\*Weighted average takes into account the size of each LIC, rather than treating them equally.

Note: Absolute Return Fund premium/discounts to NTA are not included in this calculation.

\*\* As these entities employ a unit trust structure, current and deferred income tax is not brought to account in calculating their NTA. To make an after tax comparison of NTA between a company structure and a unit trust, the impact of tax needs to be taken into account. ASX recommends that appropriate advice be sought in this regard from an accredited adviser
