority and to respond on that basis?

ASX will not hold back elections or cancellations received from participants in CHESSE through the new DRP/BSP election functionality while batch settlement is progressing.

Such elections and cancellations of elections will be provided to issuers on a pass through basis as received in CHESSE.

Is the expectation that the issuer must communicate to investors all DRP standing instruction changes that it and its share registry did not manage or did not have control over?

As indicated in row [1] above, issuers will be required to notify controlling participants through CHESSE, for HINs with an existing CHESSE notified election (only), of a cancellation of that election instigated by the issuer, e.g. due to zero balance, plan suspended or plan eligibility rules. ASX understands that this will align with current practices of issuers to notify investors of DRP changes to plan participation that are instigated by the issuer (e.g. in the case of a withdrawal, cancellation, or other change).

As indicated in row [15] above, ASX will not be requiring that issuers report changes to DRP standing instructions to investors when a DRP or BSP election has been notified by a participant on behalf of investor through CHESSE.

Issuers can take their own view as to whether a DRP or BSP election or cancellation submitted on behalf of an investor through CHESSE should be separately notified to the investor by the issuer, including having regard to current processes of the issuer to notify investors of elections received through existing channels (e.g. paper based or issuer registry portal).

User Technical Documentation does not adequately describe the solution, including:

- describing what a change of DRP participation means or how to deliver changes to DRP standing

ASX notes this feedback, and will give further consideration to these aspects when preparing the revised APGs (Operational Procedures and Guidelines) for the new DRP/BSP functionality.

The description in those documents will reflect the revised proposed solution for DRP/BSP election functionality as referred to in row [1]

		The provision of the rule amendments in tranches reflects the iterative solution design process for the new system (including stakeholder engagement as part of that process), with such bank account details aspects being addressed as part of the functionality for the provision of new foreign bank account and foreign currency details being addressed in tranche 3.
		The approach of consulting on the rule amendments in three tranches was to give industry early transparency to the rule amendments supporting the solution design for the new system (notwithstanding the ongoing solution design process for other parts of the new system) and responds to industry feedback. Refer to row [82] below for further information on the rule amendment consultation process.

Entitlement acceptances (see row 2 of the table in Attachment A of our Tranche 2 Consultation Paper)

27. Regulatory relief and compliance	It is unclear how a participant can comply with condition 8(2)(b) of ASIC Instrument 2019/547 where a controlling participant submits a valid electronic acceptance of a securities purchase plan for beneficial holdings within a custodian relationship.	The solution design for the new system functionality for entitlement acceptances does not extend participation through to beneficial holdings for the purpose of the ASIC Instrument. This would require additional written certification and information requirements (including for example the name and address of participating beneficiaries) to be addressed under condition 8(3) of ASIC Instrument 2019/547.
		The provision of the relevant beneficial owner details and certifications under the ASIC Instrument do not form part of the relevant SPP acceptance functionality. Accordingly, such details will need to continue to be provided to issuers outside of the new system as per current processes if it is sought to extend SPP participation through to beneficial holdings.
	We understand that ASX has outstanding discussions with ASIC regarding potential relief in respect of traded	As indicated in the consultation paper on the tranche 2 rule amendments and subsequent updates through the ISO Technical

rights. The lack of regulatory certainty regarding the operation of ss. 723(a) and 1016A(2)(a) of the Corporations Act in respect of the new functionality has made it difficult to adequately comment on the regulatory and technical impact for issuers.

Committee, ASX commenced engagement with ASIC in March 2020 in relation to obligations under sections 723(a) and 1016A(2)(a) of the Corporations Act to only issue financial products 'in response to' / 'pursuant to' an application form (as applicable).

Further information on this issue for renounceable rights offers that are subject to regulated disclosure document requirements is contained in row [30] below.

While the premise for the engagement with ASIC has been the application of the above obligations to entitlement acceptances notified through the new functionality, similar issues apply for issuers under existing acceptance notification (and payment) processes. For example, through an Appendix E to which a cheque is attached.

An update on ASX's engagement is contained in section 3.3 of the cover paper to which this summary is attached.

<p>28. Issuer visibility over pending acceptances</p>	<p>The rules relating to the submission of rights offers and SPP entitlement acceptances do not provide visibility to issuers of pending acceptances.</p> <p>It is not evident how issuers will be informed of acceptances with respect to the entitlement acceptances prior to RTGS payment being made. As participants are not required to initiate the Corporate Actions RTGS Instruction in respect of an acceptance already notified to ASX until the later of closing time on the Applications Close Date or RTGS Instructions Cut-off (4.30pm) on that date, the issuer may not be notified of acceptances until the last possible moment.</p> <p>This functionality is disproportionately more beneficial to participants than issuers, missing an opportunity to</p>	<p>The rule amendments for entitlement acceptances included as part of ASX's Tranche 2 consultation paper reflected the proposed solution design for the new business requirement for electronic acceptance of entitlement offers, as determined following consultation with stakeholders through Focus Groups and the Technical Committee.</p> <p>Relevantly, ASX notes that it received feedback during the Corporate Action Focus Group process that:</p> <ul style="list-style-type: none"> Participants sought that notification of entitlement acceptances occur in two steps: (1) notification of acceptance for a holding (pending payment); (2) payment for acceptances (which can be on an aggregate basis across holdings); 	<p>ASXSOR 5.21A.3 and 5.21A.5</p>

improve market efficiency by increasing visibility for issuers.

Noted ASX has not chosen to develop ISO 20022 messaging to convey this information to issuers via existing channels, and instead noted publicly that it will be available by node access. Requested further information, including associated costs and availability of data to registries.

Pending applications should be made transparent to the issuer as a recorded pending application. This information, as to expected, though not certain, payment of application monies is important to issuers mounting capital raising activities. ASXSOR 5.21A.3(b) does not require ASX to report an application received or prospective application money, with issuers only informed after the payment of application moneys under ASXSOR 5.21A.3(d). As a result, issuers may get no extra benefits of information held in the new system ledger.

Data available to share registries regarding locked nil-paid rights holdings is not specific and unique to the lock applied on prospective take ups, and does not provide insights on unpaid applications for additional securities or applications into a share purchase plan. Additionally, such locked holding data does not extend to applications under shortfall offers or under share

- Issuers were not in favour of receiving notifications of pending acceptances in the absence of corresponding payments, rather, only paid up acceptances were to be provided to minimise the volume of messages being received.

This feedback was taken into account when designing this functionality in the new system.

Refer to section 1.3 of the tranche 2 consultation paper¹⁴ for further details on such solution design engagement processes. As flagged in that section, ASX also subsequently made available on the ASX CHES Replacement website a summary of the feedback received from stakeholders from the relevant Focus Groups and ISO 20022 Technical Committee meetings on the solution design for electronic entitlement acceptance functionality¹⁵, together with Technical Documentation which communicates the details of the solution design¹⁶.

Under the proposed solution as reflected in the tranche 2 rule amendments, participants have until the earlier of closing time on the applications close date for the relevant rights offer or SPP or the RTGS Instructions Cut-off (4.25pm) on that date to initiate payment.

However, having regard to the further feedback received through the tranche 2 consultation, ASX has revised the proposed solution for entitlement acceptance functionality so as to provide notification to issuers of pending acceptances (i.e. prior to payment) and of the cancellation of such pending acceptances by the controlling participant.

risk for issuers with respect to informed shareholder consent. Reliance under ASXSOR 5.21A.9(b) and (c) on a message from the controlling participant to affirm investor warranties under those rules may also be inconsistent with investor protection principles. Has ASX liaised with ASIC on this point, and if so can ASX please advise what ASIC's position is on the point of investor understanding and consent?

Concerned that participants do not have visibility to determine whether rights offers or securities purchase plans are subject to regulated disclosure documents given the entitlement offers are distributed by the issuer. Investors may also be unclear on the requirement to provide a unique reference number when accepting an entitlement offer (e.g. for rights offer subject to regulated disclosure document requirements).

Suggest functionality is built within the system to validate the conditional requirement for participants to include a unique reference number during acceptance of an entitlement.

Application and acceptance forms have two unique reference numbers – the entitlement number and BPAY customer reference number. Suggest changing term “unique reference number” to “entitlement number”, which could utilise the “entitlement number” already disclosed on forms. This would be more easily called out

This is done by demonstrating that the relevant holder received the application form which contained such details (in accordance with ASIC Regulatory Guide 107).

Reliance alone on warranties from participants regarding investor receipt of the relevant disclosure documents and product disclosure statements does not conform to such regulatory expectations. Similarly, reliance on the HIN does not evidence compliance with such requirements. It is not unique to the application form and therefore does not evidence receipt of the application form in line with the regulatory expectations.

As indicated in the section 1.3 of the tranche 2 consultation paper, in the instance of rights that have been renounced and traded (i.e. where the acquirer was not an existing holder of the rights (through holding the parent financial products) on the record date), offer documents including entitlement acceptance forms (which contain the unique reference number) are not provided to the acquirer of those rights. Accordingly, the unique investor number is not available to that holder when accepting on such acquired rights.

This represents an existing limitation that applies in the context of existing paper based acceptance notification (and payment) processes by the holder or their controlling participant (generally through a form referred to as an Appendix E to which a cheque is attached).

As foreshadowed in footnote 4 to the tranche 2 consultation paper, Appendix 3B to the ASX Listing Rules and associated online forms¹⁷ and messaging¹⁸ have been updated as part of the Corporate

¹⁷ Refer to question 3F.8 of the online form (available to issuers (requiring log-in) through the ASX Online Companies page) and question 3G.8 of the word version of the online form (available on the ASX Online Companies page).

in the issuer's disclosure document. The BPAY customer reference number should not be used.

Offers which trigger the requirements to include the unique identifier (i.e. for offers under a disclosure document or product disclosure statement) should be specifically identifiable in offer announcements and in ReferencePoint notifications as updated through the Corporate Actions STP Phase 2 Project.

The incorporation of such details should also apply to share purchase plans, the vast majority of which are made under a light form of offer document.

Consideration should be given to a more pragmatic approach to bought and transferred rights, given that issuer's disclosure document or product disclosure statement will be announced before any on-market purchases. Participants should (as part of their trade management obligations and client warranties) confirm that the investor has received the relevant disclosure documents and product disclosure statements when taking a purchase order or instruction to transfer or convert the rights.

Additionally, purchasers of nil paid rights should be required to formally acknowledge that they have read and understood the terms of the offer (similar to additional trading terms introduced for partly paid securities).

The unique reference number should not be used and be optional due to it not always being available to the controlling participant because there is no guarantee of delivery when issuers send out this information via mail

Actions STP Phase 2 Project to support the notification by issuers as to whether the rights offer is being made under such regulated disclosure documents. This will assist participant visibility of the circumstances when the unique reference number is required (including through ReferencePoint as an optional subscription service).

ASX Settlement would encourage other ALMOs to incorporate similar requirements for their issuers.

In the case of share purchase plans, the obligations to include a unique identifier will be as prescribed in the relevant share purchase plan terms as contemplated under condition 8(2) of ASIC Instrument 2019/547. Importantly, the trigger for the requirement to include a unique identifier is not that the offer is under a disclosure document or product disclosure statement, which the Listing Rule and Corporate Action STP Phase 2 requirements address.

ASX does not propose to incorporate validation within the new system of when a unique reference number is required in accepting into a rights offer or SPP. Any such validation would need to have consideration to the individual circumstances of the holder of the right being accepted (i.e. whether the holder was an existing holder of the right on the record date (requiring the inclusion of such unique investor number)) or of the terms of the SPP.

Representations and warranties under ASXSOR 5.21A.9

ASXSOR 5.21A.9 contemplated the incorporation of terms and conditions into plan terms:

- in order to recognise the ability of holders to notify an acceptance under a rights offer or SPP where they notify their acceptance via their controlling participant under the new system, and
- where they do so, to expressly extend certain representations from holders to issuers concerning matters that would apply to

and the timing of when renounceable rights are acquired.

This could be overcome if unique reference numbers were available electronically (e.g. in the new system) or if the HIN could be used instead.

acceptances notified directly by holders to issuers, e.g. by hard copy form. This includes that the investor has read and understood the terms and conditions of the relevant offer and that their acceptance is made in accordance with those terms and conditions.

ASX however recognises that any changes required to give holders the ability to accept into the relevant rights offer or SPP under the new functionality will be dependent on each issuer's offer terms.

ASX also recognises that the provision of representations from holders could be addressed in various ways, depending on the relevant offer documents. This could include by the offer documents extending existing representations from holders to issuers so as to apply irrespective of whether the holder notifies a rights offer/SPP acceptance using existing mechanisms or via their controlling participant through the new functionality.

Accordingly, ASX will be replacing the proposed requirement for issuers to include in their offer documents certain term and conditions as specified in ASXSOR 5.21A.9, with:

- a representation and warranty from issuers that holders can accept into the relevant rights offer or SPP using the new functionality. This will also be supported by an indemnity in favour of holders, controlling participants and ASX.
- a representation and warranty from issuers in relation to a rights offer subject to regulated disclosure document requirements as to the application under the offer terms and conditions of a more limited form of holder representation to an acceptance under the new functionality. The form of representation contemplated from holders supports relief for issuers in respect of acceptances by acquirers or recipients of transferred rights under a renounceable rights offer as referred to in row [30] below.

This leaves it to the issuer and their professional advisers to determine whether changes are required to their rights offer or SPP terms to comply with those representations and warranties, and if so, as to the form of those changes.

It also leave it to the issuer and their professional advisers to determine whether any additional express representations are to be sought from holders in connection with the new functionality or if there is to be reliance on existing representations through their application to all mechanisms for providing such notification (including through the new functionality). For example, in relation to the types of holder representations that had been provided for by ASXSOR 5.21A.9.

ASX notes that such representations are also supported by warranties and indemnities from controlling participants (including in favour of issuers) that they were authorised by the holder to submit such acceptances through the system (refer ASXSORs 5.21A.7 and 5.21A.8).

The reframing of the relevant requirements also makes clearer the obligations on issuers in relation to their offer terms as required to support functionality addressing the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically accept into rights offers and SPPs for CHESS holdings on behalf of their clients on an optional basis.

ASX has engaged with ASIC in the usual course on the draft rule amendments for the replacement of CHESS (including the tranche 2 rule amendments incorporating the entitlement acceptance functionality and the associated holder representations and warranties under ASXSOR 5.21A.9) and will continue to do so as part of the regulatory clearance process across all the rule amendments.

Pre-trade aspects

ASX is not otherwise proposing to introduce additional pre-trade obligations on participants and investors in connection with the purchase, transfer or conversion of the rights as part of the replacement of CHES (which does not affect such pre-trade aspects).

30. **Renounceable rights issues – purchased and transferred rights**

The rules don't address how purchased and transferred rights from renounceable rights issues might be taken up by the buyer or transferee. The take up of bought and transferred rights have no unique reference number on a form produced by the issuer.

These rights are far more likely to be managed by the participant who settled the purchase than any retail investor on their own account, so clear expectations should be set about the capacity of the system to manage these.

As noted in section 1.3 of the consultation paper for the tranche 2 rule amendments, in the case of rights offers subject to regulated disclosure document requirements, there is existing uncertainty regarding compliance by issuers with obligations under section 723(a) and 1016A(2)(a) of the Corporations Act requirements that the issuer only issue financial products 'in response to' / 'pursuant to' an application form (included in, or accompanied by, a prospectus, PDS or other regulated disclosure document (as applicable)) for rights that have been renounced and traded.

This arises because for such transferred rights (i.e. where the acquirer was not an existing holder of the rights (through holding the parent financial products) on the record date), offer documents including entitlement acceptance forms (which contain a unique reference number) are not provided to the acquirer of those rights. Accordingly, the unique investor number is not available to that holder when accepting such acquired rights.

This represents an existing limitation that applies in the context of existing paper based acceptance notification (and payment) processes by the holder or their controlling participant (generally through a form referred to as an Appendix E to which a cheque is attached).

As also foreshadowed in section 1.3 of the consultation paper for the tranche 2 rule amendments, ASX has been engaging with ASIC regarding whether there is a need for relief from section 723(a) and 1016A(2)(a) of the Corporations Act or relevant regulatory guidance for issuers of rights under a regulated disclosure document that

have been transferred to a third party. An update on such engagement is contained in section 3.3 of the cover paper to which this summary table is attached.

31. **Scheduled times**

Suggest the cut-off time for a participant to transmit a valid corporate action RTGS message is hard coded to 4pm to provide participants sufficient time to facilitate and receive approvals from the payments provider. The current proposed timing for RTGS messages to be received in the new system from participants is by 4.25pm with the RTGS cut-off for payment provider authorisation for new queue items being 4.30pm.

ASX does not propose to bring forward the timing for participants to transmit a valid corporate action RTGS message.

Such a change would reduce the ability for participants to process acceptances through CHES, including in particular on the offer close date for instructions received from holders approaching or just after the relevant cut-off time, and therefore increase the need for participants to continue to use other processing channels for processing of such acceptances. This would reduce the effectiveness of the new entitlement acceptance functionality in delivering on the business requirement generated through industry engagement in 2017 and 2018.

ASX also notes that the 4:30pm cut-off for authorisation referred to represents an initial authorisation for the payments to progress to the settling phase, with additional credit management outside of CHES (using the AIF or proprietary systems) also contemplated to occur and the RTGS instruction to be settled by 5:15pm. This allows further time for payment providers to undertake such authorisation processes beyond the minimum 5 minutes in the example provided.

Each payment provider can have different processes and timeframes to approve RTGS payments, and develop their own system cut-offs consistent with relevant system capabilities. ASX expects that any such cut-offs applying to RTGS processing (including in relation to payments for entitlement acceptances) should be covered in the SLA between the payment provider and their clients.

It will be incumbent on participants that seek to make entitlement acceptances using the functionality in the new system to manage their receipt and processing of such entitlement acceptances and associated payments by a time that allows them to be processed by

their payment provider in the new system and in RITS by the relevant cut-offs.

When the Application Close Date has a closing time earlier than RTGS Instruction Cut-Off, an operational period of ~75 minutes should apply before this cut-off to allow the payments provider sufficient time to facilitate and receive approvals using the payment service.

In relation to the Closing Time on the Application Close Date, any variation to cut-off times based on the financial product would introduce operational risk. Recommend a standard cut-off time for all application close dates should be introduced, being the same as the RTGS Instruction cut-off time.

Requested further detail regarding how the non-standard cut-off time will be communicated to the market and enforced in the system, as it is not clear from the technical documentation.

ASX does not propose to introduce a standard cut-off time for application close dates across all corporate actions processed through the RTGS service. This is a matter for each issuer and its advisors under the relevant rights offer or SPP.

All Participants will need to ensure that they accept corporate actions and make the corresponding payments by the closing time determined by each issuer under their offer documents.

To promote certainty, participants should consider applying (and making payments) early to facilitate the required processing under the RTGS service before the issuer's closing time on the final acceptance date.

Where an offer has a later closing time, participants may elect to use other methods outside the RTGS service to accept the offer in accordance with the terms of the Issuer's offer document.

As indicated above in this row [31], participants seeking to use the new functionality also need to manage their receipt and processing of entitlement acceptances and associated payments by a time that allows them to be processed by their payment provider in the new system and in RITS by the relevant cut-offs, having regard to their RTGS processing arrangements with their payment providers.

32. **Removal of corporate action record**

the service or inform their clients of whether they will support the new functionality.

Participants should share responsibility for actively informing their sponsored clients of their support for, or capabilities to manage the application and payment of application monies for rights issues or share purchase plans. Absent this, it could frustrate an investor planning on using a service referenced in the issuer's disclosure documentation, with such dissatisfaction being expressed to issuers.

Issuers will not be aware of the participants that will offer this service to their clients. If few participants sign up their clients to the required documentation to support the new service, including the required legal authority for the participant to make applications and payments on behalf of holders, the new service will not be broadly taken up.

based or BPAY) that take place directly with the issuer by holders or controlling participants (on behalf of holders).

Accordingly, ASX does not propose to mandate the use of this functionality for participants. Given the industry driven demand for this functionality, ASX expects it be a competitive service offering across participants which will drive the take-up of the functionality.

34. Refunds

The "may" in ASXSOR 5.21B.1(c) should be amended to a "must", requiring performance via the same channel as a refund.

If an entitlement acceptance notified through the new system is to be rejected then the RTGS participants for the issuer should be required to transmit a corporate action rejection message notifying of that rejection (and accordingly the reference to "may" in ASXSOR 5.21B.1(a) should be amended to a "must"). This will support greater transparency of the process within the system, providing participants with clarity when designing and executing client money movement processes.

The existing refund process provided by share registries is expected to continue to provide the most expedient

The ability for issuers to provide refunds through the new system (as supported in ASXSOR 5.21B) responds to industry requests to provide this functionality (on an optional basis by issuers), where considered appropriate for AML purposes to return monies through the same mechanism from which they were received.

Accordingly ASX does not propose to mandate that issuers use the refund functionality referred to in ASXSOR 5.21B in respect of entitlement acceptance payments received in the new system.

Participants will be able to determine if an acceptance has been fulfilled or rejected, in whole or in part, based on whether the relevant number of financial products subscribed for have been added to the holding.

method for returning moneys to holders, notwithstanding application moneys being received through the new system. The proposed refund process has no merit for issuers or retail investors including due to costs involved and complexity.

35. **Drafting comments**

Proposed ASXSOR 5.21B requires revision to account for the possibility of scale back offerings, in addition to acceptance rejections.

ASX notes that proposed ASXSOR 5.21B.1(a) currently addresses both:

- acceptance rejections as a result of the acceptance being invalid or the rights offers and SPPs being cancelled (refer ASXSOR 5.21B(a)(i)); and
- a scaleback in relation to an oversubscription offer and SPP (refer ASXSOR 5.21B(a)(ii)).

The generic term ‘acceptance’ is not suitable for ASXSOR 5.21A for all the applications of the new functionality. Acceptance indicates success is only in the hands of the investor to whom the offer has been made and for which the participant has remitted application money. Whereas:

- Many rights issues involve an option for eligible holders to make an application for any shortfall that is not taken up by other eligible holders (which is subject to scaleback and refund of application moneys);
- Share purchase plans present a general offer to apply for new shares limited by the terms of the plan (which is also subject to scaleback, including for aggregate limits on total number of new shares issued, aggregate limits on an individual’s investment set by ASIC’s class order and (where

References to “acceptance” in respect of the new entitlement acceptance functionality are used as a general term to apply across the various rights issues and SPPs to which the functionality applies. As referred to, different nomenclature is used across different offers to which the new functionality relates.

