PRESS RELEASE

BNP Paribas first custodian to use ASX’s new ReferencePoint ISO 20022 Corporate Action service
New service slashes delivery of Corporate Action notifications from hours to seconds

Sydney, November 1st, 2017 - BNP Paribas Securities Services is the first custodian to implement ASX’s near real-time ReferencePoint ISO 20022 Corporate Actions announcement service using SWIFT global messaging.

The new service, built and developed by ASX, allows straight-through delivery of corporate actions announcements to clients within seconds of the announcement being made to the broader market. The implementation by BNP Paribas in September underlines its commitment to bringing digital innovations to its clients.

The ASX service represents the first step towards a fully automated end-to-end solution, removing many of the inefficiencies that exist in the processing of corporate actions.

Luc Renard, head of Financial Intermediaries and Corporate clients, Asia Pacific at BNP Paribas Securities Services, said: “Working with the ASX, we are the first custodian able to send our clients their corporate action notices within seconds, rather than hours. This latest enhancement is part of our Augmented Custody programme, which is designed to make our custody processes more efficient, and complements the work we are currently undertaking to manage the corporate actions announcement process using blockchain technology.”

ASX is among the first exchanges in the world to support ISO 20022, the latest international securities messaging standard for corporate actions. As part of a number of major initiatives in the post-trade space, ASX is enhancing its ISO 20022 offering to capture and disseminate all corporate action events. ReferencePoint is ASX’s flagship reference data and corporate action service, used widely by trading participant back-offices, information vendors, and other data distributors.
David Raper, Executive General Manager, Trading Services at ASX, said: “ASX is setting the pace for providing straight-through processing for issuer announcements, and the fact that BNP Paribas is the first custodian in Australia to embrace this new technology confirms the team’s reputation for innovation.

“We are delivering the highest levels of performance with real-time corporate action event processing and message standardisation to improve efficiencies throughout the post-trade cycle. ReferencePoint enables clients to reduce complexity and simplify their post-trade processes.”

About ASX
ASX operates at the heart of Australia’s financial markets. Our integrated listings, trading, clearing and settlement businesses provide customers with efficient access to and exchange of capital, management of risk, and provision of data and other solutions. ASX operates across multiple asset classes including equities, fixed income, commodities and energy.

ASX is the global leader in A$ and NZ$ financial markets, one of the top 10 securities exchanges in the world and the largest interest rate derivatives market in Asia. We have trading hubs in many of the world’s major financial centres, attract company listings from all around the globe and are based in Australia, which has one of the five largest pools of investable assets in the world.

ASX operates and invests in the infrastructure that promotes the stability and development of Australia’s financial markets, and advocates regulations that support investors and issuers, promote market integrity and strengthen Australia’s global competitiveness. ASX’s vision is to be the world’s most respected financial marketplace.
About ASX Information Services
ASX provides pricing and company information through various products and services which include MarketSource, ComNews and ReferencePoint. We provide real-time, objective market information to market professionals and distributors which include data vendors, newsplatforms, web portals, investors, traders, and analysts. ASX’s supply of real-time data is supported by our state-of-the-art technology located in the Australian Liquidity Centre (ALC).

More information about ASX’s Information Services can be found at asx.com.au/information-services or follow us on LinkedIn or Twitter @ASX.
