Dear Mavis,

I suggest that a further item "Transaction costs related to shares, notes and options" be included as Item 3.4 under the heading "Cash flows from financing activities".

This is along similar lines to the proposed new item 3.6 "Transaction costs related to loans and borrowings".

At present whenever we have costs from a capital raising we include them under Item 1.19 Other and I think it would be very useful to have a permanent separate item for these cashflows.

Kind regards,