An attempt to reflect such different nomenclature in the rules on account of each offer would create unnecessary complexity in the drafting given the nature of the new functionality which is a mechanism to provide the relevant notification of the choice to participate under the offer and associated payment to the issuer using the new entitlement acceptance functionality.

ASX also notes that an acceptance transmitted through CHES remains subject to processing and validation under the relevant offer terms for the rights offer or SPP.

To assist with interpretation, notes have been added to ASXSOR’s 5.21A.3(a) and 5.21A.3(b) to clarify what is meant by the term “acceptance”.

Notes to ASXSORs 5.21A.3(a) and 5.21A.3(b)

applicable) extension on a limited basis to beneficial holders using a nominee).

Acceptance is the correct term to use for rights accrued on an eligible holding (entitlement) and the rights acquired through a purchase or transfer. Acceptance is not however the correct term to use for the optional application permitted, but subject to scale back, in a rights issue or the application made into a share purchase plan.

The rules should differentiate between:

- acceptance of offer to take up the pro-rata entitlement;
- take up of rights purchased on market, or otherwise transferred;
- application to participate in an allocation of new securities arising from others' lapsed rights by way of oversubscription; and
- application for new securities under a share purchase plan offer.

It is also noted that in the scenario of an offer involving:

- a rights issue for any shortfall not taken up by other eligible holders (described as an Oversubscription Offer in the ASXSORs); or
- a share purchase plan,

they are expressly subject to rejection and scaleback, with a refund of application moneys, under ASXSOR 5.21B.

It is unclear from the rules how an issuer notifies ASX Settlement of a rights issue or share purchase plan or of changes to them.

Is 'Immediately' defined? After what period of time is it considered a breach? For issuers admitted to ASX's Official List, does the formal use of ASX's announcement platform and its smart forms fulfil the responsibility to inform ASX Settlement?

As indicated in row [10] above, ASX proposes to amend ASXSOR 5.19A.1(a), 5.19A.1(c), 5.21A.1(a) and 5.21A.1(c) to provide for immediate notification to ASX Settlement after public release of the relevant market announcement on the ALMO public announcement platform. The notification contemplated under ASXSOR 5.21A.1 is an additional step to inform ASX Settlement of the announcement of the relevant rights offer or securities purchase plan. It does not require the provision of any additional detail beyond that provided to the ALMO and released on the ALMO's announcement platform.

Relevantly, the notification under ASXSOR 5.21A.1(a) applies whether the relevant announcement is on ASX's MAP or the announcement platform of another ALMO.

This notification supports ASX Settlement awareness of the announcement for the purpose of facilitating processing of entitlement acceptances under the new functionality, across ALMOs.

Under the solution design for the functionality, ASX Settlement's awareness of the announcement of the offer is an important step to it creating the corporate action record for the relevant rights offer or SPP, which is a prerequisite for the processing of acceptances received through the new system for such rights offer or SPP. Relevantly, the new system will validate against each acceptance received that an offer is active (based on the existence of the corporate action record), and reject any acceptances for issuers for which there is not an active plan.

With respect to the intended meaning of "immediately", ASX refers to section 4.5 of Guidance Note 08 to the ASX Listing Rules. In particular:

"Judicial authority in analogous situations confirms that the word "immediately" should not be read as meaning "instantaneously", but rather as meaning "promptly and without delay":

ASXSOR
5.21A.1(a) and
5.21A.1(c)

“The words forthwith and immediately have the same meaning. They are stronger than the expression within a reasonable time, and imply prompt, vigorous action, without any delay, and whether there has been such action is a question of fact, having regard to the circumstances of the particular case.”

Doing something “promptly and without delay” means doing it as quickly as it can be done in the circumstances (acting promptly) and not deferring, postponing or putting it off to a later time (acting without delay).”

For the order taking process for rights purchases, we propose that whenever any party buying nil-paid rights settles, transfers or converts nil-paid rights into the CHESSE subregister they be required to formally acknowledge they have read and understand the terms of the offer.

The new functionality seeks to provide an additional mechanism for notifying acceptances into entitlement offers.

ASX does not propose to introduce requirements for holding such rights (whether on the CHESSE subregister or the issuer sponsored subregister) as part of the replacement of CHESSE (which does not affect such holding aspects).

Introducing such a requirement goes beyond the scope of the business requirement to facilitate such electronic acceptances for entitlement offers which the new functionality addresses.

36. **Warranties and indemnities**

Why does the warranty by a controlling participant providing entitlement acceptance notifications to an issuer for clients under ASXSOR 5.21A.7 and 5.21A.8, require less from the participant than the proposed warranties for a participant passing DRP standing instructions to an issuer for clients?

The warranties provided for in ASXSOR 5.21A.7 and 5.21A.8 address the need for controlling participants to have the requisite client authorisation when submitting an acceptance or cancellation through the new system for rights offers and share purchase plans. These are equivalent to the warranties and indemnities under ASXSOR 5.19A.7 and 5.19A.8 in relation to DRP/BSP elections notified through the new system by controlling participants.

ASX notes that the draft ASXSOR 5.19A.7 and 5.19A.8 included in the tranche 2 rule amendments also provided for warranties from issuers when notifying an acceptance or cancellation through the new system for DRP/BSP elections. As indicated in row [1] above, under revisions to the proposed solution for DRP and BSP elections, ASX will be removing the requirement for issuers to notify to CHESSE any elections or cancellations of elections direct to the issuer (and the corresponding warranty and indemnity from the issuer under ASXSOR 5.21A.7 and 5.21A.8).

There is no equivalent warranty and indemnity provided from issuers under ASXSOR 5.21A.7 and 5.21A.8 for entitlement acceptances as there is no equivalent notification of such acceptance or cancellation by issuers in relation to rights offers and share purchase plans.

<p>37. Sponsorship Agreements</p>	<p>ASX should clarify for investors and participants if ASX's expectations are that sponsorship agreements for CHESSE holders should be updated for any new service or feature in the replacement system that is not offered in CHESSE today.</p>	<p>ASX does not propose to incorporate the processing of entitlement acceptances into the ASX prescribed terms for sponsorship agreements (the minimum terms for which are prescribed in Appendix 3 to the ASXSORS) as this is an optional service offering by participants.</p> <p>However, participants will be expected to consider any necessary terms and conditions for inclusion in their client documentation to support any new service offerings they are planning to make connected with the replacement system (where made available to their clients).</p>
<p>38. Handling of duplicate acceptances and payments</p>	<p>ASX should address how duplicate acceptances and payments for CHESSE holdings, where acceptances may in future be made via CHESSE as well as directly to the registry, will be handled.</p> <p>As the replacement system will lock the CHESSE holding, will the acceptance channelled through CHESSE always have priority over acceptances delivered directly to the registry? Issuers (and their registries) will only become aware of any duplicated acceptances (e.g. due to change of holder payment preference) on completion of the offering when the final CHESSE facilitated payments are received and the registry is able to fully reconcile. Governing principles to address this risk should be established, following appropriate consultation with all market stakeholders who may be exposed to this risk.</p>	<p>It will continue to be a matter for the issuer to determine duplicate acceptances in accordance with their own processes and procedures: refer to proposed ASXSOR 5.21A.4. The locking of a CHESSE holding does not prevent the issuer/registry from processing applications that it has received.</p> <p>ASX notes that duplicate applications can occur today (e.g. for paper based and BPAY acceptances), and issuers have the requisite experience and operational expertise to deal with these issues. For example, an investor's position is determined at applications close date, and where paid up applications are received for more than an entitlement allows, it would be expected the surplus monies would be dealt with in accordance with existing procedures (e.g. by way of refund).</p> <p>ASX also notes that as at present, where an acceptance and accompanying payment is received by an issuer, they are required to remove such accepted rights from that holding within 1 business day of acceptance: see ASXSOR 5.21.2. This process will continue to apply to acceptances received by issuers.</p> <p>Where a holding lock has previously been applied by ASX to the relevant entitlements holding due to the receipt of an acceptance (pending payment) message for a rights offer in accordance with ASXSOR 5.21A.3(b)(ii), the issuer will need to engage with ASX in</p>

		relation to facilitating the removal of the lock. Refer to rows [75] and [76] below for further information on such manual removal of a lock.
39. Differential handling imposed for Rights and SPP	Issuers will not be required to establish CHES subregisters for SPPs (even though they will for rights offers). We understand that this is because permission from the Association of National Numbering Agencies to allocate an ISIN to SPP entitlements given their non-tradeable status has not been sought. As a result, issuers and their registries, and other users, will be required to continue with dual processing structures for handling administration of the securities balances, creating duplication of operational and systems requirements for forms of offers that are substantially similar in process.	<p>The allocation of an ISIN for non-renounceable rights issues was raised as a business requirements in industry engagement in 2017 and 2018 on the replacement of CHES. Refer to Appendix 1 Part C4 of the April 2018 consultation paper CHES Replacement: New Scope and Implementation Plan²¹ for further information.</p> <p>This was progressed by ASX with the Association of National Numbering Agencies (ANNA) as part of the Corporate Actions STP Phase 2 Project, with ANNA confirming in September 2019 that an ISIN will be attributable to non-renounceable rights issues.</p> <p>ASX notes that the allocation of an ISINs for SPPs was not a business requirement generated by industry through those processes.</p> <p>ASX also notes that while an ISIN was contemplated in relation to entitlements under rights offers in guidelines issued by ANNA, there does not appear to be an equivalent contemplation of ISINs in relation to SPPs in guidelines issued by ANNA.</p>
40. Cost of implementation	<p>The risk of appreciable cost increases for issuers resulting from the requirement to establish CHES rights subregisters for all rights should be addressed, including non-renounceable rights which are not currently held on the CHES subregister.</p> <p>There should also be clarification of the cost impact of the tranche 1 rule amendment to ASXSOR 8.14.2 (requiring the closure of all CHES subregisters) in respect of such additional sub-register.</p>	<p>ASX notes that the establishment of a CHES subregister for non-renounceable rights, to assist in facilitating the entitlement acceptance functionality, will also assist in streamlining processing of acceptances across rights offers (renounceable and non-renounceable).</p> <p>As indicated in ASX's response to consultation on tranche 1, ASX will consider whether to suppress the production of CHES holding statements where the only transaction in the relevant month was the reduction of a holding to zero in the circumstances referred to in</p>

41. **Fees**

Unable to assess financial merit or efficiency of new system functions (compared to status quo) without information on transaction costs for new and added responsibilities for issuers under the rules.

It is important for issuers to understand the likely fee structure associated with the new application process and attendant RTGS payments to understand whether there is a cost benefit to facilitating entitlement acceptances and payments through the new system.

Pricing in relation to the new entitlement acceptance functionality will be made available at least 12 months prior to go-live of the relevant functionality.

As indicated in the [CHESSE Replacement: Revised Implementation Timetable](#) consultation paper released in June 2020, the new entitlement acceptance functionality was contemplated to be released into production after the go-live date for the new system as 'release version 1.1'. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

ASX also notes that the new entitlement acceptance functionality addresses the business requirement generated by industry in 2017 and 2018 of providing settlement participants the ability to electronically accept for entitlements for CHESSE holdings, and make payments in respect of such acceptances, on behalf of their clients on an optional basis. Refer to 2.2.17 and 2.2.18 of the April 2018 consultation paper CHESSE Replacement: New Scope and Implementation Plan²³.

<p>42. Operation of acceptances for custodians</p>	<p>Will an acceptance trigger a holding lock on a partial basis? For example, where a custodian is operating an omnibus account and client acceptances do not exist for the entire holding, how will this occur?</p>	<p>An entitlement acceptance for part of a holding will trigger a lock for the number of units in the acceptance. This will increment with each acceptance received.</p>
<p>43. Further information requested</p>	<p>Requested further detail and use cases to determine downstream system impact.</p> <hr/> <p>Requested further detail on the operation of ASXSOR 5.21A.1(a) to assess whether this rule works to allow an issuer to make an announcement of a rights issue or share purchase plan having regard to:</p> <ul style="list-style-type: none"> • the requirement to have an RTGS participant in place; and • satisfy ASX Settlement of all the qualifying criteria for application as an RTGS participant set out in ASXSOR 4.4B.1; and <p>the related establishment of a payment facility capable only by way of paperwork signed by each party, including the bank providing the required RTGS payment provider services of receiving RTGS payments of application monies for corporate actions events.</p> <p>This raises particular uncertainty for corporate action events that straddle the go-live date for the new system. How will announcements of entitlement offers that predate the go-live date for the new system be treated?</p>	<p>Please refer to section 2.2.17 and 2.2.18 of the 2018 consultation paper and section 1.3 of the Tranche 2 consultation paper for information relating to the rationale for the business requirement for electronic acceptances and payments for rights offers and SPPs and the operation and application of this proposed entitlement acceptance functionality which addresses the business requirement.</p> <hr/> <p>When an issuer appoints an RTGS participant to facilitate payments relating to entitlement acceptances on its behalf through the RTGS Service, this appointment is a once-off event for all entitlement offers of the issuer.</p> <p>The RTGS participant must establish a payment facility referable to the issuer with ASX before monies can be received or paid with respect to an entitlements offer of the issuer. Once established the payment facility will apply to all entitlement offers of the issuer received or paid through the RTGS participant. Only one bank account can be linked to a payment facility at any time. However, it is feasible for the bank account linked to the payment facility to be updated for different corporate events if this is required by the issuer and those events do not occur concurrently.</p> <p>The requirements for notification of rights offers and SPPs under ASXSOR 5.21A apply only to offers notified to an ALMO after the commencement date of the new rules for this functionality. They do not apply to existing offers at the time of go-live of the new functionality.</p>

It is unclear from the User Technical Documentation how an issuer can give notice to ASX Settlement of the RTGS participant who will act as the appointed RTGS participant and Corporate Action Payments Participant to receive application monies for the issuer. This includes where the issuer appoints an entity in the share registry corporate group as the relevant RTGS Participant?

It is the RTGS participant appointed by the issuer (rather than the issuer itself) that will notify ASX Settlement of the appointment. At the time of establishing a payment facility for corporate actions with ASX, the RTGS participant will be required to identify the issuer referable to the payment facility. Once the payment facility is established there will be a three-way relationship between the RTGS participant, issuer and payment facility in the system. This information is expected to be provided on the 'Request to set up Payment Facility form'.

None of the Payment Facility creation, modification or cancellation forms have been published in the User Technical Documentation. The rules and User Technical Documentation they rely upon do not present a clear process and any set timeframes for each of the essential activities that will be required to bind rules 5.21A, 4.4B.1 and 11, so as to allow for 'elections' to be promoted by participants and application monies to be received from the opening of each offer.

ASX expects to make the payment facility set-up forms available in Q4 2020.

ASX will take this feedback into account when preparing the relevant operational procedures and guidelines (which replace the APGs) to cover this additional functionality. ASX has yet to publish the relevant operational and procedure guidelines for entitlement acceptances and related RTGS payments. ASX is releasing the operational and procedure guidelines in tranches, with ASX endeavouring to release the final tranche by the end of 2020.

Issuers and their share registries will need the timetable of events and each essential activity set out in a much clearer manner in the User Technical Documentation to consider if the current draft set out in tranche 2 is capable of being managed inside the current obligations of ASX Listing Rules. There should be a clear roadmap for the issuer in the key period around the announcement to the date the offer opens.

<p>Requested further clarity on process and obligations on becoming an RTGS participant.</p>	<p>A general settlement participant or CAPP must seek accreditation as an RTGS participant in accordance with the process outlined above in this row [44].</p> <p>On becoming an RTGS participant, an RTGS participant:</p> <ul style="list-style-type: none"> • Must ensure that at all times it has at least one payment facility (referable to a bank account) with an RTGS payments provider for the purposes of settling payment obligations in connection with RTGS instructions (ASXSOR 11.4.3). • Must give notice to their RTGS payments provider if they go into external administration (ASXSOR 11.7.1). • Must nominate a payments facility with another RTGS payments provider if their existing RTGS payments provider is suspended or terminated and ASXS requires them to do so (ASXSOR 11.8.15). • Will owe an obligation as principal to pay or receive an amount, and, in the case of a bilateral demand settlement instruction, to deliver or receive financial products, to the RTGS participant that is the counterparty to the RTGS instruction (ASXSOR 11.13.5). We have amended ASXOR 11.13.5 to clarify that both payment and delivery obligations apply in the case of a bilateral demand settlement instruction. • May be liable to pay a fee for a failed RTGS instruction that results from their failure to pay or provide sufficient financial products for delivery (ASXOR 11.29.1). However, we have amended ASXSOR 11.29.1 to clarify that an RTGS participant is no longer required to confirm that a transaction is 'ready to settle' under the new process flow. 	<p>ASXSORs 11.13.5 and 11.29.1</p>

	<p>Suggested the description of RTGS participant wasn't clear and further clarity was required, including:</p> <ul style="list-style-type: none"> • whether this is referring to functions performed by the settlement participant or the payment provider; and • the application of restrictions under ASXSOR 4.1.3 to a RTGS participant who also participates in batch settlement. 	<p>The reference to RTGS participant refers to functions performed by the general settlement participant or CAPP. An RTGS payments provider (rather than an RTGS participant) performs the functions of a payments provider. <p>45. CAPP</p>	<p>Suggested the description of CAPP wasn't clear and further clarity was required, including:</p> <ul style="list-style-type: none"> • whether this is referring to functions performed by the settlement participant or the payment provider; and • the application of restrictions under ASXSOR 4.1.3 to a RTGS participant who also participates in batch settlement. 	<p>A CAPP is a special type of participation to allow an entity that is not a general settlement participant to participate in the RTGS service in relation to the settlement of corporate actions if it wishes to do so. An RTGS payments provider (rather than a CAPP) performs the functions of a payments provider.</p> <p>The admission criteria for a CAPP is set out in Section 4 of the ASXSOR. This criteria aligns with existing admission processes, except that a CAPP will not need to provide a performance bond. An existing participant that seeks admission as a CAPP will be deemed to satisfy the majority of the general requirements applicable to a CAPP including business integrity, technical and performance requirements and organisational requirements. A CAPP will need to meet the additional criteria set out in ASXSOR 11.5.2 to be accredited as an RTGS participant.</p> <p>The restrictions under ASXSOR 4.1.3 and ASXSOR 4.4B.1 have been amended to clarify that a person admitted as a CAPP cannot participate in batch settlement or maintain participant sponsored holdings unless they are also admitted as a settlement participant or an account participant and are authorised to do so under the rules pursuant to that admission.</p>	<p>ASXSORs 4.1.3 and 4.4B.1</p>

Considered the ASXSOR requirements for eligibility of a CAPP difficult to follow, with the participation criteria being circular. No adequate explanation of CAPP structure and its role in administration of entitlements acceptances. Considers CAPP function should be descoped in light of dependency on ASXSOR 5.21A and 5.21B

The admission criteria for a CAPP is set out in Section 4 of the ASXSOR. This criteria aligns with existing admission processes, except that a CAPP will not need to provide a performance bond. A CAPP will need to meet the additional criteria in ASXSOR 11.5.2 to be accredited as an RTGS participant.

The role of the CAPP is to settle corporate action RTGS instructions by accepting payments relating to entitlement acceptances and making payments where there is an over-subscription to an entitlements offer in circumstances where the relevant issuer is not itself a general settlement participant.

The operation of rules dealing with functionality that will only become available after Day 1 of the new system (i.e. not available on Day 1) were contemplated to be addressed through transitional provisions to be part of the Tranche 3 rule amendments (as referred to in section 5.3 of the [CHESS Replacement: Revised Implementation Timetable](#) consultation paper released on 30 June 2020). This includes rules providing for CAPPs in connection with the functionality for electronic payment for entitlement offers which was contemplated to be released into production after the go-live date as 'release version 1.1' (as referred to in section 2.3 of that paper).

The tranche 3 rule amendments contemplated, would provide for the later commencement for those rules, from which date they become enlivened.

The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

Considered there was not enough explanation in the ASXSOR about CAPP admission process. User Technical

While Focus Groups dealt with the solution design for significant new or materially changed functionality in the new system, not all

ASXSOR 2.13.1 definition of

<p>Documentation does not have any explanation and was not adequately consulted on in Focus Groups.</p>	<p>related requirements were intended to be addressed through such a forum.</p>	<p>“RTGS Participant”</p>
<p>More detail sought on AFSL impacts for all participants processing applications for rights issues and share purchase plans and handling applications moneys, following consultation with ASIC.</p>	<p>For example, additional obligations are addressed through the operating rules for ASX Clear and ASX Settlement which establish the legal framework supporting the functionality and solution for the new system within the broader legal and regulatory framework in which ASX’s clearing and settlement facilities operate. This includes addressing through those operating rules, obligations or restrictions that are considered appropriate for that purpose.</p>	<p>ASXSOR 4.4B.1</p>
<p>Queried why CAPPs have to complete a full application for admission.</p>	<p>The rules consultation processes are specifically for the purpose of facilitating stakeholder feedback on such rules aspects, including any unintended consequences of the rule amendments.</p>	
<p>Are there bond requirements to establish the relevant participation to support the new functionality to process entitlement acceptances?</p>	<p>Participants processing applications and payments for corporate actions will need to form their own views on whether an AFSL is required to conduct their activities. The use of the RTGS service is not expected to materially impact this analysis as entities provide similar services outside of the CHES system already.</p>	
<p>Queried why an entity admitted as a CAPP can’t also perform other functions in the settlement facility (e.g. participate in DvP batch settlement). Not clear from the rules that CAPPs who perform other functions in CHES (e.g. DvP batch settlement and PISP) may still perform other activities if they are also acting as CAPP.</p>	<p>A CAPP is a new type of participant and therefore it is necessary to establish threshold criteria that applies to this participation type. This criteria aligns with existing admission processes, except that a CAPP will not need to provide a performance bond. An existing participant that seeks admission as a CAPP will be deemed to satisfy the majority of the general requirements applicable to a CAPP including business integrity, technical and performance requirements and organisational requirements.</p>	
<p>Queried why messages and account functionality couldn’t be limited to reflect the roles performed.</p>	<p>Entities will only be admitted as CAPPs to provide RTGS services in relation to corporate actions. Where they are admitted solely as a CAPP they will not be able to perform functions other than supporting RTGS payments for entitlement acceptances. Messages and account functionality will be limited.</p>	
<p>Considered that the number of corporate action events requiring action for issuers will be more if an application has to be raised to establish a CAPP for each corporate action that must carry a payment facility.</p>		
<p>Noted that the bank account into which applications moneys are paid (on behalf of issuers) may be in the name of another entity in that share registry corporate group, not the current settlement participant entity in that corporate group.</p>		
<p>Noted the application fees for admission and the period of time for assessing an application had not been</p>		

published. ASX had not detailed any technical or business integrity prerequisites to allow the CAPP to be coupled to the specific corporate action event. No SLAs for new participant type included in draft rules.

