<b>Rule Number</b>	13.9.4

<b>Listed Company</b>	NEWS CORPORATION..
<b>Waiver Number</b>	WLC150310-001
<b>Decision</b>	<p>1. Based solely on the information provided, ASX Limited ("ASX") grants News Corporation (the "Company") a waiver from ASX Settlement Operating Rule 13.9.4 on the following conditions:</p> <p>1. The waiver only applies in respect of the dividend period set out below (the "Relevant Period"):</p> <p>I. From and including 11 September 2015 up to and including 16 September 2015.</p> <p>2. In relation to the above Relevant Period, if there are any changes to such dividend period, the waiver will apply to the revised period, provided that the Company:</p> <p>I. notifies ASX Settlement ("ASXS") of the change to the dividend period at least two (2) business days prior to the change (the "Notification"); and</p> <p>II. ASXS does not object to the change within a period of one (1) business day from the date it receives the Notification.</p> <p>3. The Company issues a market release informing investors that no conversions (transmutations) will be processed during the Relevant Period.</p>
<b>Basis For Decision</b>	<p><b>Underlying Policy</b> ASX Settlement Operating Rule 13.9.4 requires an Issuer that receives a Valid Message under Rule 13.9.3(b) to generate a Trustee Transfer Form in accordance with the Procedures and register that Transfer in the Principal Register, within the Scheduled Time. The Scheduled Time contained in Appendix 1 is within 12 business hours of ASXS transmitting the Message.</p> <p><b>Present Application</b> The waivers are considered necessary to prevent the potential for a holder to gain inappropriate access to a dividend made by the company as a result of differences in time zones and ex entitlement periods between two different jurisdictions. Such disparity may create an opportunity for a holder who is not entitled to receive a dividend to inappropriately gain access to that dividend as issuances can't be tagged to clarify whether they are trading with or without the dividend."</p>
