ASX “All Roles Flexible”		What’s On Offer
<p>ASX offers mutually beneficial flexible working arrangements. We recognise that employees need to balance work and personal lives.</p>		
ASX Opportunity Snapshot		
Role:	Senior Manager, Network Technology	<p>The Senior Manager, Network Technology is responsible for managing a team of technical staff that supports networking across ASX Datacentre and workplace environments.</p> <p>The team’s activities include the architecture, design build and support and development of all ASX Core network technology, customer access points and Campus networks. The team manages technologies such as Cisco, Arista, Avaya, F5, Linux, and Windows.</p>
Reports to:	General Manager, Technology Infrastructure	
People Management:	5	
Budget:	n/a	
Team:	Technology Infrastructure	
Date:	February 2018	
Location:	Sydney, NSW	
Flexible Role:	Maternity Cover, Full Time (approx.. 14 months)	

What you’ll do:

- Manage the Network Technology team to align with ASX strategic and operational priorities
- Ensure ASX Infrastructure operates according to internal standards, external accrediting agency standards, regulatory agencies and legal requirements
- Work closely with key stakeholders to determine tactical and strategic responses to ASX business requirements
- Suggest and facilitate progressive change in the network environment
- Accountability for the Network Technology service (including financial, availability, risk, commercial, roadmap)

What you’ve done:

- Extensive experience managing a team of Infrastructure Technicians
- Excellent written, verbal and presentation skills
- Extensive experience supporting mission critical Network and Computing Infrastructure
- Proven track record delivering large Infrastructure projects
- Bachelor’s Degree or equivalent professional experience
- Well-developed customer management and influencing skills

- Ability to establish good working relationships with managers, clients and staff

And if you've got some of this, even better:

- Detailed knowledge of technology and networks used to power ASX platforms
- Knowledge of capital markets

What you need to enjoy and be good at for this role:

- Leadership – is inspiring, engages all, people respect and admire
- Change and transformation – especially driving cultural change and capability uplift
- Adaptable – enjoys change and thrives on ambiguity
- Dynamic – can engage with varying stakeholders
- Resilience – someone who can stay on course and look at the long game
- Results orientated – understands what levers to pull to drive outcomes in a tightly regulated but changing environment
- Innovation – bringing modern techniques and out of the box thinking
- Balance and prioritisation – a calm and capable person able to prioritise, but also be flexible in relation to changing priorities and resource allocation
- Flexible with hours – out of hours and weekend work required