Suggested redrafting to Section 11 (background) to identify that CAPPs “must” (rather than “can”) act in respect of RTGS Settlement.

A general settlement participant will not need to be admitted as a CAPP in order to provide RTGS services in relation to corporate actions. Conversely, a participant (other than a general settlement participant) can be admitted as a CAPP and also hold other forms of participation, e.g. as a PISP, in order to perform functions beyond those of a CAPP. Entities who are account participants, specialist settlement participants or product issuer settlement participants and intend to provide or participate in RTGS services in relation to corporate actions will need to obtain separate admission as a CAPP.

A CAPP will be admitted by ASXS only once and may act for multiple issuers across multiple corporate action events. A CAPP (or general settlement participant) will need to establish a payment facility per Issuer for payments relating to acceptances for that issuer to be paid into. The bank account referable to the payment facility may be in the name of the CAPP (or general settlement participant) or their related body corporate (refer to ASXSOR 4.13.1(b)(i)).

ASX does not publish SLAs for admission of participants (whether new or existing types). The period of time for assessing an application generally depends on the quality of the application. As noted above, a CAPP will need to establish a payment facility per issuer, not specific corporate action events.

The background included at the start of each of the sections of the operating rules provides a general description of the matters addressed in that section and is not an operative provision establishing obligations under that section.

The operative provisions in section 11 establish the relevant obligations for that participant for such instructions to which it is a party.

46. **Pricing**

Noted the anticipated transaction costs for acceptances through the system had not been published.

RTGS for entitlement acceptances is a new service so like-for-like pricing does not apply.

	<p>How does the representation made by ASX that pricing for like-for-like services will not be increased apply in relation to new services issuers are compelled to contribute or must consume from ASX?</p> <p>Expect that issuers will want to know how fee structure will work for the new CAPP function (i.e. whether they are directly attributable to the number of applications processed, whether there will be high set up fees for repeatable processes for creating, modifying and closing payment facilities or whether they are based on the value of the application).</p>	<p>Pricing in relation to the new DvP bilateral settlement service and entitlement acceptance service will be made available at least 12 months prior to go-live of the relevant service.</p>
<p>47. Alternatives to RTGS</p>	<p>Recommends reconsideration of RTGS as the only proposed payment option for entitlement acceptances and non-batch DvP bilateral settlements, e.g. facilitate payment through BPAY or NPP for entitlement acceptances notified through the new system.</p>	<p>Payment providers were consulted on alternatives to RTGS bilaterally and through the ESPPSC. The majority of respondents favoured RTGS for reasons including the cost burden associated with NPP access in order to support ASX only transactions.</p> <p>ASX also notes that in the case of entitlement acceptances, use of the new functionality in CHES to notify such elections and make associated payments is optional. Accordingly, participants and holders can choose to utilise other existing acceptances and payment methods, e.g. BPAY.</p>
<p>48. Cut off times</p>	<p>Will the RTGS cut-off require a change of all issues from 5:00pm on the final acceptance date?</p>	<p>No. ASX does not propose to introduce a standard cut-off time for application close dates across all corporate actions processed through the RTGS service. This is a matter for each issuer and its advisors under the relevant rights offer or SPP.</p> <p>All participants will need to ensure that they accept corporate actions and make the corresponding payments by the closing time determined by each Issuer under their offer documents.</p> <p>To promote certainty, participants should consider applying (and making payments) early to facilitate the required processing under the RTGS service (including RTGS instructions cut-off (4.25pm)) before the issuer's closing time on the final acceptance date. Where an offer has a later closing time, participants may elect to use other</p>

		methods outside of the RTGS service to accept the offer in accordance with the terms of the Issuer’s offer document.	
49. Cancellations	<p>With the alignment of RTGS to RITS day session why can’t bilateral demand settlement instructions be cancelled?</p> <p>How will cancellation work if there is an error or incorrect details in the instruction? Further detail on the cancellation process flow requested.</p> <p>Requested further clarity on Rule 11.17.5, including why a bilateral demand settlement instruction cannot be cancelled.</p>	<p>ASX has amended ASXSOR 11.17.4-11.17.7 relating to cancellations on the basis that RTGS should be real time and that once an RTGS instruction hits RTGS processing, it is set to occur (unless the RTGS payments provider rejects the RTGS instruction outside of CHES).</p> <p>The effect of the amendments is that once ASX Settlement records an RTGS instruction (either a corporate action RTGS instruction or matched bilateral demand settlement messages) an RTGS participant cannot seek to cancel that RTGS instruction in the system. Instead, if there is an error or incorrect details in an RTGS instruction in respect of which an RTGS participant has a payment obligation, the RTGS participant may seek to cancel that RTGS instruction by contacting its RTGS payments provider and requesting that the RTGS payments provider reject the real time funds movement before it is processed in RITS. This will result in the RTGS instruction being failed and ASX will cancel its record of the RTGS instruction and notify the relevant counterparty or counterparties (refer ASXSOR 11.28.1).</p> <p>Where an RTGS instruction is performed which contained an error in the details entered by the participants, the affected participants could also seek to address the error bilaterally.</p>	ASXSORs 11.17.4, 11.17.5 and 11.17.7
50. Mandatory use of functionality	Will participants be obligated to use the RTGS functionality to settle bilateral transactions outside the daily batch process on a DvP basis?	No. However, after the RTGS service is live it will be the only way bilateral transactions will be able to be settled outside the daily batch process on a DVP basis. Existing alternatives to the bilateral demand settlement transfers will remain available after the implementation of the RTGS service, including bilateral batch settlement and bilateral demand transfers which involve transfers of securities occurring within CHES but settlement of payments outside CHES.	

51. End to end processes	Requested further detail and use cases regarding end to end process for bilateral transactions, including costings from ASX and the payments provider.	<p>ASX expects that the use case for bilateral demand settlements will be relatively broad depending on participant needs, but one example includes a situation where an instruction has not been received from a client by the time of batch processing to support settlement with that client on a DvP basis within batch, in relation to a client market transaction being settled on that day. In that example, a participant may elect to use the new bilateral demand transfer settlement functionality to still achieve DvP settlement with the client on that day in respect of that market transaction.</p> <p>Pricing in relation to the new bilateral DvP settlement functionality will be made available at least 12 months prior to go-live of the relevant functionality.</p>
52. Switching between RTGS and batch settlement	<p>Asked for clarification on removal of ability to switch between RTGS and batch settlement.</p> <p>Does this mean that “Market DVP” scheduled trades remain as part of the CHES batch, and while a covering late trade (post market cut off) could be settled via RTGS, it therefore would not cover the trades in batch (which maintains the 11.30 batch cut off) and any applicable fail fees will still apply?</p>	<p>Under the new RTGS service there will be no ability to switch between RTGS and batch settlement or vice versa. Accordingly, trades in batch cannot be switched out to RTGS.</p> <p>Yes, for trades scheduled for settlement in CHES batch, that are not settled in batch, applicable fail fees will still apply.</p>
53. Payment facilities for RTGS	<p>Noted that payment facility forms (e.g. in relation to setting up payment facility and provision of bank account details) were not yet available. Without access to the forms, it was unclear if an issuer’s payment facility needed to reference the specific corporate action event ID generated by ASX.</p> <p>Suggested ASX publishes a report of participants or share registries that have capability to settle using each type of payment (including RTGS payments).</p>	<p>ASX expects to make the payment facility set-up forms available in Q4 2020.</p> <p>For the purpose of corporate actions, payment facilities will be set up by an RTGS participant on a per Issuer basis and will therefore not need to reference the specific corporate action event ID. Only one bank account can be linked to a payment facility at any time. However, it is feasible for the bank account linked to the payment facility to be updated for different corporate events if this is required by the issuer and those events do not occur concurrently.</p> <p>ASX acknowledges the suggestion that participants accredited as an RTGS participant be able to be identified, and will give further</p>

Understanding the capabilities of controlling participants which manage holdings will assist issuers in the preparation of offer documents and share purchase plans.

consideration as to the publication of that information for general settlement participants and CAPPs who obtain that RTGS accreditation.

Controlling participants who are not also RTGS participants will not be able to engage in bilateral demand settlement transfers or submit acceptance notifications and payments to issuers (or their RTGS participant).

It is optional for participants to use and offer services to their clients for the new non-batch DvP bilateral settlement functionality and the entitlement acceptance and payment functionality.

The reference in issuer offer documentation for rights issues and share purchase plans is expected to reflect this optionality, when identifying the mechanisms available to holders for accepting and paying into a rights issue and share purchase plan.

Relevantly for issuers (and their share registries) in relation to entitlement acceptance processing, where a controlling participant is not an RTGS participant, that participant will not be able to submit acceptance notifications and payments to issuers (or their RTGS participant) in the new system.

54. **Payment provider cessation notice period**

Considered that the 20 business days notice period under ASXSOR 11.6.6 for a payment provider to cease to participate in CHESS may not be sufficient for completion of processing of entitlement application moneys receipts and refunds.

ASXSOR 11.6.6 provides for a notice period of no less than 20 business days to be given to ASX where an RTGS payments provider ceases to participate in that function. This is existing ASXSOR timing for such notification which has not been amended through the draft changes proposed for the new system.

ASX notes that it is open to all participants (including issuers and their share registries performing payment functions on their behalf) to put in place an additional termination notice period with their relevant payment provider as they feel appropriate for their arrangements or corporate action event.

55. Eligible Instructions	There is no express cross reference in ASXSOR 11.1.1 to the corresponding ASXSOR Procedure containing the details for the eligible instructions relating to that rule.	The relevant eligible instructions for the purpose of ASXSOR 11.1.1 are contained in ASXSOR Procedure 11.1.1.
		Generally, where a rule within the ASXSORs refers to a procedure, this relates to the procedure for that specific rule number (unless otherwise specified).
56. User Technical Documentation	Requested that User Technical Documentation which covers new functions for rights issues and share purchase plans to be published as a matter of priority	This documentation is available at: https://asxchessreplacement.atlassian.net/wiki/spaces/CSP/pages/245466848/Entitlement+Elections+Overview
		ASX has yet to publish the relevant operational and procedure guidelines for the entitlement acceptance functionality and related RTGS service. ASX is releasing the operational and procedure guidelines in tranches, with ASX planning to release the final tranche so as to be available by the end of 2020. As indicated in the CHESS Replacement: Revised Implementation Timetable consultation paper released in June 2020, the new entitlement acceptance functionality and related RTGS service was contemplated to be released into production after the go-live date for the new system as 'release version 1.1'. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).
57. Settlement Reporting	Noted that ASX will not report to issuers the RTGS deposit into one daily amount, providing only reporting of separate lines of RTGS payments made by participants. Requested issuers receive same information as provided to payments provider. It is a design shortcoming that an RTGS participant can only have one payment facility per issuer when an issuer might have multiple corporate actions on foot	Under ASXSOR 11.30.2, ASX will notify RTGS participants acting on behalf of issuers of the "net" movement of funds paid or credited with respect to each RTGS bank account referable to that participant. Accordingly the reporting to issuers (through their RTGS participant) will be on an aggregate basis unless the Issuer has determined to utilise the repayment functionality for rejected entitlement acceptances under ASXSOR 5.21B (e.g. as a result of an invalid acceptance or a scaleback).

	concurrently. Approach creates unnecessary work for an RTGS participant.	<p>The use of this repayment facility for rejected entitlement acceptances is optional and at the discretion of issuers (should they prefer to utilise that functionality, instead of existing repayment mechanisms to holders).</p> <p>An RTGS participant may only set up one payment facility referable to each Issuer for corporate actions. Where there are simultaneous corporate actions on foot for the same issuer, ASX Settlement will provide reporting to enable RTGS participants to reconcile payments for different corporate actions paid into the same payment facility.</p>
58. Scheduled Times	Suggested ASXS should apply RTGS instruction cut-off time as 4.00pm (earlier than 4.25pm proposed) to allow payment providers time to facilitate and receive approvals before the RTGS end of day (5:15pm).	<p>ASXS does not intend to apply an earlier RTGS instruction cut-off for RTGS entitlement acceptances.</p> <p>Although the existing RTGS instruction cut-off of 4:25pm only provides a short time for an RTGS payments provider to pre-authorise an RTGS entitlement acceptance payment in CHES before the RTGS cut-off of 4:30pm if the RTGS instruction is received close to the cut-off, the RTGS payments provider will have the opportunity to assess and approve the RTGS Instruction from a credit perspective outside CHES up until just before RTGS end of day (5:15pm).</p> <p>Such a change would impact the ability for participants to process entitlements acceptances or bilateral demand settlements through CHES, with a corresponding reduction in the effectiveness of the new entitlement acceptance functionality and bilateral demand settlements functionality in delivering on the business requirements generated through industry engagement in 2017 and 2018. Refer to row [31] for further information on such impact in relation to entitlement acceptances.</p>

Takeovers and buybacks (see rows 17 and 18 of the table in Attachment A of our Tranche 2 Consultation Paper)

59. Overall feedback	Broadly comfortable with the new draft rules, which largely codify and settle existing market practice.	ASX acknowledges this feedback.
-----------------------------	---	---------------------------------

60. Extensions of offers	Where an offer is extended, is there the ability to re-open or extend the date?	Where the relevant offer period for a non-takeover offer event is extended, then the period allowed for submitting an acceptance in relation to that non-takeover offer event will similarly be extended.
61. Scheduled Times	<p>The proposed timeframe in which a participant is required to initiate acceptance under a non-takeover event in ASXSOR 14.24.1 or notify the holder of rejection (ASXSOR 14.24.10) places the participant under undue timing constraints where instructions are received/executed late in the day (just prior to closing time of the system).</p> <p>Participants should have a reasonable opportunity to comply with the rules. Consider incorporating a time limit when the event can be initiated.</p>	<p>The timing requirements for:</p> <ul style="list-style-type: none"> • initiating acceptances (by end of day on the day the holder instructs the participant to accept the offer, or if the offer period ends on that date, then before then end of the offer period); or • notifying holders of rejections of participant offeror initiated acceptances (by end of day on the date that it is rejected, which can be up to end of the next business day after receipt of notification of the participant offeror initiated acceptance), <p>replicate the equivalent requirements applying to takeovers under existing ASXSOR 14.14.1 and 14.14.10.</p> <p>By aligning with the timing of receipt of the participant sponsored holder instructions or notification of the participant offeror initiated acceptance, the rules seek to maximise the ability for investor acceptances to be effective under the terms of the relevant non-takeover offer event (as specified by the issuer).</p>
62. Disclosure of SRN/HIN to an agent	<p>For the purposes of ASXSOR 14.13.4, should the agent for a non-takeover offer event be included in the list of authorised parties allowed to access SRNs and HINs and have obligations for safely managing those SRNs and HINs?</p> <p>Is it feasible that schemes of arrangement with consideration choice and debt issue roll-over offers could have an agent other than the issuer, including the buyer, manage the collection and operational functions?</p>	<p>ASXSOR 14.13.4 is an existing rule and has not been amended under the draft Tranche 2 rule changes.</p> <p>ASXSOR 14.13.4 is limited to the provision of information by issuers in relation to a takeover bid and the undertakings required in that instance where the person to whom the information is provided is not a person otherwise bound to comply with the ASXSORs (and the restrictions on disclosures of HINs and SRNs prescribed therein).</p> <p>In particular, it:</p> <ul style="list-style-type: none"> • applies to information provided to a bidder or a participant bidder (as applicable) under a takeover bid pursuant to a request

under section 173(3) or section 641(1) of the Corporations Act for information identifying holders (refer ASXSOR 14.13.1); and

- prescribes the written undertakings required from such persons (where not bound by the ASXSORs) or from any agent that the bidder or participant bidder engages to prepare and distribute offer documentation or process takeover offer acceptances (refer ASXSOR 14.13.2(b), 14.13.3(d)(iii) and 14.13.4).

The circumstances covered by ASXSOR 14.13.4 (involving the disclosure of information to third parties under a takeover) differs from the non-takeover offer event scenarios – each of which involve the issuer.

63. **Court and ASIC process for schemes**

Requiring an issuer in a scheme of arrangement to complete the full acceptance and transfer cycle used in a takeover bid will make engagement with the court and ASIC about what is permissible/prohibited more difficult. Namely, arising from impacts on effecting an exchange of consideration while securities are reserved in an offer accepted subposition and the requirements for specialist settlement participants relating to non-takeover transferee holdings operated by them to which transfers are to occur (referred to further in rows [64] and [65] below).

It is optional for issuers to use the ASX provided facility for processing of acceptances for non-takeover offer events.

As indicated in ASXSOR 14.22.1, the rules framework in ASXSOR 14.22 to 14.30 (supporting the ASX provided facility for non-takeover offer events) only applies to events for which the offeror seeks to use the ASX provided facility for processing of acceptances under the offer and has accordingly given a notice to ASX Settlement of the offer under ASXSOR 14.22.2.

Where issuers consider the processing of acceptances for election consideration under a scheme of arrangement (including subposition and transfer processes) are not appropriate for them, including having regard to the required court or ASIC approvals, they do not need to use the facility.

It is also noted that elections as to consideration under schemes of arrangement have previously been processed using the takeovers facility in CHESS, (supported by ASXSOR 14.12.1), with the processes and supporting rules proposed being based on such existing processes and rules for takeover offers.

Refer to rows [64] and [65] below in relation to the specific matters raised regarding impact of subposition and transfer processes under the ASX provided facility for processing of acceptances for non-takeover offer events.

64. Subposition on holdings	<p>Ordinarily, the master transfer of scheme holdings in the CHESSE subregister is managed by holding adjustment and executed under orders from the court. However holding adjustments will not be permitted on CHESSE holdings locked in offer acceptance subpositions.</p> <p>Scheme consideration is usually paid in exchange and synchronised with the transfer of holdings under a scheme. However this will be a more complicated process to achieve the required exchange of consideration for Non-Takeover Offer Event Transfers pursuant to the ASX provided facility for processing such acceptances and transfers.</p>	<p>As indicated in row [63] above, it is optional for issuers to use the ASX provided facility for processing of acceptances for non-takeover offer events.</p> <p>Where they seek to do so, the subposition supports processing of non-takeover offer events by restricting movements of financial products for which an acceptance has been notified through CHESSE²⁴ and giving effect to the transfer of those financial products to the Non-Takeover Offer Event Transferee Holding pursuant to a message transmitted by the participant offeror when legally entitled or authorised to complete that transfer (refer ASXSOR 14.27.1 and ASXSOR 14.27.2).</p> <p>An outcome of the process for the transfer of financial products to the Non-Takeover Offer Event Transferee Holding is the release of the financial products being transferred from the subposition²⁵.</p> <p>Where offerors don't use the ASX provided facility for processing of acceptances for non-takeover offer events, such reservation of financial products through the subposition will not apply.</p> <p>To correct a typo, ASX will amend draft ASXSOR 14.27.2(e) to reflect that the relevant holding to which the transfer of the affected financial products is made to is the "Non-Takeover Offer Event Transferee Holding" (emphasis added). The existing draft amendments refer to the "Takeover Transferee Holding" which is the relevant holding applying to takeover events.</p>	ASXSOR 14.27.2(e)
------------------------------------	---	--	-------------------

²⁴ Unless the subposition is otherwise released in accordance with the ASXSORs (e.g. pursuant to ASXSOR 14.24.6, 14.26.4, 14.26.6 or 14.30)

²⁵ Refer to draft ASXSOR 14.27.2(c)

65. Specialist settlement participants	<p>The ASXSORs limit specialist settlement participants to establishing direct holdings (owned by the participant or related body corporate), however the acquirer of shares under a scheme consideration election would not be expected to be the issuer or a related body corporate of the issuer, and therefore would not qualify as a direct holding.</p> <p>Where sponsored holdings are allowed for the specialist settlement participant, there needs to be consideration of suppressing holding statements issued to such a sponsored holder following the takeover transfer process.</p>	<p>The non-takeover event transferee holding into which securities are transferred as a result of an acceptance of a non-takeover offer event needs to be specified by the offeror under ASXSOR 14.23.3(b), together with details of the participant offeror.</p> <p>Under ASXSOR 14.23.4, the participant offeror needs to be the controlling participant for that non-takeover offer event transferee holding.</p> <p>Participant offerors can be specialist settlement participants, e.g. where admitted for the limited purpose of acting as a participant offeror (refer ASXSOR 4.4.2), or another type of participant, e.g. a general settlement participant.</p> <p>Specialist settlement participants are not permitted to establish a sponsored holding, and are limited to establishing a direct holding, being a holding of the Participant or a related body corporate of the Participant²⁶. Accordingly in the scenario where it is sought that a transferee holding be a sponsored holding controlled by the participant offeror, that participant offeror should be a general settlement participant.</p>	
66. Optionality	<p>It is not clear whether issuers must use the new functionality in relation to <u>all</u> events that fall into the categories in ASXSOR 14.22 and therefore require:</p> <ul style="list-style-type: none"> - the issuer (or acquirer) to give notice for all non-takeover offer events and make an application to become the participant offeror. - Use of the non-takeover offer acceptance process exclusively for all CHESS holdings (i.e. to the exclusion of other existing notification of acceptance processes). 	<p>It is optional for issuers to use the ASX provided facility for processing of acceptances for non-takeover offer events.</p> <p>As indicated in ASXSOR 14.22.1, the rules framework in ASXSOR 14.22 to 14.30 (supporting that ASX provided facility for non-takeover offer events) only applies to events for which the offeror seeks to use the ASX provided facility for processing of acceptances under the offer and has accordingly given a notice to ASX Settlement of the offer under ASXSOR 14.22.2.</p> <p>This is in contrast to takeover offers, with ASXSOR 14.11.1 requiring that the bidder “must” supply a copy of a notice of the making of a</p>	ASXSOR 14.24.1 and 14.24.2

takeover bid to ASX Settlement. That obligation to use the ASX provided facility for processing takeovers is supported by s653A of the Corporations Act and Corporations Regulation 6.8.01 that effectively require that acceptances of off-market takeover offers occur in accordance with the ASXSORs.

Similarly, obligations on offerors to ensure that a participant acts as participant offeror in connection with the non-takeover offer event only apply where the offeror chooses to use the ASX provided facility for processing of such events.

