\(^1\) Price queries are enquiries made by ASX (either by letter or phone) to a listed entity if it detects unusual movements in a listed entity’s security price or trading volumes to ask if the listed entity is aware of any information that has not been announced which, if known, might explain the movements.

\(^2\) Other continuous disclosure queries are queries (other than price queries) raised by ASX with listed entities when ASX has concerns the entity may not be in compliance with its continuous disclosure obligations under Listing Rules 3.1, 3.1A and 3.1B. Examples include a query made following a media report or an announcement lodged with ASX.

\(^3\) Aware letters are sent by ASX following an announcement by a listed entity and ask for details of when the listed entity became aware of the material information contained in the announcement.

4 Figures exclude Special Settlement Participants set up to effect a specific corporate action as their participation is only temporary.
5 ASX is required, under sections 792B(2)(c) and 821B(2)(c) of the Corporations Act 2001, to refer a matter to ASIC if it has reason to suspect that a person has committed, is committing, or is about to commit a significant contravention of the ASX Group’s Operating Rules or the Corporations Act. It should be noted that a single referral may relate to more than one potential contravention. It should also be noted that the fact a matter has been referred to ASIC does not necessarily mean that a contravention has been committed or that ASIC will take enforcement proceedings in relation to it.
ASX Rule Changes, Waivers and Exemptions
