ASX SPI 200™ (ASX SPI) and ASX MINI SPI 200™ (ASX MINI SPI) Index Futures are the benchmark equity derivative products on ASX Trade24. They enable customers to trade or hedge movements in the S&P/ASX 200 Index in a single transaction, thereby allowing exposure to Australia’s top 200 listed companies without having to buy or sell shares in every company in the Index.

Based on the S&P/ASX 200 Index
The ASX SPI and ASX MINI SPI are based on the S&P/ASX 200 Index, which comprises the top 200 listed stocks on the Australian sharemarket. The S&P/ASX 200 Index is recognised as the investable benchmark for the Australian equities market, covering approximately 80% of the market capitalisation of listed securities in Australia. ASX SPI 200 Futures are approved for trading by the US Commodity Futures Trading Commission (CFTC) and the UK Financial Services Authority (FSA).

Trading ASX SPI and ASX MINI SPI
Trading in ASX SPI and ASX MINI SPI is conducted ‘On-market’ via ASX’s proprietary electronic trading platform, ASX Trade24. Both products can also be traded ‘Off-market’ through Block Trade and Exchange for Physical (EFP) facilities. Calendar and inter-market spread trading functionality is also available with attractive spread concessions offered.

The Australian equities market
With a market capitalisation of over AS$1.5 trillion1, the Australian cash equities market is consistently weighted in global indices2 among the top nine equity markets in the world. Among Asia Pacific stock markets it is third only to Japan in terms of free float market capitalisation3.

Benefits of exchange traded markets
Trading on ASX enables customers to leverage the benefits of exchange traded markets, including:
- Price transparency and liquidity
- Lower brokerage fees (than typically found when trading underlying securities)
- Immediate execution and confirmation
- Lower counterparty risk
- Centralised clearing supported by a clearing guarantee.

| Contract Months              | • March/June/September/December  
• Up to six quarter months ahead and nearest two non-quarterly expiry months | • March/June/September/December  
• Up to two quarter months ahead and nearest two non-quarterly expiry months |
| Minimum Price Movement       | One index point (A$25) | One index point (A$5) |
| Last Trading Day*            | All trading in expiring contracts ceases at 12.00pm on the third Thursday of the settlement month. Non-expiring contracts underlying futures contract will continue to trade as per the trading hours. |
| Cash Settlement Price*       | The Special Opening Quotation of the underlying S&P/ASX 200 Index on the Last Trading Day. The Special Opening Quotation is calculated using the first traded price of each component stock in the S&P/ASX 200 Index on the Last Trading Day, irrespective of when those stocks first trade in the ASX trading day. This means that the first traded price of each component stock may occur at any time between ASX market open and ASX market close (including the Closing Single Price Auction) on the Last Trading Day. Should any component stock not have traded by ASX market close on the Last Trading Day, the last traded price of that stock will be used to calculate the Special Opening Quotation. |
| Trading Hours*               | Day and night trading sessions for access almost 24 hours a day:  
• 5.10pm to 7.00am and 9.50am to 4.30pm (Sydney time, when US daylight saving time)  
• 5.10pm to 8.00am and 9.50am to 4.30pm (Sydney time, when US non-daylight saving time) |
| Availability                  | Available through international trading hubs including London, Chicago, Singapore and Hong Kong |
| Volume                       | Average daily turnover approximately $5 billion (for the 12 months to September 2015)  
• Volume 11,032,146 contracts (for the 12 months to September 2015)  
Current market maker support ensures liquidity and depth through tight spread and volume thresholds benchmarked to the ASX SPI 200 Futures |
| Settlement Day*              | The first business day after expiry, ASX Clear (Futures) publishes the final settlement price of the contract. On the second business day after expiry, ASX Clear (Futures) settles cash flows as a result of the settlement price. |

* Unless otherwise indicated, all times are Sydney times. US daylight saving begins first Sunday in April and ends last Sunday in October.