For a non-takeover offer event that chooses to use the ASX provided facility for the processing of that event, acceptances in a CHESS holding in respect of that offer must be made in accordance with the ASXSORs (refer draft ASXSOR 14.23.5) – in the same way as for off-market takeover offers. Namely:

- a CHESS holder can notify their acceptance under a non-takeover offer event through their controlling participant - which the participant transmits through the ASX provided facility, or
- notify their acceptance direct to the participant offeror (if the offeror allows for such other form of notification of acceptance) - which the participant transmits through the ASX provided facility.

Requiring that acceptances in a CHESS holding in respect of a non-takeover offer event must be made in accordance with the ASXSORs and processed through the ASX provided facility supports processing of non-takeover offer events through the subposition imposed on a holding upon an acceptance notified through the facility (restricting movements of those financial products²⁷) and giving effect to the transfer of those financial products to the non-takeover offer event transferee holding pursuant to a message transmitted by the

²⁷ Unless the subposition is otherwise released in accordance with the ASXSORs (e.g. pursuant to ASXSOR 14.24.6, 14.26.4, 14.26.6 or 14.30)

participant offeror when legally entitled or authorised to complete that transfer (refer ASXSOR 14.27.1 and ASXSOR 14.27.2).

To better reflect this mandatory processing through CHES, ASX will amend ASXSOR 14.24.1 and 14.24.2, to provide that where a controlling participant is instructed by a holder to accept an offer, the controlling participant “must” (rather than “may”) initiate the acceptance for the CHES holding within the time and via a message transmitted through the facility as specified under those Rules. This aligns the requirements for processing by controlling participants of holder instructions to accept an offer under a non-takeover offer event with requirements for off-market takeover offers under ASXSOR 14.14.1 and 14.14.2.

67. Drafting comments	Reference to ‘acceptance of an offer’ should also refer to making elections in respect of the offer.	Similar to row [35] above in relation to the new entitlement acceptance functionality, “acceptance” is used as a general term which applies to the use of the new functionality across the various non-takeover offer events to which the functionality applies.	Note to ASXSOR 14.24.1
	Is the term “acceptance” the appropriate term for use in the rules in relation to each use of the Non-Takeover Offer Events (e.g. given issuer discretion)?	ASX notes that, in relation to a non-takeover offer event that is an offer under a scheme of arrangement involving alternate forms of consideration, proposed ASXSOR 14.22.3 expressly identifies that the references to “acceptance” are to the “election” as to the form of consideration under the scheme of arrangement. To assist with interpretation, a note has been added to ASXSOR 14.24.1 to clarify what is meant by the term “acceptance”.	
	Does the creation of new non-takeover offer categories under ASXSOR 14.22 make ASXSOR 14.12.1 redundant? ASXSOR 14.22 specifically lists the offer types that ASX Settlement uses its current rule 14.12.1 discretion for.	While the inclusion of new ASXSORs 14.22 to 14.30 will expressly address the processing framework for types of non-takeover offer events (as defined in ASXSOR 2.13) for which the takeover processing framework is currently used (under ASX’s exercise of discretion under Rule 14.12.1), ASX does not consider that the proposed changes render Rule 14.12.1 redundant. For example, this provision may still be relied on to facilitate processing of a type of takeover offer, which for a technical reason,	

does not fall within the definition of “takeover bid” under the Corporations Act.

Noted in connection with the operation of ASXSOR 14.24.2(d) (which contemplates that the number of financial products to which an acceptance relates is to be specified in an acceptance message), that in the case of a non-takeover offer event that is a scheme involving different consideration options, it is usual for the scheme terms to specify the relevant election to be made by the investor is for all of the investor’s holding, not just a nominated portion of a holding.

This normally extends to any additions (by way of purchases) or reductions to a holding (by way of sales) that applies after an election, with no further action required.

Under ASXSOR 14.24(d) messages initiating an acceptance under a takeover offer which are transmitted through the ASX provided facility will need to specify the number of financial products in the holding to which the acceptance relates.

This approach is required to support the processing of non-takeover offer events that is facilitated through the functionality, including the subposition imposed on the relevant number of financial products in the holding that were specified in the acceptance message²⁸ (restricting movements of those financial products²⁹) and giving effect to the transfer of those financial products to the Non-Takeover Offer Event Transferee Holding pursuant to a message transmitted by the participant offeror when legally entitled or authorised to complete that transfer (refer ASXSOR 14.27.1 and ASXSOR 14.27.2).

Where additional financial products are subsequently acquired into the holding, a subsequent acceptance message will need to be initiated in order for those additional financial products to be processed in the same way. This can be managed by the controlling participant, or the participant offeror (where a holder has notified their acceptance to the participant offeror), through the initiation of the notification to CHES of the acceptance for the additional financial products, as required under the terms of the acceptance.

ASX notes that the imposition of a subposition as a result of such functionality will restrict a reduction in the holding occurring for a subsequent sale.

²⁸ Refer to ASXSOR 14.24.4

²⁹ Unless the subposition is otherwise released in accordance with the ASXSORs (e.g. pursuant to ASXSOR 14.24.6, 14.26.4, 14.26.6 or 14.30)

<p>The rule for a non-takeover offeror under ASXOR 14.23.3(a)(iii) and the corresponding rule for a takeover bidder under ASXSOR 14.12.5(a)(iii), in relation to a participant offeror and participant bidder respectively, are subtly different. Will both the existing rule 14.12.5(a)(iii) and new rule ASXOR 14.23.3(a)(iii) carry the same responsibilities to give notice to ASX Settlement of the name and UIC of the participant?</p> <p>Does ASX need to be notified of the UIC in connection with ASXSOR 14.23.3(a), as it will already be aware of the UIC?</p> <p>Do the relevant notice requirements, including to specify the UIC, need to be provided for in the rules (ASXSOR 14.23.3(a)(iii) and 14.23.3(b)), why not just in the application form? The requirements for the equivalent notice to be provided in the case of a takeover offer are referenced in ASXSOR Procedure 14.12.5 (rather than the rules).</p>	<p>ASX notes that ASXSOR 14.12.5 was updated on 5 December 2019. The current drafting for ASXSOR 14.23.3 is based on the form of ASXSOR 14.12.5 prior to those amendments.</p> <p>ASX will update draft ASXSOR 14.23.3(a)(iii) and ASXSOR 14.23.3(b) so that the relevant information is as referred to in ASXSOR Procedure 14.23 and contained in the relevant application form – mirroring the equivalent updated ASXSOR 14.12.5 and ASXSOR Procedure 14.12.5 for takeover offers.</p> <p>The UIC is an identifier code used for identifying the source or destination of messages (including in relation to participants). A participant can have more than one UIC, and therefore its provision to ASX Settlement will assist in identifying the relevant source and destination for the participant’s messages.</p>	<p>ASXSOR 14.23.3(a)(iii) and 14.23.(b)</p> <p>ASXSOR Procedure 14.23</p>
<p>Why is ASXSOR 14.24.7 limited to participant sponsored holdings (refer to ASXSOR 14.24.7(b), (c), (d) and (f))?</p>	<p>ASXSOR 14.24.7 (for participant offeror initiated acceptances for non-takeover offer events) is modelled on existing ASXSOR 14.14.7 which similarly limits the operation of participant bidder initiated acceptances under takeover offers to participant sponsored holdings.</p> <p>In practice, acceptances directly to a participant offeror for non-takeover offer events (or participant bidder for takeover offers) are not expected to apply to direct holdings which are holdings owned by the relevant controlling participant or a related body corporate of the controlling participant. For direct holdings, the process by which acceptances in relation to such direct holdings are notified by the relevant holder are able to be managed by the controlling participant given the corporate connection to that participant of the relevant holder.</p>	

	<p>In relation to ASXSOR 14.29.1, it is not uncommon for a scheme of arrangement to be abandoned by either a defeating condition or being overbid by another acquirer.</p>	<p>Noted. ASXSOR 14.29.1 has been modelled on existing ASXSOR 14.19.1 in relation to takeover offers.</p> <p>It provides a general fallback at the end of the offer period where the defeating condition applies.</p> <p>It is also supplemented by an ability of a participant offeror to:</p> <ul style="list-style-type: none"> • reject a reservation of financial products under a subposition pursuant to ASXSOR 14.24.5; and • release financial products from a subposition under 14.26.4 (where authorised by the holder who was legally entitled or authorised to do so), <p>prior to the end of the offer period.</p> <p>A further amendment is also proposed to ASXSOR 14.29.1 to recognise its application to the offer period ending other than for a defeating condition (e.g. if a scheme of arrangement is abandoned).</p>	<p>ASXSOR 14.29.1</p> <p>Appendix 1 as it relates to ASXSOR 14.29.1</p>
<p>68. Buybacks (ineligible holders)</p>	<p>Buybacks are not made to every holder in a class of financial products, with issuers only providing offer tender forms to holders who are eligible to participate (generally holders with cum buyback balances who are from eligible countries).</p> <p>The new system should preclude acceptances from ineligible holders. If the issuer receives invalid or ineligible tenders from participants, the issuer must exclude these tenders by either filtering them from the tender acceptance evaluation process or by rejecting them using a CHES message, both of which processes come at a cost to the issuer.</p> <p>Rules do not establish that an ‘acceptance’ can only come from eligible holders. ‘Acceptance’ should not be</p>	<p>CHES does not have an ability to confirm that an acceptance is received only from an eligible holding under the terms of the offer.</p> <p>While the system validates that the holding has sufficient financial products to account for the number of financial products specified under the acceptance message, eligibility under the terms of each offer is a matter specific to the offer terms.</p> <p>Accordingly, it would be inappropriate for the system to seek to preclude acceptances from ineligible holders, which is a matter for determination by the issuer and its advisors under those terms. Similarly, ASX does not propose to incorporate a rule that acceptances should only be initiated in relation to eligible holders to whom an offer is made by the offeror (i.e. the issuer) which would involve ASX opining on the eligibility of a holder under an issuer’s offer terms, which as indicated above is a matter for determination by the issuer and its advisors under those terms</p>	

	permitted or attempted if the holder is ineligible, e.g. by their jurisdiction, location or lack of a cum-balance.	As occurs today, the relevant participant offeror acting on behalf of the issuer can reject an acceptance within 2 business days of receiving notification of the acceptance ³⁰ , which triggers the release of the subposition in respect of those financial products. Absent such rejection, the offer accepted subposition in respect of those financial products will persist.	
69. Notices	<p>New notices to CHES holders should be issued by ASX to support non-takeover offers informing them in more tailored terms why securities tendered into a non-takeover offer are recorded with a subposition and are not available.</p> <p>New and improved solution should also apply to takeover bid acceptances, rather than the generic use of sample “N” (offer acceptance) and sample “O” (reversal of an offer acceptance).</p>	ASX acknowledges this feedback and will take this under consideration when updating the notices for the relevant functionality.	
	<p>Requested clarity on how an issuer can give ASX Settlement immediate notice of non-takeover intentions or an announcement of an offer under ASXSOR 14.22.2, and if an issuer on ASX’s official list is deemed to have given ASX Settlement such notice, if it has given ASX such a notice.</p> <p>For schemes of arrangement, decisions as to the mechanisms to be used for effecting elections as to alternate consideration generally occur several weeks after formal announcement of the scheme to the ALMO. <p>70. Late acceptances</p>	<p>Does not support an extension of the period for making acceptances under buybacks under ASXSOR 14.24.7(d)(ii). Sufficient time is allowed under buybacks for CHES holders to receive advice and act upon a buyback offer, including for their controlling participant to initiate an acceptance on their behalf.</p> <p>Buyback offers tend to close on the last business day prior to a weekend, with issuers requiring the weekend to manage acceptance processing (including for release of subpositions for unsuccessful acceptances and preparation for transfers and payment of consideration).</p>	<p>The purpose of permitting the additional time in the specified circumstances is to facilitate administrative functions that may need to be performed by issuer share registries to ensure that acceptances are recorded and processed accurately.</p> <p>The extension only applies to an acceptance by a participant offeror, i.e. where the relevant holder bypasses their controlling participant and notifies their acceptance directly to the offeror. Such notification of acceptance to the participant offeror from the CHES holder must have occurred before the end of the offer period.</p> <p>ASX notes that in relation to an acceptance initiated by the controlling participant, the timing for it to transmit such a notification message is by the end of the offer period (reflecting the existing timing provided for controlling participant initiated acceptances under takeover offers).</p>
<p>71. Additional warranty and indemnity</p>	<p>Why has an additional warranty and indemnity from participant offerors been added in ASXSOR 14.25.6 and 14.25.7(c) dealing with acceptances transmitted after the end of the offer period? These aren't in the equivalent rules for takeover bids.</p>	<p>The additional warranty and indemnity from participant offerors under ASXSOR 14.25.6 and 14.25.7(c) supports ASXSOR 14.24.7(d)(ii) (referred to in row [70] above).</p> <p>In particular, to limit acceptances submitted by participant offerors after the end of the offer period to the specific permitted scenarios prescribed under ASXSOR 14.24.7(d)(ii).</p>

If a participant offeror does not transmit an acceptance after the end of the offer period then the additional warranty and indemnity provisions under ASXSOR 14.25.6 and 14.25.7(c) will not apply.

ASX notes that there is no equivalent ability for participant bidders to submit acceptances after the end of the offer period for takeover offers and therefore no need to include an equivalent warranty and indemnity on participant bidders under the existing rules for takeover bids.

Holding adjustments (see rows 23 to 29 of the table in Attachment A of our Tranche 2 Consultation Paper)

75. Prevention of corporate action processing	Further changes (cumulative to Tranche 1) to restrict application of holding adjustments to any locked or subpositioned units (other than for reconstructions) do not take into account tranche 1 feedback. They also appear to be seeking a re-balancing of control of key issuer registry management with regard to corporate	The operating rules for ASX Clear and ASX Settlement establish the legal framework supporting the functionality and solution for existing CHES and the new system within the broader legal and regulatory framework in which ASX’s clearing and settlement facilities operate. actions from issuers to ASX (by preventing issuer processing), that had not been communicated.

rules, obligations or restrictions that are considered appropriate for that purpose.

The rules consultation processes are specifically for the purpose of facilitating stakeholder feedback on such rules aspects, including any unintended consequences of the rule amendments.

In the context of holding adjustments, additional information on the operation of holding adjustments on locked holdings was provided in our response to consultation on the tranche 1 rule amendments (see row 43 of Attachment A to that [consultation paper](#)).

Row [76] below also describes some further rule amendments ASX is making to clarify the relationship between holding adjustments and locked holdings.

ASX's overall principle in determining the appropriate relationship between holding adjustments and *holding locks* and *holder record locks*, has been to impose restrictions on the automatic processing of requests for the movement of financial products where this could contravene legal or regulatory restrictions (e.g. in the case of a court order preventing such movement which is given effect to through a holding lock), while also allowing for the lifting of those locks on a manual basis by the issuer, controlling participant or ASX if the outcome of discussions between an issuer and the relevant party determine that this is appropriate³².

ASX's overall principle in determining the appropriate relationship between holding adjustments and *settlement locks* and *demand locks* has been to impose restrictions on the automatic processing of requests for the movement of financial products which would

³² **Holder record locks:** Settlement participants have the power to request that holder record locks are removed at their request (see ASX Settlement Operating Rule 8.16.3A (Tranche 1 rule amendments)).

Holding Locks: An issuer may request that ASX Settlement remove a holding lock (see ASX Settlement Operating Rule 8.16.1 (Tranche 1 rule amendments)). Please note that settlement participants cannot impose holding locks.

impact the operational certainty for transactions in the new system, while also allowing for the lifting of those locks:

- automatically on a suspension of securities³³, which means that such locks will not restrict an issuer from initiating a holding adjustment giving effect to certain corporate action events while the securities are suspended (e.g. in connection with a merger event); and
- on a manual basis by the controlling participant or ASX if the outcome of discussions between an issuer and the relevant party determine that this is appropriate³⁴ (e.g. where a sale of securities by a holder for which a settlement lock has been applied conflicts with a divestment under a holding adjustment in connection with a sell down by the holder under a voluntary share sale facility operated by the issuer or with unilateral action taken by an issuer to divest the holder's securities under a constitutional power³⁵).

ASX's overall principle in determining the appropriate relationship between holding adjustments and *subpositions* has been to impose restrictions on the automatic processing of requests for the movement of financial products where this could circumvent a subposition in favour of a third party (e.g. a security interest in favour of ASX Clear for securities provided as cover or a takeover subposition in favour of a bidder for securities accepted into the

³⁴ **Settlement locks:** Settlement participants have the power to request that settlement locks are removed at their request (see ASX Settlement Operating Rule 8.16.6 (Tranche 1 rule amendments)). ASX Settlement also has the power to remove a settlement lock at any time to maintain the orderly operation and integrity of the Settlement Facility. If an issuer or a participant requested ASX Settlement to remove a settlement lock in order to facilitate the processing of a holding adjustment or financial product transformation, ASX Settlement could consider relying on this power to give effect to that removal (see ASX Settlement Operating Rule 8.16.8 (Tranche 1 rule amendments))

Demand Locks: ASX Settlement has the power to remove a demand lock at any time to maintain the orderly operation and integrity of the Settlement Facility. If an issuer or a participant requested ASX Settlement to remove a demand lock in order to facilitate the processing of a holding adjustment or financial product transformation, ASX Settlement could consider relying on this power to give effect to that removal (see ASX Settlement Operating Rule 8.16.8 (Tranche 1 rule amendments)).

³⁵ For example, a power under an issuer's constitution to divest securities held by a holder which are less than a marketable parcel

		offer) while also allowing for the lifting of those locks on a manual basis where approved by the party in whose favour financial products have been reserved in the subposition if the outcome of discussions between an issuer and the relevant party determine that this is appropriate ³⁶ .	
		Relevantly in relation to all locked holdings and subpositions, ASX has sought to continue to facilitate reconstructions which preserve the value of financial products and are not expected to impact the original purpose for imposing a lock or subposition on a holding.	
76. Notices and reporting to issuers	<p>Requested clarity on how ASX proposes that issuers will administer the benefit of the corporate action for locked holdings, and ultimately reconcile and adjust entitlements.</p> <p>There should be a mechanism to provide issuers with operational visibility of holdings with units that are not available for processing and to notify issuers of non-applied adjustments/transformations for those locked holdings. Failure to notify the issuer that an adjustment or transformation has not been applied creates risk for the administration of corporate actions, impacting reconciliation and management of entitlements of individual shareholders.</p> <p>Existing mechanism to view this information via a 'on demand' report is not effective for this purpose. If information on locked or 'unavailable units' is to be made available via a node, the cost to access a node and charges for accessing the data must be available.</p>	<p><i>Clarity on how issuers administer benefit of corporate action for locked holdings</i></p> <p>ASX has made further rule amendments to ASXSOR 8.15.19 and 14.1.7 to provide greater clarity on the circumstances in which holding adjustments will be permitted to be carried out on holdings subject to a holder record lock, holding lock, settlement lock, demand lock or subposition.</p> <p>These changes provide that holding adjustments in connection with holdings subject to a <i>holder record lock</i> or <i>holding lock</i> will be permitted in the following circumstances.</p> <ul style="list-style-type: none"> • Holding adjustments initiated due to a reconstruction. The rationale for this is that a reconstruction (e.g. a share consolidation or share split) preserves the value of financial products. • Holding adjustments that increase the number of securities in a holding. The rationale for this is that an increase in the number of units (e.g. through a corporate action involving a voluntary top 	ASXSOR 8.15.19 and 14.1.7

³⁶ For example, where financial products have been provided as Cover for margin obligations of a clearing participant, the controlling participant for that holding can request their release from the subposition which is subject to approval by ASX Clear (and where the controlling participant is not the clearing participant in respect of whose margin obligations the financial products were reserved in a subposition as Cover, the clearing participant) – refer to ASXSOR 14.8 including as amended in the draft tranche 1 rule amendments

Further discussion on appropriate protocols for handling the position of locked holdings is necessary.

ASX should review the types of corporate actions that may be impacted by the various types of locks and confirm the impact on issuers, to support effective engagement on the proper handling of locked holdings. In particular, it is unclear how a Scheme of Arrangement may be managed in the event of locked holdings. Will the lock be lifted to allow completion of the master transfer, which is the instrument used to transfer units from existing investors to the bidder, and give effect to the scheme?

up facility) does not affect the value of financial products subject to a holding lock or holder record lock.

- Holding adjustments initiated on a holding that is subject to a holder record lock due to bankruptcy or death of the holder. This is consistent with CHES today, which permits issuers to give effect to holding adjustments where the holder record lock has been applied due to the death or bankruptcy of a CHES holder.

Holding adjustments initiated in relation to financial products held in *subposition* will similarly be permitted to occur where the holding adjustment relates to a reconstruction, or the holding adjustment increases the number of securities in the holding.

In relation to *settlement locks* and *demand locks*, a note to ASXSOR 8.15.19 is being introduced to account for the lifting of such locks upon notification of the reconstruction from the listing market operator under proposed ASXSOR 8.26.1(d), prior to receipt of a message from the issuer initiating the holding adjustment.

Given the nature of settlement locks and demand locks - being to prevent a deduction from the holding of the relevant number of securities that are subject to a transfer, holding adjustments that increase the number of securities in a holding fall outside such concepts and are presently facilitated, without requiring any equivalent drafting changes. A note to ASXSOR 8.15.19 is also being introduced to reflect this.

Mechanism to provide issuers with operational visibility of locked holdings

As set out in our response to consultation on the tranche 1 rule amendments (see row 43 of Attachment A to that consultation paper), an issuer will have access to both a “total balance” and “available balance” for each HIN. The difference between these two balances will be securities that are subject to any type of lock (e.g. holding lock) or subposition (e.g. in favour of ASX Clear for securities

provided as cover for margin obligations or in favour of a participant bidder for securities accepted into a takeover bid).

Using this information, an issuer will have visibility as to the number of available securities for performance of transactions or other processes in the system (e.g. a holding adjustment or financial products transformation). Tranche 3 rule amendments will address changes to reporting, but we note that the total security balance report will identify the “total balance” and “available balance” and will be sent to an issuer on an unsolicited basis, without requiring the issuer to separately request the report.

Issuers will also be notified if a holding adjustment has not been applied due to a lock or subposition. In the event an issuer sends a message requesting a holding adjustment that will decrease the number of securities in a HIN by more than the available balance, that holding adjustment message will be rejected and the issuer notified of that rejection.

