ASX Opportunity Snapshot		What’s On Offer
Role:	Project Manager	<p>ASX is looking for an experienced Project Manager who enjoys collaborating with others, is passionate about continuous improvement and has a can-do attitude.</p> <p>This role provides a great opportunity to combine your proven project management, change management and stakeholder management skills in an agile environment to successfully deliver an end-to-end solutions for ASX and its customers.</p>
Reports to:	Portfolio Delivery Manager	
People Management:	n/a	
Budget:	n/a	
Team:	Delivery	
Date:	November 2018	
Location:	Sydney, NSW	
Flexible Role:	Yes	

What you’ll do:

- Call on your project experience gained through Agile-mature organisations to lead delivery of complex projects with business/technical inter-dependencies, involving in-house and vendor development in an increasing agile environment
- Use your soft-skills to drive the broader engagement of stakeholders and lead and develop high-performing cross-functional teams
- Draw on your Agile experience to help evolve agile practices and mindset and embrace engineering practices to mature ASX’s agile capability

What you’ve done:

- Delivered large complex projects meeting pre-defined success criteria and objectives, driving solutions and accountability in agile environments
- Demonstrated thought leadership and effective problem solving skills
- Demonstrated self-awareness, emotional intelligence and a willingness to continuously improve both yourself and your teams
- Strong communication, facilitation, influencing and negotiation skills. Is able to collaborate with and build trusted relationships with stakeholders across all levels
- Excellent written and verbal communication skills
- Worked both independently and as part of a team
- Easy to get along and establish rapport with team members very quickly

And if you've got some of this, even better:

- Financial services background with knowledge of capital markets

What you need to enjoy and be good at for this role:

- Personal attributes / competencies
- Motivating teams through your enthusiasm and sense of urgency
- Ability to pivot and adapt
- Embraces change and is passionate about making a difference
- Ability to see the 'big picture' behind initiatives and consider broader team and organisational objectives
- Adapting your leadership style to drive self-organisation and joint accountability within teams
- Communicating clear and concise information that is tailored to suit the audience
- Positive and pro-active stakeholder engagement and management

What we would like to specifically know:

in addition to your CV, please include a one-pager with succinct responses to each of the below points

- What Agile means to you in terms of project delivery
- An example of where you have assisted and educated an owner/sponsor/team to work and deliver change using Agile
- Describe the largest Agile project you have delivered including budget and Team size
- An example of where you/your team thought outside the box to achieve the best possible solution or outcome
- What is your experience at delivering vendor or third-party software?
