## ASX Position Description

ASX “All Roles Flexible”		
<p>ASX offers mutually beneficial flexible working arrangements. We recognise that employees need to balance work and personal lives.</p>		
ASX Opportunity Snapshot		What’s On Offer
<b>Role:</b>	Senior Manager, Clearing Risk Oversight	<p>Working as a senior leader in the Clearing Risk Management team, this role provides management and direction to the team responsible for validation of risk controls and management of the residual clearing risk exposures faced by ASX’s Central Counterparties.</p> <p>The successful candidate will bring senior management experience and knowledge of risk management to build a platform that ensures the ASX meets its objectives as the world’s most respected financial marketplace.</p>
<b>Reports to:</b>	General Manager, Clearing Risk Management	
<b>People Management:</b>	4 direct reports	
<b>Budget:</b>	n/a	
<b>Date:</b>	January 2018	
<b>Location:</b>	Sydney, NSW	
<b>Flexible Role:</b>	Yes	

### What you’ll do:

Lead a team that focuses on day to day risk management activities including:

- Help in defining the analytical and risk management needs for adequately monitoring risks
- Developing robust standards, processes and controls
- Customer engagement and market consensus discussions on new initiatives
- Working closely with Project Management & Technology teams of platform design and delivery
- Working with Business Development on new product design and specification
- Focus on controls and governance including responding to queries from within ASX, Regulators and Participants.
- Assist in providing education material and sessions to management, the Board, regulators and customers.

### What you’ve done:

- People management experience leading both process and project driven work streams
- High attention to detail, with a proven ability to manage competing priorities
- Had extensive exposure to financial markets at a participant or clearinghouse
- Acquired strong knowledge of risk management concepts and techniques
- Knowledge of CCP practices and business models

**And if you've got some of this, even better:**

- Programming experience with a preference given to candidates with understanding of R, SQL and Spotfire (or other business intelligence tools)
- Knowledge of Australian financial markets
- Understanding of local and global clearinghouse regulation, particularly the CPMI IOSCO Principals for Financial Market Infrastructures (PMFI)
- Exposure to financial markets across multiple asset classes

**What you need to enjoy and be good at for this role:**

- Ownership of problems and their solutions
- Being self-motivated and highly resourceful
- Stakeholder management
- A collaborative team focus
- Focus on the quality of the outcome and constant improvement
- An ability to explain technical subjects to non-experts both verbally and in writing