Protocols for handling locked holdings

As set out in our response to consultation on the tranche 1 rule amendments (see row 43 of Attachment A to that consultation paper) and in row [75] above, if an issuer wishes to initiate a holding adjustment or financial product transformation that is not permitted, an issuer can discuss this with the relevant controlling participant, holder or ASX Settlement to establish an appropriate way forward. This discussion enables the purpose for which a lock was originally applied (e.g. the terms of any applicable court order) to be taken into consideration, rather than the system providing for the automatic processing of these requests which would not recognise the original purpose for which a lock was applied.

This is also the case for subpositions, with the issuer able to discuss a way forward with the party in whose favour the subposition has been imposed. This discussion enables the purpose for which the

subposition was applied to be taken into consideration, e.g. so as not to circumvent a subposition in favour of the third party (e.g. a security interest in favour of ASX Clear for securities provided as Cover or a takeover subposition in favour of a bidder for securities accepted into an offer), rather than the system providing for the automatic processing of these requests which would not recognise the original purpose for which a subposition was applied.

ASX should review the types of corporate actions that may be impacted by a lock or subposition, e.g. a scheme of arrangement

ASX considers that the further rule amendments to ASXSOR 8.15.19 and 14.1.7 make it clearer as to the types of corporate actions that will not be impacted by a lock or subposition.

As also indicated in row [75] above, the amendments to ASXSOR 8.5.1(ab) included with the Tranche 1 Rule Amendments Response to Consultation Feedback³⁷ for the automatic lifting of a settlement lock or demand lock on a suspension of securities make it clearer that such locks will not restrict an issuer from initiating a holding adjustment giving effect to certain corporate action events while the securities are suspended.

In the case of a scheme of arrangement, we have summarised the position in the table below:

Table 1: Scheme of arrangement that results in an increase to the number of units in a holding

Type of lock/subposition	Is the holding adjustment permitted?
Holding lock	Permitted, as increasing the number of securities

79. Optional vs mandatory	Requested clarity that the electronic processing of the following elements of the new system will be optional functionality:	ASX had previously announced that certain new features would be made available on an ‘optional’ basis on Day 1, with technical accreditation and operational readiness required to be achieved by

functionality for Day 1

- Dividend and distribution reinvestment plan (DRP) and bonus share plan (BSP) elections.
- Entitlement acceptances.
- Real time gross settlement.
- Takeovers and buybacks.
- Diary adjustments.
- Holding adjustments

Noted that their preference is for the above functionality to remain an optional feature for participants.

Requested clarification as to whether the proposed optional functionality outlined above is likely to be implemented as a mandatory service in the future and if so, any timeframes anticipated for this change.

a later date (which at the time was contemplated to be 31 December 2021).

As set out in section 2.3 of the [CHES Replacement: Revised Implementation Timetable](#) consultation paper released in June 2020, the functionality for:

- Non-batch DvP bilateral settlement (including related RTGS payment);
- DRP / BSP elections and DRP/BSP enquiries; and
- Entitlement acceptances of entitlement offers (including related RTGS payment),

was not contemplated to be available in production on Day 1 of the new system, with such functionality contemplated to become available after Day 1 as a 'release version 1.1'.

ASX has sought feedback from users through that consultation paper on when they would be ready (after planned Day 1 go live of April 2022) to commence the technical accreditation, operational readiness and go-live activities for the new system features that were contemplated to be implemented in release version 1.1. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

It will be optional for participants to use the above new functionality, although issuers will be obliged to support the new DRP/BSP election and enquiry functionality and entitlement acceptance functionality. The other aspects referred to (takeovers and buybacks, diary adjustments and holding adjustments) – which represent existing functionality, will be part of the Day 1 of the new system. As such, participants will be subject to any obligations

specified for that functionality, as specified in the existing rules and any draft rule amendments relating to that functionality.

The following functionality should be descope from the Day 1 implementation pending a full review:

- Dividend and distribution reinvestment plan (DRP) and bonus share plan (BSP) elections (Rule 5.19A)
- Entitlement acceptances and related RTGS electronic payment for entitlement offers (Rules 5.21A, 5.21B, 4.1.3, 4.4B & 11.5),
- Specific changes relating to Holdings Adjustments (Rule 8.15).

The review should include considerations on burdens and benefits for issuers of proposed solutions, with scope for simplification of designs.

The new DRP and BSP election functionality and the entitlement acceptance and related payment functionality address business requirements generated through engagement with industry in 2017 and 2018.

The proposed solution design for such new functionality was also determined following consultation with stakeholders through Focus Groups and the Technical Committee and as communicated publicly in the Technical Documentation released by ASX in respect of such functionality.

Please refer to section 2.2.16, 2.2.17 and 2.2.18 of the 2018 consultation paper and sections 1.2 and 1.3 of the Tranche 2 Consultation Paper for information relating to such business requirements and solution design processes.

As set out in section 2.3 of the [CHESS Replacement: Revised Implementation Timetable](#) consultation paper released in June 2020, the functionality for:

- DRP / BSP elections and DRP/BSP enquiries;
- Entitlement acceptances and related RTGS electronic payment for entitlement offers,

was not contemplated to be available in production on Day 1 of the new system, with such functionality contemplated to become available after Day 1 as a 'release version 1.1'.

ASX has sought feedback from users through that consultation paper on when they would be ready (after planned Day 1 go live of April 2022) to commence the technical accreditation, operational readiness and go-live activities for the new system features that were contemplated to be implemented in release version 1.1. The timing

for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

As also indicated in rows [1] and [28], ASX is making amendments to the DRP/BSP election functionality and the entitlement acceptance functionality in response to the feedback received through this consultation, including to reduce complexity of the DRP / BSP functionality and provide greater visibility to issuers of pending entitlement acceptances as requested through the feedback.

Refer to rows [75] and [76] above in relation to holding adjustments. These changes are proposed to become effective for Day 1 of the new system.

80. **Test environments**

Will there will be any mandatory requirement for all participants to test optional functionality in the Industry Test Environment (once available), and if so, supply any results of such testing to ASX?

ASX had previously announced that certain new features would be made available on an 'optional' basis on Day 1, with technical accreditation and operational readiness required to be achieved by a later date (which at the time was contemplated to be 31 December 2021).

As set out in section 2.3 of the [CHES Replacement: Revised Implementation Timetable](#) consultation paper released in June 2020, the functionality for:

- Non-batch DvP bilateral settlement (including related RTGS payment);
 - DRP / BSP elections and DRP/BSP enquiries; and
 - Entitlement acceptances of entitlement offers (including related RTGS payment),
-

was not contemplated to be available in production on Day 1 of the new system, with such functionality contemplated to become available after Day 1 as a 'release version 1.1'.

ASX has sought feedback from users through that consultation paper on the when they would be ready (after planned Day 1 go live of April 2022) to commence the technical accreditation, operational readiness and go-live activities for the new system features that were contemplated to be implemented in release version 1.1. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in our response to consultation on the revised implementation timeline (planned for release in late October / early November 2020).

The late and unexpected changes to specifications for investor data (including new address lines and TFN treatment) and delay in the specifications for reporting has resulted in registry-critical components being left out of "CDE 7". Release date for ITE for such items is also still to be announced. This is an unacceptable delay for a key stakeholder group.

ASX continues to consult on cut-over related topics via the Implementation & Transition Working Group (I&TWG) webinars, from which a new requirement relating to holder type and 4th - 5th address lines was identified. This was subsequently presented to the Technical Committee for message ratification, prior to being included in the technical documentation and is scheduled for release as working code in code drop 9.

As communicated via the I&TWG webinars and ASX's consultation paper on the revised timetable, all message specifications relating to clearing and settlement functionality have been released to the technical documentation portal as at April 2020 to enable CHES users to develop to these features. The distribution of working code for certain features into code drops 8 and 9 (from previously advised code drop 7) will enable CHES users to develop and functionally test those features ahead of entry into any industry test environments (ITE), including entry into ITE1.

81. **Project timeline**

Concerned with the overall project timeline. The announcement of a pause in the project go-live date should have allowed stakeholders and ASX to have a

As set out in the [CHES Replacement: Revised Implementation Timetable](#) consultation paper released on 30 June 2020, ASX has proposed the deferral to April 2022 (i.e. for 12 months) of go-live

measured and informed dialogue about the next phase of the project.

We expect the consultation on the revised timeline to address:

- project re-scoping, to focus on delivery of core elements of CHES replacement Day-1 (de-scoping of functionality that is not core to the role and responsibilities of a settlement facility);
- establishment of adequate cost-benefit analysis for all elements of the project that will proceed, and timely communication of this and of cost and fee impacts for all users;
- project governance, ensuring that stakeholders are given the opportunity for input on project scope, definition, and schedule on a timely and properly informed basis, and that ASX gives proper consideration to and appropriate incorporation of stakeholders' feedback, on an accountable basis;
- the role of ASIC and RBA, acting more directly in the project oversight and governance; and
- the role of ACCC, to more directly engage in the project scope to protect and guide competitive market outcomes.

The project timeline should realistically reflect the impact of COVID-19, the looming economic and social headwinds and the scale, risk and complexity of this project, and address the impending question, "What is the Plan B?"

for the new system, and sought feedback from users as to their ability to meet such revised timing.

Additionally, the functionality for:

- Non-batch DvP bilateral settlement (including related RTGS payment);
- DRP / BSP elections and DRP/BSP enquiries; and
- Entitlement acceptances of entitlement offers (including related RTGS payment),

was not contemplated to become available in production until after Day 1 as a 'release version 1.1'.

ASX sought feedback from users through that consultation paper on when they would be ready (after planned Day 1 go live of April 2022) to commence the technical accreditation, operational readiness and go-live activities for the new system features that were contemplated to be implemented in release version 1.1.

The consultation period under that paper closed on 28 July 2020. ASX is considering the consultation feedback and intends to release its response to consultation feedback in late October / early November 2020. The timing for implementation of the release 1.1 functionality and the timing for progressing the associated rules is subject to consideration, with the market to be updated in that response to consultation.

A summary of the consultation undertaken to date on the CHES Replacement Project to define the business requirements and solution design for the new system is set out in ASX's supplementary submission to the Senate Select Committee on Financial Technology

	<p>Supportive of ASX replanning the implementation of the replacement system. Recommend ASX consider a deferral of the project implementation timeline by a minimum of 12 months to allow industry participants and stakeholders to adapt and recover their business models in order to better manage the implementation of the technical and procedural regulatory changes associated with the new technology being delivered.</p>	<p>and Regulatory Technology³⁸. This submission also sets out the engagement with the regulatory agencies on the project.</p>
<p>82. Rules consultation process</p>	<p>Responses received by ASX on Tranche 1 consultation (12) shows lack of engagement on the rule changes and is due to scale and complexity of proposals and short response timeframe involving the holiday period.</p> <p>Timing of release of tranche 1 consultation paper response did not allow stakeholders to consider this response document and import comments relevant to tranche 2 before tranche 2 submissions were due to be provided to ASX. This makes it difficult for stakeholders to establish clarity and certainty on the regulatory changes being proposed.</p> <p>ASX should provide longer timeframes for consultation responses and formalise the provision of a consultation on the comprehensive rule package post-Tranche 3.</p>	<p>ASX has sought to make the rules for new system functionality available to the market at an early stage, rather than waiting until all rules were available for the new system following completion of the solution design process. This responded to industry feedback received, including through the Focus Group and ISO Technical Committee stakeholder engagement forums.</p> <p>Accordingly, ASX published a timetable in September 2019 which involved consulting on the required rule changes for the new system in three tranches. Each tranche would group related sets of rules reflecting the logical development of clearing and settlement aspects³⁹ – allowing for feedback on a stand-alone basis on each tranche.</p> <p>Consultation on the draft rule amendments follows an extensive consultation process with industry on the replacement of CHES. To date, there have been three formal public consultation processes and a significant number of stakeholder forums conducted throughout 2017 – 2019, which have provided stakeholders the opportunity to provide input into the evolution of the business requirements and solution design for the new system.</p>

³⁸ Refer to submission no. 44 available here:

https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Financial_Technology_and_Regulatory_Technology/FinancialRegulatoryTech/Submissions

³⁹ For example, tranche 1 covers off: accounts, participants and securities aspects - which are building blocks for other activities in the system; and pre-settlement activities - which are a pre-requisite to payments and settlements covered off in the second and third tranches

Accordingly, the rule amendments support and reflect business requirements and solution design that have been subject to significant stakeholder engagement. Further information on the consultation processes undertaken to date (including through previous public consultation papers and Focus Groups and ISO 20022 Technical Committee meetings) is contained in the Consultation Paper for the Tranche 1 Rule Amendments.

Given the comprehensive nature of the consultation undertaken already, the objective of the tranche 1 consultation was to seek feedback on the proposed rule amendments and any unintended consequences of those rule amendments. The number of submissions received (12 submissions) is comparable with the number of submissions ASX has received in relation to previous public consultations on clearing and settlement rule amendments.

We also note that stakeholders will have the opportunity to provide feedback on the consolidated rules package across the three tranches of rule amendments (together with the tranche 3 rule amendments on a stand alone basis), as part of a further public consultation ASX intends to undertake (which was contemplated to commence early November 2020 in the [CHES Replacement: Revised Implementation Timetable](#) consultation paper released on 30 June 2020). This proposed a 15 week consultation period for that further consultation and sought feedback from users as to that timing.

The consultation period under that paper closed on 28 July 2020. ASX is considering the consultation feedback and intends to release its response to consultation feedback in late October / early November 2020. The timing for the consultation on the consolidated rules package and the tranche 3 rule amendments is subject to consideration, with the market to be updated in that response to consultation.

The consultation and rule making process has not been structured in a way that provides full transparency to stakeholders and did not allow for adequate feedback to be provided by those stakeholders likely to be most impacted by the changes. The approach by ASX is not consistent with previous functional development undertaken, which included comprehensive explanatory material and supporting documentation which highlighted the impacts and benefits to consumers, providers and other participants.

ASX has mentioned that the proposed new rules and proposed rule amendments are required to support the operation of the system. However, there are key sections in the rules, particularly ASXSOR 5.19A and 5.21A and in Section 11, which oblige issuers and their service providers to undertake new responsibilities beyond the workings of settlement and safekeeping and without the expected benefits ASX describes will flow from CHES Replacement.

Consultation on the draft rule amendments follows an extensive consultation process with industry on the replacement of CHES. To date, there have been two formal public consultation processes and a significant number of stakeholder forums conducted throughout 2017 – 2019, which have provided stakeholders the opportunity to provide input into the evolution of the business requirements and solution design for the new system. The rule amendments support and reflect the business requirements and solution design that have been subject to significant stakeholder engagement.

Importantly, the new features to be delivered in the new system (e.g. DRP/BSP elections, entitlement acceptance and related payment functionality) respond to industry generated business requirements through working groups and formal consultation processes which called for such new features.

Further information on the consultation processes undertaken to date (including through:

- previous industry working groups and public consultation papers to determine the business requirements for the new system; and
- through Focus Groups and ISO 20022 Technical Committee meetings to determine the solution design and messaging for functional elements in the new system, including those new features),

is contained in the Consultation Paper for the Tranche 2 Rule Amendments.

Given the comprehensive nature of the consultation undertaken already, the objective of the rules consultation is to seek feedback on the proposed rule amendments and any unintended consequences of those rule amendments.

As also indicated in rows [1] and [28], ASX is making amendments to the DRP/BSP election functionality and the entitlement acceptance functionality in response to the feedback received through this

consultation, including to reduce complexity of the DRP / BSP functionality and provide greater visibility to issuers of pending entitlement acceptances as requested through the feedback.

We also note that stakeholders will have the opportunity to provide feedback on the consolidated rules package across the three tranches of rule amendments, as part of a further public consultation ASX intends to undertake (which was contemplated to commence early November 2020 in the [CHES Replacement: Revised Implementation Timetable](#) consultation paper released on 30 June 2020).

The consultation period under that paper closed on 28 July 2020. ASX is considering the consultation feedback and intends to release its response to consultation feedback in late October / early November 2020. The timing for the consultation on the consolidated rules package and the tranche 3 rule amendments is subject to consideration, with the market to be updated in that response to consultation.

83. Overall project consultation process	<p>There has been insufficient consultation with industry stakeholders in relation to the new functional elements of the new system and stakeholders are not yet in the position to fully understand their obligations, the financial risks and costs associated; and most importantly the benefits of the potential new features.</p>	<p>The CHES replacement project has involved a significant program of engagement with stakeholders over the last four years since 2016. Consultation with industry has included:</p>
	<p>Questions whether the presentation material, the time allocated to the Focus Groups, and disjointed engagement with the CHES user community has been extensive enough to create a foundation for the new functions for the market.</p>	<ul style="list-style-type: none"> • six formal public consultations, including consultations on rule amendments and on a revised implementation timetable; • Business Committee and Technical Committee meetings; • six working groups in 2017 to identify, define and prioritise stakeholder requirements; • focus groups throughout Q4 2018 and 2019 on detailed solution design; • a Connectivity and Integration Working Group and an Implementation and Transition Working Group;

- hundreds of demonstrations, workshops and bilateral meetings with stakeholders.

ASX been responsive to feedback, making further changes to the scope of 'day 1' implementation of the system and over 70 refinements to the detailed design.

ASX has also released two consultation papers on amendments to the relevant operating rules, containing over 140 pages of supporting explanatory information to help stakeholders understand and easily identify the changes that are relevant to them.

Information on the underlying stakeholder engagement processes specific to the functional elements covered in the tranche 1 and tranche 2 rule amendments is contained in the consultation papers for the tranche 1 rule amendments and tranche 2 rule amendments.

Given the comprehensive nature of the consultation undertaken already, the objective of the rules consultation process is to seek feedback on the proposed rule amendments and any unintended consequences of those rule amendments.

There are unexpected operational and regulatory outcomes in the Rule amendments that cannot be found in technical documentation and/or were not readily apparent in the communications. The tranche 2 rule amendments include further changes (cumulative to tranche 1 rule amendments) restricting the application of holding adjustments to any locked units (other than for reconstructions).

The operating rules for ASX Clear and ASX Settlement establish the legal framework supporting the functionality and solution for existing CHES and the new system within the broader legal and regulatory framework in which ASX's clearing and settlement facilities operate. This includes addressing through those operating rules, obligations or restrictions that are considered appropriate for that purpose.

The rules consultation processes are specifically for the purpose of facilitating stakeholder feedback on such rules aspects, including any unintended consequences of the rule amendments.

Please refer to rows [75] and [76] above regarding the application of holding adjustments in relation to locked holdings or holdings subject to a subposition.

84. Migration of registration details	<p>It is not clear how ASX intends to address the legal framework, including liability, relating to migration of existing registration details to the new ISO 20022 format. Will this form part of the ‘miscellaneous’ component of the Tranche 3 Rule Amendments Consultation?</p> <p>Does not support migration through a tool provided by ASX or other means provided by the user. Participants are currently responsible for all changes to registration details for sponsored holders, and indemnify ASX and/or issuers for the consequences of any error in changes to registration details. Migration should not disrupt this apportionment of responsibility.</p>	<p>ASX notes that migration aspects (including customer conversion tools to be made available for the purposes of migration) have been discussed in industry forums, including the Implementation and Transition Working Group. Presentation material and the webinar recording for each of these working group meetings is available on the CHES replacement website.⁴⁰</p> <p>As indicated in the CHES Replacement: Revised Implementation Timetable consultation paper released in June 2020, migration aspects for the transition to the new system will be covered off as part of the tranche 3 rule amendments as part of the transitional rules for the new system (refer to section 5 of that paper). As part of this, ASX is giving further consideration as to whether any aspects of the migration of existing registration details to the new system should be supported by such transitional rule amendments.</p>
85. Pricing and fees	<p>Requested visibility of fees for new services that issuers are mandated to provide under the rules.</p> <p>Requested details on fees to allow industry to evaluate the value of new functionality and investment costs in upgrading systems, processes and operating models.</p> <p>Requested detail on the likely fee structure associated with the new application process for rights issues and share purchase plans and attendant RTGS payments.</p>	<p>Pricing in relation to the new system will be made available at least 12 months prior to go-live of the relevant functionality.</p>
86. Cost-benefit analysis	<p>Requested cost-benefit analysis for new services that issuers are mandated to provide under the rules.</p> <p>Requested ASX outline benefits of new system, including costs and outcomes for consumers, providers and other participants and outline the savings and quality improvements, to allow industry to evaluate the value of these new functions and making appropriate</p>	<p>The new features to be delivered in the new system (e.g. DRP/BSP elections, entitlement acceptance and related payment functionality) respond to industry generated business requirements through working groups and formal consultation processes which called for such new features.</p> <p>Further information on the consultation processes undertaken to date (including through previous industry working groups and public</p>

consultation papers to determine the business requirements for the new system) and the enhancements being delivered through the new system is contained in the Consultation Paper for the Tranche 2 Rule Amendments.

Attachment B: Overview of further tranche 2 rule amendments following consultation feedback

Tables 1 to 2 below set out the changes ASX is making to the tranche 2 rule amendments following consultation feedback. Changes are proposed to the ASX Settlement Operating Rules (see Table 1) and ASX Settlement Operating Rule Procedures (see table 2). No further changes are proposed to the ASX Clear Operating Rules, ASX Clear Operating Rule Procedures or ASX Enforcement and Appeals Rulebook as a result of consultation feedback.

- The column “Change proposed in Tranche 2 Consultation Paper” shows the original rule amendments (marked up in [blue](#) against the existing rule).
- Where there is any text in [yellow](#) highlight, this reflects rule changes made as part of the Tranche 1 Consultation paper.
- The column “Revised change following Tranche 2 feedback” shows the revised mark-up proposed to the rule (also marked up against the existing rule). ASX has made these further changes clear in this column in [red](#) mark-up.

5.19A CORPORATE ACTIONS – DIVIDEND REINVESTMENT PLAN AND BONUS SHARE PLAN ELECTION MESSAGING

5.19A.1 ~~Corporate Action~~ Plan Record creation and removal

(a) If an Issuer, in respect of Approved Financial Products, ~~notifies the Approved Listing Market Operator in accordance with its Listing Rules~~ publicly releases a market announcement of a dividend or other distribution reinvestment plan or bonus share plan through the public announcement platform of the Approved Listing Market Operator in accordance with its:

(i) Listing Rules; or

(ii) operating rules under which the Issuer applied for admission of the class of Financial Products to trading status.

the Issuer must also immediately notify ASX Settlement of ~~the details of that dividend or other distribution reinvestment plan or bonus share plan~~ that announcement.

(b) ASX Settlement will create a ~~Corporate Action~~ Plan Record in respect of the Issuer for the relevant dividend or other distribution reinvestment plan or bonus share plan ~~notified to~~ announced through the public announcement platform of the Approved Listing Market Operator as referred to in Rule 5.19A.1(a) ~~of which ASX Settlement is informed~~:

(i) on or after the commencement date of that Rule, of which ASX Settlement is aware, including where it has been notified of that announcement under Rule 5.19A.1(a); or

(ii) prior to the commencement date of Rule 5.19A.1(a), of which ASX Settlement is aware (and is not otherwise aware of an announcement as to the cancellation of that plan).

(c) If the Issuer, in respect of Approved Financial Products, ~~notifies the Approved Listing Market Operator in accordance with its Listing Rules~~ publicly releases a market announcement of any change to, or cancellation of, a dividend or other distribution reinvestment plan or bonus share plan through the public announcement platform of the Approved Listing Market Operator in accordance with its:

(i) Listing Rules; or

(ii) operating rules under which the Issuer applied for admission of the class of Financial Products to trading status.

the Issuer must also immediately notify ASX Settlement of the details of that

~~change to or cancellation of the dividend or other distribution reinvestment plan or bonus share plan announcement.~~

- (d) ASX Settlement will for a ~~Corporate Action Plan Record~~ created under Rule 5.19A.1(b); ~~(i) —~~, update or remove that ~~Corporate Action Plan Record~~ for a change or cancellation ~~notified to~~ announced through the public announcement platform of the Approved Listing Market Operator as referred to in Rule 5.19A.1(c) (as applicable) of which ASX Settlement is aware, including where it has been notified of that announcement under Rule 5.19A.1(c). ~~informed; and~~

~~(ii) pending election for the same Election Option Type for the CHES Holding in respect of the relevant dividend or other distribution reinvestment plan or bonus share plan recorded under Rule 5.19A.2(b)(i);~~

~~an update to that election by the Issuer may only be facilitated via a:~~

~~(iii) cancellation of the accepted election under Rule 5.19A.5(c); or~~

~~(iv) rejection of the pending election for the same Election Option Type under Rule 5.19A.2(c);~~

~~and the provision of a new notification under Rule 5.19A.3(a).~~

~~(d) If there is an existing accepted election for part of the CHES Holding in respect of the relevant dividend or other distribution reinvestment plan or bonus share plan recorded under Rule 5.19A.2(d)(i), Rule 5.19A.3(b)(i) or Rule 5.19A.3(b)(ii), an update to that election by the Issuer such that the new election is for all of the CHES Holding (as specified in the Procedures) may only be facilitated via a cancellation of the accepted election under Rule 5.19A.5(c) and the provision of a new notification under Rule 5.19A.3(a).~~

5.19A.4 Priority of elections

For the avoidance of doubt, if in relation to a dividend or other distribution reinvestment plan or bonus share plan for all or part of a CHES Holding, the Issuer is notified of multiple elections under Rule 5.19A.2(b)(ii) or otherwise, or is notified of a cancellation of an election under Rule 5.19A.5(b)(ii)(A) or otherwise, the Issuer may determine the sequence in which the notifications were received and which takes priority for the purpose of its processing such elections or cancellations under its dividend or other distribution reinvestment plan or bonus share plan (including its acceptance or rejection of a notified election or cancellation).

5.19A.5 Cancellation of election

(a) If for:

- (i) a pending election request recorded by ASX Settlement for all or part of a CHESS Holding under Rule 5.19A.2(b)(i) which has not been removed under Rule 5.19A.2(d)(i); or
- (ii) an ~~accepted~~ election recorded by the Issuer for all or part of a CHESS Holding (including an election notified by ASX Settlement for all or part of a CHESS Holding under Rule 5.19A.2(d)(i), b)(ii) which the Issuer has acknowledged under Rule 5.19A.3(b)(i) or 5.19A.3(b)(ii)-2(c)).

the Controlling Participant seeks to cancel that pending election request or ~~accepted~~ election, the Controlling Participant:

- (iii) must (in the case of a pending election request referred to in Rule 5.19A.5(a)(i)); or
- (iv) may (in the case of an ~~accepted~~ election referred to in Rule 5.19A.5(a)(ii)).

Transmit to ASX Settlement a Valid Election Cancellation Message within the Scheduled Time in accordance with the Procedures, notifying of that cancellation.

(b) If ASX Settlement receives a Valid Election Cancellation Message under Rule 5.19A.5(a), ASX Settlement will:

- (B) an election recorded by the Issuer as referred to in ~~ASX Settlement under Rule 5.19A.2(d)(i), 5.19A.3(b)(i) or 5.19A.3(b)(ii) (as applicable); and~~ 5(a)(ii), record a pending cancellation request in relation to the election;

(ii) Transmit a Message to:

- (A) the Issuer notifying of the cancellation ~~of the pending election request or accepted election~~ in accordance with the Election Cancellation Message; and
- (B) the Controlling Participant ~~for that Holding~~ initiated the cancellation, notifying in the case of a cancellation of:
 - a. a pending election request recorded by ASX Settlement as referred to in Rule 5.19A.5(a)(i), of the cancellation and removal of ASX Settlement's record of the pending election

~~request under Rule 5.19A.5(b)(i)(A); or accepted election (as applicable) in accordance with the Election Cancellation Message under Rule 5.19A.5(b)(i).~~

b. an election recorded by the Issuer as referred to in Rule 5.19A.5(a)(ii), that a pending cancellation request has been recorded in relation to that election.

Note: The cancellation of an election under Rule 5.19.5(a) which is notified to the Issuer under Rule 5.19A.5(b) continues to be subject to ~~acceptance or rejection~~ the processing and validation of that cancellation by the Issuer in accordance with the relevant plan rules.

(c) If an Issuer receives a Valid Message from ASX Settlement under Rule 5.19A.5(b)(ii)(A) (other than in relation to the cancellation of a pending election request recorded by ASX Settlement as referred to in Rule 5.19A.5(a)(i)), the Issuer must either acknowledge or reject the relevant cancellation, and must Transmit a Corporate Action Election Status Advice Message to ASX Settlement within the Scheduled Time in accordance with the Procedures, notifying of the acknowledgement or rejection of the cancellation by the Issuer.

(d) If ASX Settlement receives a Valid Corporate Action Election Status Advice Message under Rule 5.19A.5(c), ASX Settlement will:

(i) remove the pending cancellation request recorded under Rule 5.19A.5(b)(i)(B);

(ii) Transmit a Message to the Controlling Participant that notified the relevant cancellation under Rule 5.19A.5(a), notifying it of the acknowledgement or rejection of that cancellation by the Issuer in accordance with the Corporate Action Election Status Advice Message; and

(iii) Transmit a Message to the Issuer acknowledging the receipt of the Corporate Action Election Status Advice Message under Rule 5.19A.5(c).

~~(ee)~~ If for an ~~accepted~~ election notified to an Issuer ~~recorded by ASX Settlement~~ for all or part of a CHESS Holding under Rule 5.19A.2(b)(ii) which the Issuer has acknowledged under Rule 5.19A.2(c) ~~d)(i), 5.19A.3(b)(i) or 5.19A.3(b)(ii)~~, the Issuer cancels that election at the Issuer's instigation, the Issuer must Transmit to ASX Settlement a Valid Election Cancellation Message within the Scheduled Time in accordance with the Procedures, notifying of that cancellation.

Note: Rule 5.19A.5(e) is limited to issuer-instigated cancellations. The rule does not extend to cancellations notified to Issuers under Rule 5.19A.5(b)(ii)(A) or cancellations notified directly to the Issuer by Holders.

~~(d)~~ If ASX Settlement receives a Valid Election Cancellation Message under Rule 5.19A.5 ~~(ee)~~, ASX Settlement will:

~~(i)~~ cancel and remove the ~~accepted~~ election recorded under Rule 5.19A.2(d)(i), Rule 5.19A.3(b)(i) or 5.19A.3(b)(ii) (as applicable); and

~~(i) Transmit a Message to the Issuer and the Controlling Participant for that CHESS Holding, notifying it of the cancellation of the election by the Issuer in accordance with the Election Cancellation Message; and~~

~~(ii) Transmit a Message to the Issuer acknowledging the receipt of the Election Cancellation Message under Rule 5.19A.5(e).~~

~~(e) If an Issuer is notified of multiple elections or cancellations for all or part of a CHESS Holding in respect of a relevant dividend or other distribution reinvestment plan or bonus share plan and the Issuer is required to notify ASX Settlement of:~~

~~(i) the acceptance or rejection of an election under Rule 5.19A.2(c) or Rule 5.19A.3(a); or~~

~~(ii) the cancellation of an election under Rule 5.19A.5(c);~~

~~(as applicable) and the Scheduled Times for the Issuer to provide such notifications overlap, the Issuer must notify ASX Settlement of the relevant acceptance, rejection or cancellation in the sequence as processed and recorded by the Issuer.~~

~~Note: Rule 5.19A.5(e) seeks to support the record maintained by ASX Settlement under Rule 5.19A.2(b), 5.19A.2(d), 5.19A.3(b), 5.19A.5(b) and 5.19A.5(d) as to an election notified for all or part of a CHESS Holding in respect of a relevant dividend or other distribution reinvestment plan or bonus share plan being aligned with the election status as recorded by the Issuer for the purpose of ASX Settlement's processing of elections and cancellations of elections notified under Rules 5.19A.2, 5.19A.3 and 5.19A.5.~~

5.19A.6 Housekeeping of pending elections

If for:

~~(a) a pending election request has been recorded in accordance with Rule 5.19A.2(b)(i), and, or~~

~~(b) a pending cancellation request recorded in accordance with Rule 5.19A.5(b)(i),~~

~~a Corporate Action Status Advice Message has not been received by ASX Settlement from the Issuer within the Scheduled Time, ASX Settlement will cancel remove the pending election request recorded under Rule 5.19A.2(b)(i) or pending cancellation request under Rule 5.19A.5(b)(i) (as applicable) and notify the relevant Controlling Participant and Issuer of such cancellation.~~

5.19A.7 Warranty by Controlling Participant or Issuer

A:

~~(a) Controlling Participant that Transmits an Election Participant Notification Message under Rule 5.19A.2(a);~~

~~(b) Issuer that Transmits an Election Issuer Notification Message under Rule 5.19A.3(a);~~

~~(e)~~ Controlling Participant that Transmits an Election Cancellation Message under Rule 5.19A.5(a); or

~~(d)~~ Issuer that Transmits an Election Cancellation Message under Rule 5.19A.5(e).

is taken to have warranted that the Controlling Participant was authorised or the Issuer was legally entitled ~~or authorised (as applicable)~~ to notify an election or cancellation of an election for all or part of a CHESS Holding in relation to the relevant dividend or other distribution reinvestment plan or bonus share plan (as applicable) pursuant to such Transmitted Message.

Note: The legal entitlement or authority of a Controlling Participant or Issuer for the purpose of the warranty under Rule 5.19A.7 could for example be as a result of an instruction by the Holder of the CHESS Holding to the Controlling Participant or ~~Issuer or~~ due to a change in the plan terms or cancellation of the plan by the Issuer.

5.19A.8 Controlling Participant or Issuer Indemnity

If a Controlling Participant or Issuer is taken under Rule 5.19A.7 to have warranted that it was legally entitled or authorised (as applicable) to notify an election or cancellation of an election for all or part of a CHESS Holding in relation to the relevant dividend or other distribution reinvestment plan or bonus share plan (as applicable) and the Controlling Participant or Issuer was not so legally entitled or authorised, the Controlling Participant or Issuer (as applicable) indemnifies:

- (a) the Issuer or Controlling Participant (as applicable);
- (b) ASX Settlement; and
- (c) the Holder,

against all losses, damages, costs and expenses arising from the Controlling Participant or Issuer (as applicable) not having been so legally entitled or authorised.

~~5.19A.9 — Plan terms to include Holder representations and warranties~~

~~In respect of a dividend or other distribution reinvestment plan or bonus share plan notified to the relevant Approved Listing Market Operator as referred to in Rule 5.19A.1(a), the Issuer must ensure that the terms and conditions of the relevant plan include terms and conditions to the effect that by:~~

- ~~(a) instructing a Controlling Participant to notify the Issuer of an election for all or part of the relevant CHESS Holding in respect of the relevant dividend or other distribution reinvestment plan or bonus share plan by Transmitting an~~

Election Participant Notification Message under Rule 5.19A.2(a), the Holder represents and warrants that they:

- (i) are legally entitled to make the relevant election;
- (ii) have read and understood, and agree to be bound by the terms and conditions of the relevant plan;
- (iii) make the relevant election in accordance with the terms and conditions of the relevant plan and authorise the Issuer to register them as a Holder of Approved Financial Products issued under the relevant plan;
- (iv) in the case of a dividend or other distribution reinvestment plan, authorise the application of the distribution or dividend amount with respect to the number of Approved Financial Products participating in the relevant plan to the allocation of additional Approved Financial Products at the price specified in, and subject to, the terms and conditions of the relevant plan; and
- (v) make all of the representations and warranties attributed to Holders as set out in the documentation setting out the terms of the relevant plan; and

- (b) notifying the Issuer of an election or cancellation of an election for all or part of the relevant CHESS Holding in respect of the relevant dividend or other distribution reinvestment plan or bonus share plan other than through their Controlling Participant, the holder authorises the Issuer to notify the Controlling Participant of that election or cancellation.

Drafting note: Rules for the provision of bank account details, including but not limited to an acceptance election under a DRP and BSP via a separate bank account notification Message will be provided in Tranche 3.

5.19A.9 Warranty and Indemnity by Issuer

- (a) In respect of a dividend or other distribution reinvestment plan or bonus share plan that has been announced through the public announcement platform of an Approved Listing Market Operator for which a Plan Record has been created and has not been removed in accordance with Rule 5.19A.1, the Issuer is taken to have warranted that a Holder that is eligible under the terms and conditions of the relevant dividend or other distribution reinvestment plan or bonus share plan to submit an election or to cancel an election for all or part of their CHESS Holding, can:
 - (i) submit such an election by their Controlling Participant Transmitting a Valid Election Participant Notification Message under Rule 5.19A.2(a); and
 - (ii) submit such a cancellation of an election by their Controlling Participant Transmitting a Valid Election Cancellation Message under Rule 5.19A.5(a).

under the terms and conditions of the relevant dividend or other distribution reinvestment plan or bonus share plan.

(b) If an Issuer is taken under Rule 5.19A.9(a) to have warranted that a Holder can submit an election or cancellation of an election in relation to the relevant dividend or other distribution reinvestment plan or bonus share plan by their Controlling Participant Transmitting a Valid Election Participant Notification Message under Rule 5.19A.2(a) or a Valid Election Cancellation Message under Rule 5.19A.5(a) (as applicable) under the terms and conditions of the relevant dividend or other distribution reinvestment plan or bonus share plan, and the Holder was not able to submit such election or cancellation in that manner under the terms and conditions of the relevant dividend or other distribution reinvestment plan or bonus share plan, the Issuer indemnifies:

(i) the Controlling Participant;

(ii) ASX Settlement; and

(iii) the Holder,

against all losses, damages, costs and expenses arising from the Holder not being able to submit the election or cancellation of the election in that manner.

5.19A.10 Enquiry request for details of election status for dividend or other distribution reinvestment plan or bonus share plan

- (a) A Controlling Participant may initiate a request for the details of the existing election status recorded by the Issuer for a CHESS Holding in relation to a dividend or other distribution reinvestment plan or bonus share plan (as applicable) by Transmitting to ASX Settlement a Valid Originating Message in accordance with the Procedures.
- (b) If an Originating Message Transmitted to ASX Settlement complies with Rule 5.19A.10(a), ASX Settlement will Transmit to the Issuer a Message requesting the Issuer to provide the details of the election status requested in the Originating Message.
- (c) If an Issuer receives a Valid Message under Rule 5.19A.10(b), the Issuer must, within the Scheduled Time, Transmit a Valid Message to ASX Settlement with the requested details of the election status.
- (d) If ASX Settlement receives a Valid Message under Rule 5.19A.10(c), it must send a Message to the Controlling Participant that initiated the request under Rule 5.19A.10(a), providing the election status details included in the Message from the Issuer under Rule 5.19A.10(c).
- (e) If an Issuer receives a Message from ASX Settlement under Rule 5.19A.10(b) and does not respond to ASX Settlement under Rule 5.19A.10(c) within the relevant Scheduled Time for response, ASX Settlement may remove the relevant request

and notify the relevant Controlling Participant and Issuer of such cancellation~~purge the unactioned Message from the Settlement Facility.~~

5.19A.11 Warranty by Controlling Participant and Issuer

- (a) A Controlling Participant that Transmits a Message under Rule 5.19A.10(a) is taken to have warranted that the Controlling Participant was legally entitled or authorised to request the details of the election status for the CHESS Holding in relation to the relevant dividend or other distribution reinvestment plan or bonus share plan (as applicable) pursuant to such Transmitted Message;
- (b) An Issuer that Transmits a Message under Rule 5.19A.10(c) is taken to have warranted that the details of the election status notified in such Message accurately represent the details of the existing election status recorded by the Issuer for the CHESS Holding in relation to the relevant dividend or other distribution reinvestment plan or bonus share plan (as applicable) at the time such Message was Transmitted.

5.19A.12 Controlling Participant and Issuer Indemnities

- (a) If a Controlling Participant is taken under Rule 5.19A.11(a) to have warranted that it was legally entitled or authorised to request the details of the election status for a CHESS Holding in relation to a dividend or other distribution reinvestment plan or bonus share plan (as applicable) and the Controlling Participant was not so legally entitled or authorised, the Controlling Participant indemnifies:
 - (i) the Issuer;
 - (ii) ASX Settlement; and
 - (iii) the Holder,

against all losses, damages, costs and expenses arising from the Controlling Participant not having been so legally entitled or authorised.
- (b) If an Issuer is taken under Rule 5.19A.11(b) to have warranted that the details of the election status notified in a Message Transmitted under Rule 5.19A.10(c) represent the details of the existing election status recorded by the Issuer for the CHESS Holding in relation to the relevant dividend or other distribution reinvestment plan or bonus share plan (as applicable) at the time such Message was Transmitted and the details of the election status notified did not represent the details of the relevant existing election status recorded by the Issuer at that time, the Issuer indemnifies:
 - (i) the Controlling Participant;
 - (ii) ASX Settlement; and
 - (iii) the Holder,

against all losses, damages, costs and expenses arising from the details of the election status notified by the Issuer not accurately representing the details of the relevant existing election status recorded by the Issuer at that time.

Note: For the purposes of this Rule 5.21A.1, Issuers are not required to notify ASX Settlement of Rights Offer or Securities Purchase Plan announcements prior to the commencement date of Rule 5.21A.1.

5.21A.2 Corporate Actions - RTGS Participants

- (a) An Issuer that notifies ASX Settlement of the details of a Corporate Action pursuant to Rule 5.21A.1(a) must either:
 - (i) be an RTGS Participant; or
 - (ii) have appointed an RTGS Participant to settle RTGS Instructions in relation to that Corporate Action in Real Time Gross Settlement.

References in Rule 5.21A and 5.21B to an RTGS Participant for the Issuer relate to the Issuer as an RTGS Participant or the RTGS Participant so appointed (as applicable).

- (b) A Controlling Participant may only provide notification to an Issuer of an offer acceptance for all or part of a CHESS Holding in respect of a Rights Offer or Securities Purchase Plan in respect of a CHESS Holding under Rule 5.21A.3(a) if it is an RTGS Participant.

5.21A.3 Corporate Action acceptance – notification by Controlling Participant

- (a) A Controlling Participant may provide notification to an Issuer of an offer acceptance for all or part of a CHESS Holding in respect of the relevant Rights Offer or Securities Purchase Plan by Transmitting to ASX Settlement a Valid Acceptance Participant Notification Message within the Scheduled Time in accordance with the Procedures. If the relevant Acceptance Participant Notification Message relates to an acceptance of an Entitlement under a Rights Offer made under a disclosure document or product disclosure statement under Chapter 6D or Part 7.9 of the Corporations Act and the Entitlement has not been renounced and transferred to the relevant CHESS Holding, the Message must include the unique reference number to identify the entitlement and acceptance form.

Note: For the purposes of this Rule 5.21A, it is noted that the term “acceptance” refers to the choice of the relevant Holder in response to the options available to that Holder under the terms of the relevant offer, and could include an application, instruction, acceptance, or other means of communicating the choice of the relevant Holder, howsoever described in the relevant offer terms.

- (b) If ASX Settlement receives a Valid Acceptance Participant Notification Message under Rule 5.21A.3(a) and a Corporate Action Record for the relevant Rights

Offer or Securities Purchase Plan has been created and has not been removed in accordance with Rule 5.21A.1, ASX Settlement will:

(i) in respect of an acceptance in relation to a Rights Offer or Securities Payment Plan:

(A) record an acceptance pending payment: ~~and~~

(B) notify the Controlling Participant that provided the acceptance notification that an acceptance pending payment has been recorded, ~~and~~

(C) notify the Issuer that an acceptance pending payment has been recorded,

in relation to the acceptance notified under Rule 5.21A.3(a); and

(ii) in respect of an acceptance in relation to a Rights Offer (other than an Oversubscription Offer):

(A) apply a Holding Lock to the relevant Holding on the applicable CHESS Rights Subregister; and

(B) notify the Controlling Participant that the Holding Lock has been applied,

in relation to the acceptance notified under Rule 5.21A.3(a).:

Note: *The acceptance and issue of Approved Financial Products under an acceptance which has been notified to the Issuer, including where payment has been made by the Controlling Participant with respect to the Rights Offer or Securities Purchase Plan, remains subject to processing and validation by the Issuer in accordance with the relevant offer terms.*

(c) Within the Scheduled Time, the Controlling Participant may initiate a Corporate Action RTGS Instruction in respect of the acceptance notified to ASX Settlement under Rule 5.21A.3(a) by Transmitting to ASX Settlement a Valid Corporate Action RTGS Message in accordance with the Procedures.

(d) If ASX Settlement receives a Valid Corporate Action RTGS Message under Rule 5.21A.3(c), then:

(i) ASX Settlement will:

(A) treat the Message as an RTGS Instruction to be settled in Real Time Gross Settlement under Section 11;

(B) update the record created under Rule 5.21A.3(b)(i)(A) to indicate that a payment instruction in RTGS has been initiated;

- (C) notify the Controlling Participant that the record created under Rule 5.21A.3(b)(i)(A) has been updated to payment initiated; and
- (ii) if the Payment Obligation under that RTGS Instruction is settled, ASX Settlement will:
 - (A) update the record updated under Rule 5.21A.3(d)(i)(B) to indicate that a payment instruction in RTGS has been completed;
 - (B) notify the Controlling Participant that the record updated under Rule 5.21A.3(d)(i)(B) has been updated to payment completed;
 - (C) Transmit a Message to the RTGS Participant for the Issuer notifying it of the offer acceptance in accordance with the Originating Message from the Controlling Participant under Rule 5.21A.3(a); and
 - (D) Transmit a Message to the RTGS Participant for the Issuer notifying it of settlement of the payment for the acceptance referred to in Rule 5.21A.3(d)(ii)(C) above.
- (iii) if the RTGS Instruction initiated under Rule 5.21A.3(c) is rejected under Rule 11.18.8(c), or if the Payment Obligation under that RTGS Instruction otherwise Fails, ASX Settlement will:
 - (A) update the record updated under Rule 5.21A.3(d)(i)(B) to record an acceptance pending payment;
 - (B) notify the Controlling Participant that the record updated under Rule 5.21A.3(d)(i)(B) has been updated to acceptance pending payment.
- (e) If, within the Scheduled Time, a Controlling Participant has not Transmitted to ASX Settlement a Valid Corporate Action RTGS Message that complies with Rule 5.21A.3(c), the acceptance notified to ASX Settlement under Rule 5.21A.3(a) will be cancelled by ASX Settlement under Rule 5.21A.6.

5.21A.4 Priority of acceptances

For the avoidance of doubt, if in relation to a Rights Offer or a Securities Purchase Plan for a CHESS Holding, the Issuer is notified of an acceptance under Rule 5.21A.3 and is also notified of an acceptance other than pursuant to 5.21A.3, or is notified of a cancellation of an acceptance, the Issuer may determine the sequence in which the notifications were received and which takes priority for the purpose of its acceptance or rejection of a notified acceptance or cancellation.

5.21A.5 Cancellation of acceptance

- (a) If for an acceptance pending payment recorded by ASX Settlement under Rule 5.21A.3(b)(i)(A), the Controlling Participant seeks to cancel that acceptance, the

Controlling Participant must Transmit to ASX Settlement a Valid Acceptance Cancellation Message within the Scheduled Time in accordance with the Procedures, notifying of that cancellation.

- (b) If ASX Settlement receives a Valid Acceptance Cancellation Message under Rule 5.21A.5(a), ASX Settlement will:
- (i) in respect of an acceptance notified in relation to a Rights Offer or a Securities Purchase Plan, cancel and remove the acceptance pending payment record created under Rule 5.21A.3(b)(i)(A);
 - (ii) in respect of an acceptance notified in relation to a Rights Offer (other than an Oversubscription Offer), remove the Holding Lock applied under Rule 5.21A.3(b)(ii)(A); ~~and~~
 - (iii) Transmit a Message to the Controlling Participant for that Holding, notifying of the cancellation of the acceptance pending payment recorded in accordance with the Acceptance Cancellation Message; ~~and~~
 - (iv) notify the Issuer of the cancellation of the acceptance pending payment recorded.
- (c) If a Valid Acceptance Cancellation Message is Transmitted to ASX Settlement by the Controlling Participant after the Scheduled Time, ASX Settlement must reject the Acceptance Cancellation Message.

5.21A.6 Housekeeping of pending acceptances

If an acceptance pending payment has been recorded in accordance with Rule 5.21A.3(b)(i)(A) or 5.21A.3(d)(iii)(A) (or updated to payment initiated under Rule 5.21A.3(d)(i)(B)) and Real Time Gross Settlement has not been completed within the Scheduled Time, ASX Settlement will:

- (a) cancel the acceptance pending payment record created under Rule 5.21A.3(b)(i)(A) or 5.21A.3(d)(iii)(A) (or payment initiated record under Rule 5.21A.3(d)(i)(B)) and notify the relevant Controlling Participant of such cancellation; and
- (b) remove the Holding Lock applied under Rule 5.21A.3(b)(ii)(A).

5.21A.7 Warranty by Controlling Participant

A Controlling Participant that Transmits an:

- (a) Acceptance Participant Notification Message under Rule 5.21A.3(a); or
- (b) Acceptance Cancellation Message under Rule 5.21A.5(a).

is taken to have warranted that the Controlling Participant was authorised to notify an acceptance or cancellation of an acceptance for all or part of a CHES Holding in relation to the relevant Rights Offer or Securities Purchase Plan (as applicable) pursuant to such Transmitted Message.

5.21A.8 Controlling Participant Indemnity

If a Controlling Participant is taken under Rule 5.21A.7 to have warranted that it was authorised to notify an acceptance or cancellation of an acceptance for all or part of a CHES Holding in relation to the relevant Rights Offer or Securities Purchase Plan (as applicable) and the Controlling Participant was not so authorised, the Controlling Participant indemnifies:

- (a) the Issuer;
- (b) ASX Settlement; and
- (c) the Holder,

against all losses, damages, costs and expenses arising from the Controlling Participant not having been so authorised.

5.21A.9A Warranty and Indemnity by Issuer

(a) In respect of a Rights Offer or Securities Purchase Plan that has been announced through the public announcement platform of an Approved Listing Market Operator for which a Corporate Action Record has been created and has not been removed in accordance with Rule 5.21A.1, the Issuer is taken to have warranted that a Holder that is eligible under the terms and conditions of the relevant Rights Offer or Securities Purchase Plan to submit an acceptance for all or part of their CHES Holding, can submit such an acceptance by:

- (i) their Controlling Participant Transmitting a Valid Acceptance Participant Notification Message under Rule 5.21A.3(a); and
- (ii) making payment in respect of that acceptance pursuant to their Controlling Participant Transmitting a Valid Corporate Action RTGS Message under Rule 5.21A.3(c).

under the terms and conditions of the relevant Rights Offer or Securities Purchase Plan.

(b) If an Issuer is taken under Rule 5.21A.9A(a) to have warranted that a Holder can submit an acceptance in relation to the relevant Rights Offer or Securities Purchase Plan by their Controlling Participant Transmitting a Valid Acceptance Participant Notification Message under Rule 5.21A.3(a) and the making of payment in respect of that acceptance pursuant to their Controlling Participant Transmitting a Valid Corporate Action RTGS Message under Rule 5.21A.3(c) under the terms and conditions of the relevant Rights Offer or Securities Purchase Plan, and the Holder was not able to submit such acceptance in that manner under the terms and conditions of the relevant Rights Offer or Securities Purchase Plan, the Issuer indemnifies:

- (i) the Controlling Participant;
- (ii) ASX Settlement; and

(iii) the Holder,

against all losses, damages, costs and expenses arising from the Holder not being able to submit the acceptance in that manner.

5.21A.9 Offer terms to include Holder representations and warranties-Warranty by Issuer as to Holder representations and warranties under offer terms

In respect of a Rights Offer or Securities Purchase Plan notified to the relevant Approved Listing Market Operator as referred to in Rule 5.21A.1(a), the Issuer must ensure that the terms and conditions of the relevant offer include terms and conditions to the effect that by instructing a Controlling Participant to notify the Issuer of an offer acceptance for all or part of the relevant CHESS Holding in respect of the relevant Rights Offer or Securities Purchase Plan by Transmitting an Acceptance Participant Notification Message under Rule 5.21A.3(a), the Holder represents and warrants that they:

(a) are legally entitled to accept the relevant offer;

(b) either:

(i) have been given a full copy of the current disclosure document, product disclosure statement, or any other offer documentation setting out the terms of the relevant offer (as applicable); or

(ii) if the Rights Offer is a Renounceable Rights Offer, and the Entitlement has been renounced and transferred to the Holder, have had access to a full copy of the current disclosure document, product disclosure statement, or any other offer documentation setting out the terms of the relevant offer (as applicable);

(c) have read and understood, and agree to be bound by the terms and conditions applicable to the relevant offer;

(d) agree to be bound by the terms and conditions of the constitution of the Issuer or relevant managed investment scheme (as applicable);

(e) accept the offer of Approved Financial Products in accordance with the terms and conditions of the relevant offer and authorise the Issuer to register them as a Holder of Approved Financial Products issued under the relevant offer; and

(f) make all of the representations and warranties attributed to Holders as set out in the documentation setting out the terms of the relevant offer.

In respect of a Rights Offer:

(a) made under a disclosure document or product disclosure statement under Chapter 6D or Part 7.9 of the Corporations Act; and

(b) announced through the public announcement platform of an Approved Listing Market Operator for which a Corporate Action Record has been created and has not been removed in accordance with Rule 5.21A.1.

the Issuer is taken to have warranted that the terms and conditions of the relevant offer provide that where:

(c) the Entitlement under the Rights Offer has been renounced and transferred to the relevant CHES Holding of a Holder; and

(d) the Holder's Controlling Participant notifies the Issuer through CHES of an offer acceptance (and makes the associated payment) in accordance with Rule 5.21A for all or part of the relevant CHES Holding of the Holder.

the Holder represents and warrants to the Issuer that they have read and understood, and agree to be bound by the terms and conditions applicable to the relevant offer.

5.21 CORPORATE ACTIONS – RIGHTS ISSUES

5.21.1 ~~Renounceable~~ Rights Record and Issue of Rights

In implementing an Issue of Approved Financial Products that are rights the Issuer must:

- (a) between the Record Date and the Issue Date for the rights, issue rights in respect of a CHES Holding of Parent Financial Products by Transmitting a Message to ASX Settlement to effect an appropriate Holding Adjustment to a Holding on the CHES ~~Renounceable~~ Rights Subregister;

5.21B CORPORATE ACTIONS – RIGHTS OFFERS AND SECURITIES PURCHASE PLAN REJECTIONS

5.21B.1 Issuer payment for rejected acceptances

- (a) If an RTGS Participant for the Issuer has been notified of an offer acceptance for all or part of a CHES Holding in respect of the Rights Offer or Securities Purchase Plan in accordance with Rule 5.21A.3(a), and the Issuer determines that:

- (i) it will reject the relevant acceptance as a result of it being invalid or the cancellation of the Rights Offer or Securities Purchase Plan; or
- (ii) in respect of an Oversubscription Acceptance or a Securities Purchase Plan Acceptance, it will reject the relevant acceptance in whole or in part as a result of a scaleback in accordance with the terms of the relevant Oversubscription Offer or Securities Purchase Plan.

the RTGS Participant for the Issuer may Transmit to ASX Settlement a Valid Corporate Action Rejection Message within the Scheduled Time in accordance with the Procedures, notifying ASX Settlement of that rejection.

- (b) If ASX Settlement receives a Valid Corporate Action Rejection Message under Rule 5.21B.1(a) and a Corporate Action Record for the relevant Rights Offer or Share Purchase Plan has been created and has not been removed in accordance with Rule 5.21A.1, ASX Settlement will:
 - (i) create a rejection pending payment record in respect of the Issuer for the Corporate Action Rejection Message Transmitted to ASX Settlement under Rule 5.21B.1(a); and
 - (ii) notify the RTGS Participant for the Issuer a rejection pending payment has been recorded.
- (c) Within the Scheduled Time, the RTGS Participant for the Issuer may initiate a Corporate Action RTGS Instruction in respect of the rejection notified to ASX Settlement under Rule 5.21B.1(a) by Transmitting to ASX Settlement a Valid Corporate Action RTGS Message in accordance with the Procedures.
- (d) If ASX Settlement receives a Valid Corporate Action RTGS Message under Rule 5.21B.1(c), then:
 - (i) ASX Settlement will:
 - (A) treat the Message as an RTGS Instruction to be settled in Real Time Gross Settlement under Section 11;
 - (B) update the record created under Rule 5.21B.1(b)(i) to indicate that a payment instruction in RTGS has been initiated; and
 - (C) notify the RTGS Participant for the Issuer that the record created under Rule 5.21B.1(b)(i) has been updated; and
 - (ii) if the Payment Obligation under that RTGS Instruction is settled, ASX Settlement will:
 - (A) update the record updated under Rule 5.21B.1(d)(i)(B) to indicate that a payment instruction in RTGS has been completed; and

- (B) notify the RTGS Participant for the Issuer that the record updated under Rule 5.21B.1(d)(i)(B) has been updated to payment completed; and
 - (C) Transmit a Message to the Controlling Participant notifying it of the acceptance rejection in accordance with the Originating Message from the RTGS Participant for the Issuer under Rule 5.21B.1(a); and
 - (D) Transmit a Message to the Controlling Participant notifying it of settlement of the payment for the rejection referred to in Rule 5.21B.1(d)(ii)(C) above.
- (iii) if the RTGS Instruction initiated under Rule 5.21B.1(c) is rejected under Rule 11.18.8(c), or if the Payment Obligation under that RTGS Instruction otherwise Fails, ASX Settlement will:
- (A) update the record updated under Rule 5.21B.1(d)(i)(B) to record a rejection pending payment;
 - (B) notify the RTGS Participant for the Issuer that the record updated under Rule 5.21B.1(d)(i)(B) has been updated to rejection pending payment.
- (e) If, within the Scheduled Time, a RTGS Participant for the Issuer has not Transmitted to ASX Settlement a Valid Corporate Action RTGS Message that complies with Rule 5.21B.1(c), the rejection notified to ASX Settlement under Rule 5.21B.1(a) will be cancelled by ASX Settlement under Rule 5.21B.2.

5.21B.2 Housekeeping of pending rejection

If a rejection pending payment has been recorded in accordance with Rule 5.21B.1(b)(i) or 5.21B.1(d)(iii)(A) (or updated to payment initiated under Rule 5.21B.1(d)(i)(B)) and Real Time Gross Settlement has not been completed within the Scheduled Time, ASX Settlement will cancel the rejection pending payment record created under Rule 5.21B.1(b)(i) or 5.21B.1(d)(iii)(A) (or payment initiated record under Rule 5.21B.1(d)(i)(B)) and notify the relevant RTGS Participant for the Issuer of such cancellation.

14.1.7 Holding Adjustments and Financial Products Transformations

~~ASX Settlement will not give effect to a Message from an Issuer that initiates a Holding Adjustment or Financial Products Transformation that is not a Reconstruction in relation to Financial Products reserved in a Subposition.~~

- (a) If ASX Settlement receives a Valid Message from an Issuer that initiates a Holding Adjustment or a Financial Products Transformation in relation to Financial Products reserved in a Subposition, ASX Settlement must give effect to that Message where:
 - (i) the Holding Adjustment or Financial Products Transformation is a Reconstruction; or
 - (ii) the Holding Adjustment or Financial Products Transformation results in an increase to the number of Financial Products in the Holding.

[\(b\) ASX Settlement will not give effect to a Message from an Issuer that initiates a Holding Adjustment or Financial Products Transformation in relation to Financial Products reserved in a Subposition that is not of a type identified in Rule 14.1.7\(a\).](#)

14.2 EFFECT OF ISSUER INITIATED ACTIONS ON SUB-POSITIONS

14.2.1 Ratio between Financial Products after Reconstruction where Financial Product Code continues

If:

- (a) a Reconstruction occurs in relation to a class of Approved Financial Products [which is given effect to through a Valid Message in accordance with Rule 5.26](#);
- (b) the Financial Product Code for that class will continue following the Reconstruction; and
- (c) the Reconstruction affects Financial Products in a CHESS Holding that are reserved in a Subposition,

at the time ASX Settlement enters Financial Products into, or deducts Financial Products from, that Holding, ASX Settlement must also reserve Financial Products in, or release Financial Products from, the Subposition so that the ratio between:

- (d) the number of Financial Products in that Holding reserved in the Subposition; and
- (e) the total number of Financial Products in that Holding,

is, as far as possible having regard to fractional entitlements, the same before and after the Reconstruction.

Introduced 11/03/04 Origin SCH 14.2.1

14.2.2 Ratio between Financial Products after Reconstruction where Financial Product Code is replaced

If:

- (a) a Reconstruction occurs in relation to a class of Approved Financial Products [which is given effect to through a Valid Message in accordance with Rule 5.26](#);
- (b) a replacement Financial Product Code is to be used for that class following the Reconstruction; and
- (c) the Reconstruction affects Financial Products held in a CHESS Holding that are reserved in a Subposition in favour of a particular person,

at the time ASX Settlement processes a Message in relation to the Reconstruction in accordance with Rule 8.29, ASX Settlement must release the Financial Products reserved in the Subposition and reserve the Financial Products arising from the Reconstruction in a Subposition in favour of the same person so that the ratio between:

- (d) the number of Financial Products in that Holding reserved in the Subposition; and
- (e) the total number of Financial Products in that Holding,

is, as far as possible having regard to fractional entitlements, the same before and after the Reconstruction.

14.22 NOTIFICATION OF A NON-TAKEOVER OFFER EVENT IN RESPECT OF A CLASS OF APPROVED FINANCIAL PRODUCTS AND PROVISION OF INFORMATION

14.22.1 Rules 14.22 to 14.30 only apply if offeror uses facility for Non-Takeover Offer Event

These Rules 14.22 to 14.30 only apply to a Non-Takeover Offer Event for which the offeror has supplied a notice to ASX Settlement under Rule 14.22.2 in connection with the offeror seeking to use the facility made available by ASX Settlement under those Rules for the processing of acceptances under that offer.

14.22.2 Offeror to supply copy of notice of Non-Takeover Offer Event

If an offeror gives any notice of the making of, or of the intention to make, an offer under a Non-Takeover Offer Event in relation to Approved Financial Products and that offeror seeks to use the facility made available by ASX Settlement under these Rules 14.22 to 14.30 for the processing of acceptances under that offer, the offeror must ~~immediately~~ supply a copy of that notice to ASX Settlement immediately after a market announcement of the offer is publicly released through the public announcement platform of the Approved Market Listing Operator.

14.22.3 Application of Rules 14.22 to 14.30 to scheme of arrangement

Where a Non-Takeover Offer Event is an offer under a scheme of arrangement under Part 5.1 of the Corporations Act involving alternate forms of consideration for which an election can be made, Rules 14.22 to 14.30 will apply to such offer on the basis that the relevant:

- (a) offer is the offer of alternate forms of consideration under the scheme of arrangement for which an election can be made; and
- (b) acceptance is the election as to the form of consideration under the scheme of arrangement.

14.23 NON-TAKEOVER OFFER EVENTS – OFFER ACCEPTED SUBPOSITIONS

14.23.1 ASX Settlement to act as agent of the offeror

Throughout the offer period and for such subsequent period as ASX Settlement may specify, ASX Settlement will act as the agent of the offeror in relation to acceptances by Holders on the CHESSE Subregister.

14.23.2 Participant to act as Participant Offeror

Throughout the offer period and for such subsequent period as ASX Settlement may specify, the offeror must ensure that a Participant acts as Participant Offeror in relation to the Non-Takeover Offer Event.

14.23.3 Obligations of offeror

Not less than 5 Business Days before the start of the offer period for a Non-Takeover Offer Event in relation to a class of Approved Financial Products, the offeror must:

- (a) (i) if the offeror is a Participant, give Notice to ASX Settlement that the offeror will be the Participant Offeror;
 - (ii) apply to become a Participant for the limited purpose of acting as Participant Offeror; or
 - (iii) appoint a Participant to act as Participant Offeror (whether that Participant's status is limited to acting as the Participant Offeror or otherwise) and give Notice to ASX Settlement ~~of the name and UIC of that the appointed Participant; and~~ will be the Participant Offeror.
- (b) ~~give Notice to ASX Settlement of the name of the Holder and the HIN for the Non-Takeover Offer Event Transferee Holding~~Any Notice provided by the offeror to ASX Settlement pursuant to this Rule 14.23.3 shall be in the form and include the information prescribed in the Procedures.

14.23.4 Participant Offeror to be Controlling Participant

The Participant Offeror will be the Controlling Participant for the Non-Takeover Offer Event Transferee Holding.

14.23.5 Acceptances must be in accordance with the Rules

The offeror must ensure that each offer under a Non-Takeover Offer Event in relation to a class of Approved Financial Products specifies that an acceptance of that offer in respect of Financial Products that are, at the time of acceptance, in a CHESS Holding, must be made in accordance with these Rules.

14.23.6 Financial Products as consideration

If:

- (a) an offer under a Non-Takeover Offer Event is accepted for Financial Products in a CHESS Holding; and
- (b) the consideration to be provided under the acceptance of the offer includes Financial Products in a class of Approved Financial Products,

the offeror must ensure that any Financial Products provided as consideration for the acceptance are issued to a CHESS Holding in accordance with these Rules.

14.24 NON-TAKEOVER OFFER EVENT ACCEPTANCES

14.24.1 Controlling Participant to initiate acceptances

If:

- (a) an offer is made under a Non-Takeover Offer Event in relation to Financial Products in a class of Approved Financial Products;

- (b) at any time during the offer period of the Non-Takeover Offer Event, the Financial Products are in a Participant Sponsored Holding;
- (c) on or before the close date of the Non-Takeover Offer Event, the Participant Sponsored Holder instructs the Controlling Participant to accept the offer, the Controlling Participant ~~may~~ must initiate the acceptance under this Rule 14.24;
- (d) if the Participant Sponsored Holder specifies the time when or by which the offer must be accepted, in accordance with those instructions; or
- (e) otherwise, within the Scheduled Time.

Note: For the purposes of Rules 14.24, 14.25, 14.26 and 14.29, it is noted that the term "acceptance" refers to the choice of the relevant Holder in response to the options available to that Holder under the terms of the relevant Non-Takeover Offer Event, and could include an application, election, instruction, acceptance, or any other means of communicating the choice of the relevant Holder, howsoever described in the terms of the relevant Non-Takeover Offer Event.

14.24.2 Acceptances of offers under Non-Takeover Offer Event to be initiated by Valid Originating Message

Acceptance of an offer under a Non-Takeover Offer Event for Financial Products that, at the time of acceptance, are held in a CHESS Holding, ~~may~~ must be initiated by a Valid Originating Message that:

- (a) is Transmitted to ASX Settlement by the Controlling Participant for the Holding;
- (b) is sent during the offer period for the relevant offer;
- (c) specifies a Non-Takeover Offer Event Consideration Code for that offer; and
- (d) specifies the number of Financial Products in the Holding to which the acceptance relates.

14.24.3 Non-Takeover Offer Event Transfers

A Message that complies with Rule 14.24.2 also initiates a Non-Takeover Offer Event Transfer of the Financial Products specified in the Message.

14.24.4 Reservation of Financial Products in an Offer Accepted Subposition

If a Message complies with Rule 14.24.2 and there are sufficient Available Financial Products in the Holding specified in the Message, ASX Settlement will reserve the number of Financial Products specified in the Message in an Offer Accepted Subposition in favour of the Participant Offeror for the Non-Takeover Offer Event.

14.24.5 Rejection of reservation of Financial Products in Offer Accepted Subposition

If, on receipt of notification from ASX Settlement under Rule 14.5.1, the Participant Offeror rejects the reservation of Financial Products in an Offer Accepted Subposition,

the Participant Offeror must, within the Scheduled Time, Transmit a Message to ASX Settlement rejecting the reservation.

14.24.6 Release of Financial Products from Offer Accepted Position

If ASX Settlement receives a Valid Message under Rule 14.24.5, ASX Settlement will release the number of Financial Products from the Offer Accepted Subposition in accordance with the Originating Message.

14.24.7 Participant Offeror may submit acceptance

If:

- (a) an offer is made under a Non-Takeover Offer Event in relation to Financial Products in a class of Approved Financial Products;
- (b) at any time during the period of the relevant offer, the Financial Products are in a Participant Sponsored Holding;
- (c) on or before the close date of the Non-Takeover Offer Event, the Participant Sponsored Holder of those Financial Products instructs the Participant Offeror that they accept the offer,

the Participant Offeror may effect the acceptance by Transmitting a Valid Message to ASX Settlement that:

(d) is sent either:

- (i) during the offer period for the relevant Non-Takeover Offer Event; or
- (ii) within one Business Day of the close of the offer period for the relevant Non-Takeover Offer Event, if either:
 - (A) the Participant Sponsored Holder of those Financial Products has instructed the Participant Offeror that they accept the offer on or before the close date of the Non-Takeover Offer Event in accordance with Rule 14.24.7, but a Message to effect the acceptance is unable to be Transmitted to ASX Settlement before the end of the relevant offer period for genuine operational or administrative reasons; or
 - (B) the Participant Sponsored Holder of the relevant Financial Products has instructed the Participant Offeror that they accept the offer on or before the close date of the Non-Takeover Offer Event in accordance with Rule 14.24.7, but for the purposes of correctly finalising the Non-Takeover Offer Event, re-balancing or administrative corrections are required to be performed;
- (e) specifies a Non-Takeover Offer Event Consideration Code for that Non-Takeover Offer Event;
- (f) specifies the HIN for the Participant Sponsored Holding of Financial Products to which the acceptance relates; and

(g) specifies the number of Financial Products in the Holding to which the acceptance relates.

14.24.8 Action by ASX Settlement

If a Message complies with Rule 14.24.7 and there are sufficient Available Financial Products in the Holding specified in that Message, ASX Settlement will send a Message to the Controlling Participant for that Holding providing the details relating to the relevant offer acceptance included in the Message under Rule 14.24.7.

14.24.9 Controlling Participant to respond to Message

If a Controlling Participant receives a Message under Rule 14.24.8 it must Transmit a Message to ASX Settlement within the Scheduled Time and include a Target Transaction Identifier that matches the Transaction Identifier of the Message under Rule 14.24.7 and either:

(a) accepts the offer acceptance, or

(b) rejects the offer acceptance.

14.24.10 Controlling Participant to notify Holder of Rejection

If a Controlling Participant rejects an offer acceptance under Rule 14.24.9(b) the Controlling Participant must, within the Scheduled Time, notify the Holder that the relevant offer acceptance has been rejected.

14.24.11 Non-Takeover Offer Event Transfers

A Valid Message that complies with Rule 14.24.9(a) initiates a Non-Takeover Offer Event Transfer of the Financial Products.

14.24.12 Reservation of Financial Products in an Offer Accepted Subposition

If a Message complies with Rule 14.24.9(a), ASX Settlement will reserve the number of Financial Products specified in the relevant offer acceptance in an Offer Accepted Subposition in favour of the Participant Offeror for the Non-Takeover Offer Event.

14.25 WARRANTIES AND INDEMNITIES

14.25.1 Application of Rules

Rules 14.25.2 to 14.25.4 apply if Financial Products in a CHES Holding are reserved in an Offer Accepted Subposition in accordance with an Originating Message Transmitted by the Controlling Participant for that Holding under Rule 14.24.2.

14.25.2 Participants as Holder of Financial Products

If the Participant is the Holder of the Financial Products, the Participant is taken to have warranted that the Holder was legally entitled or authorised to accept the offer to which the acceptance relates, and to effect a Transfer of the Financial Products.

14.25.3 If Participant is not Holder of Financial Products

If the Participant is not the Holder of the Financial Products, the Participant is taken to have warranted that:

- (a) the Holder was legally entitled or authorised; and
- (b) the Participant was authorised by the Holder,

to accept the offer to which the acceptance relates and to effect a Transfer of the Financial Products.

14.25.4 Participant to indemnify

If a Participant is taken under Rule 14.25.2 or 14.25.3 to have warranted that:

- (a) the Holder was legally entitled or authorised to accept the offer to which the acceptance relates and to effect a Transfer of the Financial Products; or
- (b) the Participant was authorised by the Holder to accept the offer to which the acceptance relates and to effect a Transfer of the Financial Products,

and the Holder was not so legally entitled or authorised, or the Participant was not so authorised by the Holder, the Participant indemnifies:

- (c) the offeror;
- (d) the Participant Offeror;
- (e) the Issuer;
- (f) ASX Settlement; and
- (g) the Holder (in the case of paragraph (b)).

against all losses, damages, costs and expenses arising from that Holder or the Participant not having been so legally entitled or authorised.

14.25.5 Application of Rules

Rules 14.25.6 and 14.25.7 apply if Financial Products in a CHESS Holding are reserved in an Offer Accepted Subposition in accordance with a Message Transmitted by the Participant Offeror under Rule 14.24.7.

14.25.6 Warranty by Participant Offeror

The Participant Offeror is taken to have warranted that:

- (a) the Holder was legally entitled or authorised; and
- (b) the Participant Offeror was authorised by the Holder,

to accept the offer to which the acceptance relates and to effect a Transfer of the Financial Products.

If a Message is transmitted after the end of the offer period the Participant Offeror is also taken to have warranted under Rule 14.24.7(d)(ii), that one or more of the circumstances in that Rule apply in relation to the Message.

14.25.7 Participant Offeror to Indemnify

If a Participant Offeror is taken under Rule 14.25.6 to have warranted that:

- (a) the Holder was legally entitled or authorised to accept the offer to which the acceptance relates and to effect a Transfer of the Financial Products; or
- (b) the Participant Offeror was authorised by the Holder to accept the offer to which the acceptance relates and to effect a Transfer of the Financial Products,

and the Holder was not legally entitled or authorised, or the Participant Offeror was not so authorised by the Holder; or

- (c) one or more of the circumstances in Rule 14.24.7(d)(ii) apply in relation to the Message transmitted after the end of the offer period under that Rule, and those circumstances did not apply;

the Participant Offeror indemnifies:

- (d) the offeror;
- (e) the Issuer;
- (f) the Controlling Participant;
- (g) ASX Settlement; and
- (h) the Holder (in the case of paragraph (b) or (c)).

against all losses, damages, costs and expenses arising from the Holder or the Participant Offeror not having been so legally entitled or authorised or the circumstances in Rule 14.24.7(d)(ii) not applying.

14.25.8 Controlling Participant to Indemnify

If a Controlling Participant:

- (a) rejects an offer acceptance under Rule 14.24.9(b) without adequate justification; or
- (b) receives a Valid Message under Rule 14.24.8 and does not Transmit a Message to ASX Settlement that complies with Rule 14.24.9 within the Scheduled Time under Rule 14.24.9;

the Controlling Participant indemnifies:

- (c) the offeror;
- (d) the Issuer;

(e) the Participant Offeror;

(f) ASX Settlement; and

(g) the Holder.

against all losses, damages, costs and expenses arising from that rejection or failure to Transmit a Message.

14.26 CANCELLATION OF NON-TAKEOVER OFFER EVENT ACCEPTANCES

14.26.1 Release of Financial Products from an Offer Accepted Subposition

If Financial Products in a CHES Holding have been reserved by ASX Settlement in an Offer Accepted Subposition in connection with a Non-Takeover Offer Event, a release of the Financial Products from that Subposition may be initiated by a Valid Originating Message that:

(a) is Transmitted to ASX Settlement by the Controlling Participant for that Holding; and

(b) specifies the number of Financial Products to be released from the Subposition.

14.26.2 Authorisation for release of Financial Products from an Offer Accepted Subposition

If an Originating Message Transmitted to ASX Settlement complies with Rule 14.26.1, ASX Settlement must Transmit a Message to the Participant Offeror seeking authorisation for the release from the Offer Accepted Subposition of the Financial Products specified in the Originating Message.

14.26.3 Participant Offeror to authorise or reject the release of Financial Products

If a Participant Offeror receives a Valid Message from ASX Settlement under Rule 14.26.2:

(a) the Participant Offeror must, subject to paragraph (b), Transmit a Message to ASX Settlement, within the Scheduled Time, authorising or rejecting the release of Financial Products from the Offer Accepted Subposition; and

(b) if the Holder of the Financial Products to which the acceptance relates is legally entitled to withdraw the acceptance, the Participant Offeror must Transmit, and the offeror must ensure that the Participant Offeror Transmits, to ASX Settlement a Valid Message under Rule 14.26.2 that authorises the release of those Financial Products.

14.26.4 ASX Settlement to release Financial Products

If ASX Settlement receives a Valid Message from a Participant Offeror under Rule 14.26.3 authorising the release of Financial Products from an Offer Accepted Subposition, ASX Settlement must release Financial Products from the Offer Accepted Subposition in accordance with the Originating Message.

14.26.5 Release of Financial Products from an Offeror Accepted Subposition initiated by Participant Offeror on behalf of a Holder

If Financial Products in a CHES Holding have been reserved by ASX Settlement in an Offer Accepted Subposition, a release of the Financial Products from that Subposition by a Participant Offeror on behalf of a Participant Sponsored Holder may be initiated by a Valid Message that:

- (a) is Transmitted to ASX Settlement by the Participant Offeror;
- (b) specifies a Non-Takeover Offer Event Consideration Code for the Non-Takeover Offer Event;
- (c) specifies the HIN for the Participant Sponsored Holding to be released from the Subposition; and
- (d) specifies the number of Financial Products to be released from the Subposition.

14.26.6 ASX Settlement to release Financial Products

If ASX Settlement receives a Valid Message from a Participant Offeror under Rule 14.26.5 requesting the release of Financial Products from an Offer Accepted Subposition, ASX Settlement must release Financial Products from the Offer Accepted Subposition in accordance with the Originating Message.

14.26.7 Application of Rules

Rules 14.26.8 to 14.26.9 apply if Financial Products in a CHES Holding are released from an Offer Accepted Subposition in accordance with a Message Transmitted by the Participant Offeror under Rule 14.26.5

14.26.8 Warranty by Participant Offeror

The Participant Offeror is taken to have warranted that:

- (a) the Holder was legally entitled or authorised; and
 - (b) the Participant Offeror was authorised by the Holder,
- to initiate the release of Financial Products from the Subposition.

14.26.9 Participant Offeror to Indemnify

If a Participant Offeror is taken under Rule 14.26.8 to have warranted that:

- (a) the Holder was legally entitled or authorised to initiate the release of Financial Products from the Subposition; or
- (b) the Participant Offeror was authorised by the Holder to initiate the release of Financial Products from the Subposition,

and the Holder was not legally entitled or authorised, or the Participant Offeror was not so authorised by the Holder, the Participant Offeror indemnifies;

- (c) the offeror;
- (d) the Issuer;
- (e) the Controlling Participant;
- (f) ASX Settlement; and
- (g) the Holder (in the case of paragraph (b)).

against all losses, damages, costs and expenses arising from that Holder or the Participant Offeror not having been so legally entitled or authorised.

14.27 TRANSFERS PURSUANT TO NON-TAKEOVER OFFER EVENT ACCEPTANCES

14.27.1 Non-Takeover Offer Event Transfers of Financial Products completed by Valid Message

A Non-Takeover Offer Event Transfer of Financial Products in relation to a Non-Takeover Offer Event may be completed by a Valid Message that:

- (a) is Transmitted to ASX Settlement by the Participant Offeror for the Non-Takeover Offer Event;
- (b) specifies a Source Holding that contains Financial Products reserved in a Subposition in favour of the Participant Offeror;
- (c) specifies the Non-Takeover Offer Event Transferee Holding as the Target Holding; and
- (d) specifies the number of Financial Products in the Source Holding to be Transferred.

14.27.2 Actions by ASX Settlement

If a Message Transmitted to ASX Settlement complies with Rule 14.27.1 and:

- (a) there are sufficient Financial Products in the Source Holding reserved in an Offer Accepted Subposition in favour of the Participant Offeror; and
- (b) there is no Holding Lock or Holder Record Lock on the Source Holding.

ASX Settlement must:

- (c) release the number of Financial Products specified in the Message from the Subposition;
- (d) deduct that number of Financial Products from the Source Holding; and
- (e) enter that number of Financial Products into the Non-Takeover Offer Event Transferee Holding.

14.27.3 Time at which Non-Takeover Offer Event Transfer takes effect

If a Non-Takeover Offer Event Transfer is:

- (a) initiated by a Message under Rule 14.24.2; and
- (b) completed by a Message under Rule 14.27.1,

the Non-Takeover Offer Event Transfer:

- (c) takes effect when, under Rule 14.27.2, ASX Settlement deducts the Financial Products from the Source Holding; and
- (d) is taken to be effected by:
 - (i) the Message under Rule 14.24.2; and
 - (ii) the Participant that Transmits the Message.

14.28 WARRANTIES AND INDEMNITIES BY A PARTICIPANT OFFEROR

14.28.1 Application of Rules

Rules 14.28.2 to 14.28.4 apply to the completion of a Non-Takeover Offer Event Transfer by the Participant Offeror under Rule 14.27.1.

14.28.2 Participant Offeror as offeror

If the Participant Offeror is the offeror under the Non-Takeover Offer Event, the Participant Offeror is taken to have warranted that the offeror was legally entitled or authorised to complete the Non-Takeover Offer Event Transfer.

14.28.3 If Participant Offeror is not the offeror

If the Participant Offeror is not the offeror under the Non-Takeover Offer Event, the Participant Offeror is taken to have warranted that:

- (a) the offeror was legally entitled and authorised; and
- (b) the Participant Offeror was authorised by the offeror,

to complete the Non-Takeover Offer Event Transfer.

14.28.4 Participant Offeror to indemnify

If the Participant Offeror is taken, under Rule 14.28.2 or 14.28.3, to have warranted that:

- (a) the offeror was legally entitled or authorised to complete the Non-Takeover Offer Event Transfer; or
- (b) the Participant Offeror was authorised by the offeror to complete the Non-Takeover Offer Event Transfer, and

the offeror was not so legally entitled or authorised, or the Participant Offeror was not so authorised, the Participant Offeror indemnifies:

- (c) the Holder;
- (d) the Controlling Participant for the Source Holding;
- (e) the Issuer;
- (f) ASX Settlement; and
- (g) the offeror (in the case of paragraph (b)).

against all losses, damages, costs and expenses arising from that offeror or Participant Offeror not having been so legally entitled or authorised.

14.29 LAPSE OF OFFERS UNDER A NON-TAKEOVER OFFER EVENT

14.29.1 Participant Offeror to notify ASX Settlement of effect of defeating conditions

After the end of the offer period for a Non-Takeover Offer Event in relation to a class of Approved Financial Products, the Participant Offeror must, within the Scheduled Time, notify ASX Settlement of:

- (a) any acceptances of offers under the offer; and
- (b) any binding contracts that have resulted from such acceptances,

that are avoided including because of the existence of a defeating condition, and, in respect of any such acceptances and contracts, ASX Settlement must release Financial Products in that class from Offer Accepted Subpositions in relation to that Non-Takeover Offer Event.

Note: The reference to the “end of the offer period” in this Rule is taken to include any date prior to the end date of the original offer period on which the relevant offer ends, including if the Non-Takeover Offer Event is abandoned, withdrawn or otherwise fails to proceed, including due to the existence of a defeating condition or being overbid.

14.29.2 Participant Offeror to indemnify ASX Settlement

The Participant Offeror indemnifies ASX Settlement in respect of all losses, damages, costs and expenses that ASX Settlement may suffer or incur as a result of ASX Settlement acting in accordance with the instructions of the Participant Offeror.

14.30 FINALISATION OF OFFERS UNDER A NON-TAKEOVER OFFER EVENT

14.30.1 ASX Settlement to release Financial Products

After the end of the offer period for a Non-Takeover Offer Event in relation to a class of Approved Financial Products, ASX Settlement must, if Rule 14.29.1 does not apply, release Financial Products from any remaining Offer Accepted Subpositions in relation

to that Non-Takeover Offer Event at the request of the Participant Offeror, subject to agreement by ASX Settlement.

SECTION 15 DVP [Batch](#) SETTLEMENT OF ALLOCATIONS IN RESPECT OF INITIAL PUBLIC OFFERINGS

This Section is concerned with the processing of Allocation Components for an Offer of Approved Financial Products and the processing of Allocation Interests in DvP [Batch](#) Settlement including:

- (a) the pre-requisites that must be met by an Issuer before an Allocation Component may be processed in DvP [Batch](#) Settlement;
- (b) the establishment of Records and Holdings of Allocation Interests and access to these Holdings by Participants and Issuers;
- (c) the legal relationship between Issuers, Participants and applicants and the responsibilities of Participants and Issuers in relation to the transfer of Allocation Interests including the giving of warranties and indemnities;
- (d) the requirements that must be met by Participants and Issuers in respect of the processing of Allocation Interests in DvP [Batch](#) Settlement and the Issue of Financial Products; and
- (e) the limitation of ASX Settlement's liability with respect to the processing of applications and application monies, the Transfer of Allocation Interests to applicants and the Issue of Financial Products.

15.1 APPLICATION OF SECTION 15

15.1.1 Effect of Section 15

This Section 15 regulates:

- (a) the processing of an Allocation Component as a class of transactions in DvP [Batch](#) Settlement;
- (b) the Transfer of Allocation Interests by Participants to applicants; and
- (c) the Issue of Approved Financial Products in respect of those Allocation Interests,

and the Rules apply to an Issuer and Participants who process an Allocation Component in DvP [Batch](#) Settlement other than as specifically modified by this Section.

15.2 ISSUER REQUEST TO PROCESS ALLOCATION COMPONENT IN DvP BATCH SETTLEMENT

15.2.1 Issuer to give Notice

If:

- (a) an Issuer makes available forms of application for an Offer of Approved Financial Products; and
- (b) the Approved Listing Market Operator gives that Issuer approval for quotation of those Financial Products,

the Issuer may give Notice to ASX Settlement that it wishes to process an Allocation Component of that Offer as a class of transactions in DvP Batch Settlement.

15.3 PREREQUISITES FOR PROCESSING ALLOCATION COMPONENT IN DvP BATCH SETTLEMENT

15.3.1 Issuer's conditions for processing Allocation Component

For an Allocation Component to be processed in DvP Batch Settlement, the Issuer must meet the following conditions:

- (a) the Allocation Component must be admitted to DvP Batch Settlement as a class of transactions under Rule 10.4.1;
- (b) the Issuer must be admitted as a Participant or appoint a Participant as an agent to act on its behalf;
- (c) the Issuer must establish a Payment Facility for the purpose of receiving application monies in DvP Batch Settlement and give Notice to ASX Settlement in respect of that Payment Facility; and
- (d) the Issuer must establish a Settlement Account and enter into it the number of Allocation Interests that represent the Allocation Component. ~~;~~ ~~and~~
- ~~(e) — if the Issuer intends to process the Allocation Component in DvP Real Time Gross Settlement, the additional requirements for Real Time Gross Settlement of a transaction that are set out in Section 11 must be complied with.~~

Note: An Issuer may appoint an agent to operate a Payment Facility on its behalf, in the name of the Issuer. The Payment Facility may only be used for the receipt of application monies.

SECTION 18 SETTLEMENT OF AQUA PRODUCTS

This Section contains rules relating specifically to the settlement of AQUA Products including:

- (a) processing of requests for issue and redemption of AQUA Products ~~and requests to Switch between AQUA Products;~~
- (b) cancellation of requests for issue or redemption ~~of AQUA Products or Switch;~~
- (c) notification of changes to details for requests for issue or redemption ~~or Switch~~ of AQUA Products; and
- (d) actions that ASX Settlement may take in the event of failure by a Product Issuer Settlement Participant to settle issues and redemptions of AQUA Products; ~~and~~
- ~~(e) the provision of distribution and re-investment advices to Holders of AQUA Products.~~

18.1 APPLICATION OF RULES TO AQUA PRODUCTS

18.1.1 Application of Section 18

This Section 18 applies to the processing of requests for issue and redemption of AQUA Products as a class of transaction in Batch Settlement. AQUA Products must be settled in accordance with this Section 18. This Section 18 does not apply in relation to Financial Products which are not AQUA Products.

18.1.2 Compliance with Rules other than Section 18

Subject to the modifications specified in Rule 18.13, a Facility User must, in respect of AQUA Products, comply with all Rules to the extent those Rules apply to AQUA Products.

18.1.3 Conflict between Rules

If there is a conflict between a provision of this Section 18 and any other provision of these Rules, the provision of this Section 18 will prevail to the extent of the conflict.

18.2 SETTLEMENT PROCESS

18.2.1 Transactions

Transactions in relation to AQUA Products which may be settled through the Settlement Facility in Batch Settlement are payments in respect of the issue or redemption of AQUA Products.

18.2.2 Process

Payments in respect of the issue or redemption of AQUA Products are to be settled in Batch Settlement as follows:

- (a) for issue of AQUA Products, on a 'payment then delivery' basis; and
- (b) for redemption of AQUA Products, on a 'delivery then payment' basis,

in accordance with the provisions of this Section 18 and all other applicable provisions of these Rules.

18.3 REQUESTS FOR ISSUE OR REDEMPTION OF AQUA PRODUCTS

18.3.1 Initiation of request

A Settlement Participant may initiate a request for issue or redemption of AQUA Products by Transmitting to ASX Settlement a Valid Originating Message before Fund Request Cut-Off in accordance with the Procedures. In addition to the matters specified in the Procedures the Valid Originating Message in respect of an application for issue of AQUA Products must include:

- (a) confirmation that the requirements of the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006* (Cth) have been satisfied; and
- (b) confirmation that the Holder has received a copy of the Product Disclosure Statement or Combined Product Disclosure Statement (as applicable) for the AQUA Products referred to in Rule [4652] of the ASX Operating Rules and the date of that Product Disclosure Statement or Combined Product Disclosure Statement (as applicable).
